HP's most secure printing[2]
- Each printer in your fleet checks its operating code and repairs itself from attacks.
- Your printer's outgoing network connections are inspected to stop suspicious requests and thwart malware.
- Memory activity is monitored to continually detect and stop attacks.
- Firmware is automatically checked during startup to determine if it's authentic code – digitally signed by HP.

Low costs, low energy use
- Stay productive with reliable cartridges, and help save energy while printing with HP EcoSmart black toner.[1]
- Spend less time replacing toner, and more on business. Choose optional high-yield toner cartridges.[3]
- Enhanced energy savings — up to 29% over prior products[1] plus save with Auto-on/Auto-off technology.[4]
- This printer fits in tight places to boost performance in almost any workspace.

A whole fleet at your control
- Centralise control of your printing environment with HP Web Jetadmin[5] – and help build business efficiency.
- Gain insights into print costs, behaviors, utilization to drive efficiencies with this cloud-based printer.
- Set security configuration policies and automatically validate settings for every HP printer in your fleet.[6]

Enhanced productivity keeps business moving
- Submit print jobs on the go and securely release them at any HP Roam-enabled office printer, securely.[7]
- Don't wait for documents. Print your first page in as little as 10 seconds from energy-efficient sleep mode.
