

TeraStation[™] 1200 & TeraStation[™] 1400

- Available in 2-bay and 4-bay desktop models or 4-bay rackmount
- Secure and reliable central storage for both PC and Mac[®] devices
- Easy PC and server backup with eleven licenses of NovaBACKUP[®] Buffalo Edition
- Scheduled or real-time replication to other TeraStation[™] devices
- Set up regular backups using Time Machine[®] for Mac[®]
- Active Directory integration
- Hot-swap SATA hard drives
- Create a personal cloud for secure access and sharing anytime, anywhere

Affordable Network Storage for Small Business

Buffalo's TeraStation[™] 1000 series offers compact, budget friendly two and four drive network storage solutions ideal for small businesses, home offices and professional users requiring a reliable RAID-based network storage solution for advanced networks and business critical applications. Comprised of the TeraStation[™] 1200 two-drive desktop and the TeraStation[™] 1400 four-drive desktop and rackmount models, the TeraStation[™] 1000 series is easy to set up with customizable RAID data protection and real-time share level replication. With a 1.2 GHz dual-issue ARM processor, it provides exceptional performance during file transfers and everyday NAS functions.

The TeraStation[™] 1000 series runs on Buffalo's TeraStation[™] NAS System, providing a host of professional features from network file sharing and security to RAID management, remote file access and device management, and more. Managing data storage and backups, and data sharing in a professional environment is made easy with this NAS operating system. Simplify everyday data needs with user-friendly, professional features such as Active Directory support, disk quota support, share level replication, hot-swap hard drives, and eleven free licenses of NovaBACKUP[®] Buffalo Edition (one server and ten workstation licenses).
