- Shelves feature an open heavy-gauge wire design allowing greater air circulation and improving visibility of stored items.

No-Tools Assembly!

- Just screw the post together then snap the sleeve onto the desired indexing groove and drop the shelf's collar over it.

- Shelves can be adjusted at 1" increments along the entire length of the post.

- Tie multiple units together with our "S"-clips for increased rigidity and storage space.

Leveling Is a Breeze!

An economical alternative to wood surfaces.

- Made of sanitary polyethylene with a reversible slip-resistant pebble finish that won't dull knives.

- USDA requires that all boards can be removed by a single worker and measure no larger than 1-1/2' x 5'.
- Select from three thicknesses, sold per square foot.

Custom Cut Into Any Size Or Shape to Fit Your Table!

Call for information on calculating dimensions for replacement cutting boards. Boards 3' x 4' or smaller ship UPS. Larger boards are shipped via freight line.

ITEM NO.	PRODUCT	F.O.B. FACTORY	PER SQ. FT.
3201 1424	1/4" Cutting Board		\$7.95
3201 2094	1/2" Cutting Board		15.95
3201 1425	3/4" Cutting Board		16.95
3201 1426	1" Cutting Board		21.95

How to: Calculate Replacement Cutting Boards

L x W = Total Sq. Inches

1. Measure length and width in inches.
2. Multiply length x width for total square inches.
3. Divide total square inches by 144.
4. Round calculation up to the nearest foot.
5. Take that number x price per square ft.

Example:

1. Board desired is 13" wide x 76" long.
2. 13" x 76" = 988 sq. ft.
3. 988 divided by 144 = 6.86
4. Round 6.86 up to nearest foot = 7
5. Take 7 x price of board per square ft. = Total price

We recommend boards no larger than 18" wide x 5' long, removable for cleaning by a single worker.

Stainless Steel Work Tables

Rock Solid • No Wobble • Guaranteed

1. Start with a "Rock Solid" stainless frame

- Unique design yields a table which is remarkably rigid front-to-back and side-to-side, yet flexible along its length to twist to accommodate uneven floors. Even with a one inch block under one leg, all legs make solid contact with the floor and the table won't wobble or shake. (see inset). The key is the oversized, welded gussets. Legs are adjustable to level the table.
- Available in 72" or 96" lengths x 30" deep.

2. Choose from a split-poly or full stainless steel work top

No tools needed to install either top. Stainless steel clips hold poly top in place. Or, remove the clips and install the full stainless top in minutes. To comply with USDA regulations, the poly top is only available as a two-piece unit.
