INGHAM SUPERVISORS DEBATE LEGISLATION

FAIL TO AGREE ON LICENSE PLATE REDUCTION.

Besides regular county business, the board of supervisors at its session Monday had several debates on state and national affairs. The supervisors approved by a voice vote, several niembers dissenting, a resolution opposing proposed federal legislation which would wipe out state restrictions on truck transportation. By a vote of 20 to 10 the supervisors instructed their senator and representatives in the state legislature to oppose the initiatory measures designed to lower automobile weight

Another measure which the supervisors approved at a recent meeting condemnation of the state land board setup and a demand that disposing of delinquent tax land be handed over to the counties, came back to the supervisors.

Oppose Centralization

The proposed federal legislation to remove barriers on truck transport between states was declared to be unwarranted and unjustified. Supervisor Harold Hungerford of Lansing maintained that the bill if adopted would turn over state roads to a centralized government in Washington and would result in an army of inspectors. Sup. Hungerford said, "The for a horse!" may again be the cry not taken out for feed and water, and in the fair invited to accompany the bill now in congress places no limit of those who need transportation now if Frisky Frisco didn't need to stop directors, will be in Detroit arranging on the powers of the Interstate Com- that rubber is being rationed and to catch his breath. He said that state restrictions, some of them adopted at the behest of railroads, set up differing load limits, truck lengths and truck widths and that defense production is severely ndicanned by state laws. The resolution was adopted by a voice vote.

Debate Tax Reduction

There was lively debate on the resolution recommended by the road and bridge committee to instruct and bridge committee to instruct state senators and representatives to opnose the initiatory legislation designed to reduce the weight tax on automobiles. Members of the county road commission had appeared before the committee to urge adoption of the resolution.

It is not difficult to understand why the state highway department and the county road commissions, along with highway con- shots. tractors and suppliers of highway materials, are opposed to any chine that has served the present governor so well.

At its meeting Monday the board of supervisors voted 20 to in favor of resolutions calling on senators and representatives to thwart the rights of the people in voting on a proposed reduction of the weight tax. Of course, the supervisors didn't act on their own volition. They were under pressure from the Ingham road commissioners. We have no objection to the highway lobbyists seeking to force their resolutions through county road commissions and through boards of supervisors. That's what they are paid for. That's why road commissioners and contractors pay the lobbyists.

By a vote of 20 to 10 the Ingham supervisors ordered the wounded in World War 1, would senator and representatives from local districts to do "all in their never have been able to have held power to defeat the ill-advised legislative proposal" made by the their own with Jack Dempsey back in power to defeat the ill-advised legislative proposal made by the prepared the people. Perhaps by ill-advised, the lobbyists who prepared the men were in France unsuccessfully resolution mean the people were not advised by the highway attempting to dodge German shrap-

We have no objections to the road commissioners or the superworld safe for democracy by taking a visors opposing the tax-reduction proposal. That's their privilege. We do object to any move which seeks to prevent the people from voting on any issue. The present, with no new cars and with fewer miles being driven, may not be the proper time to reduce taxes. vice." Maybe it's the best time. At any rate we believe the people of of posters set out in front of re-Michigan are competent to vote on the issue. The state highway lobby felt the people were competent to vote on the proposal to Dempsey too young at 21 or 22 to be freeze highway revenues. We maintain the people are still competent and we deplore any move that would prevent the people petent and we deplore any move that would prevent the people of Griping over the Dempsey episode, from voting on any issue. One thing is certain, if the people wait I set out with my daughter Sunday until highway commissioners and lobbyists say that taxes can be safely reduced they will have a long wait. The only way any taxes can be avoided or reduced is by direct action of the people. Just why does the highway lobby fear a vote of the people?

Only Two Fronts

There are only two fronts—the war front and the home front. If a man or woman can not be at the war front he or she must serve on the home front.

On the home front are many tasks to do. There are auxiliary defense services, there are bonds to buy, there are weapons to make, there is morale to be sustained, there are families to feed bottom. The water was shallow, just

and clothe, there are the everyday duties to perform. We can't build bombers and warships and use our automobiles as we have in the past. We can't feed the men at the front and our proved the point on the size of solallies in other lands and have all the food we have enjoyed in the past. We can't convert our merchant ships into troopships and still import tons of goods from other countries. We are in a war, with men and machines scattered far and wide over the face of a man like Dempsey. He would still the earth. All of us can't be on the fighting fronts but all of us can enlist and must enlist in the home fronts without which the fighting fronts would swiftly crumble.

Lost Money

Three times within the past six weeks men have lost considerable sums of money on the streets of Mason. An Eaton county farmer lost more than \$300 and two Mason men each lost sums considerably above \$100.

Sums of that amount are too big to carry around in Mason or

In all three cases the losers have been men who have had to work hard for their money. They earned it by sweat.

The right men and women didn't find the money else the losers

would have had their money returned. Such losses can be easily prevented. Bills of large denomination should be pinned to wearing apparel or secured in pockets. Big sums should not be placed in wallets. Of course, the safest way is to leave the money in the bank and pay bills by check. If that is not convenient then the cash should be secured by pins. The three men car not afford their losses and the three persons who have found the cash can not afford their findings.

It's a peculiar psychology that results in the eulogizing of Jack Dempsey for trying to join the army, The same goes for Joe Louis. One would conclude from reading the Sunday morning newspapers that the two of them will add a couple of regiments to the striking power of the army Sure, it's a fine gesture on the part of Dempsey to volunteer his services. The only thing wrong with it is the 1918 he didn't volunteer and he even managed to escape the draft.

According to the State Journal, Dempsey was just a boy then and it is unfair to condemn him for not enlisting or for hiding out in a shipyard to duck the draft. Let's see; how much of a boy was Demsey back in 1918? He is 46 now. That would make him 22 back in 1918 and would Walter Guna of Holt lass c certainly take him out of the kneed as a water witch. D. Raise The Money Through The Classifieds

In this time of national emergency every householder should dispose of all articles around the home that are no longer used. Some other person may have use for them. They may contain materials vital to the defense effort. Sell them through the classified advertising columns of the Ingham County News and turn the money into defense bonds and stamps. You save the money and you help your country.

Talented Mason Girl Aids Musical Group

Lucile Dean, daughter of Mr. and Mrs. J. B. Dean of Mason, is pinch-hitting with a professional group of entertainers the balance of the week. A quartet made up of three trumpe-ters and a planist, billed as the Kiltie Trumpeters, were to play at a Mason school assembly Wednesday morning. They arrived in Mason Tuesday night and stayed at the home of Mr. and Mrs. Harry Freeman. The pianist, Miss Marian Stone of Nevada, Iowa, was stricken with a severe cold and a high temperature and had to be taken to the Corsaut hospital.

Miss Dean substituted at the plane at the Mason appearance of the Kiltie Trumpeters and did so well that the professionals insisted that she accompany them on the balance of the week's tour. Vital Metals from the Telephone Junk-pile

Worn-out, broken and outmoded telephone apparatus—even odds and ends of copper wire and lead-covered cable -are not wasted in the Bell System.

Instead, at the smelting and refining plant of Bell System's Western Electric, all basic metals in the telephone junk-pile are refined for use over and

over again. That is why old telephones and other equipment may appear once more in useful form . . . perhaps in gun parts, big shells, fighter planes,

new form in the telephone system of a battle cruiser or naval arsenal. But that's not all. Bell System research enables us to save vital metals

bembers . . . or be used in completely

for war needs by using alternate materials in some parts of telephone equipment. That research assists us, too, in the increasingly difficult problem of providing service when and

where needed.

Test at Hand Governor VanWagoner has stated that he does not contemplate injectof funds for civilian non-defense governmental activities into the special session picture. This does not preclude action on other matters, mutually agreed upon, however. It is idea may be put to another test.
"We would need a pretty clear

understanding that there would be no opposition to any non-defense brought into the special session," the governor has been quoted

Having sold my farm, I will sell at public auction at the place, 21/2 miles north of Leslie on as saying.

There has been increasing pressure upon the governor from several of US-127 to Teaspoon Corners and 31/2 miles east on Covert Road, or 1/2 mile west of Meridian the state departments and commissions for additional funds, with which to operate for the remainder of the year. One such request comes from the labor mediation board, which has been concededly under-financed from ts inception.

Some of these requests for funds may be considered if the executive office and the legislature can reach a mutual agreement. They may furnish the test as to whether or not bi-partisan government is more than

Defying Supersitition Can Governor VanWagoner defy a superstition and get away with it? The governor's "advisors" are said to have called his attention, with fear in their voices, to an old superstition of the capitol that the governor who calls back the legislature for a special session pays with his job. The ru-mor is that the governor paid some attention to those who begged him beware, but decided to risk his political neck, anyway. So the legislature will come back. A survey of gubernatorial history does not bear out the superstition and indicates that some governors, who went down in defeat after calling back the legislature, would have lost at the polls

inyway. Governor Frank D. Fitzgerald called back the legislature late in 1936, but he had already been defeated a the November election and convened the special session at the request of Governor-elect Frank Murphy to consider social security legislation.

APPARENTLY the lack of no other accessory substance leads to so early, so profound and so universal d saster as does the lack of VITAMIN "B" described as the min B seems to be used by doctors in the cumeat treatment of sick people more than any other Vita-min.

Research has shown that Vitamin B (complex) combined with Nicotinic Acid gives better results in many cases. We now know that Riboflavin (vitamin B2) and Nicotinic acid deficiencies may lead to: sore tongue, nausea, vemiting, diarrhea, dermatitis, fever, infection of dificient tissue, muscle weakness and insomnia.

Vitamin B deficiency can be considered an important factor in the cause of hemorrhoids. The con-clusion is drawn that enlarged flabby colon and esophagus are due to a deficiency of B by its resulting loss of muscle tone and partial failure of elimination.

Vitamin B is of vital importance to the feminine sex. In pregnancy the endocrine hyperactivity requires an ample supply of Vita-

WOMEN FROM RURAL HOMES ENTER ARMY SERVICE

Women as well as men on the farms and in the villages and small towns of the country are forging to the front in America's united war

effort,
The 2,000,000 men in our Army are not only supported by the patriotic civilian work of an increasing number of women and girls who are rendering efficient service in their home communities, but thousands of wives, sisters and approach parts of the man in the sweethearts of the men in the combat forces are enrolling for active duty. Those now engaged in full time activities are members of the Army Nurse Corps, Reserve Nurses, hostesses in the various cantonments and dieticians in the hospitals and food consultants in War Department and the camps.

Four-H Clubs have furnished ideal training for many young women now serving in auxiliary branches of our Army, according to a recent announcement by authorities in Washington. Conspic-uous among the 4-H Clubbers now working for Uncle Sam is Mrs. Meryl P. Stone, designated as an associate of Miss Mary Barber, food consultant to the Secretary of War. Work of Farm Women To Increase In War Books for Buddies

The important responsibilities of farm women as well as farm men in helping the nation fulfill the farm war production program is pointed throughout the county with women's groups, discusses the farm women's part in keeping the production program rolling. She says women will play a big role in civilian defense activities; women have the major job of keeping up family morale when the going is hard and the outlook discouraging.

By the recent canvass made by AAA workers the farm men have expressed their willingness to cooperate to the fullest extent in meeting the production goals set up by the 1942 farm defense program. To accomplish their huge increase in farm production, Mrs. Puffenberger points out, farm women will have to assume added responsibilities. Due to labor shortage and shortage of farm equipment, farm women will be cal'ed upon for longer hours, harder work, more work and different work. They will assume greater responsibility in helping to manage the farm business. Realizing the problems facing them, the AAA fieldwoman finds farm wom-
