 - **Objective:** no longer used on a resume since the cover letter states the position for which you are applying.

 - Date Range = Spell out months (ie. March 2015 – present, Fall 2014 – present, Summer 2015 or July 2014 – August 2015)

- Other sections you may want to add include: Certifications, Licenses, Computer Skills, Volunteer, Military Service, Professional Affiliations, Scholarships, Study Abroad, Internship, etc.
- The average college resume should fit on 1 page.
- Once in college, no high school information is listed. References are listed on a separate document.

Ms. Jennifer Clark
Business Manager
Apex Company
One River Road
Schenectady, NY 12839

Dear Ms. Clark:

Please accept this letter as an indication of my interest in the Marketing Intern position listed on your web site. I would like to begin my career with Apex because of the way you try to deliver integrated solutions to your customers. Enclosed is a copy of my resume for your review.

In May of 2018, I will receive a Bachelor degree in Business Administration from the State University of New York at Cobleskill. During my time at college, I completed five specialized marketing courses with a 3.5 average. This past summer my employment was at Bassett Hospital. This opportunity provided me with valuable hands-on experience in the area of marketing new lab services. One of my main responsibilities was to develop and implement a marketing brochure for the lab. Through this experience, I was able to increase my communication skills both oral and written by conducting several informational meetings. Once the project was completed, I was part of the team that presented the new marketing material to the hospital board. I believe that my education and experience have provided me with the skills to succeed in the marketing field.

I would welcome an opportunity for a personal interview at your convenience. I will contact you within one week to determine the status of my application. If you have any questions about my qualifications, please feel free to contact me at (617) 555-5000. Thank you for your time and consideration.

Sincerely,

Debra Debit

RESUME CHECKLIST

Here are some helpful hints to help make sure your resume is effective and professional.

- Is your resume focused on the career you are pursuing?** It is not recommended to have a general, all-purpose resume. Effective resumes are tailored to specific job fields. You may find you have more than one resume depending on the type of job you are applying for.
- For example, if you are applying for a web design position, you would “showcase” any related classes, job experience or skills.
- Does your resume show the employer that you have the skills to do the job?**
- Read the job description and make sure your resume shows how you meet the job requirements (skills, experience, certifications, etc.) If you don't, the employer may lose interest.
- Is your resume easy to read?**
- Bold important information (degrees and job titles that are related to the field).
 - Use bullets.
 - Don't use complete sentences and remove unnecessary text.
 - Have an equal amount of white space (don't bunch your information together).
 - Use an easy to read font: Arial is recommended.
 - Avoid using a font size smaller than 11 point.
 - Don't use the word “I”. Write in the third person.
- Is it the right length?** In most cases, it is expected that an undergraduate resume will be one page.
- Is your work history listed correctly?** List your most recent job first and work your way back in time. If you have had a lot of small jobs, it isn't necessary to list all of them (especially if they are not related to the field you are going into). Focus on the job experience that is relevant to the job you are applying for. All other jobs could be summarized the following way:
- WORK HISTORY Have developed a quality work history demonstrating excellent communication and customer service skills by working continuously since June 2015
- Server, Cobleskill Diner, Cobleskill, NY, September 2017 to present
 - Sales Associate, Wal*Mart, Cobleskill, NY, June 2016 – August 2017
 - Lifeguard, Cobleskill Town Pool, Cobleskill, NY, Summer 2015
- Is your resume up to date?** You should be continuously updating your resume. Take off information that is outdated or no longer relevant. Add new awards, job experiences and skills that are related to your targeted job field.
- Do you have an account on College Central Network?** All full-time, part-time, on-campus, off-campus, summer jobs are listed on CCN. Once your resume has been reviewed you can upload it to CCN.
- Do you have an E-Portfolio?** It is an electronic version of your resume and is an excellent tool to back-up what you have listed on it. You can upload photos, videos, scanned documents and examples of your work. You can create your E-portfolio on College Central Network. Pick up the guide at the SSC.

If you need assistance, Interns are available every afternoon in the SSC to help you set-up your resume.
