My friend and co-worker Bob Ferralra is a licensed master plumber in Massachusetts and teaches plumbing at a vocational school and is someone I trust to do this work, but I need to pull the permit as the homeowner as he is not licensed in NH. We are going to rough plumb with two SaniFios, one for the kitchen sink, and another for the shower and bathroom vanity. There will be no toilet plumbed until we either replace our current septic or add a 250 gallon tank per inspector Bob Mackey's requirements. My mother-in-law will use the toilet on the first floor until we can make those septic modifications. | 7/26/2019 | 119 WALNUT HILL RD    |
