Request that any photographs or other visual materials responsive to his request be released to him in their original or comparable forms, quality, and resolution. For example, if a photograph was taken digitally, or if the agencies maintains a photograph digitally, he request disclosure of the original digital image file, not a reduced resolution version of that image file nor a printout and scan of that image file. Likewise, if a photograph was originally taken as a color photograph, he request disclosure of that photograph as a color image, not a black and white image. Scholars analyze records not only for the information available on any given page, but also for the relationships between that information and information on pages surrounding it.
