Create Employment

AbilityOne: Supporting Your Mission

**Empowering Americans Who Are Blind or
Have Significant Disabilities**

Purchasing SKILCRAFT® and other AbilityOne™ Program products and service fulfills the mandatory source provisions of the Javits-Wagner-O'Day Act and federal acquisition regulations (FAR 8.7, 52.208-9, and DFARS PGI 208). But the purchase does more than provide quality solutions to carry out your agency's mission or contractual obligations – it helps more than 45,000 people who are blind or have significant disabilities build rewarding careers and live more independently.

Federal contracts that have incorporated FAR 52.208-9 Contractor use of mandatory source of supplies or services require the use of AbilityOne Procurement List products in the performance of the contract.

HOW TO ORDER

Ordering SKILCRAFT® and other AbilityOne™ Program products is easy and convenient. Select from a variety of purchasing options below.

Online

AbilityOne.com

Order SKILCRAFT and other AbilityOne Program products, as well as selected commercial items, on AbilityOne.com. Next day delivery is available on most popular products, and other items are delivered in seven to 14 days.

Visit AbilityOne.com

GSA Advantage®

This internet shopping service features millions of products with negotiated savings and convenient delivery options. Look for the AbilityOne logo on many of the most popular supplies produced through the AbilityOne Program.

Visit GSAAdvantage.gov

GSA Global Supply™

This trusted and reliable supply system delivers a vast selection of SKILCRAFT and other AbilityOne Program products to government customers around the globe. Just use your ACC/DODAAC number or your GSA SmartPay purchase card.

Visit GSAGlobalSupply.gsa.gov

In-Store

AbilityOne Base Supply Centers

You'll find SKILCRAFT and AbilityOne Program products at AbilityOne Base Supply Centers (BSCs), self-service supply stores, and SERVMARTS on military installations, and in some federal buildings. These convenient retail locations let you walk in, get what you need, and in most cases, have your orders delivered to you on-base. For more information, visit www.AbilityOne.gov/distributors/base_supply.html.

Authorized AbilityOne Distributors

For a complete list of authorized AbilityOne distributors, visit AbilityOne.gov/distributors.

Requisition

FEDSTRIP

Fill out Form 344 and send it to the appropriate GSA distribution location.

MILSTRIP

Fill out Form DD1348 and send it to the appropriate GSA distribution location. You may also send Standard Forms 344 or DD1348 to:

GSA Global Supply (QDCACDA)
Room 6A00
819 Taylor Street
Fort Worth, TX 76102

Specific Federal Agencies

FedMall

DOD employees can find everything from SKILCRAFT office supplies and cleaning products to military-specific items online at FedMall. Call 1-877-352-2255 or visit www.fedmall.mil.

52.208-9 Contractor Use of Mandatory Sources of Supply

Federal contracts that have incorporated FAR 52.208-9 "Contractor use of mandatory source of supplies or services" require the use of AbilityOne Procurement List products in the performance of the contract.

Certain supplies to be provided under this contract for use by the Government are required by law to be obtained from nonprofit agencies participating in the program operated by the Committee for Purchase From People Who Are Blind or Severely Disabled (the Commission) under the Javits-Wagner-O'Day Act (41 U.S.C.48).

For contracting officers, FAR 8.005 prescribes the use of the clause in solicitations and contracts and requires Contracting Officers include FAR 52.208-09 in solicitations and performance contracts when a commercial contractor will provide supplies that are on the AbilityOne Mandatory Procurement List.

Federal Food Service Contractors

Food Operating Supplies

Cups and Plates

6A. Biodegradable Paper Cup

Earth-friendly disposable paper cup is tapered to stack easily. It is odorless and has a rolled edge. Has a polylactic acid (PLA) lining that is made from plants. Cups are commercially compostable returning nutrients to the soil and reducing waste in landfills. Meets FDA requirements. Conforms to ASTM D 6868. 1,000 per box.

6B. Disposable Paper Cup – Cold Beverage

Ideal for quick food service environments, these disposable paper cups are made using a moisture-resistant double polyethylene or PLA lining which acts as a moisture barrier and prevents leaking and weakening of the paper. The white rolled rim provides rigidity and ensures a leak-resistant lid fit and the tapered base makes for easy stacking. Poly cup features a 99% paper composition which may be commercially composted in select facilities. PLA cup features an environmentally friendly biobased lining that is 100% commercially compostable and biodegradable. Meets FDA Title 21 Subchapter B. Made in the U.S.A.

Can Liners and Trash Bags

18A. "CLC" Controlled Life-Cycle Plastic Bags

Controlled Life-Cycle Plastics have similar performance properties of ordinary plastic bags, except that they are modified to accelerate aging in a process that safely returns the organic carbon, from which plastic is made, to the natural bio-cycle as a food source for microorganisms.

19A. Insect Repellent Trash Bags

Both puncture and tear resistant, these linear low-density bags are a sound solution for the prevention of insects, pests and rodents invading waste disposal. Insect Repellent Bag is made using a minimum of 30% post-consumer recycled content, non-toxic, all-natural insect repellent additive and non-DEET natural fragrance oils. Made without the use of harmful insecticides making them safe for food-handling establishments.

20A. SKILCRAFT® Linear Low Density Eco Can Liners

SKILCRAFT® Linear Low Density Eco Can Liners are UL Ecologo certified bags that not only meet the standards for the US Green Building Council Leadership in Energy and Environmental Design ratings system, but also exceeds compliance for the Environmental Protection Agency procurement guidelines. These can liners are made from high-quality recycled material from a closed-loop recycling process allowing for a higher quality product with less plastic; thus, lowering environmental impact and less depletion of renewable resources.

21A. ProPerformance Can Liners – High Density

These bags are used in soft refuse applications. Great for office, kitchen and bathroom applications. The high molecular weight of the high-density polyethylene resin produces an economical liner that is approximately one-third the weight of traditional can liners. The use of fewer raw materials returns less plastic to our environment. Great load-bearing capabilities.
