# Introducing the WorkForce Enterprise

The next generation of superfast, eco-efficient business inkjet multifunction printers (MFPs) is here. These A3+ devices combine ultra-fast performance, ultra-low energy consumption and minimal servicing requirements. The series is available in print speeds up to 60 ppm, 75 ppm and 100 ppm in colour, and there is also a mono device with print speeds of up to 100 ppm.

The case for adding Epson WorkForce Enterprise printers to your customer proposition has never been stronger. Quite simply, they allow you to offer your customers a proven alternative to laser printers that reduces their overheads, boosts their productivity and minimises the impact on the environment.

## Superior speed and quality

Users benefit from superior image quality at 600 × 2,400 dpi and print speeds of up to 100 pages per minute in single-sided and double-sided printing. This is equivalent to and even exceeds most laser printers, with a fast first copy out time (FCOT) as quick as 4.9 seconds on the WF-C21000 series.

## Low TCO

With fewer consumable changes thanks to high capacity ink cartridges, and combined with low energy consumption, benefit from a low cost per page.

## Low environmental impact

Epson's Micro Piezo Heat-Free printhead technology does not require heat in the print process, therefore reducing the power consumption. Moreover, with high capacity ink cartridges, waste is significantly low too.

## Reduced downtime

Having far fewer parts than equivalent laser-based MFPs, Epson inkjet printers deliver higher reliability and significantly increased printer uptime.

## Fewer consumable changes

Users enjoy a hassle-free experience, due to high paper capacity of up to 5,350 pages. Combined with the ability to print up to 100,000 pages in black and 50,000 pages in colour – or 120,000 in black on the mono model – without having to change the ink<sup>1</sup>, the series offers low user intervention.

## More capability

Our models offer incredible media flexibility and powerful scanning capability. With our colour series, the single pass Automatic Document Feeder (ADF) offers market-leading thin paper support.

## High security

Designed to help users meet their network security policy or governing body standards, these devices ensure data is as safe as possible. Moreover, for enhanced security our colour series offers a second ethernet connection and second fax line (both optional).

## Advanced software compatibility

Take advantage of a variety of software solutions from remote management and accounting, to pull printing solutions. These can be integrated into your existing IT infrastructure to improve productivity and efficiency. This includes Epson Remote Services (ERS) which helps you reduce service costs and increase first fix rates by delivering advanced remote diagnostics.

# The green choice

The world is changing. Now, more than ever, the demand for sustainability and productivity is redefining what people and businesses want from their technology, and the world around them. Printing is no exception, and by making the move to business inkjets, Epson customers are aligning themselves with positive change.

Fossil fuels to renewable energy

Industrial areas to sustainable smart cities

Laser printer

# Why choose Epson inkjet?

Epson inkjet printers use Heat-Free Technology to deliver advanced customer benefits.

**PRECISIONCORE**  
Heat-Free Technology

## Consistent high-speed printing

Epson Heat-Free Technology requires no heat to warm up when it is switched on or awoken from sleep. This means it starts printing immediately compared to laser printers, which need to preheat the fuser to print. Consistent high-speed printing is ensured, even for documents with high-printing density.

## Less power consumption saves energy and money

Epson Heat-Free Technology uses less power than laser technology because it does not use heat to warm up. As inkjets have no fuser unit to heat, this results in significantly less energy consumption.

## Fewer replacement parts, lower environmental impact

Laser printers typically have more consumables and require periodic replacement of the drum, transfer belt and fuser in many cases. Thanks to Heat-Free Technology, our inkjet printers use fewer parts that need replacing than in a laser printer, and our printheads are not a consumable. This reduces the environmental burden of manufacturing and recycling the additional resources.

## Less intervention increases productivity

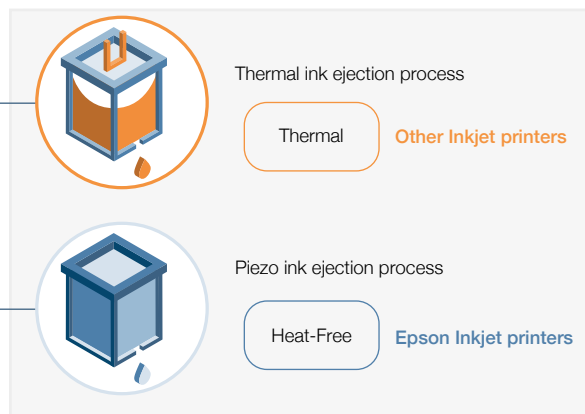

The Heat-Free structure of Epson inkjet printers means that there are fewer parts that can fail, which reduces the amount of intervention required. As a result, Epson inkjet printers offer improved reliability and significantly reduced downtime.

Print quality up to 600 dpi x 2400 dpi			
Low power consumption (180 W – 300 W)		Low power consumption (180 W – 320 W)	
2,350 sheet (80 gsm) standard paper input			
5,350 sheet (80 gsm) max paper input			
Compatibility with leading software solutions, including the Epson Remote Service (ERS) embedded agent			Compatibility with leading software solutions
Advanced finishing such as booklet finisher and hole punch options			4,000 sheet stapler

# Key enhancements to the range

Recent enhancements to the WorkForce Enterprise colour range make it more versatile, reliable and professional than ever. Covering the critical areas of productivity, finishing, servicing, flexibility and environmental impact, every enhancement has been designed to fit the requirements of today's business needs.

## Productivity

PCL/PS speed improvements  
Additional CPU inside  
Finisher speed increase

## New finishing options

Speed improvements  
Paper alignment  
Booklet with cover sheet  
Centre folding  
Hole punch options

## Improved output quality

Improved ADF with thin paper support  
Easy to open, with a compact design  
Improved scan quality (CISM sensor)  
First copy out time (FCOT) as quick as 4.9 seconds on the WF-C21000

## Serviceability

Extended life of rollers x 2  
Optional user changeable rollers  
Robust build quality  
Built in Epson Remote Services support (ERS)

## Interface

Optional second ethernet connection and second fax line for increased security  
Optional fax board

## Paper cassette

Postcard, envelope feeding  
SRA3 support (MPT)

## Ease of use

Integrated box function

## Environmental impact

Low TEC value  
Less waste  
Reduced energy consumption

## Giving your printing the edge

Edge processing is a key quality improvement to the WorkForce Enterprise colour range. Thanks to this technology, bleed at the document edge is suppressed, providing sharper images and using less black ink.

### Without edge processing

Horizontal direction print resolution: 1200 dpi

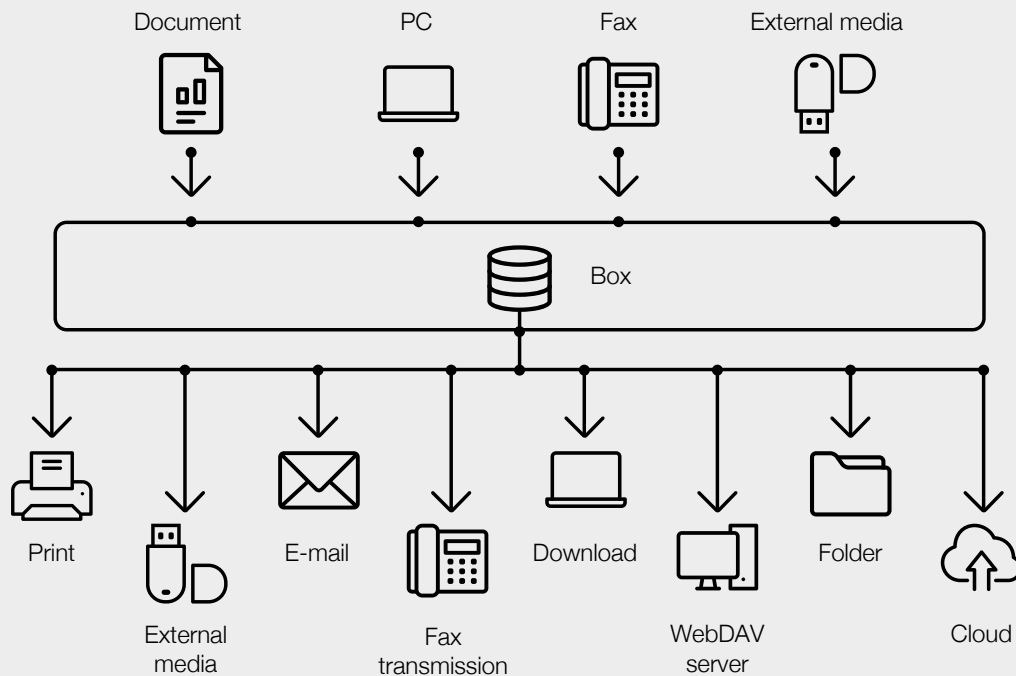

### With edge processing

Horizontal direction print resolution: 1200 dpi

# Integrated box function

The box function allows scanned data and PC print data to be stored in an internal HDD once, which can then also be used later.

# High-quality inks

The range of inks available for the WorkForce Enterprise printers is specified and determined according to the ISO standard (ISO 24711 and 24712). In the ISO method, five originals are printed continuously in succession, ensuring high consistency and quality.

The actual reach of the end user may vary and depends on the documents or graphics printed by the user. Other factors that affect range are the print interval, the number of pages per print job, and the print environment in general.

# Size and dimensions

	Product in packaging	
	Dimensions	Weight
WF-C20600 WF-C20750 WF-C21000 WF-M20590	820 × 858 × 1507 mm	205 kg

# Solutions that add value, streamline processes and increase workflow

## Fleet management

### Epson Device Admin

Allows users to control, analyse and manage their printer fleet centrally from one intuitive interface, designed to increase productivity, reduce costs and ensure maximum security.

## Workflow and security

### Epson Print Admin (EPA)

EPA is a server-based solution that creates a secure printing, scanning and copying environment through user-authentication with card readers, logins / passwords and PIN codes. It also offers additional features such as 'scan and send to me' (email and folder), employee-education notifications and enhanced administrative tools that provide welcome boosts to productivity, environmental goals and efficiency.

### Epson Print Admin Serverless (EPA Serverless)

Enables business customers to seamlessly integrate the WorkForce Enterprise series into their security and compliancy rules and regulations without the burden of maintaining a server system.

### Document Capture Pro Server 2.0

For our multi-function devices, Document Capture Pro Server 2.0 is powerful server-based software that allows administrators to manage advanced push scan functions without having to install software on individual computers. Scan to cloud, FTP and Microsoft SharePoint® at the touch of a button. For more advanced needs, users can add their own plugins with our self-developer kit.

## Mobile and cloud printing

### Mobile and cloud printing

Epson's mobile and cloud printing services allow users to print and scan from their smartphone and tablet – in the office and on the go.

## Remote Service and Support

### Epson Remote Services (ERS)

Reduce service costs using our cloud-based device monitoring and management system that delivers advanced remote diagnostics. Secure and easy to integrate, increase customer satisfaction by enabling faster response times, fewer on-site visits and higher first fix rates. Track and monitor device usage, and minimise printer downtime.

### ERS embedded agent

Benefit from the added value of ERS in combination with the embedded agent on the WorkForce Enterprise colour series – WF-C20600, WF-C20750 and WF-C21000, for a seamless setup and use.

## Third-party integration

### Epson Open Platform (EOP)

Users gain complete control of their printing operations via a web-based application that allows them to adapt their printer to meet specific and changing business requirements, as enterprise IT systems evolve. Third-party ISV solutions are compatible with Epson Open Platform devices.

### Open Platform Compatibility

Kofax  
eCopy®

Kofax  
Equitrac®

PaperCut<sup>MF</sup>

VERBIT  
SAFEQ™

Please get in touch with your Epson local representative for a full list of third party solutions compatible with Epson devices.

### Maximise your business opportunities

Partnering with Independent Software Vendors reinforces Epson's commitment to providing world-class enterprise-ready solutions that enable organisations to increase productivity and enhance document security as well as support local market development with regional partners.

### Epson does not resell third-party solutions

Epson teams up with third-party solution providers to enable you to support a large number of end users equipped with those systems. However, Epson does not distribute third-party solutions.

### Get support from Software Partners' Value Added Distributors

Value Added Distributors from third-party solutions providers are able to provide their expertise to you at local level for a seamless integration of Epson compatible devices into customer environments equipped with a partner solution.

### More information about Epson and third-party solutions

Discover how Epson and its partner solutions help meet the needs of enterprise-level businesses, adapting to suit vertical market needs.

# Security certification and standards

We understand that security is more important than ever – especially when you consider that more devices are linked to the web, as well as each other. The WorkForce Enterprise series is designed to help meet network security policy or governing body standards, and ensure data is as safe as possible.

\*1 Print 10 pages data, and measure the time from the 1st page is ejected until the last page is ejected. \*2 Print 11 copies of 10 pages data, and measure the time from the 1st page is ejected until the last page is ejected \*3 Print 3 copies of 60 pages data (15 sheets with booklet layout of 2-sided printing) and measure the time from the 1st booklet is ejected until the 3rd booklet is ejected. \*4 Count the number of sheets from the 1st sheet is ejected until the minimum number of sheets are ejected in excess of 1 minute.

(Setting : Single side / Folding) \*5 LEF (Long edge Feed) \*6 SEF (Short edge Feed) \*7 1 booklet = 60 pages (15 sheets with booklet layout of 2-sided printing)

Measurement condition

OS: Microsoft Windows 10 Pro 64bit / CPU : Intel® Core™ i7-6700K(4GHz) / Memory : 8.0GB (4.0GBx2) PC4-2133 DDR4 SDRAM : Number of sheets for measurement is the maximum number of sheets for each models

Published value

It is determined based on the average of the measured values. The rules for numerical processing are as follows according to the request unit.

Pages/min

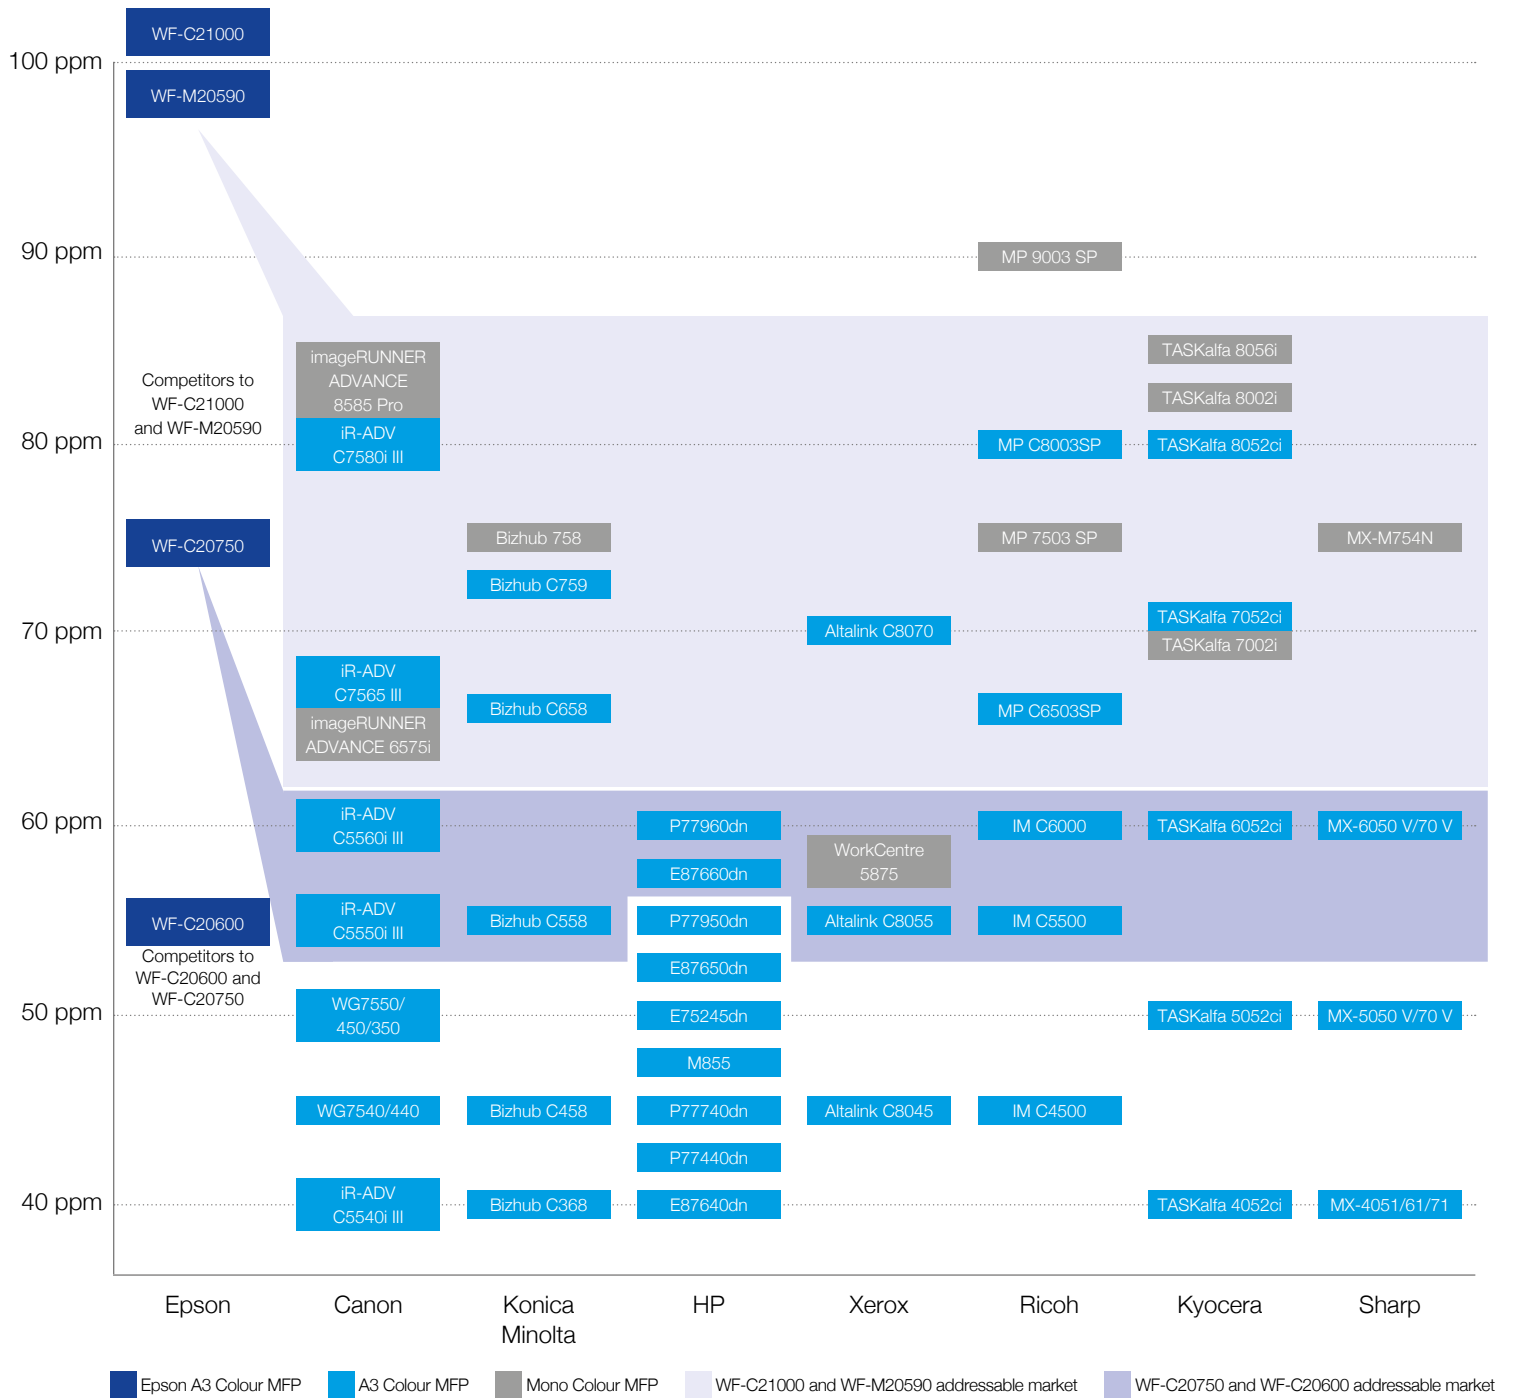

If less than 10 (Units), indicate by two significant digits. (X.X) Values greater than 10 (Units) and less than 100 (Units) , indicate by following values determined through discussion in the division.

(1) Number of significant digits (XX) (2) The number of significant digits shown in three digits (XX.X) 100 (Units) and above are indicated by three significant figures. (XXX)

## Optional Finisher: Outline spec information

	Staple Finisher	Booklet Finisher - only available on the new colour series
Hole punch unit		Option
Supported paper sizes	A5 SEF – A3	
Number of trays	2 (upper / main)	2 (upper / main / lower)
Stackable number (Upper)	250 sheets	
Stackable number (Main)	Max 4,000 sheets (1 sided / 2 sided)	Max 1,700 sheets (1 sided / 2 sided)
	Max 1,500 sheets (1 sided / 2 sided)	Max 1,500 sheets (1 side d / 2 sided)
Stackable number (Lower)	-	Max 7 booklet (plain paper1) Max 5 booklet (other) or No limitation
Staple number	Max 50 sheets	
Staple position	3

# Multi-sector capability

For customers in a wide range of industries and sectors, Epson WorkForce Enterprise printers deliver an equally wide range of benefits.

## Corporate

Support business transformation through productivity and flexibility – high printing speed of up to 100 ppm for uninterrupted, high-volume document printing.

Less need for user intervention, thanks to easy supplies management, minimum upkeep and reduced waste.

Allow employees to work in a smarter way: they can print documents from mobile devices, so remote staff can highlight and refer to information at speed.

Businesses can avoid outsourcing complex print requirements by creating professional documents in-house through innovative finishers.

Aimed at businesses that want large workgroup or departmental printing because the printers match their current requirements for productivity and workflow.

Protecting data: pull printing means employees simply release the print jobs they need, saving paper, and avoid important documents being left at the printer.

Serverless user management and remote monitoring with Epson or third-party solutions mean simplified administration and greater control.

## Education

Quickly and easily print high volumes – such as printing reports, newsletters or worksheets for students.

The printers use less energy and help to meet green targets.

Easy supplies management, minimum upkeep and less waste.

Users can produce professional documents in-house with our innovative finishers.

Only print what's really needed and avoid leaving sensitive documents at the printer with pull printing.

Compatible with a range of print management solutions, such as Papercut, Y Soft and Kofax Equitrac®.

## Healthcare

Our efficient technology quietly works away to meet your needs on demand, with minimal user intervention and fuss.

Comfortably fit into demanding care environments – no fan noise with our clean, no-heat printing technology.

Cut energy and help to meet green targets.

Ensure easy supply management, minimum upkeep and less waste.

Staff can produce professional documents in-house with our innovative finishers.

Only print what's really needed and avoid leaving sensitive documents at the printer with pull printing.

Staff can easily print administrative documents, reports or medical records at their nearest printer, thanks to smart device mobile printing and scanning with NFC.

Compatible with a range of print management solutions.

## Retail

Staff can spend less time on administration and more time having customer conversations thanks to long-lasting consumables, low-intervention printing, and solutions that are easy to integrate, maintain and use.

Managed print services can also streamline all print operations, particularly across multiple outlets, by giving head office control – saving the time and cost of reordering individual supplies.

Staff can produce professional documents in-house with our innovative finishers.

Help to provide a better working environment using cleaner, quieter technologies that are proven to be reliable.

Quickly print administrative documents, contracts, bills or receipts.

**The WorkForce Enterprise mono model is particularly attractive for logistics and central reprographics departments.**

Efficiently print high volumes of documents, such as invoices, picking lists, bills or materials and despatch notes.

Ideal for internal documents, leaflets, envelopes and finishing.

# WorkForce Enterprise in action

## A new healthcare benchmark at Columbus Clinic Centre

An Italian clinic renowned for healthcare excellence, Columbus Clinic Centre needed fast, high-performance printing in every department – from admissions and administration, to insurance quotes and theatre facilities. It also required zero toxic gas emissions and easy printer maintenance.

So it turned to Epson.

The WorkForce Enterprise printer was chosen, with its productivity and reliability particularly valued. And now, administrative processes are streamlined, health services are more efficient and effective than ever before, and the clinic's environmental impact is minimised.

“At the Columbus Clinic today, we have WorkForce Pro and WorkForce Enterprise Epson printers, thanks to which the operating theatres, outpatient departments and administrative services can respond with maximum efficiency to requests from patients and contracted companies.

“These printers are state-of-the-art solutions that confirm the excellence of the Columbus Clinic Centre.”

**Angelo Bresciani, Technical Director,  
Columbus Clinic Centre**

## Delivering trouble-free performance at Bonver

Bonver is a fast-growing third-party logistics company, shipping thousands of items globally from its Stockholm warehouse. And with that comes business-critical paperwork, involving 40,000 printed items each day.

So a reliable, high-performing print solution is required. And that's where Epson WorkForce devices have met the demand perfectly.

The performance and reliability of Epson technology means accurate printed waybills can be issued with every delivery, ensuring packages reach the right place, at the right time, allowing customers to check contents, without fail.

“Instead of needing a hundred printers, we now have only one! And thanks to the performance of the Epson printer, one refill provides 150,000 prints and trouble-free operations from month-to-month.”

**Bonver Logistics**
