Overview

VMware Virtualization Software For HPE ProLiant Servers

Hewlett Packard Enterprise supports, certifies, and offers VMware software for HPE ProLiant and BladeSystem servers. VMware software from Hewlett Packard Enterprise provides a comprehensive suite of virtualization solutions designed expressly for mission-critical enterprise computing.

Hewlett Packard Enterprise offers a complete portfolio of VMware licenses Server and Client Virtualization Infrastructure Software.

VMware software from Hewlett Packard Enterprise includes either 1 / 3 / 5 year of 24x7 unlimited support. With this support, customers receive installation, configuration and troubleshooting support.

For information on VMware Horizon products from Hewlett Packard Enterprise please visit:
https://www.hpe.com/h20195/v2/GetDocument.aspx?docname=c04111717

A complete list of supported and certified ProLiant servers is available either at the Hewlett Packard Enterprise support matrix **http://www.hpe.com/servers/vmwarecert** or at the VMware HCL **http://www.vmware.com/resources/compatibility/search.php**.

What's New

- HPE ESXi 7 custom image with new features makes it easy for customers to secure, run, update, and manage their hybrid cloud environment.
- HPE ESXi 7 custom Add-on gives customers the option to use the VMware base image and install required drivers and HPE value-add software through VMware Life Cycle Manager in VMware vCenter.

Standard Features

At A Glance

- The VMware OEM portfolio from Hewlett Packard Enterprise includes:
  - All VMware vSphere core server editions and related acceleration kits
  - VMware Hyper Converged Infrastructure Kits
  - Upgrade licenses within the core server editions
  - VMware vCenter management products including Site Recovery Manager (SRM)
  - vRealize products including vRealize Operations, vRealize Suite
  - vCloud products including vCloud Suite
  - vSAN
  - VMware Horizon products
- The VMware OEM portfolio from Hewlett Packard Enterprise includes a 1 / 3 / 5 year 24x7 unlimited support and subscription services.
- The VMware vSphere products from Hewlett Packard Enterprise are available in physical and electronic delivery forms. Customers can make a choice based on their requirement.
- Hewlett Packard Enterprise branded licenses
  - Are identical to VMware native software
  - Are transferable to any other HPE or non-HPE servers as needed and fully supported
  - Base licenses must be sold with the equivalent number of HPE ProLiant Servers within 30 days
- The complete Virtual desktop infrastructure solution to enable VMware-based client virtualization. For more information, please visit the VMware Horizon QuickSpecs: **https://www.hpe.com/h20195/v2/GetDocument.aspx?docname=c04111717** (Worldwide)
- For more information on steps to redeem your VMware software licenses purchased from Hewlett Packard Enterprise, upgrading and downgrading please visit: https://support.hpe.com/hpsc/doc/public/display?docId=emr_na-c04430317
- Electronic delivery of VMware products providing faster, easier and more efficient way to fulfill orders.
  - Electronic delivery products will have "E" as 8th character in part number
- Software downloads and license retrievals will now be available from VMware.

License Activation and Software Download Instructions

Retrieve your 'Entitlement Order Number' from the Entitlement Certificate

- If you have opted for physical delivery, your entitlement certificate will be part of your shipment
- If you have opted for electronic delivery, you will receive an Electronic Software Delivery Receipt in your email inbox from Hewlett Packard Enterprise with an 'Access Your Products' button. Click on it to automatically get redirected to the My License Portal.

Visit the My License Portal **https://myenterpriselicense.hpe.com** and login with your Hewlett Packard Enterprise Passport to generate your "Partner Activation Code' PAC. You will receive an email from Hewlett Packard Enterprise with various activation codes - Partner Activation Code (PAC), Documentation for Web Base Training (if applicable).

For your VMware products:

- Visit **http://vmware.com/code/hpe** to 'Register your Partner Activation Code (PAC)' and generate your Serial Number
- Visit **http://downloads.vmware.com** to download your VMware software & follow the prompts to install your VMware product

Offering

Customers can purchase VMware OEM software directly from Hewlett Packard Enterprise or through Hewlett Packard Enterprise authorized resellers

VMware software from Hewlett Packard Enterprise is available 1 / 3 / 5 year 24x7 unlimited support and subscription service

Standard Features

VMware software from Hewlett Packard Enterprise is available in physical and electronic delivery formats.

Storage and Accessories

Complete your HPE SRM Solution with the HPE Enterprise Virtual Array family - an enterprise-class array system designed to aggregate and automate storage management tasks with fewer resources and more storage capacity. In combination of HPE Continuous Access unique remote replication technologies, you can ensure the protection of your stored data in the event of a disaster.

HPE ProLiant Server Support

HPE ProLiant server support software is available for download.

The VMware HCL has been updated to include all certified HPE ProLiant servers at
http://www.vmware.com/resources/compatibility/search.php

For more information on the Hewlett Packard Enterprise Certified and Supported ProLiant servers please visit the VMware Server Support Matrix at: **http://www.hpe.com/info/ossupport**

HPE Web Sites

- VMware online sizing tool
- Hewlett Packard Enterprise & VMware news and information
- Download Software: **http://downloads.vmware.com**

Licensing

VMware server products are licensed on a per processor license. You must have the same number of licenses as processors installed in your system. Note that VMware solution bundles (i.e. Essentials products) and acceleration kits have specific server and processor boundaries within these licenses. To view the licenses for which you are entitled, log in to your VMware portal

Entitlement Mappings

For complete details on upgrades and entitlements, visit: **http://www.vmware.com/go/vsphere** and review Upgrade Center

Downgrade information

vSphere downgradeable to currently supported products. Downgrades and entitlements for valid subscriptions will be available in your profile in the VMware license portal. VMware vSphere supported products are listed in the VMware lifecycle matrix
https://www.vmware.com/content/dam/digitalmarketing/vmware/en/pdf/support/product-lifecycle-matrix.pdf

For more information on how to downgrade license keys in the VMware portal visit
https://kb.vmware.com/s/article/2006975

Service and Support

HPE Technology Services for Industry Standard Servers

HPE Technology Services delivers confidence, reduces risk and helps customers realize agility and stability. Connect to Hewlett Packard Enterprise to help prevent problems and solve issues faster. Our support technology lets you to tap into the knowledge of millions of devices and thousands of experts to stay informed and in control, anywhere, any time.

Protect your business beyond warranty with HPE Support Services

HPE Support Services enable you to order the right service level, length of coverage and response time as you purchase your new server, giving you full entitlement for the selected support.

Configuration Information

HPE VMware vSphere Essentials Kit

The models listed in this section offer the base product with 1 year / 3 year / 5 year physical or electronic entitlement.

VMware vSphere Essentials kits are all-in-one solutions that combine virtualization for up to three physical servers (up to two processors each) with centralized management capabilities. The kits are self-contained solutions and may not be decoupled or combined with other VMware vSphere editions. The server hosts must be managed by the vCenter Server Essentials edition that is provided with this bundle, and that same vCenter Server Essentials edition cannot be used to manage other server hosts not included with this edition.

VMware vSphere Essentials 1yr E-LTU	BD706AAE
VMware vSphere Essentials 1yr Software	BD706A
VMware vSphere Essentials 3yr E-LTU	BD707AAE

Notes:

– VMware vRealize Operations replaces the vCOps product. This product has new features around increased intelligent operations, policy-based automation and unified management: Unified Management across vSphere and non-vSphere domains, Smart alerts that correlate multiple symptoms and provide recommendations, Automated remediation of problems, Customizable content including Dashboards, views and Reports, Proactive management via policies, Predictive Capacity project modeling across virtual and physical stack, Scale-out, resilient operations platform, User and access control management, SDKs for partners and Domain-specific management packs.

– VMware vRealize Operations Standard is sold in 25 Virtual Machines packs. This edition of the vRealize Operations provides operations management for vSphere environments. It performs capacity optimization, performance analytics and policy management and provides customizable UIs and operations dashboards.

HPE VMware Cloud Foundation

VMware Cloud Foundation: SDDC Manager. Can be used on-premises for private cloud deployments or run as a service from the public cloud with a single consistent operational experience. VMware Cloud Foundation drastically simplifies the path to the hybrid cloud, while increasing admin productivity and reducing overall TCO.

VMware vSAN Advanced to vSAN Enterprise Upgrade 1 Processor 5yr E-LTU	Q9N19AAE

HPE VMware NSX products

Notes:

− VMware NSX is the leading network virtualization platform that delivers the operational model of a virtual machine for the network. NSX reproduces the entire network model in software, enabling any network topology to be created and provisioned in seconds. It enables a library of logical networking elements and services, such as logical switches, routers, firewalls, load balancers, VPN, and workload security.

− NSX can be deployed in a VMware vSphere environment where it is completely integrated with the vSphere, VMware vCloud Director and VMware vCloud Automation Center. NSX can also be deployed in a multi-hypervisor environment, such as Xen Server, KVM or VMware ESXi with a choice of cloud management solution such as vCloud Automation Center, OpenStack and CloudStack.

− VMware requires Channel Partners to achieve and maintain the "VMware Network Virtualization Competency". The competency requirements are outlined on vmware.com and partner central.

Notes:

– For the below upgrade products, customer must have the original base product on a current services contract and must have registered for support on the original base product so that upgrade can be added to an existing service contract.

– HPE upgrade SKUs can now be sold to customers with previous HPE or VMware direct licenses. The upgrade sale will move Support and Subscription to HPE if a VMware native license.

HPE Accelerated VTEP Gateway - VMware NSX Certified

The HP FlexFabric 5930 Switch Series is a family of high-density, ultra-lo-latency, top-of-rack (ToR) switches that have been certified by VMware for use in VMware NSX environments. The 5930 provides advanced features such as VSLAN and OVSDB that allow customers to bridge their virtual and physical networks and unified the automation and visibility across a virtualized data center infrastructure.

Technical Specifications

Weight & Dimensions

- **Dimensions:** 8.75 x 5.625 x 0.063 in (22.23 x 14.29 x 0.16 cm)
- **Volume:** 0.002
- **Gross Weight:** 0.056 lbs (0.03 kg)

Environment-friendly Products and Approach End-of-life Management and Recycling

Hewlett Packard Enterprise offers end-of-life Hewlett Packard Enterprise product return, trade-in, and recycling programs in many geographic areas. For trade-in information, please go to: **http://www.hpe.com/info/recycle**. To recycle your product, please go to: **http://www.hpe.com/info/recycle** or contact your nearest Hewlett Packard Enterprise sales office. Products returned to Hewlett Packard Enterprise will be recycled, recovered or disposed of in a responsible manner.

The EU WEEE directive (2002/95/EC) requires manufacturers to provide treatment information for each product type for use by treatment facilities. This information (product disassembly instructions) is posted on the Hewlett Packard Enterprise web site at: **http://www.hpe.com/info/recycle** . These instructions may be used by recyclers and other WEEE treatment facilities as well as Hewlett Packard Enterprise OEM customers who integrate and re-sell Hewlett Packard Enterprise equipment.

Summary of Changes

Date	Version History	Action	Description of Change
03-Aug-2020	Version 120	Changed	Overview, Standard Features, Configuration Information, and Related Options sections were updated.
