Datasheet

- > A4 monochrome multifunctional systems with full functionality to print, scan, copy and fax.
- > Impeccable document output quality with an impressive print speed of up to 40/44 pages per minute respectively.
- > Dual scan document feeder with a scan speed of up to 84 images per minute for the e-STUDIO448s.
- > Eco-friendly features and optimised energy consumption to save resources.

ALL-IN-ONE

If you are looking for a powerful multifunction system packed with features, search no more. The e-STUDIO408s and e-STUDIO448s are true all-rounders which will boost your efficiency. Via the large touch screen you can easily access all functions and apps, which are installed on the systems.

A print speed of 40 and 44 pages per minute and a maximum paper capacity of 900 and 2,000 sheets respectively, ensure the e-STUDIO408s and e-STUDIO448s cover the needs of small- and medium-sized companies and workgroups. Thanks to the flexible connectivity possibility and the support of mobile printing they also meet the requirements of modern business workflows.

The e-STUDIO408s/448s can effectively be used to digitalise documents. With a scan speed of up to 42/48 images per minute, even large document volumes can be taken care of in no time. Especially the dual scan document feeder in the e-STUDIO448s performs with minimum strain, as the documents do not have to be turned around in order to scan both sides.

With security issues and data protection becoming more and more relevant in today's world, we have made sure to implement various security features to prevent unauthorised access to the systems and allow you to protect your documents. The data on the hard drive of the e-STUDIO448s can automatically be encrypted and data which is no longer needed can be deleted. Further security protocols and individual settings round off the security concept.

To ensure an optimised power consumption and reduce the impact your business has on the environment, the e-STUDIO408s and e-STUDIO448s offer various print and energy save settings. These will help you save valuable resources and money.
