Advancing Technical Print Technology and Maximizing Productivity

The evolution of KIP's HDP print technology continues with the introduction of the KIP 75 Series and the expansion of the KIP 79 Series. This new range of KIP Print Systems include smaller footprint designs, increased productivity and enhanced system intelligence to create the most advanced cost effective black & white technical print systems in the wide format industry.

KIP Systems Include:

- Reduced System Prices
- Increased Production Speeds
- Front Stacking at No Additional Charge
- Reduced Maintenance Parts Pricing
- Embedded CIS Scanner Configurations
- 2 or 4 Roll Configurations
- KIP System K Software Version 1.4
- Roll Off Crate Design

Included with KIP 75/79 Series Systems

KIP 75 SERIES

KIP 7570 Print System | KIP 7580 MFP System | KIP 7590 MFP Production System

The KIP 75 Series optimizes space and increases departmental workflow efficiently.

- 10D/A1 print per minute
- Built on Proven KIP Technology
- Smaller Footprint Design
- Lower Cost of Ownership
- Increased Print Speed
- 2 or 4 Roll Configurations
- Embedded CIS Scanner

KIP 79 SERIES KIP 7970 Print System | KIP 7980 MFP System | KIP 7990 MFP Production System

The KIP 79 Series provides powerful production capability for either centralized or decentralized print environments.

- 14D/A1 print per minute
- Cost Effective Operation
- Long Term Dependability
- New Higher Hourly Productivity
- Increased Print Speed
- 2 or 4 Roll Productivity
- Embedded CIS Scanner

HP PageWide XL Folder

High-productivity online folding for the HP PageWide XL 8000 Printer and the HP PageWide XL 5000 Printer series

Full online integration

- Control the folder and folding styles from HP SmartStream software, the driver, the scanner, or the printer touchscreen
- Bi-directional communication between the printer and the folder enables reliable operation
- Monitor folder status from the printer or the HP SmartStream software; the job queue halts when the folder has stopped

High speed

- The HP PageWide XL Folder is designed to match the breakthrough productivity of HP PageWide XL printers
- Stack up to 150 A0/E-size folded packages

Versatility

- Opt for the standard HP PageWide XL Folder or for the HP PageWide XL Folder with Tab Applicator if you need to apply reinforcement strips to your documents
- Fold up to 914 mm (36 in) in width and up to 2.5 m (8.2 ft) in length for fully folded packages; fan fold up to 6 m (19.7 ft) in length; add the HP PageWide XL Folder Upgrade Kit for Long Plots for unlimited length fan folding
- Choose from pre-defined folding programs or create your custom folding styles
- Supports DIN, AFNOR, ANSI, and US folding standards

HP PageWide XL 5000 MFP

Powerful, efficient monochrome and color production with up to 30% savings in total production costs¹

LEAD

Fast delivery times in monochrome and color

- Up to 14 D/A1 pages/minute print speed, quick 30-second first page out
- Deliver mixed monochrome and color sets in 50% of the time with a consolidated workflow²
- Start printing in 50% of the time³ an ultra-fast processor, native PDF management, HP SmartStream software
- Free up the operator—production stacker/online folder,⁴ up to 4 rolls, dual ink supplies with auto-switch

For more information, please visit kmbs.konicaminolta.us/inkjet

GROW

Fast color, excellent document quality

- Generate new business growth—print GIS map, point-of-sale (POS) poster applications at breakthrough speeds
- Set a new technical document standard with crisp lines, fine detail, and smooth grayscales that beat LED⁵
- HP PageWide XL pigment ink for dark blacks, vivid colors, moisture/fade resistance—even on uncoated bond⁶
- Print on a wide range of media up to 40 inches/101.6 cm—covering ISO/US technical and offset standards7

SAVE Cut total production costs up to 30%¹

- Print monochrome and color technical documents at the same or lower cost than comparable LED printers⁸
- Do it all with one space-saving device for both monochrome and color, or opt for the MFP to print/scan/copy
- Cut job preparation and finishing costs up to 50%²
- See up to 5 times lower energy consumption than comparable LED printers⁹

reddot award 2016 best of the best

Production costs savings based on an HP PageWide XL 5000 Printer compared with a combination of a mid-volume monochrome LED printer and a mid-volume color production printer (both under \$40,000 USD) as of April, 2015. Production costs consist of supplies and service costs, printer energy costs, and operator costs. For testing criteria, see hp.com/go/pagewidexlclaims. Based on internal HP testing on the HP PageWide XL 5000 Printer compared to preparing and printing the job on two different printers (one comparable monochrome mid-volume LED printer for the monochrome pages and one color printer for the color pages). For testing criteria, see hp. com/go/pagewidex/claims. Using HP Smart Stream software compared with using equivalent software programs. For testing criteria, see hp. com/go/pagewidex/claims. The HP PageWide XL folder is an optional accessory. The HP PageWide XL High-capacity Stacker may be an optional accessory. Options vary by region.

- For output produced with HP PageWide XL printers and LED printers from different manufacturers and that represent greater than 50% of the annual shipments of LED printers in North America as of 2014 according to IDC. For testing criteria, see hp.com/go/ pagewidexlclain
- pagewidexiclams. Compared to prints produced with HP 970/971/980 inks that are fade and moisture resistant per ISO 11798 Permanence and Durability Methods certification. For testing criteria, see hp. com/go/pagewidexlclaims ISO/US technical and offset standards include American ANSI and Architectural page size standards, ISO A technical document standard, and ISO B offset page size standard.

- ⁶ ISO/DS technical documents and on best standards include Antericitan And and Architectural page Size standards, and iso biologic page Size standards, and on both and on best standards include Antericitan Architectural page Size standards, and iso biologic page Size standards.
 ⁶ Based on supplies and service costs. Monochrome technical document printing costs for comparable mid-volume LED printers in the US and Europe in 2014 according to IDC. Color technical document printing costs for comparable mid-volume LED printers in the US and Europe in 2014 according to IDC. Color technical document printing costs for comparable mid-volume LED printers in the US and Europe in 2014 according to IDC. For testing criteria, see <u>hp.com/go/pagewidex/claims</u>.
 ⁹ Conclusions based on internal HP testing for a specific use scenario. Comparable printers using LED technology based on LED printers capable of printing at 13 D/A1 pages per minute and which represent more than 80% of the share of mid-volume LED printers in the US and Europe in 2014 according to IDC. For testing criteria, see <u>hp.com/go/pagewidex/claims</u>.

8 HP PageWide XL ink cartridges (2 x 400-ml per color with auto-switch)

Beat record delivery with consolidated workflows—produce mixed monochrome and color sets in 50% of the time.² Achieve up to 30% savings in total production costs.¹ Save space and trim workflow cost with a single device for monochrome and color, or print/scan/copy with a multifunction printer.

HP PageWide Technology

The HP PageWide XL 5000 MFP includes a stationary 40-inch (101.6-cm) printbar that spans the whole printing width. As paper moves under the printbar, the entire page is printed in one pass, enabling very high printing speeds.

HP PageWide XL pigment ink for HP PageWide XL printers

HP PageWide XL pigment ink is specially designed to provide reliable and dependable operation with HP PageWide XL printers and produce high-quality output:

- Dark blacks and vivid colors on a range of media including uncoated bond papers
- Moisture- and fade-resistant prints⁶

Proven technology for reliable operation

Designed for mid-volume production, the HP PageWide XL 5000 MFP is based on proven HP PageWide Technology, currently powering HP PageWide Web Presses—producing 4 billion impressions monthly—and HP X series business printers.

HP 841 PageWide XL Printheads provide reliable and long-life operation, with an average life per printhead of 32 lliters of ink.

Save time and reduce complexity by consolidating your monochrome and color workflows

Get away from the complex and lengthy process in which color and monochrome pages must be manually separated by an operator, who must then send color and monochrome to two different printers, and then finally manually collate the color and monochrome pages together.

Now you can consolidate your workflow by delivering mixed monochrome and color sets that help to contribute to up to 30% savings in total production costs.¹

HP SmartStream software can help you improve your current technical production workflow efficiency for single, multiple operator environments by preparing your jobs in 50% of the time.³

Print fast, deliver faster

1. Using HP SmartStream Preflight Manager, jobs can be prepared in 50% of the time³

- 2. With an ultra-fast processor and the embedded Adobe PDF Print Engine 3,¹⁰ HP PageWide XL printers are designed for quick processing, including the most complex jobs
- 3. Print up to 14 D/A1 pages/minute in monochrome and color
- 4. Reduce the wait for short jobs with a quick, 30-second first page out

Set a new quality standard for technical documents

HP 841 PageWide XL Printheads, working with HP PageWide XL pigment ink, are designed to produce durable and high-quality output with dark blacks and vivid colors.

Accurate and reliable dot placement results in crisp lines, fine detail, and smooth grayscales. HP PageWide XL printers do not apply heat to the paper as part of the printing process, enabling very high levels of length accuracy ($\pm 0.1\%$).

Save space and trim workflow cost with a single device for monochrome and color, or print/scan/copy with a multifunction printer

- **1. Up to 4 rolls**—automatic roll switching when a roll is depleted or a different page size is selected.
- **2. Dual 400-ml HP ink supplies** with auto-switch—replace used cartridges while the printer is running.
- **3.8-inch touchscreen**—status light reports current status and provides progressive alerts on potential issues that could impact production (i.e., out of paper or ink).
- **4. Top stacker** designed to save space. With a capacity of up to 100 pages. Combine with the HP PageWide XL Folder⁴ or the HP PageWide XL High-capacity Stacker for second output path.
- **5. High-capacity** output solutions specially designed to keep up with HP PageWide XL print speeds (HP PageWide XL High-capacity Stacker and HP PageWide XL Folder).⁴

GROW Fast color, excellent document quality

- Generate new business growth—print GIS map and point-of-sale (POS) poster applications at breakthrough speeds
- Set a new technical document standard with crisp lines, fine detail, and smooth grayscales that beat LED⁵
- HP PageWide XL pigment ink for dark blacks, vivid color and moisture/fade resistance—even on uncoated bond⁶
- Print on a wide range of media up to 40 inches/101.6 cm—covering ISO/US technical and offset standards7

SAVE

Cut total production costs up to 50%¹

- Print monochrome technical documents at the same or lower cost than comparable LED printers⁸
- Print color technical documents at the lowest cost in the market9
- Cut job preparation and finishing costs up to 50%²
- See up to 10 times lower energy consumption than comparable LED printers¹⁰

Fastest based on internal HP testing and methodology compared to alternatives for large-format printing of technical documents, GIS maps, and point-of-sale (POS) posters under \$200,000 USD as of March, 2015. Production costs savings based on comparison to a setup consisting of one monochrome LED printer and one color production printer, both under \$150,000 USD, as of April, 2015. Production costs consist of supplies and service costs, printer energy costs, and operator costs. For testing criteria, see hp.com/go/pagewidexlclaims.

- ² Based on internal HP testing on the HP PageWide XL 8000 Printer compared to using two different printers (one monochrome LED printer, one color printer). For testing criteria, see hp.com/go/pagewidexlclaims.
- ³ Using HP SmartStream software compared with using equivalent software programs. For testing criteria, see hp.com/go/pagewidexlclaims.
- ⁴ The production stacker and online folder are optional accessories
- ⁵ For output produced with HP PageWide XL printers and LED printers from different manufacturers and that represent greater than 50% of the annual shipments of LED printers in North America as of 2014 according to IDC. For testing criteria, see <u>hp.com/go/pagewidexlclaims</u>.
- ⁶ Compared to prints produced with HP 970/971/980 inks that are fade and moisture resistant per ISO 11798 Permanence and Durability Methods certification. For testing criteria, see hp.com/go/pagewidexlclaims
- 7 ISO/US technical and offset standards include American ANSI and Architectural page size standards, ISO A technical document standard, and ISO B offset page size standard.
 8 Based on supplies and service costs for comparable LED printers under \$150,000 USD for large-format printing of technical documents as of April, 2015 which represent more than 80% of the share of high-volume LED printers in the US and Europe in 2014 according to IDC. For testing criteria, see hp.com/go/pagewidexlclaims
- Based on supplies and service costs for comparable color printers capable of printing 4 D/A1 pages per minute or more and under \$150,000 USD for large-format printing of technical documents as of April, 2015 and representing more than 80% of the market in the US and Europe in 2014 according to IDC. For testing criteria, see <u>hp.com/go/pagewidexlclaims</u>.
- ² Conclusions based on internal HP testing for a specific use scenario. Comparable printers using LED technology based on LED printers capable of printing 18 to 22 D/A1 pages per minute and which represent more than 80% of the share of high-volume LED printers in the US and Europe according to IDC as of April, 2015. For testing criteria, see hp.com/go/pagewidexlclaims

Based on reliable HP Thermal Inkjet technology and HP PageWide XL pigment ink, HP PageWide Technology offers high quality at high printing speeds. Scalable to meet a wide range of application and performance requirements, HP PageWide Technology saves up to 50% in total production costs in the fastest large-format monochrome and color printer.¹

HP PageWide Technology

The HP PageWide XL 8000 Printer includes a stationary 40-inch (101.6-cm) printbar that spans the whole printing width. As paper moves under the printbar, the entire page is printed in one pass, enabling very high printing speeds.

HP PageWide XL pigment ink for HP PageWide XL printers

8 (2 x 775-ml per color with auto-switch)

HP PageWide XL pigment ink is specially designed to provide reliable and dependable operation with HP PageWide XL printers and produce high-quality output:

- Dark blacks and vivid colors on a range of media including uncoated bond papers
- Moisture- and fade-resistant prints⁶

Reliable operation for high-volume printing

Designed for high-volume operation, the HP PageWide XL 8000 Printer is based on proven HP PageWide Technology, currently powering HP PageWide Web Presses—producing 4 billion impressions monthly—and HP X series business printers.

HP 841 PageWide XL Printheads provide reliable and long-life operation, with an average life per printhead of 32 liters of ink.

End-to-end productivity

HP PageWide XL systems have been designed to help you provide radically faster delivery.

To help you meet aggressive deadlines, productivity is optimized in every step of the workflow:

- 1. Using HP SmartStream Preflight Manager, jobs can be prepared in 50% of the time³
- **2.** With an ultra-fast processor and the embedded Adobe PDF Print Engine 3,¹¹ HP PageWide XL printers are designed for quick processing, including the most complex jobs
- **3.** Printing up to 30 D/A1 pages/minute (1,500 D/A1 pages/hr) with outstanding sustained capacity thanks to:
 - Breakthrough print engine speed of up to 75 feet/minute (23 meters/minute)
 - Very short time between pages (up to 0.15 seconds)
 - Extended time between service station cycles (up to hundreds of pages)
 - Quick switches between loaded rolls (under 5 seconds)
- **4.** Bidirectional communication between the HP PageWide XL printer and the production stacker/online folder⁴ provides reliable operation

Set a new quality standard for technical documents

HP 841 PageWide XL Printheads, working with HP PageWide XL pigment ink, are designed to produce durable and high-quality output with dark blacks and vivid colors.

Accurate and reliable dot placement results in crisp lines, fine detail, and smooth grayscales. HP PageWide XL printers do not apply heat to the paper as part of the printing process, enabling very high levels of length accuracy ($\pm 0.1\%$).

Save time and reduce complexity by consolidating your monochrome and color workflows

In reprographics environments, it is very common to print mixed monochrome and color sets typically a long and complex process since color and monochrome pages must be manually separated by an operator, who must then send color and monochrome pages to two different printers (most likely using two different types of software), and then finally manually collate the monochrome and color pages together.

Consolidated workflow efficiencies in delivering mixed monochrome and color sets help contribute to up to 50% savings in total production costs.¹

HP SmartStream software can help you improve your current technical production workflow efficiency for single, multiple operator environments by preparing your jobs in 50% of the time.³

- **1. Up to 6 rolls**—automatic roll switching when a roll is depleted or a different page size is selected.
- **2. Dual 775-ml HP ink supplies** with autoswitch—replace used cartridges while the printer is running.
- **3. High-capacity** output solutions specially designed to keep up with HP PageWide XL print speeds (HP PageWide XL High-capacity Stacker and HP PageWide XL Folder).⁴
- **4.8-inch touchscreen**—status light reports current status and provides progressive alerts on potential issues that could impact production (i.e., out of paper or ink).

HP PageWide XL 4000 MFP

Do the work of two printers with one—faster and lower cost than LED¹

FASTER

Monochrome and color, faster than LED¹

- Move projects forward—up to 8 D/A1 pgs/min monochrome and color, quick 30-second first page out
- Print, scan, copy in a single device integrated 1200 dpi scanner with advanced and convenient workflows
- It's simple—a single, easy-to-use device that meets all your printing and scanning needs
- Focus on your project, not the printer up to 4 rolls with 100-page integrated top stacker

For more information, please visit kmbs.konicaminolta.us/inkjet

SAVE

Better document quality vs LED, lower cost¹

- Run at lower costs than low-volume LED¹—in monochrome and color
- Produce excellent technical documents—crisp lines, fine detail, smooth grayscales that beat LED²
- HP PageWide XL pigment ink for dark blacks, vivid colors, moisture/fade resistance—even on uncoated bond³
- Use half the energy per page compared to equivalent LED printers⁴

SECURE

Help meet tough IT, reliability standards

- Protect and manage confidential jobs more securely—retrieve documents at the printer with a PIN
- Help safeguard confidential information using a self-encrypting HDD with AES-256, Secure Disk Erase and IPSec
- Reduce time and costs of managing individual drivers by using HP DesignJet Universal Print Driver
- Rely on proven HP PageWide Technology for dependable production printing⁵

reddot award 2016 best of the best

¹ Fastest based on alternative low-volume LED printers and MFPs (under 7 D/A1 pages/minute) as of April, 2015. Operational costs based on low-volume LED technology under \$20,000 USD in the market as of April, 2015. Operational costs consist of supplies and service costs. For testing criteria, see <u>hp.com/go/pagewidexlclaims</u>.

² For output produced with HP PageWide XL printers and LED printers from different manufacturers and that represent greater than 50% of the annual shipments of LED printers in North America as of 2014 according to IDC. For testing criteria, see <u>hp.com/go/pagewidexlclaims</u>.

³ Compared to prints produced with HP 970/971/980 inks that are fade and moisture resistant per ISO 11798 Permanence and Durability Methods certification. For testing criteria, see hp.com/go/pagewidexlclaims.

⁴ Conclusions based on internal HP testing for a specific use scenario. Comparable printers using LED technology based on LED printers capable of printing 4 to 6 D/A1 pages per minute and which represent more than 80% of the share of midvolume LED printers in the US and Europe according to IDC as of April, 2015. For testing criteria, see <u>hp.com/go/pagewidexlclaims</u>.

⁵ Proven HP PageWide Technology powers HP PageWide Web Presses—currently producing 4 billion impressions monthly—and HP X series business printers.

Elevate your on-the-job productivity. The HP PageWide XL 4000 MFP consolidates monochrome and color printing, as well as print/scan/copy in a single device. Fast, quality document production keeps the focus on moving projects forward.

Boost your productivity

The HP PageWide XL 4000 MFP is designed to boost your productivity, whether you're printing a large project or a short job.

- With no warm-up time and ultra-fast processing, the HP PageWide XL 4000 MFP can finish printing most jobs by the time other devices are still getting ready to print the first page
- With a print speed up to 8 D/A1 pages per minute in both monochrome and color, dealing with peaks and printing large projects is no longer a hassle

Set a new quality standard for your technical documents

HP 841 PageWide XL Printheads, working with HP PageWide XL pigment ink, are designed to produce high-quality output with dark blacks, neutral grays, and vivid colors that are moisture and fade resistant.³

Accurate and reliable dot placement result in crisp lines, fine detail, and smooth grayscales. HP PageWide XL printers do not apply heat to the paper as part of the printing process, enabling very high levels of length accuracy (±0.1%).

Save space, reduce complexity

The HP PageWide XL 4000 MFP can do the job of two printers—faster and at lower operating costs than LED.¹ With a single device, you can save space and reduce complexity—you now have one less printer to manage on the network, and you no longer need to manage two sets of printing supplies.

Easy to use, easy to manage

HP PageWide XL Technology takes the hassle out of printing—there's no need to decide whether to send a particular document to the monochrome or color device. The HP PageWide XL 4000 MFP produces monochrome and color in a single, easy-to-use device that can meet all your printing and scanning needs.

The intuitive touchscreen with detailed preview and customizable print, scan, and copy presets, helps prevent errors and puts comprehensive print/scan/copy functionality just a few clicks away. The status light provides at-a-glance status information from a distance.

Replacing ink or loading new rolls—no spindle needed—is simple and quick. And with four 400-ml HP ink cartridges and up to four 650-ft (200-m) long rolls, the HP PageWide XL 4000 MFP can run unattended for quite a long time.

A better choice for the office—and the environment

The HP PageWide XL 4000 MFP integrates easily into the office. Designed for efficient energy consumption, the MFP uses a standard office plug. Unlike LED technology, HP PageWide Technology operates without a fuser, generating reduced heat and noise—and produces no ozone.⁶ The HP PageWide XL 4000 MFP can be seamlessly integrated into the workplace with typical ventilation.⁷

Designed with the environment in mind, the HP PageWide XL 4000 MFP has earned a number of leading environmental credentials including ENERGY STAR® certification and EPEAT registration.⁸ ENERGY STAR® certifies products for superior energy efficiency. EPEAT helps identify "greener" computer and other electronic components. Qualified products meet rigorous criteria across the complete product life cycle—from materials restriction to packaging and air quality. The HP PageWide XL 4000 MFP uses half the energy per page compared to equivalent LED printers.⁴

1. Up to 4 rolls—automatic roll switching when a roll is depleted or a different page size is selected

2.400-ml HP ink supplies

- **3.8-inch touchscreen** with status light that reports at-a-glance current status from a distance; detailed preview and scan, copy, print presets help prevent errors and enable effortless operation
- **4. Top stacker** designed to save space and allows the printer to be placed against a wall; capacity up to 100 pages
- **5. Integrated 1200 dpi scanner**—scan at speeds up to 3 in/sec (7.62 cm/sec) in color and 10 in/sec (25.4 cm/sec) in grayscale; scan to a variety of file formats and work with advanced and convenient workflows

	Applications	Line drawings, Maps, Orthophotos, Posters
	Ink types	Pigment-based (cyan, magenta, yellow, black)
	Ink cartridges	4 (1 x 400-ml per color)
	Printheads	8 x HP 841 PageWide XL Printheads
	Average printhead life	32 liters
	Printhead warranty	10 liters or 12 months from installation
	Print resolution	1200 x 1200 dpi
	Minimum line width	0.0008 in (0.02 mm) (HP-GL/2 addressable)
	Guaranteed minimum line width	0.0033 in (0.085 mm) (ISO/IEC 13660:2001(E))9
	Line accuracy	+/- 0.1%10
Print speed	Maximum print speed	23.8 ft/min (7.3 m/min)11
	A1/Arch D/ANSI D (long edge first)	12 pages/min
	Warm-up time	No warm up
	First page out	30 sec (from Ready mode)
Media	Media rolls	2 rolls default with auto-switching, expandable to 4 rolls
	Roll width	11 to 40 in (279 to 1016 mm)
	Roll length	Up to 650 ft (200 m)
	Roll diameter	Up to 7 in (177 mm)
	Roll core diameter	3 in (7.6 cm)
	Printable width	Up to 39.4 in (1000 mm)
	Printable length	Up to 295 ft (90 m) for CAD and 98 ft (30 m) for poster 12
	Media weight	19 to 53 lb (70 to 200 g/m²)
	Media thickness	Up to 15.7 mil (0.4 mm)
	Media types	Bond and recycled papers, poster papers, polypropylene , tyvek papers, matte film
	Media output (standard)	Basket and top stacker
Scanner	Description	36-in (91-cm) CIS scanner
	Speed	Color: up to 3 in/sec (7.62 cm/sec) Grayscale: up to 10 in/sec (25.4 cm/sec)
	Optical resolution	1200 dpi
	Scan width	Up to 36 in (914 mm)
	Original thickness	Up to 0.01 in (0.26 mm)
	Maximum copy length	374.5 in (9512 mm)
	Maximum scan length	708.7 in (18,000 mm) (TIFF, 24-in (610-mm) wide original at 200 dpi), 315 in (8000 mm) (JPEG), 196.9 in (5000 mm) (PDF)
	Scan format	Standard: JPEG, TIFF Optional: PDF 1.4, multi-page PDF 1.4 (with PS/PDF upgrade)
	Scan features	Preview with cropping, scan quicksets, batch scanning
	Scan destination	USB, network folder (SMB), scan to email and to HP SmartStream software
Embedded	Processor	Intel Core i3
controller	Memory	8 GB DDR3
	Hard drive	1x 500 GB HDD, self-encrypted with AES-256
	Print languages (standard)	HP-GL/2, PCL 3 Win Adobe PostScript 3, Adobe PDF 1.7, TIFF, JPEG
	Remote management	HP Partner Link, HP Embedded Web Server, HP Web Jetadmin
Connectivity	Interfaces	TCP/IP, BootP/DHCP, USB 2.0 host (certified)
-	Printing paths	HP SmartStream software (optional)
		HP Universal Print Driver (HP-GL/2 and PS) HP PageWide XL print drivers (PDF, HP-GL/2, and PS)

⁶ Based on third-party testing conducted in 2014 and 2015, no ozone was detected.

Special ventilation equipment (air filtration) is not required to meet U.S. OSHA requirements. Special ventilation equipment installation is at the discretion of the customer. The need for special ventilation is not anticipated. In case of doubt, customers should consult state and local requirements and regulations.

EPEAT registered where applicable and/or supported. See epeat.net for registration status and rating by country. ⁹ Measured on HP Universal Bond Paper.

Dynamic security enabled printer. Only intended to be used with cartridges using an HP original chip. Cartridges using a non-HP chip may not work, and those that work today may not work in the future. More at: hp.com/go/learnaboutsupplies

Note: HP PageWide XL printers are not designed to use continuous ink systems. HP PageWide XL printers are designed for ink cartridges to be used until they are empty. Refilling cartridges prior to depletion might cause the printer to fail, and voids the HP ink cartridge warranty.

Production costs savings based on an HP PageWide XL 6000 Printer compared with a combination of a mid-volume monochrome LED printer and a mid-volume color production printer (both under \$40,000 USD) as of April, 2017. Production costs consist of supplies and service costs, printer energy costs, and operator costs. For testing criteria, see <u>hp.com/go/pagewidexlclaims</u>.

⁷ Measured on HP Universal Bond Paper.

⁸ ±0.1% of the specified vector length or ±0.2 mm (whichever greater) at 73°F (23°C), 50-60% relative humidity, on A0/E printing material in Best or Normal mode with HP Matte Polypropylene and HP PageWide XL pigment inks.

- ⁹ Measured using 36-in (91-cm) print width
- ¹⁰ For longer plots (up to 656 ft), image quality might be affected.
- ¹¹ The HP PageWide XL High-capacity Stacker may be an optional accessory.

¹² Long plots with reduced capacity.

- ¹³ Printing to non-HP large format printers is done through specific drivers, each of them covering several printers: Océ Windows Printer Driver (WPD), KIP Windows Driver WHQL, RICOH PostScript Driver, Xerox WHQL Driver. For more information, please visit: <u>hp.com/go/smartstream/trial</u>.

Giving Shape to Ideas

Collaborative Classroom Learning to Help Lessons Come to Life.

3D Printing & Curriculum

expand minds with a new world of learning.

Create. Dremel's 3D Printers and Konica Minolta introduce a breakthrough approach to digital technology in the classroom: a program that utilizes 3D printing, lesson plans and hands-on learning to take in-class learning to a new level. By incorporating this technology in the classroom, abstract concepts are transformed into physical models, helping students make connections between what they're learning in class to the real world. Students become more engaged in the process of design, invention and creation to develop the skills needed for our information age.

3D Printing is just one of the ways Konica Minolta is reshaping the classroom, giving shape to ideas that will dramatically change the way students learn and apply their education.

Explore. Build. Learn.

Dremel 3D Printers are more than just a 3D printer. They harness the power of interactivity with the challenges of problem-solving and critical thinking to open a new world of learning for students. Dremel integrates the Dremel 3D Printers with specially designed curriculum and lesson plans featuring activities that center on invention, design, modeling and building. Once students connect a physical model with an abstract concept, a remarkable thing happens: they engage more deeply and build new knowledge and skills that they can retain and apply. It sounds like magic. But that's the way learning with technology is supposed to work.

More Than a 3D Printer. It's a Complete Solution.

When you purchase a Dremel 3D Printer, you are also getting world-class 1:1 customer support, professional development, curriculumbased lesson plans and peace of mind with UL certification and the industry's best warranty.

The MyStemKits Program

MyStemKits.com offers vetted, standardsaligned curriculum written by a team of teachers and content-area experts. MyStemKits product is unique in that they start with the standards and build from there. Their team of teachers ensure that the kits and curriculum are usable and feasible and content-area experts ensure the content of the curriculum is top-notch. The MyStemKits. com curriculum includes Teacher Guides complete with content reviews, learning objectives, guiding questions, skills and practices and procedures, as well as Student Handouts and Student Assessments. MyStemKits also provides detailed model guides which include parts lists and photographic assembly instructions. The MyStemKits program provides the perfect supplement to your STEM curriculum.

How Do You Use 3D Printers and Curriculum in the Classroom?

All projects (3 grade clusters) begin with a design challenge so that students gain experience with the entire 3D printing process: designing with simple, easy to use CAD/CAM software, printing, finishing and re-designing if needed to achieve the desired outcome and pass the lesson. It helps foster not only critical thinking, but creativity, collaboration and communication skills. Here are some sample lesson plans:

- Elementary School: Grades 3rd–5th Design a picture frame with frame's dimensions, color, materials and style, calculating the angle where the frame is joined at each corner.
- Middle School: Grades 6th–8th Design sunglasses while learning about the eye and the harmful effects of UV rays.
- High School: Grades 9th–12th Design a reusable water filter after learning about the earth's limited supply of drinking water, filtration and different materials to filter water.

Today's education is focused on STEM. 3D printing helps students master it.

Science no longer has to be diagrams and charts but rather tangible models of complex, modifiable concepts.

3D technology can be used to build models and prototypes of mechanical, architectural and artistic designs to further practical understanding. 3D Printing is growing as a fundamental technology to master in STEM fields. Combined with other virtual resources, students of today are preparing for the jobs of tomorrow in order to reach new levels of thinking and problem-solving. Science, Technology, Engineering, Math, Geography, Art, Design ... all subjects can be transformed to challenge students to think differently and more critically.

From combustion engines to drones, students can design and engineer using hands-on trial and error learning.

Math can now become an interactive subject in which students can integrate learnings and heighten their problem-solving skills.

Increase engagement. Foster creativity. And help students learn like never before.

Dremel allows you to integrate 3D printing into classroom learning right out-of-the-box. Written by actual teachers and subject matter experts, Dremel 3D hands-on lesson plans tie an abstract concept with a printed model for better understanding, engagement and retention. It's an experiential, hands-on learning program that's:

Simple

Fastest out-of-the box usability in the market and easy-to-use software. Build objects within minutes.

Safe

Dremel was the first manufacturer to receive UL certification for its 3D printer.

Reliable

Dremel, a trusted brand for over 80 years, has designed the 3D Idea Builder with simplicity at its core. Backed by a full 1-year warranty, it's built to last.

Supportive

Dremel experts provide world-class 1:1 support and mentorship. Call, Skype, chat or email.

Partnership.

Dear Ms. Payne:

The Commonwealth is exercising its option to renew the Drafting and Engineering Equipment, Supplies and Services contract between the Commonwealth of Pennsylvania and Konica Minolta Business Solutions USA, INC. Section V.3 CONTRACT-002.2b Renewal of Contract Term – Mutual (Oct 2013) states:

The Contract may be mutually renewed for a maximum of 3 additional 1-year term(s), so long as the Commonwealth provides written notice to Contractor of its intention to extend the Contract by letter dated no less than 090 days prior to the expiration of the term of the agreement, or any extension thereof, and the Contractor consents to the renewal not less than 060 days prior to the expiration of the term of the agreement or any extension thereof. The renewal may be exercised as individual or multiple year terms(s). Any renewal will be under the same terms, covenants and conditions. No further document is required to be executed to renew the term of the contract."

The Commonwealth is renewing the contract for two (2) years. The new termination date of the contract will be August 31, 2021.

The Commonwealth is requesting your acknowledgement of the contract renewal. Please confirm your acknowledgement by completing the bottom section of this letter and emailing a copy to me by close of business Thursday July 25, 2019.

Thank you for your prompt response. If you have any questions, please contact me at 717-346-3827 or riaime@pa.gov.

Raymond A. Jaime Commodity Specialist
