Note: POS will continue to provide service to "End of Support" Models on a Time and Material basis. Due to parts availability, the customer will be given a written estimate for the repairs (parts, labor and travel). The estimate must be signed and returned to POS before we respond on-site. If it is determined when on-site additional parts are required and are no longer available to complete the repair, the customer will be invoiced for the call and travel charges. There will be NO WARRANTY on the parts or service provided to the models.
