VI.	List of Lake Names Added to Current Gazetteer	184
VII.	Index to Topographic Maps	187
VIII.	Duplicate Lakes in the Florida Lake Gazetteer	192

I. OVERVIEW

Introduction

This gazetteer of lakes in Florida is an updated version of the 1969 Gazetteer (Florida Board of Conservation, 1969). The earlier gazetteer listed Florida's lakes in alphabetical order and by hydrologic basins. This updated gazetteer retains the earlier alphabetical listing. The basin listing was deleted since these boundaries are not contiguous with the boundaries of the five water management districts created in 1972.

This edition of the Florida Gazetteer is based on computer punch cards stored in the office of Mr. Joe Hand of the Florida Department of Environmental Regulation. The information on the computer cards did not correspond totally to the information printed in the 1969 report - Florida Lakes - Part III Gazetteer. The following differences have been noted:

1. All named lakes smaller than 10 acres were deleted.
2. The lakes of Highlands County were missing on the computer cards.
3. There are no remarks on the computer punch cards.
4. Latitude and longitude of the lake were available from computer cards but were not printed in the Florida Gazetteer.
5. Approximately 400 unnamed lakes were missing from various counties.

In this edition of the Gazetteer the missing lakes from Highlands County were added, as were 823 named lakes smaller than 10 acres.

Following the alphabetical listing (Section II), the named lakes are arranged by size (Section III) and by county (Section IV). Then, the unnamed lakes are listed by county (Section V). Within the county, they are listed by latitude. The list of lake names added to this gazetteer is presented as Section VI. Lastly, the index to topographic maps of Florida is presented

as Section VII. Coding information associated with the table is presented at the beginning of that section. The balance of this section presents summary information.

Summary

A total of 7318 lakes are on the current list. Of this total, 3191 lakes have been named. Generally, the unnamed lakes are less than 100 acres in size. Table 1-1 shows the 120 largest lakes in the State of Florida. Heading the list is Lake Okeechobee, the largest natural freshwater lake in the United States that is entirely within one state.

The size distribution of named Florida lakes is presented in Table 1-2.

Table 1-1. The 120 Largest Lakes in Florida.

Table 1-2. Classification of Named Florida Lakes by Size.

<u>Size, acres</u>	<u>Number of Lakes</u>	<u>Cumulative Number</u>
>10000	15	15
5001 - 10000	16	31
2501 - 5000	27	58
1001 - 2500	44	102
501 - 1000	70	172
401 - 500	31	203
301 - 400	65	268
201 - 300	97	365
101 - 200	259	624
76 - 100	160	784
51 - 75	258	1042
26 - 50	441	1483
11 - 25	745	2228
1 - 10	863	3191

Florida lakes have been classified into the four types shown in Table 1-3.

Table 1-3. Four Classes of Florida Lakes.

<u>Type of Lake</u>	<u>% of Total</u>
1. Lakes with streams flowing into them	4.2
2. Lakes with streams flowing out of them	9.6
3. Lakes with streams flowing in and out of them	15.0
4. Lakes that are landlocked	<u>71.2</u>
TOTAL	100.0

Most of Florida's lakes are located in the central part of the state, as is evident from an inspection of Table 1-4, which lists the 20 counties with the largest number of lakes, and Table 1-5, which lists the 20 counties with the largest lake areas. A map showing the 20 counties with the largest number of named lakes is presented in Figure 1-1.

SECTION II

ALPHABETICAL LIST OF NAMED FLORIDA LAKES*

Header Code:

OBS: Observation

LAKE: Name of lake. The lakes are listed by proper name, e.g., Jackson, Lake rather than Lake Jackson. The alphabetical listing is by first initial if initials are used, e.g., A.J. Spencer Pond is listed under A not S. Also, lakes with names beginning with "big" or "little" are listed under these titles, e.g. Little Bass Lake, not Bass Lake, Little. Unnamed Florida lakes are not listed.

COUNTY: County in Florida

SURFAREA: Surface area in acres. Lake areas determined by the USGS for their 1968 report referred to below were obtained by planimetering from their maps**. The areas were rounded to the nearest integer. Named lakes less than one acre in size are reported as one acre. Marshes adjacent to lakes were included in the area measurement. Connected lakes are listed as one lake.

SECTION III

NAMED FLORIDA LAKES BY SIZE*

Header Code:

OBS: Observation

LAKE: Name of lake. The lakes are listed by proper name, e.g., Jackson, Lake rather than Lake Jackson. The alphabetical listing is by first initial if initials are used, e.g., A.J. Spencer Pond is listed under A not S. Also, lakes with names beginning with "big" or "little" are listed under these titles, e.g. Little Bass Lake, not Bass Lake, Little.

COUNTY: County in Florida

SURFAREA: Surface area in acres. Lake areas determined by the USGS for their 1968 report referred to below were obtained by planimetering from their maps. The areas were rounded to the nearest integer. Named lakes less than one acre in size are reported as one acre. Marshes adjacent to lakes were included in the area measurement. Connected lakes are listed as one lake.

*The areas of most of the lakes are from U.S. Geological Survey, Surface and Drainage Areas of Selected Lakes in Florida, Florida District, Tallahassee, Florida, 1968.

SECTION IV

NAMED FLORIDA LAKES BY COUNTY*

Header Code:

OBS: Observation

LAKE: Name of lake. The lakes are listed by proper name, e.g., Jackson, Lake rather than Lake Jackson. The alphabetical listing is by first initial if initials are used, e.g., A.J. Spencer Pond is listed under A not S. Also, lakes with names beginning with "big" or "little" are listed under these titles, e.g. Little Bass Lake, not Bass Lake, Little.

COUNTY: County in Florida

SURFAREA: Surface area in acres. Lake areas determined by the USGS for their 1968 report referred to below were obtained by planimetering from their maps**. The areas were rounded to the nearest integer. Named lakes less than one acre in size are reported as one acre. Marshes adjacent to lakes were included in the area measurement. Connected lakes are listed as one lake.

ELEVATE: Elevation in feet above mean sea level

LAKETYPE: Type of lake:

- 1) Streams flowing into them
- 2) Streams flowing out of them
- 3) Streams flowing in and out of them
- 4) Landlocked

LAT: Latitude

LONG: Longitude

TOPONO: Topographic map number

LOCATION: The location of the approximate center of the lake is identified by section number, township and range. Where more than one lake lies within a given section, the lakes are further identified by numbering counterclockwise around the quarter section beginning in the upper left hand corner.

SECTION V

UNNAMED FLORIDA LAKES BY COUNTY*

Header Code:

OBS: Observation

LAKE: Name of lake. The lakes are listed by proper name, e.g., Jackson, Lake rather than Lake Jackson. The alphabetical listing is by first initial if initials are used, e.g., A.J. Spencer Pond is listed under A not S. Also, lakes with names beginning with "big" or "little" are listed under these titles, e.g. Little Bass Lake, not Bass Lake, Little.

COUNTY: County in Florida

SURFAREA: Surface area in acres. Lake areas determined by the USGS for their 1968 report referred to below were obtained by planimetry from their maps**. The areas were rounded to the nearest integer. Named lakes less than one acre in size are reported as one acre. Marshes adjacent to lakes were included in the area measurement. Connected lakes are listed as one lake.

ELEVATE: Elevation in feet above mean sea level

LAKETYPE: Type of lake:

- 1) Streams flowing into them
- 2) Streams flowing out of them
- 3) Streams flowing in and out of them
- 4) Landlocked

LAT: Latitude

LONG: Longitude

TOPONO: Topographic map number

LOCATION: The location of the approximate center of the lake is identified by section number, township and range. Where more than one lake lies within a given section, the lakes are further identified by numbering counterclockwise around the quarter section beginning in the upper left hand corner.

SECTION VI

LIST OF LAKE NAMES ADDED TO CURRENT GAZETTEER

Header Code:

OBS: Observation

LAKE: Name of lake. The lakes are listed by proper name, e.g., Jackson, Lake rather than Lake Jackson. The alphabetical listing is by first initial if initials are used, e.g., A.J. Spencer Pond is listed under A not S. Also, lakes with names beginning with "big" or "little" are listed under these titles, e.g. Little Bass Lake, not Bass Lake, Little.

LOCATION: Section, township and range

Note: The 1969 edition of the Florida Lake Gazetteer listed unnamed and named lakes. Some of the unnamed lakes had an unofficial name typed in italics. These italicized lakes were keypunched and inserted in place of the unnamed lake names.

SECTION VIII

DUPLICATE LAKES IN THE FLORIDA LAKE GAZETTEER

Header Code:

LAKE: Name of lake. The lakes are listed by proper name, e.g., Jackson, Lake rather than Lake Jackson. The alphabetical listing is by first initial if initials are used, e.g., A.J. Spencer Pond is listed under A not S. Also, lakes with names beginning with "big" or "little" are listed under these titles, e.g. Little Bass Lake, not Bass Lake, Little.

COUNTY: County in Florida

LAKES: Actual number of lakes under the listed lake name. The code 999 indicates numerous small lakes listed under one umbrella lake name.

Note: The total number of duplicate lakes are 207 plus 4 lakes listed as numerous small lakes.
