MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2010

The following Management's Discussion and Analysis (MD&A) provides an overview of the financial performance of Fort Hays State University (the "University") based on currently known facts, decisions and conditions and is designed to assist readers in understanding the accompanying financial statements. These financial statements are prepared in accordance with Government Accounting Standards Board (GASB) principles, with the exception of GASB Statement No. 39, Determining Whether Certain Organizations Are Component Units. The University has made the decision not to include the Fort Hays State University Foundation, formerly the Fort Hays State University Endowment Association, within its unaudited financial statements. This discussion – along with the financial statements and related footnote disclosures – has been prepared by and is the responsibility of management.

USING THIS ANNUAL REPORT

This report consists of the three financial statements, the Statement of Net Assets, the Statement of Revenues, Expenses, and Changes in Net Assets, and the Statement of Cash Flows. These financial statements are prepared in accordance with Governmental Accounting Standards Board (GASB) Statement 35, Basic Financial Statements—and Management's Discussion and Analysis—for Public Colleges and Universities, as amended by GASB Statements 37 and 38. These new standards changed the focus of our financial statements to a comprehensive one-look at the University as a whole. The notes to the financial statements present additional information to further define the financial statements.

STATEMENT OF NET ASSETS

The Statement of Net Assets presents the assets, liabilities, and net assets of the University at a point in time (at the end of the fiscal year). Its purpose is to present a financial snapshot of the University. The statement of net assets includes all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector institutions. Under the accrual basis of accounting all of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

Within the Statement of Net Assets, assets and liabilities are further classified as current or non-current. Current classification distinguishes those assets that are highly liquid and available for immediate and unrestricted use by the University, and those liabilities likely to be settled in the next 12 months.

Net assets are divided into three categories:

1. **Invested in capital assets, net of debt**, indicates the university's equity in property, plant, and equipment owned by the University.
2. **Restricted net assets** are further divided into two subcategories, non-expendable and expendable. The corpus of non-expendable restricted resources is only available for investment purposes. Expendable restricted net assets are available for expenditure by the University but must be spent for purposes as determined by donors and/or external entities who have placed time or purposes restrictions on the use of the assets.
3. **Unrestricted net assets** are available to the University for any lawful purpose of the institution.

Total Assets at June 30, 2010 were \$118,018,640 an increase of \$6,771,498 (6.0%). Capital assets, net of depreciation, comprised 55.1 %, or \$65,065,922 of the \$118,018,640 in total assets.

Total liabilities were \$22,919,595 at June 30, 2010, a decrease of \$1,451,329 (5.9%) compared to \$24,370,914 at June 30, 2009. Long-term liabilities comprised 54.8%, or \$12,575,570 of the total liabilities.

Total net assets at June 30, 2010 were \$ 95,099,040, a \$8,228,815 increase over the prior year, or a 9.4% increase in net assets. The breakout of net assets is shown below:

	<u>June 30, 2010</u>	<u>June 30, 2009</u>
Capital Assets, net of related debt.....	\$53,525,829	\$46,755,811
Restricted net assets	10,800,954	11,795,755
Unrestricted net assets	<u>30,722,257</u>	<u>28,324,659</u>
Total net assets.....	<u>\$95,099,040</u>	<u>\$86,876,225</u>

STATEMENT OF REVENUES, EXPENSES, AND CHANGES IN NET ASSETS

The Statement of Revenues, Expenses and Changes in Net Assets presents the total revenues earned and expenses incurred by the University for operating, non-operating and other related activities during a period of time. Its purpose is to assess the University's operating results.

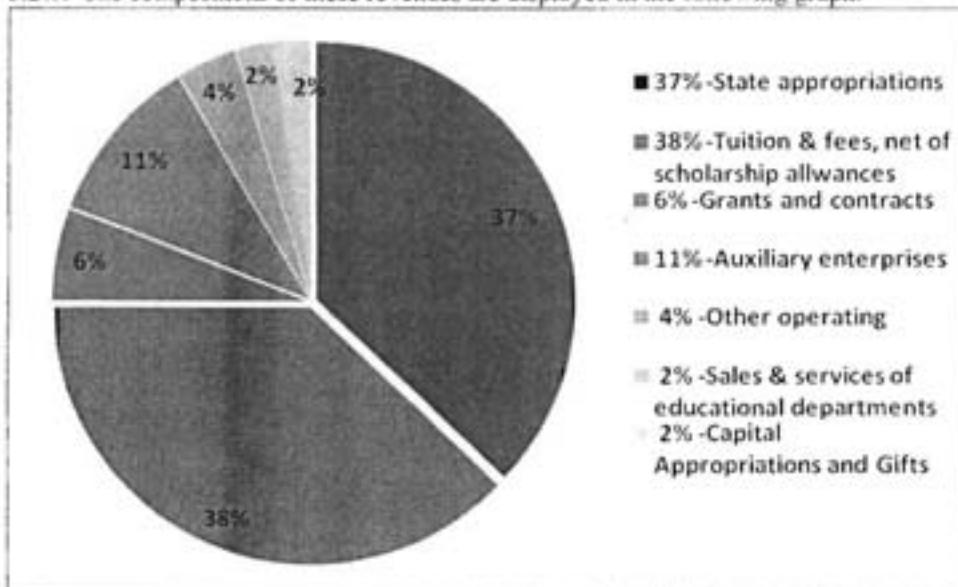

Revenues

Operating revenues at the University as of June 30, 2010 increased by 6.8% over the previous fiscal year. The following is a brief summary of the significant changes:

- Student fee revenues, after scholarship allowances, were \$33.9 million in 2010, compared to \$30.3 million in 2009. This increase is in part a result of a 7.5% tuition increase approved by the Kansas Board of Regents for fiscal year 2010. The goal of the tuition increase, which was the result of collaboration between University administration & University students, was to provide additional funds to the University to improve or enhance student education and services. Reasonable tuition charges and a continued effort to expand our Virtual College on the national and international level resulted in a 19.9% increase in Virtual College headcount from the Fall of 2008 to the Fall of 2009.

Total non-operating revenues remained even, when comparing FY2010 \$44.9million to FY2009 \$44.7million. State appropriations, the largest source of revenue at the University, decreased 5.3% from \$35.0 million to \$33.1 million. This decline was offset by a 51.0% increase in Student Financial Aid from \$6.3 million in FY2009 to \$9.5 million in FY 2010.

In summary, total revenues increased by \$3.0 million, from \$93.0 million to \$96.0 million, an overall increase of 3.2%. The compositions of these revenues are displayed in the following graph:

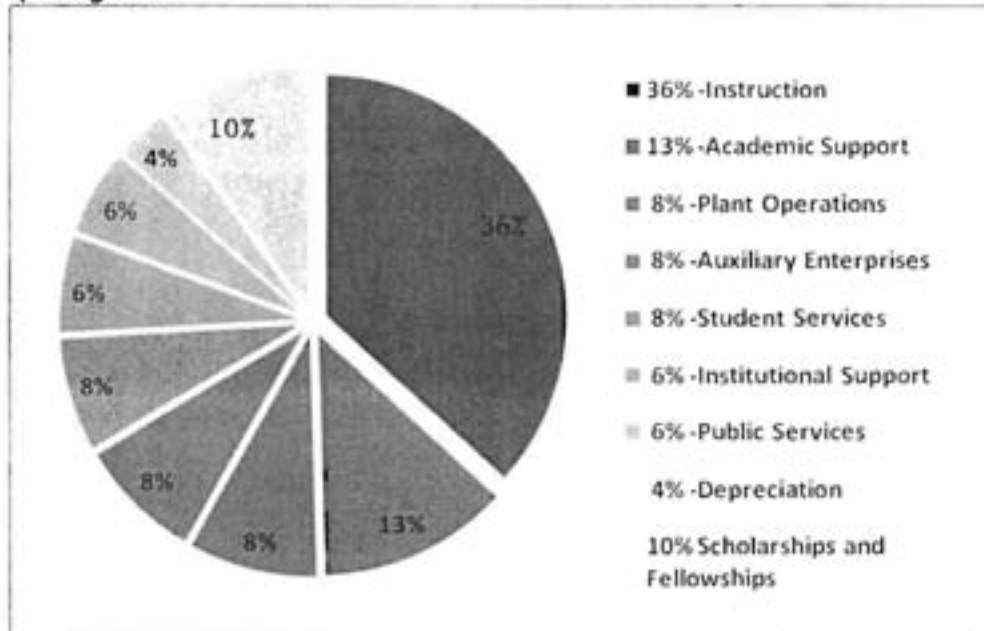

Expenses

Operating expenses were \$89.9 million for the 2010 fiscal year compared to \$84.0 million for the 2009 fiscal year. The main part of this increase was seen in the amount of Student Financial Aid awarded. FY2010 disbursed Student Financial Aid increased by 39.7% over the prior year. This increase in Student Financial Aid disbursements is directly related to the decline of the economy in the state of Kansas.

Non-operating expenses are comprised of the investment of bond reserve funds, bond interest expense, the student loan program, and other non capitalized expenditures.

The composition of total expenses, including operating and non-operating are displayed below:

By Program:

By Natural Classification:

Extraordinary Items

The University did not have any special and extraordinary items in 2010.

Foundation Expenses Paid On Behalf of University

The Fort Hays State University Foundation (FHSUF), a separate not-for-profit organization whose primary mission is to raise funds for the University, provides direct and indirect support to the University that is not entirely reflected in the University's Statement of Revenues, Expenses and Changes in Net Assets. Expense items paid on behalf of the University by FHSUF include expenses such as equipment, miscellaneous office expenses and travel. Total University support provided by FHSUF equaled approximately \$45,884 and \$43,224 in 2010 and 2009, respectively.

Net Assets

Net assets increased by \$8,222,814 over the previous fiscal year. This increase is primarily a result of an increase in capital assets, net of depreciation and an increase in tuition and fees mainly due to an increase in Virtual College enrollment.

STATEMENT OF CASH FLOWS

The Statement of Cash Flows presents cash receipts and payments of the University during a period of time. Its purpose is to assess the University's ability to generate future net cash flows and meet its obligations as they come due.

CASH FLOWS FOR THE PERIOD:

	June 30, 2010	June 30, 2009
Net cash provided (used) by:		
Operating activities	\$(35,729,888)	\$(33,456,570)
Non-capital financing activities	42,574,659	41,366,803
Capital and related financing activities	(1,513,111)	(2,511,351)
Investing activities	374,138	59,930
Net increase in cash	5,705,798	5,458,812
Beginning cash and cash equivalent balances	37,532,850	32,074,038
Ending cash and cash equivalent balances	\$ 43,238,648	\$ 37,532,850

Net cash provided/used by operating activities includes tuition and fees, grant and contract revenues, auxiliary enterprise revenues, sales of educational activities, and payments to employees and suppliers. Cash flows from operating activities will always be negative since GASB requires state appropriations to be reported as cash flows from non-capital financing activities. Cash flows from capital financing activities include all plant funds and related long-term debt activities. Cash flows from investing activities show all uses of cash and cash equivalents to purchase investments, and all increases in cash and cash equivalents as a result of selling investments or earning income on cash and investments.

CAPITAL ASSETS

The University continued to invest in capital assets during the 2010 fiscal year. Detailed information regarding capital asset additions, retirements & depreciation is available in Note 6 to the financial statements.

DEBT ADMINISTRATION

At June 30, 2010, the University had \$11.5 million in debt outstanding.

Debt was issued in fiscal year 2003 to finance the redemption of outstanding Housing System Revenue Bonds, Series E 1994, in the amount of \$1,332,071; the redemption of outstanding Lewis Field Stadium Revenue Bonds, Series C 1993, in the amount of \$582,877; and to finance the new Housing System Revenue Bonds, Series 2003 D-1, in the amount of \$3,600,000 and to finance the new Lewis Field Revenue Bonds, Series 2003 D-2, in the amount of \$748,000. The new Housing System Revenue Bonds, Series 2003 D-1, in the amount of \$3,600,000 were processed for redemption and defeasance during FY 2010 and are no longer outstanding.

The bonds have been assigned a rating of "AAA" by Standard & Poor's Ratings Services, on the basis of the Financial Guaranty Insurance Policy issued with respect to the Bonds by Ambac Assurance. In addition, Standard and Poor's Ratings Services has assigned the Bonds an underlying rating of "A-". More detailed information about the University's long-term liabilities is available in Notes 8 and 9 to the financial statements.

Debt in the amount of \$4,887,055 was incurred during the 2005 fiscal year to finance the Energy Improvement Conservation Project. This project was part of a state wide energy endeavor to reduce energy and related costs for the Regent's system. Anticipated energy savings are expected to pay the semi-annual debt payments. The debt is setup on a 16.5 year payout terminating October 1, 2021.

Debt in the amount of \$7,790,000 was incurred during the 2006 fiscal year to finance the Memorial Union Renovation Project. \$7,205,000 in non-taxable Series 2005G-1 and \$585,000 in taxable Series 2005G-2 Revenue Bonds were issued.

Standard and Poor's Ratings Services has assigned the Bonds an underlying rating of "A-". More detailed information about the University's long-term liabilities is available in Notes 8 and 9 to the financial statements.

ECONOMIC OUTLOOK

The State of Kansas provided approximately 37% of the total resources for the University during fiscal year 2010. Appropriations for fiscal year 2010 were set at \$33.1 million representing an approximate 5.3% decrease from fiscal year 2009. State of Kansas revenues have been projected to be down in FY2011 and possibly into FY2012. The University's administration has developed a four step strategy of reducing operating costs by implementing efficiencies, making cuts in the budgets of offices and departments, generating new revenue through enrollment growth, and instituting marginal increases in tuition.

Enrollment for the academic 2010-2011 year is expected to increase due to our continued efforts to maintain affordable tuition rates which continue to be the lowest in the Kansas Regent's system. Continued regional and international recruitment will show increases in headcount in our virtual college and on campus during the next several years.

FORT HAYS STATE UNIVERSITY
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America with the exception of GASB Statement No. 39, Determining Whether Certain Organizations Are Component Units. Fort Hays State University has made the decision not to include the Fort Hays State University Foundation, formerly the Fort Hays State University Endowment Association, within the University's financial statements. The financial statements have not been audited.

In preparing financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amount of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Organization. Fort Hays State University (University) is a regional university principally serving western Kansas. The University's primary emphasis is undergraduate liberal education, which includes the humanities, the fine arts, the social/behavioral sciences and the natural/physical sciences. The University, located in Hays, Kansas, has an undergraduate enrollment of approximately 10,317 and a graduate enrollment of approximately 1,566. The University is accredited by the North Central Association of Colleges and Schools, is governed by the Kansas Board of Regents and is an agency of the State of Kansas. As an agency of the State of Kansas, the University is included in the financial report of the State of Kansas.

Financial Reporting Entity. As required by accounting principles generally accepted in the United States of America, these financial statements present the combined financial position and financial activities of the University and the following blended component units: the Fort Hays State University Alumni Association, the Fort Hays State University Athletic Association and the Sternberg Museum Foundation.

A blended component unit is an entity that is legally separate from the University, but is so intertwined with the University that it is, in substance, part of the University. Such entities are reported as part of the University (i.e., they are blended into the statements of the University).

The financial activity and balances of the Fort Hays State University Foundation are not included in the financial statements of the University as the Foundation is a legally separate entity and the University does not appoint a voting majority of the Foundation's governing body.

Basis of Accounting. For financial reporting purposes, the University is considered a special-purpose government engaged only in business-type activities. Accordingly, the University's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All significant intra-agency transactions have been eliminated.

The University has the option to apply all Financial Accounting Standards Board (FASB) pronouncements issued after November 30, 1989, unless FASB conflicts with GASB. The University has elected to not apply FASB pronouncements issued after the applicable date.

Cash Equivalents. For purposes of the statement of cash flows, the University considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

Investments. The University accounts for its investments at fair value in accordance with GASB Statements No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. Changes in unrealized gain (loss) on the carrying value of investments are reported as a component of investment income in the Statement of Revenues, Expenses, and Changes in Net Assets.

Accounts Receivable. Accounts receivable consists of tuition and fee charges and auxiliary enterprise services provided to students. Accounts receivable also include amounts due from the Federal government, state and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the University's grants and contracts. Accounts receivable are recorded net of estimated uncollectible amounts.

Inventories. Inventories are carried at cost.

Noncurrent Cash and Investments. Cash and investments that are externally restricted to make debt service payments, maintain sinking or reserve funds, or to purchase or construct capital or other noncurrent assets, are classified as noncurrent assets in the Statements of Net Assets.

Capital Assets. Capital assets are recorded at cost at the date of acquisition, or fair market value at the date of donation in the case of gifts. For equipment, the University's capitalization policy includes all items with a unit cost \$5,000 or more, and an

estimated useful life of greater than one year. Renovations to buildings, infrastructure, and land improvements that significantly increase the value or extend the useful life of the structure are capitalized if the related project cost exceeds \$100,000. Routine repairs and maintenance are charged to operating expense in the year in which the expense was incurred.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, 25 years for infrastructure and land improvements, 8 years for equipment, and 5 years for vehicles. Depreciation for buildings is computed using a componentized building depreciation study.

Deferred Revenues. Deferred revenues include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year but related to the subsequent accounting period. Deferred revenues also include summer school tuition not earned during the current year and amounts received from grant and contract sponsors that have not yet been earned.

Compensated Absences. Employee vacation pay is accrued at year-end for financial statement purposes. The liability and expense incurred are recorded at year-end as accrued compensated absences in the Statement of Net Assets, and as an expense in the Statement of Revenues, Expenses, and Changes in Net Assets.

Deposits Held In Custody For Others. Deposits held in custody for others consists primarily of student organizations' monies administered by the University.

Noncurrent Liabilities. Noncurrent liabilities include principal amounts of revenue bonds payable, capital lease obligations with contractual maturities greater than one year, and estimated amounts for accrued compensated absences that will not be paid within the next fiscal year.

Net Assets. The University's net assets are classified as follows:

Invested in capital assets, net of related debt: This represents the University's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets such amounts are not included as a component of invested in capital assets, net of related debt.

Restricted net assets – expendable: Restricted expendable net assets include resources in which the University is legally or contractually obligated to spend resources in accordance with restrictions imposed by external third parties.

Restricted net assets – nonexpendable: Restricted nonexpendable net assets consist of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal.

Unrestricted net assets: Unrestricted net assets represent resources derived from student tuition and fees, state appropriations, and sales and services of educational departments. These resources are used for transactions relating to the educational and general operations of the University, and may be used at the discretion of the governing board to meet current expenses for any purpose. These resources also include auxiliary enterprises, which are substantially self-supporting activities that provide services for students, faculty, and staff.

Tax Status. As a state institution of higher education, the income of the University is generally exempt from federal and state income taxes under Section 115(a) of the Internal Revenue Code; however, income generated from activities unrelated to the University's exempt purpose is subject to income taxes under Internal Revenue Code Section 511(a)(2)(B).

Classification of Revenues. The University has classified its revenues as either operating or nonoperating revenues according to the following criteria:

Operating revenues: Operating revenues include activities that have the characteristics of exchange transactions, such as 1) student tuition and fees, net of scholarship discounts and allowances, 2) sales and services of auxiliary enterprises, 3) most federal, state and local grants and contracts, and 4) interest on institutional student loans.

Nonoperating revenues: Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as gifts and contributions, and other revenue sources that are defined as nonoperating revenues by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*, and GASB Statement No. 35, such as state appropriations and investment income.

Scholarship Discounts and Allowances. Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship discounts and allowances in the Statement of Revenues, Expenses, and Changes in Net Assets. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the University, and the amount that is paid by students and/or third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants, and other federal, state, or nongovernmental programs, are recorded as either

operating or nonoperating revenues in the University's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the University has recorded a scholarship discount and allowance.

NOTE 2 –Cash, Cash Equivalents, and Investments

Cash and Cash Equivalents: The carrying amount of the University's deposits with the State Treasurer and other financial institutions at June 30, 2010 and 2009 was \$43,238,648 and \$37,532,850, respectively.

Investments: Of Fort Hays State University's total investments of \$1,162,867, \$192,852 is administered by the Fort Hays State University Alumni Association and \$249,752 is held in certificates of deposit for the student activity accounts. The Kansas Development Finance Authority invests \$720,263 of the total. These monies represent bond reserve requirements.

NOTE 3 - Accounts Receivable

Accounts receivable net of estimated uncollectible amounts, consisted of the following at June 30, 2010:

Tuition & Fees	\$	680,559
Auxiliary		107,346
Grants & Contracts		94,274
Other		<u>16,729</u>
	\$	<u>898,908</u>

NOTE 4 – Inventories

Inventories consisted of the following at June 30, 2010:

Museum Store	\$	61,047
Physical Plant		15,735
Office Supplies		75,918
Other		<u>16,565</u>
	\$	<u>169,265</u>

NOTE 5 - Loans to Students

Student loans made through the Federal Perkins Loan Program comprise substantially all of the loans to students at June 30, 2010. The Program provides for cancellation of a loan at rates of 10% to 30% per year up to a maximum of 100% if the participant complies with certain provisions. The federal government reimburses the University for amounts cancelled under these provisions.

As the University determines that loans are uncollectible and not eligible for reimbursement by the federal government, the loans are written off and assigned to the U.S. Department of Education. The University has provided an allowance for uncollectible loans, which, in management's opinion, is sufficient to absorb loans that will ultimately be written off. At June 30, 2010, the allowance for uncollectible loans was estimated to be \$ 356,479.

NOTE 11 - Retirement Plans

University employees participate in two separate retirement programs. Classified employees participate in the "Kansas Public Employees Retirement System" (KPERS). This defined benefit program is funded through contributions by the University and the individual employees. The University contributed \$707,817 during fiscal year 2010 and individual employees contributed \$379,763. Unclassified employees participate in the "Board of Regents Retirement Program". This defined contribution program is funded through contributions by the University and the individual employees. The University contributed \$2,254,644 during fiscal year 2010 and individual employees contributed \$1,447,473.

NOTE 12 - Commitments and Contingent Liabilities

The University, as a state educational institution of Kansas, is subject to the State of Kansas self-insurance program with regard to comprehensive general liability and personal injury insurance. The University is covered by the State's umbrella insurance policies for automobile liability and property insurance. The university maintains specific insurance coverage as allowed by the State of Kansas and as required by outstanding revenue bond issues. Also, the University is self-insured relative to worker's compensation, medical and unemployment insurance.

In the normal course of operations, the University receives grants and other forms of reimbursement from various Federal and State agencies. These activities are subject to audit by agents of the funding authority, the purpose of which is to ensure compliance with conditions precedent to providing of such funds. University officials believe that the liability, if any, for any reimbursement that may arise as the result of audits, would not be material.

The University is currently a defendant in a lawsuit. However, University officials are of the opinion that the ultimate outcome of the litigation will not have a material effect on the future operations or financial position of the University.

NOTE 14 – Other Postemployment Healthcare Benefits

Description. Kansas statute provides that postemployment healthcare benefits be extended to retired employees who have met age and/or service eligibility requirements. The health insurance benefit generally provides the same coverage for retirees and their dependents as for active employees and their dependents. The health insurance benefit plan is a single employer defined benefit plan administered by Kansas Health Policy Authority. The benefit is available for selection at retirement and is extended to retirees and their dependents for life. Non-Medicare participants are subsidized by the State, thus resulting in a liability to the State. The accounting for the health insurance for retirees is included in the State's Self-Insurance Health fund, with the subsidy provided from the Self-Insurance Health fund.

Funding Policy. The University provides health insurance benefits to retirees and their dependents in accordance with Kansas law (K.S.A. 12-5040). Kansas statute, which may be amended by the state legislature, established that participating retirees contribute to the employee group health fund benefits plan, including administrative costs.

The University appropriates funds annually for the costs associated with this retirement benefit and provides funding for the expenditure on a pay-as-you-go basis through the Self Insurance Fund.

Annual OPEB Cost and Net OPEB Obligation. The University's annual OPEB (Other Post Employment Benefits) cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period of not to exceed thirty years. The following table presents the components of the University's annual OPEB cost for the year, the University's contribution to the plan, and changes in the University's net OPEB obligation.

FOR THE YEAR ENDED JUNE 30, 2010

Funded Status and Funding Progress. As of June 30, 2010, the most recent actuarial valuation date, the actuarial accrued liability for benefits was \$3,912,265. The University's policy is to fund the benefits on a pay as you go basis, resulting in an unfunded actuarial accrued liability (UAAL) of \$3,912,265. The covered payroll (annual payroll of active employees covered by the plan) was \$42,162,818, and the ratio of the UAAL to the covered payroll was 8 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. The valuation includes, for example, assumptions about future employment, mortality and the healthcare cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of employer are subject to continual revision as actual results are compared with the past expectations and new estimates are made about the future. The schedule of funding progress will present in time, multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing relative to the actuarial accrued liabilities for benefits.

Schedule of Funding Progress:

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) (b)	Unfunded AAL (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percent of Covered Payroll ((b-a)/c)
6/30/2008	\$0	\$4,780,580	\$4,780,580	0%	\$40,972,711	12%
6/30/2009	\$0	\$3,321,442	\$3,321,442	0%	\$42,723,148	8%
6/30/2010	\$0	\$4,311,362	\$4,311,362	0%	\$42,162,818	10%

Actuarial Methods and Assumptions. Projections of benefits for reporting purposes are based on the substantive plan and include the types of benefits provided at the time of valuation and the historical pattern of sharing of benefit cost between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and actuarial value of assets, consistent with the long-term perspective of the calculations.

In the June 30, 2010, actuarial valuation, the projected unit credit method was applied. The actuarial assumptions included a 3.85 percent investment rate of return, which is a blended rate of the expected long-term investment returns on the State's pooled funds and investments. The valuation assumed annual healthcare cost trend rates of 5.5 to 10 percent in the first ten years and an ultimate rate of 5.0 percent after ten years. The valuation followed generally accepted actuarial methods and included tests as considered necessary to assure the accuracy of the results. The UAAL is being amortized over a 30 year open period in level dollar amounts.

NOTE 15- Other Grants, Revenues

The June 30, 2010, and 2009, Statement of Revenues, Expenses and Changes in Net Assets reflect Pell and SEOG Grant restated from Federal Grants and Contracts to Non-Operating Revenues and Expenditures, listed as Other Federal Grants and Contracts. The grant amounts restated are \$9,489,172 for June 30, 2010, and \$6,282,470 for June 30, 2009. Scholarships and Fellowships in the Operating Expenses section have been restated accordingly. This is being done to promote uniformity in reporting between this financial report and the integrated postsecondary education data system (IPEDS) and in following GASB's Comprehensive Implementation Guide as stated in the June 30, 2007, edition.

Statement of Revenues, Expenses and Changes in Net Assets also reflects a restatement of revenues from Other operating revenue to Other non-operating revenue (expenses) in the amount of \$1,905,760.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2010

The following Management's Discussion and Analysis (MD&A) provides an overview of the financial performance of Fort Hays State University (the "University") based on currently known facts, decisions and conditions and is designed to assist readers in understanding the accompanying financial statements. These financial statements are prepared in accordance with Government Accounting Standards Board (GASB) principles, with the exception of GASB Statement No. 39, Determining Whether Certain Organizations Are Component Units. The University has made the decision not to include the Fort Hays State University Foundation, formerly the Fort Hays State University Endowment Association, within its unaudited financial statements. This discussion – along with the financial statements and related footnote disclosures – has been prepared by and is the responsibility of management.

USING THIS ANNUAL REPORT

This report consists of the three financial statements, the Statement of Net Assets, the Statement of Revenues, Expenses, and Changes in Net Assets, and the Statement of Cash Flows. These financial statements are prepared in accordance with Governmental Accounting Standards Board (GASB) Statement 35, Basic Financial Statements—and Management's Discussion and Analysis—for Public Colleges and Universities, as amended by GASB Statements 37 and 38. These new standards changed the focus of our financial statements to a comprehensive one-look at the University as a whole. The notes to the financial statements present additional information to further define the financial statements.

STATEMENT OF NET ASSETS

The Statement of Net Assets presents the assets, liabilities, and net assets of the University at a point in time (at the end of the fiscal year). Its purpose is to present a financial snapshot of the University. The statement of net assets includes all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector institutions. Under the accrual basis of accounting all of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

Within the Statement of Net Assets, assets and liabilities are further classified as current or non-current. Current classification distinguishes those assets that are highly liquid and available for immediate and unrestricted use by the University, and those liabilities likely to be settled in the next 12 months.

Net assets are divided into three categories:

1. **Invested in capital assets, net of debt**, indicates the university's equity in property, plant, and equipment owned by the University.
2. **Restricted net assets** are further divided into two subcategories, non-expendable and expendable. The corpus of non-expendable restricted resources is only available for investment purposes. Expendable restricted net assets are available for expenditure by the University but must be spent for purposes as determined by donors and/or external entities who have placed time or purposes restrictions on the use of the assets.
3. **Unrestricted net assets** are available to the University for any lawful purpose of the institution.

Total Assets at June 30, 2010 were \$118,018,640 an increase of \$6,771,498 (6.0%). Capital assets, net of depreciation, comprised 55.1 %, or \$65,065,922 of the \$118,018,640 in total assets.

Total liabilities were \$22,919,595 at June 30, 2010, a decrease of \$1,451,329 (5.9%) compared to \$24,370,914 at June 30, 2009. Long-term liabilities comprised 54.8%, or \$12,575,570 of the total liabilities.

Total net assets at June 30, 2010 were \$ 95,099,040, a \$8,228,815 increase over the prior year, or a 9.4% increase in net assets. The breakout of net assets is shown below:

STATEMENT OF REVENUES, EXPENSES, AND CHANGES IN NET ASSETS

The Statement of Revenues, Expenses and Changes in Net Assets presents the total revenues earned and expenses incurred by the University for operating, non-operating and other related activities during a period of time. Its purpose is to assess the University's operating results.

Revenues

Operating revenues at the University as of June 30, 2010 increased by 6.8% over the previous fiscal year. The following is a brief summary of the significant changes:

- Student fee revenues, after scholarship allowances, were \$33.9 million in 2010, compared to \$30.3 million in 2009. This increase is in part a result of a 7.5% tuition increase approved by the Kansas Board of Regents for fiscal year 2010. The goal of the tuition increase, which was the result of collaboration between University administration & University students, was to provide additional funds to the University to improve or enhance student education and services. Reasonable tuition charges and a continued effort to expand our Virtual College on the national and international level resulted in a 19.9% increase in Virtual College headcount from the Fall of 2008 to the Fall of 2009.

Total non-operating revenues remained even, when comparing FY2010 \$44.9million to FY2009 \$44.7million. State appropriations, the largest source of revenue at the University, decreased 5.3% from \$35.0 million to \$33.1 million. This decline was offset by a 51.0% increase in Student Financial Aid from \$6.3 million in FY2009 to \$9.5 million in FY 2010.

In summary, total revenues increased by \$3.0 million, from \$93.0 million to \$96.0 million, an overall increase of 3.2%. The compositions of these revenues are displayed in the following graph:

Expenses

Operating expenses were \$89.9 million for the 2010 fiscal year compared to \$84.0 million for the 2009 fiscal year. The main part of this increase was seen in the amount of Student Financial Aid awarded. FY2010 disbursed Student Financial Aid increased by 39.7% over the prior year. This increase in Student Financial Aid disbursements is directly related to the decline of the economy in the state of Kansas.

Non-operating expenses are comprised of the investment of bond reserve funds, bond interest expense, the student loan program, and other non capitalized expenditures.

The composition of total expenses, including operating and non-operating are displayed below:

By Program:

By Natural Classification:

Extraordinary Items

The University did not have any special and extraordinary items in 2010.

Foundation Expenses Paid On Behalf of University

The Fort Hays State University Foundation (FHSUF), a separate not-for-profit organization whose primary mission is to raise funds for the University, provides direct and indirect support to the University that is not entirely reflected in the University's Statement of Revenues, Expenses and Changes in Net Assets. Expense items paid on behalf of the University by FHSUF include expenses such as equipment, miscellaneous office expenses and travel. Total University support provided by FHSUF equaled approximately \$45,884 and \$43,224 in 2010 and 2009, respectively.

Net Assets

Net assets increased by \$8,222,814 over the previous fiscal year. This increase is primarily a result of an increase in capital assets, net of depreciation and an increase in tuition and fees mainly due to an increase in Virtual College enrollment.

STATEMENT OF CASH FLOWS

The Statement of Cash Flows presents cash receipts and payments of the University during a period of time. Its purpose is to assess the University's ability to generate future net cash flows and meet its obligations as they come due.

CASH FLOWS FOR THE PERIOD:

	June 30, 2010	June 30, 2009
Net cash provided (used) by:		
Operating activities	\$(35,729,888)	\$(33,456,570)
Non-capital financing activities	42,574,659	41,366,803
Capital and related financing activities	(1,513,111)	(2,511,351)
Investing activities	374,138	59,930
Net increase in cash	5,705,798	5,458,812
Beginning cash and cash equivalent balances	37,532,850	32,074,038
Ending cash and cash equivalent balances	\$ 43,238,648	\$ 37,532,850

Net cash provided/used by operating activities includes tuition and fees, grant and contract revenues, auxiliary enterprise revenues, sales of educational activities, and payments to employees and suppliers. Cash flows from operating activities will always be negative since GASB requires state appropriations to be reported as cash flows from non-capital financing activities. Cash flows from capital financing activities include all plant funds and related long-term debt activities. Cash flows from investing activities show all uses of cash and cash equivalents to purchase investments, and all increases in cash and cash equivalents as a result of selling investments or earning income on cash and investments.

CAPITAL ASSETS

The University continued to invest in capital assets during the 2010 fiscal year. Detailed information regarding capital asset additions, retirements & depreciation is available in Note 6 to the financial statements.

DEBT ADMINISTRATION

At June 30, 2010, the University had \$11.5 million in debt outstanding.

Debt was issued in fiscal year 2003 to finance the redemption of outstanding Housing System Revenue Bonds, Series E 1994, in the amount of \$1,332,071; the redemption of outstanding Lewis Field Stadium Revenue Bonds, Series C 1993, in the amount of \$582,877; and to finance the new Housing System Revenue Bonds, Series 2003 D-1, in the amount of \$3,600,000 and to finance the new Lewis Field Revenue Bonds, Series 2003 D-2, in the amount of \$748,000. The new Housing System Revenue Bonds, Series 2003 D-1, in the amount of \$3,600,000 were processed for redemption and defeasance during FY 2010 and are no longer outstanding.

The bonds have been assigned a rating of "AAA" by Standard & Poor's Ratings Services, on the basis of the Financial Guaranty Insurance Policy issued with respect to the Bonds by Ambac Assurance. In addition, Standard and Poor's Ratings Services has assigned the Bonds an underlying rating of "A-". More detailed information about the University's long-term liabilities is available in Notes 8 and 9 to the financial statements.

Debt in the amount of \$4,887,055 was incurred during the 2005 fiscal year to finance the Energy Improvement Conservation Project. This project was part of a state wide energy endeavor to reduce energy and related costs for the Regent's system. Anticipated energy savings are expected to pay the semi-annual debt payments. The debt is setup on a 16.5 year payout terminating October 1, 2021.

Debt in the amount of \$7,790,000 was incurred during the 2006 fiscal year to finance the Memorial Union Renovation Project. \$7,205,000 in non-taxable Series 2005G-1 and \$585,000 in taxable Series 2005G-2 Revenue Bonds were issued.

Standard and Poor's Ratings Services has assigned the Bonds an underlying rating of "A-". More detailed information about the University's long-term liabilities is available in Notes 8 and 9 to the financial statements.

ECONOMIC OUTLOOK

The State of Kansas provided approximately 37% of the total resources for the University during fiscal year 2010. Appropriations for fiscal year 2010 were set at \$33.1 million representing an approximate 5.3% decrease from fiscal year 2009. State of Kansas revenues have been projected to be down in FY2011 and possibly into FY2012. The University's administration has developed a four step strategy of reducing operating costs by implementing efficiencies, making cuts in the budgets of offices and departments, generating new revenue through enrollment growth, and instituting marginal increases in tuition.

Enrollment for the academic 2010-2011 year is expected to increase due to our continued efforts to maintain affordable tuition rates which continue to be the lowest in the Kansas Regent's system. Continued regional and international recruitment will show increases in headcount in our virtual college and on campus during the next several years.

FORT HAYS STATE UNIVERSITY
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America with the exception of GASB Statement No. 39, Determining Whether Certain Organizations Are Component Units. Fort Hays State University has made the decision not to include the Fort Hays State University Foundation, formerly the Fort Hays State University Endowment Association, within the University's financial statements. The financial statements have not been audited.

In preparing financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amount of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Organization. Fort Hays State University (University) is a regional university principally serving western Kansas. The University's primary emphasis is undergraduate liberal education, which includes the humanities, the fine arts, the social/behavioral sciences and the natural/physical sciences. The University, located in Hays, Kansas, has an undergraduate enrollment of approximately 10,317 and a graduate enrollment of approximately 1,566. The University is accredited by the North Central Association of Colleges and Schools, is governed by the Kansas Board of Regents and is an agency of the State of Kansas. As an agency of the State of Kansas, the University is included in the financial report of the State of Kansas.

Financial Reporting Entity. As required by accounting principles generally accepted in the United States of America, these financial statements present the combined financial position and financial activities of the University and the following blended component units: the Fort Hays State University Alumni Association, the Fort Hays State University Athletic Association and the Sternberg Museum Foundation.

A blended component unit is an entity that is legally separate from the University, but is so intertwined with the University that it is, in substance, part of the University. Such entities are reported as part of the University (i.e., they are blended into the statements of the University).

The financial activity and balances of the Fort Hays State University Foundation are not included in the financial statements of the University as the Foundation is a legally separate entity and the University does not appoint a voting majority of the Foundation's governing body.

Basis of Accounting. For financial reporting purposes, the University is considered a special-purpose government engaged only in business-type activities. Accordingly, the University's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All significant intra-agency transactions have been eliminated.

The University has the option to apply all Financial Accounting Standards Board (FASB) pronouncements issued after November 30, 1989, unless FASB conflicts with GASB. The University has elected to not apply FASB pronouncements issued after the applicable date.

Cash Equivalents. For purposes of the statement of cash flows, the University considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

Investments. The University accounts for its investments at fair value in accordance with GASB Statements No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. Changes in unrealized gain (loss) on the carrying value of investments are reported as a component of investment income in the Statement of Revenues, Expenses, and Changes in Net Assets.

Accounts Receivable. Accounts receivable consists of tuition and fee charges and auxiliary enterprise services provided to students. Accounts receivable also include amounts due from the Federal government, state and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the University's grants and contracts. Accounts receivable are recorded net of estimated uncollectible amounts.

Inventories. Inventories are carried at cost.

Noncurrent Cash and Investments. Cash and investments that are externally restricted to make debt service payments, maintain sinking or reserve funds, or to purchase or construct capital or other noncurrent assets, are classified as noncurrent assets in the Statements of Net Assets.

Capital Assets. Capital assets are recorded at cost at the date of acquisition, or fair market value at the date of donation in the case of gifts. For equipment, the University's capitalization policy includes all items with a unit cost \$5,000 or more, and an

FORT HAYS STATE UNIVERSITY
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010

estimated useful life of greater than one year. Renovations to buildings, infrastructure, and land improvements that significantly increase the value or extend the useful life of the structure are capitalized if the related project cost exceeds \$100,000. Routine repairs and maintenance are charged to operating expense in the year in which the expense was incurred.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, 25 years for infrastructure and land improvements, 8 years for equipment, and 5 years for vehicles. Depreciation for buildings is computed using a componentized building depreciation study.

Deferred Revenues. Deferred revenues include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year but related to the subsequent accounting period. Deferred revenues also include summer school tuition not earned during the current year and amounts received from grant and contract sponsors that have not yet been earned.

Compensated Absences. Employee vacation pay is accrued at year-end for financial statement purposes. The liability and expense incurred are recorded at year-end as accrued compensated absences in the Statement of Net Assets, and as an expense in the Statement of Revenues, Expenses, and Changes in Net Assets.

Deposits Held In Custody For Others. Deposits held in custody for others consists primarily of student organizations' monies administered by the University.

Noncurrent Liabilities. Noncurrent liabilities include principal amounts of revenue bonds payable, capital lease obligations with contractual maturities greater than one year, and estimated amounts for accrued compensated absences that will not be paid within the next fiscal year.

Net Assets. The University's net assets are classified as follows:

Invested in capital assets, net of related debt: This represents the University's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets such amounts are not included as a component of invested in capital assets, net of related debt.

Restricted net assets – expendable: Restricted expendable net assets include resources in which the University is legally or contractually obligated to spend resources in accordance with restrictions imposed by external third parties.

Restricted net assets – nonexpendable: Restricted nonexpendable net assets consist of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal.

Unrestricted net assets: Unrestricted net assets represent resources derived from student tuition and fees, state appropriations, and sales and services of educational departments. These resources are used for transactions relating to the educational and general operations of the University, and may be used at the discretion of the governing board to meet current expenses for any purpose. These resources also include auxiliary enterprises, which are substantially self-supporting activities that provide services for students, faculty, and staff.

Tax Status. As a state institution of higher education, the income of the University is generally exempt from federal and state income taxes under Section 115(a) of the Internal Revenue Code; however, income generated from activities unrelated to the University's exempt purpose is subject to income taxes under Internal Revenue Code Section 511(a)(2)(B).

Classification of Revenues. The University has classified its revenues as either operating or nonoperating revenues according to the following criteria:

Operating revenues: Operating revenues include activities that have the characteristics of exchange transactions, such as 1) student tuition and fees, net of scholarship discounts and allowances, 2) sales and services of auxiliary enterprises, 3) most federal, state and local grants and contracts, and 4) interest on institutional student loans.

Nonoperating revenues: Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as gifts and contributions, and other revenue sources that are defined as nonoperating revenues by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*, and GASB Statement No. 35, such as state appropriations and investment income.

Scholarship Discounts and Allowances. Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship discounts and allowances in the Statement of Revenues, Expenses, and Changes in Net Assets. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the University, and the amount that is paid by students and/or third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants, and other federal, state, or nongovernmental programs, are recorded as either

operating or nonoperating revenues in the University's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the University has recorded a scholarship discount and allowance.

NOTE 2 –Cash, Cash Equivalents, and Investments

Cash and Cash Equivalents: The carrying amount of the University's deposits with the State Treasurer and other financial institutions at June 30, 2010 and 2009 was \$43,238,648 and \$37,532,850, respectively.

Investments: Of Fort Hays State University's total investments of \$1,162,867, \$192,852 is administered by the Fort Hays State University Alumni Association and \$249,752 is held in certificates of deposit for the student activity accounts. The Kansas Development Finance Authority invests \$720,263 of the total. These monies represent bond reserve requirements.

NOTE 3 - Accounts Receivable

Accounts receivable net of estimated uncollectible amounts, consisted of the following at June 30, 2010:

Tuition & Fees	\$	680,559
Auxiliary		107,346
Grants & Contracts		94,274
Other		<u>16,729</u>
	\$	<u>898,908</u>

NOTE 4 – Inventories

inventories consisted of the following at June 30, 2010:

Museum Store	\$	61,047
Physical Plant		15,735
Office Supplies		75,918
Other		<u>16,565</u>
	\$	<u>169,265</u>

NOTE 5 - Loans to Students

Student loans made through the Federal Perkins Loan Program comprise substantially all of the loans to students at June 30, 2010. The Program provides for cancellation of a loan at rates of 10% to 30% per year up to a maximum of 100% if the participant complies with certain provisions. The federal government reimburses the University for amounts cancelled under these provisions.

As the University determines that loans are uncollectible and not eligible for reimbursement by the federal government, the loans are written off and assigned to the U.S. Department of Education. The University has provided an allowance for uncollectible loans, which, in management's opinion, is sufficient to absorb loans that will ultimately be written off. At June 30, 2010, the allowance for uncollectible loans was estimated to be \$ 356,479.

NOTE 11 - Retirement Plans

University employees participate in two separate retirement programs. Classified employees participate in the "Kansas Public Employees Retirement System" (KPERS). This defined benefit program is funded through contributions by the University and the individual employees. The University contributed \$707,817 during fiscal year 2010 and individual employees contributed \$379,763. Unclassified employees participate in the "Board of Regents Retirement Program". This defined contribution program is funded through contributions by the University and the individual employees. The University contributed \$2,254,644 during fiscal year 2010 and individual employees contributed \$1,447,473.

NOTE 12 - Commitments and Contingent Liabilities

The University, as a state educational institution of Kansas, is subject to the State of Kansas self-insurance program with regard to comprehensive general liability and personal injury insurance. The University is covered by the State's umbrella insurance policies for automobile liability and property insurance. The university maintains specific insurance coverage as allowed by the State of Kansas and as required by outstanding revenue bond issues. Also, the University is self-insured relative to worker's compensation, medical and unemployment insurance.

In the normal course of operations, the University receives grants and other forms of reimbursement from various Federal and State agencies. These activities are subject to audit by agents of the funding authority, the purpose of which is to ensure compliance with conditions precedent to providing of such funds. University officials believe that the liability, if any, for any reimbursement that may arise as the result of audits, would not be material.

The University is currently a defendant in a lawsuit. However, University officials are of the opinion that the ultimate outcome of the litigation will not have a material effect on the future operations or financial position of the University.

NOTE 14 – Other Postemployment Healthcare Benefits

Description. Kansas statute provides that postemployment healthcare benefits be extended to retired employees who have met age and/or service eligibility requirements. The health insurance benefit generally provides the same coverage for retirees and their dependents as for active employees and their dependents. The health insurance benefit plan is a single employer defined benefit plan administered by Kansas Health Policy Authority. The benefit is available for selection at retirement and is extended to retirees and their dependents for life. Non-Medicare participants are subsidized by the State, thus resulting in a liability to the State. The accounting for the health insurance for retirees is included in the State's Self-Insurance Health fund, with the subsidy provided from the Self-Insurance Health fund.

Funding Policy. The University provides health insurance benefits to retirees and their dependents in accordance with Kansas law (K.S.A. 12-5040). Kansas statute, which may be amended by the state legislature, established that participating retirees contribute to the employee group health fund benefits plan, including administrative costs.

The University appropriates funds annually for the costs associated with this retirement benefit and provides funding for the expenditure on a pay-as-you-go basis through the Self Insurance Fund.

Annual OPEB Cost and Net OPEB Obligation. The University's annual OPEB (Other Post Employment Benefits) cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period of not to exceed thirty years. The following table presents the components of the University's annual OPEB cost for the year, the University's contribution to the plan, and changes in the University's net OPEB obligation.

FORT HAYS STATE UNIVERSITY
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010

Funded Status and Funding Progress. As of June 30, 2010, the most recent actuarial valuation date, the actuarial accrued liability for benefits was \$3,912,265. The University's policy is to fund the benefits on a pay as you go basis, resulting in an unfunded actuarial accrued liability (UAAL) of \$3,912,265. The covered payroll (annual payroll of active employees covered by the plan) was \$42,162,818, and the ratio of the UAAL to the covered payroll was 8 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. The valuation includes, for example, assumptions about future employment, mortality and the healthcare cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of employer are subject to continual revision as actual results are compared with the past expectations and new estimates are made about the future. The schedule of funding progress will present in time, multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing relative to the actuarial accrued liabilities for benefits.

Schedule of Funding Progress:

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) (b)	Unfunded AAL (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percent of Covered Payroll ((b-a)/c)
6/30/2008	\$0	\$4,780,580	\$4,780,580	0%	\$40,972,711	12%
6/30/2009	\$0	\$3,321,442	\$3,321,442	0%	\$42,723,148	8%
6/30/2010	\$0	\$4,311,362	\$4,311,362	0%	\$42,162,818	10%

Actuarial Methods and Assumptions. Projections of benefits for reporting purposes are based on the substantive plan and include the types of benefits provided at the time of valuation and the historical pattern of sharing of benefit cost between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and actuarial value of assets, consistent with the long-term perspective of the calculations.

In the June 30, 2010, actuarial valuation, the projected unit credit method was applied. The actuarial assumptions included a 3.85 percent investment rate of return, which is a blended rate of the expected long-term investment returns on the State's pooled funds and investments. The valuation assumed annual healthcare cost trend rates of 5.5 to 10 percent in the first ten years and an ultimate rate of 5.0 percent after ten years. The valuation followed generally accepted actuarial methods and included tests as considered necessary to assure the accuracy of the results. The UAAL is being amortized over a 30 year open period in level dollar amounts.

NOTE 15- Other Grants, Revenues

The June 30, 2010, and 2009, Statement of Revenues, Expenses and Changes in Net Assets reflect Pell and SEOG Grant restated from Federal Grants and Contracts to Non-Operating Revenues and Expenditures, listed as Other Federal Grants and Contracts. The grant amounts restated are \$9,489,172 for June 30, 2010, and \$6,282,470 for June 30, 2009. Scholarships and Fellowships in the Operating Expenses section have been restated accordingly. This is being done to promote uniformity in reporting between this financial report and the integrated postsecondary education data system (IPEDS) and in following GASB's Comprehensive Implementation Guide as stated in the June 30, 2007, edition.

Statement of Revenues, Expenses and Changes in Net Assets also reflects a restatement of revenues from Other operating revenue to Other non-operating revenue (expenses) in the amount of \$1,905,760.
