

Framery One

The connected one

Framery One, our first digital soundproof pod. Framery One is not only stylish and super smart, it incorporates the latest technology, leading sound insulation standards and echo-free acoustics. You can look forward to a highly adaptable workspace where you won't be disturbed by outside noise or distractions and can enjoy best-in-class design while you focus on your next project.

Stepping into the pod, Framery One's occupancy light will display a red light with **360° visibility** to let the office know the pod is in use. Using the **pod's touch-screen**, the user is able to adjust the airflow and brightness of the lights according to his/her own preferences. With Framery One's integrated 4G module, the user will always stay connected. **Calendar integration** allows reservations for the pod from the user's laptop. **Seamless connection** between the pod, user and Framery. Whether it's about new features, calendar issues, updates or maintenance requests – everything can be handled remotely or digitally.

Outlet

1 power socket + USB-C socket + optional LAN port (extra cost)

Adjust airflow & brightness of the light according to your own preference from the touchscreen. See both the availability of the pod and/or book a reservation (by using the optional calendar integration) from your own laptop or phone or just walk in and the pod reserves itself automatically for you. Integrated 4G technology module enables three way communication between you, the pod and Framery. Whether it's about calendar reservation, pod maintenance, updates or notifications, all matters related to the Framery One pod are handled remotely (digitally).
