What is Tungstenite?

Tungstenite is a substantially strong, hard wearing coating that is applied to the reverse of the bath, making it as durable as a cast iron bath but with the warmer and easier to maintain finish of acrylic.

What are the benefits?

- > Much stronger than acrylic.
- > Retains heat for approximately 30 minutes longer than acrylic.
- > Improved bath stability and rigidity.
- > Increased durability resulting in a longer lifespan.

Look out for the Tungstenite logo
