## Clean Desk 2.0

Efficient and ergonomic working in the modern office environment

The FUJITSU Clean Desk 2.0 is the newest office work concept offering the perfect balance between efficient and ergonomic working. It is the evolution of the Clean Desk 1.0 and features a 50% reduction in cables comparing to its predecessor. Due to the integration of a vendor independent USB Type-C, only one cable is needed for power delivery and data transfer. The office solution was developed in cooperation with leading institutes for workplace design, such as the Fraunhofer Institute. The focus was on developing a workplace that provides the option of using the latest technologies in combination with a shared desk environment for employees in a company. Among other things, this was realized with an innovative, performance-enhancing docking concept providing the Clean Desk with maximum flexibility. In addition, the Green IT concept of the entire Fujitsu portfolio is reflected in the Clean Desk and thus contributes significantly to considerable energy and CO2 savings.

### Ergonomics

The workplace adapts to the user – not the other way round.

- The HAWORTH® table is infinitely adjustable in height
- Thanks to the height-adjustable functional arms from adapt®, displays can be positioned to suit user requirements

### Energy savings

The entire solution embraces the Green IT concept.

- All devices electrically connected to the Clean Desk can be fully powered off using just one switch
- Presence sensor: The workplace automatically detects when the user is not present and switches to power-saving mode

### Flexibility

The entire workplace has a modular design.

- Customize your Clean Desk to suit your requirements
- Supports all FUJITSU Client Computing Devices
- Supports all FUJITSU Displays

### Modern workplace concepts from Fujitsu

The Clean Desk solution aims to create a fully digital office that is equipped for flexible shared desk usage without restricting users, while delivering many ergonomic advantages.

- adapt® monitor arms enable flexible monitor positioning, e.g. to facilitate the editing of digital documents
- Universal docking concept – straightforward connection of various client computing devices possible
- No untidy cables – loose connection cables can be hidden in the power strip
- Compact connections – required connections are neatly integrated into the power strip

# Components

The FUJITSU Clean Desk is a modular system. This means that you can customize your personal Clean Desk to suit your requirements. To achieve this, Fujitsu relies on close collaboration with adapt®, EVOLINE® and HAWORTH® – partners that are well known for maximum ergonomics in the workspace environment.

The table below shows a summary of components, which might be used to configure the FUJITSU Clean Desk. Our team of consultants at Fujitsu will of course be more than happy to assist you in designing your ideal workplace.

Component	Order No.	Benefits
<b>Client Computing Devices options</b>		
<ul style="list-style-type: none"> <li>■ FUJITSU mobiles and tablets (portable)</li> <li>■ FUJITSU ESPRIMO PC`s</li> </ul>	<ul style="list-style-type: none"> <li>Various</li> <li>Various</li> </ul>	<ul style="list-style-type: none"> <li>■ Office tablets, mobiles and desktops featuring the latest-generation Intel® processors and the best service options (e.g. replaceable battery)</li> <li>■ Optimized for clean desk/shared desk usage</li> </ul>
<b>Suitable Display Combinations*</b>		
<ul style="list-style-type: none"> <li>■ 1x FUJITSU Display P24-8 TE Pro (white / 16:9) AND</li> <li>■ 1x FUJITSU Display B24-8 TE Pro (white / 16:9)</li> </ul>	<ul style="list-style-type: none"> <li>S26361-K1593-V140</li> <li>S26361-K1577-V140</li> </ul>	<ul style="list-style-type: none"> <li>■ Two monitors for the ergonomic display of multiple applications (e.g. specialist applications)</li> <li>■ 27" display format with UHD resolution for special applications</li> </ul>

<b>Docking station</b>		
<ul style="list-style-type: none"> <li>■ FUJITSU Workplace Connect Kit 2.0</li> <li>■ Innovative power strip with an integrated USB port replicator</li> </ul>	<ul style="list-style-type: none"> <li>BDL:F6055L720-DE</li> </ul>	<ul style="list-style-type: none"> <li>■ All relevant PC connections are conveniently located on the table work surface</li> <li>■ A proactive USB port replicator ensures consistent workplace performance regardless of the connected notebook/tablet</li> </ul>
<ul style="list-style-type: none"> <li>■ USB-A to USB-C Adapter (1 piece per order / Connects previous Notebooks with USB-C peripherals)</li> </ul>	<ul style="list-style-type: none"> <li>S26391-F6058-L102</li> </ul>	<ul style="list-style-type: none"> <li>■ All devices electrically connected to the Clean Desk can be powered down with just one switch</li> </ul>
<ul style="list-style-type: none"> <li>■ USB-A to USB-C Adapter (20 pieces in one box / (Connects previous Notebooks with USB-C peripherals)</li> </ul>	<ul style="list-style-type: none"> <li>S26391-F6058-L122</li> </ul>	<ul style="list-style-type: none"> <li>■ The computer is simply connected to the Clean Desk using a single USB 3.0 cable</li> <li>■ A real Clean Desk: On leaving the workplace and disconnecting the computer, no cables are left on the work surface</li> </ul>
<b>Monitor arms &amp; Dual Monitor Stand</b>		
<ul style="list-style-type: none"> <li>■ ADAPT Dual Display Holder, mini clamp (Monitor arm for two (touch) displays)</li> </ul>	<ul style="list-style-type: none"> <li>S26391-F6056-L120</li> </ul>	<ul style="list-style-type: none"> <li>■ The SpaceArm allows the position of the monitors to be adapted to the user</li> </ul>
<ul style="list-style-type: none"> <li>■ ADAPT Dual Display Holder, grommet mount (Monitor arm for two (touch) displays)</li> </ul>	<ul style="list-style-type: none"> <li>S26391-F6056-L121</li> </ul>	<ul style="list-style-type: none"> <li>■ A real Clean Desk: No monitor stands on the table – more space for ergonomic working</li> <li>■ Numerous configuration options: Horizontal and vertical, tablet mode</li> </ul>
<ul style="list-style-type: none"> <li>■ Dual Monitor Stand</li> </ul>	<ul style="list-style-type: none"> <li>S26361-F2601-L750</li> </ul>	<ul style="list-style-type: none"> <li>■ Designed to accommodate two displays of up to 27-inches and comes pre-assembled and ready to be used</li> </ul>
<b>Table</b>		
<ul style="list-style-type: none"> <li>■ HAWORTH® model variants</li> </ul>		<ul style="list-style-type: none"> <li>■ Infinitely height adjustable for maximum ergonomics</li> </ul>

*\*This only shows the combination of Displays from different kinds of types & series. Displays of the same type can of course always be bundled.*

## More Information

### Fujitsu products, solutions & services

In addition to the Clean Desk, Fujitsu offers a wide-ranging IT portfolio.

#### Products

<http://www.fujitsu.com/au/products/>

- Storage systems: ETERNUS®
- Servers: PRIMERGY®, PRIMEQUEST®, FUJITSU SPARC® M10, BS2000®/OSD Mainframe
- Client computing: LIFEBOOK®, STYLISTIC®, ESPRIMO®, FUTRO®, CELSIUS®
- Peripherals: displays, accessories
- Software
- Network

We recommend Product Support Services with various Service Level Agreements that protect each product and ensure smooth IT operations.

#### Solutions

<https://www.fujitsu.com/au/solutions/>

Fujitsu's solutions are a combination of reliable products, excellent services, in-depth expertise and worldwide partnerships. They cover one or more areas (e. g. planning, implementation, support, management and training services) and have been developed for specific business requirements.

**Infrastructure solutions** are offers where our best products, services and technologies are merged with those of our partners in order to generate business benefits for our customers.

**Branch solutions** are specifically tailor-made to meet the individual requirements of each branch.

**Business and technology solutions** offer a large number of solutions for a wide range of branches that handle corporate problems such as security and sustainability.

#### Services

<http://www.fujitsu.com/au/services/>

Various adaptable offers ensure that the IT solutions deliver considerable benefits and real business value. We use our comprehensive experience in managing complex IT transformation programs in order to support the customer in planning, providing and delivering IT services in a highly demanding and changing business environment.

**Application Services** support the development, integration, test, provision and administration of tailor-made and standard applications. The services enable companies to improve their business operations and productivity.

**Business Services** is aimed at the challenges involved in planning, providing and operating IT in a complex and changing IT environment.

**Managed Infrastructure Services** enable customers to implement an IT environment which meets their requirements: a high degree of IT service quality and service for data centers and end-user applications.

### Fujitsu Green Policy Innovation

<http://www.fujitsu.com/fts/about/fts/environment-care/>

- Fujitsu Green Policy Innovation is our worldwide project for reducing burdens on the environmental. Using our global know-how, we aim to resolve issues of environmental energy efficiency through IT.
