

Listino End User FUJITSU Support Pack Software

OTTOBRE 2018

INTRODUZIONE

Fujitsu offre, con i propri Support Pack Software, servizi di supporto per specifici prodotti software che includono la diagnosi dei difetti software e la loro eliminazione tramite soluzioni alternative e/o applicazione di correzioni software se disponibili. A seconda del tipo di software, possono essere fornite nuove versioni di software contenenti nuove funzionalità su richiesta del cliente.

Questo documento descrive le caratteristiche principali dei servizi di supporto; supplementi per lo specifico prodotto ed informazioni relative alle policy del ciclo di vita per ogni prodotto vengono descritte nelle Appendici Tecniche.

Lo scopo specifico del supporto acquistato è descritto nel certificato del Support Pack acquistato fornito al cliente.

FUJITSU SUPPORT PACK SOFTWARE

Il Support Pack Software è un contratto di supporto al Prodotto con durata predefinita.

I Fujitsu Support Packs possono essere acquistati entro 90 giorni dalla data di acquisto del prodotto con una durata contrattuale da 1 a 20 anni. Prima della scadenza, il periodo di supporto può essere esteso (fino ad una durata massima del contratto di 8 anni) con l'acquisto del corrispondente Support Pack Prolongation.

Il periodo contrattuale (periodo del servizio) decorre dalla data originale di acquisto del corrispondente prodotto software. Il servizio viene erogato solo a seguito della registrazione ed attivazione del Support Pack in accordo con il documento "Supplemental terms for Fujitsu Support Packs".

Dettagli sui servizi

LA NOSTRA OFFERTA DI SERVIZI

Le definizioni utilizzate successivamente sono valide a meno che non vengano descritte diversamente nelle Appendici Tecniche specifiche per il rispettivo prodotto software:

- **Supporto Tecnico**

Il supporto tecnico copre l'accettazione dei guasti e il supporto per la diagnostica degli errori e fornitura di potenziali soluzioni alternative iniziali tramite telefono o accesso remoto. Il supporto tecnico viene fornito remotamente.

- **Manutenzione Software**

Correzioni software e Patches

Le correzioni del software e le patch volte a eliminare i guasti vengono fornite a condizione che siano state rese disponibili dal rispettivo produttore software. Queste possono essere singole patch, pacchetti di patch o versioni di correzione a seconda del produttore. Qualsiasi informazione specifica necessaria è inclusa nell'appendice tecnica per il rispettivo prodotto software.

L'installazione delle correzioni del software non fa parte del contratto, ma può essere richiesto con fatturazione separata.

Nuove versioni software (updates/upgrades)

Le versioni del software con nuove funzioni sono rilasciate dai rispettivi produttori. Qualsiasi informazione specifica necessaria è inclusa nell'Appendice Tecnica per il rispettivo prodotto software. Un cliente ha diritto ad ottenere le nuove versioni software se è previsto dalla politica commerciale del produttore del software. Queste nuove versioni sono fornite, se disponibili, per il prodotto software oggetto del servizio e su richiesta del cliente.

L'installazione delle correzioni del software non fa parte del contratto, ma può essere richiesto con fatturazione separata.

SERVIZI NON INCLUSI NELLO SCOPO DEL SUPPORTO (ESCLUSIONI)

I backup, inclusi quelli delle applicazioni e del sistema operativo sono responsabilità esclusiva del cliente.

LIVELLI DI SERVIZIO

Il tempo di risposta remoto contrattualizzato dipende dalle opzioni di supporto selezionate.

- **Call acceptance**

Call acceptance

L'elenco dei Service Desk è disponibile su:
ts.fujitsu.com/servicedesk

Al termine della fase di accettazione della chiamata e della prequalifica, il problema viene accettato, viene assegnato un numero di chiamata ed il processo prosegue in accordo al livello di servizio previsto. La misura del tempo di risposta remota inizia dalla conferma dell'incident da parte del Help Desk.

Durante la chiamata devono essere specificati il prodotto/ tipo di licenza e l'identificativo per il rispettivo software ed il numero di contratto.

- **Service time**

Il periodo di servizio (service time) è il periodo contrattualmente previsto nel quale vengono erogati remotamente i servizi

Standard Service Time

Per verificare i dettagli nella nazione specifica:
<http://www.fujitsu.com/fts/support-local-terms>

- **Remote response time**

Il tempo di risposta remoto indica il periodo di tempo tra l'accettazione della chiamata e quello in cui uno specialista inizia a risolvere il problema tramite il telefono o accesso remoto.

Il tempo di risposta remoto inizia dopo che la chiamata viene accettata entro il periodo di servizio previsto; la misurazione del tempo viene interrotta al di fuori del periodo di servizio previsto. In altre parole, può essere interrotta fino al giorno successivo coperto dal periodo di servizio.

REMOTE SERVICE

Come parte dei servizi di supporto Fujitsu offre funzioni di accesso remoto affidabili che supportano una diagnosi dei guasti rapida ed efficiente e, se necessario, eliminano gli errori. L'accesso remoto a un sistema del cliente viene effettuato solo con l'approvazione del cliente, che può essere concessa in generale o caso per caso; di solito richiede l'accesso a Internet.

PREREQUISITI

I seguenti prerequisiti si applicano al contratto di supporto. Se uno o più prerequisiti non vengono soddisfatti, i servizi descritti potrebbero essere forniti in modo limitato o non essere forniti del tutto.

- **Accesso Remoto**

L'erogazione dei servizi di supporto legati ai Support Pack Software Fujitsu prevede che sia disponibile per Fujitsu l'accesso remoto ai sistemi. Se il cliente non desidera fornire qualsiasi accesso remoto o questo non può essere configurato per qualche altra ragione, i livelli di servizio concordati non possono essere sempre soddisfatti in ogni situazione.

- **Modifiche ai sistemi**

I servizi software di supporto Fujitsu possono essere forniti solo se il cliente fornisce a Fujitsu immediatamente e per iscritto i dettagli di tutte le modifiche al prodotto software oggetto del servizio (ad es. modifiche al modello di licenza). Nel caso di qualsiasi estensione, la stessa deve essere concordata ed inclusa nel contratto.

INFORMAZIONI LEGALI / TERMINI E CONDIZIONI GENERALI

Le caratteristiche dei prodotti, servizi e forniture descritti precedentemente rappresentano una lista complessiva delle caratteristiche dell'oggetto del contratto e non rappresentano una dichiarazione di qualità o garanzia a termini di legge.

Oltre al presente listino, valgono le seguenti condizioni commerciali generali e le condizioni di Fujitsu Technology Solutions nella rispettiva versione locale

(vedi <http://www.fujitsu.com/fts/support-local-terms>):

- "General terms and conditions for hardware and software support services of Fujitsu Technology Solutions"
- "Supplementary terms for Fujitsu Support Packs"

Opzioni

La tabella successiva fornisce una panoramica dei livelli di servizio disponibili. La disponibilità di uno specifico livello di servizio dipende dal rispettivo prodotto.

Opzioni	Support Pack Basic	Support Pack Classic
Service Time ⁽¹⁾	9 x 5 24 x 7	9 x 5 24 x 7
Remote Response Time	4h	4h
Fornitura di patches e correzioni software	Su richiesta se in contratto	Su richiesta se in contratto
Fornitura di nuove versioni software	Su richiesta se in contratto	Secondo quanto previsto dalle Appendici Tecniche

(1) Service Time

9 x 5 Orario lavorativo locale durante I giorni lavorativi locali eccetto festività pubbliche

Per maggiori dettagli vedere: <http://www.fujitsu.com/fts/support-local-terms>

24 x 7 Dal Lunedì alla Domenica, festività incluse, 24h continuative
