Touchscreen displays to captivate and collaborate with audiences of all types

The JTouch Family

InFocus
Collaboration That Works

Enrich and engage audiences in huddle spaces, classrooms, boardrooms, and beyond with the JTouch family of bright, colorful LCD touchscreen displays.

Available with a digital whiteboard or LightCast Technology for wireless casting and web browsing, JTouch provides amazing versatility and convenience, so you can collaborate at a moment's notice.

Brightness and Clarity

JTouch helps you get your message across and connect with your audience with incredible brightness, color, and clarity. Your images, text, and video will be seen from anywhere in the room, even in large spaces with high ambient light.
Engage Your Audience with Touch

Whether you're in a classroom, a boardroom, or at a trade show, the interactivity of JTouch engages audiences and encourages participation. JTouch gets students involved, attracts customers, and provides a great medium for testing and presenting touch-enabled applications.

Easy to Connect

JTouch provides multiple ways to display your content, including HDMI, VGA, and wireless via Lightcast Technology, available in select JTouch models. To enable touch, simply connect the JTouch to your computer via USB.

Choose from a variety of InFocus mobile carts so that you can move your JTouch from room to room- wherever it's needed most.

- 1080p display with accurate and responsive multi-touch
- Incredibly sharp 4K resolution now available on 80-inch model
- Interactive, bright, crisp content in any light
- Quickly connect and display your notebook via HDMI, VGA, and more
- Easily share your mobile device's screen on LightCast-enabled JTouch displays
- Built-in whiteboard and web browser (varies by model)
- Anti-glare models available

4K ULTRA HD

Bring Your Display to Life with 4K

The 80-inch JTouch now features 4K resolution for an incredibly sharp, vivid picture. Boost the impact of your content and make every meeting or presentation more engaging, informative, and memorable with 4K.

- More pixels mean more detail and depth for amazingly life-like images
- Enhanced color rendering
- Presenters benefit from crisp, clear images up close
- Audiences enjoy vibrant, detailed images, even from the back of a conference room

Draw or Write on a JTouch Whiteboard

Toss aside your stained dry erase board, and turn your display into a stand-alone, full-featured interactive whiteboard. The JTouch Whiteboard is available on all 40-inch and 65-inch models.

- Capture and save whiteboard notes electronically
- Email information directly from the whiteboard (INF4032, INF6501c, and INF6501cAG only)
- Comes with a complete collection of digital pens, highlighters, shapes, and lines in a spectrum of colors

LightCast Technology

Available in the INF4032, INF6501c, and INF6501cAG models, LightCast Technology invigorates your JTouch with wireless content sharing and collaboration tools, making meetings or lessons of all types more engaging and efficient.

Mirror the screen of your wireless device on the JTouch display in seconds—it's easy and fast for users inside your organization, as well as guests. Or, browse the web and access cloud-based content. The JTouch with LightCast is a powerful, all-in-one tool for collaboration and creativity.

Cast Your Screen
Don't huddle around a tiny laptop or tablet with your team. Wirelessly cast your device's screen and share your content in comfort.

- Works with Android, Windows, and Apple iOS and OSX devices*
- Cast using your device's native protocol - Miracast for Android or Windows, or AirPlay (Mirroring mode) for Apple*

Browse the Web
Access the world of online content and tools with LightCast's built-in web browser.

- Connect the JTouch to your network via WiFi or LAN
- Easily access cloud content using built-in bookmark settings
- Quickly access file sharing platforms, such as DropBox or Google Docs

Capture Ideas As They Occur with DigiEasel

At 40-inches, DigiEasel is the most versatile and portable member of the JTouch family—ensuring that you capture the next big idea, whenever or wherever it strikes.

Available as a stand-alone touchscreen and whiteboard (INF4030), DigiEasel allows you to draw, write, or capture notes on a vivid touch display in portrait or landscape mode.

Upgrade to DigiEasel with LightCast (INF4032) to add wireless content sharing and web browsing to your 40-inch display—all at a great value.
