

JTouch Interactive Displays

Touchscreens that enhance collaboration
& captivate audiences

JTouch Interactive Displays

Whether you're in a classroom or huddle space, a conference room or auditorium, there's a JTouch interactive display solution to fit your needs and engage your audience.

Full Touch Control

Display your PC, Mac, or Chromebook via HDMI or VGA & control it from the display via touch using a USB cable.

- Extend the reach of your computer's USB ports with easily-accessible USB ports on the display
- No calibration or special stylus means it's quick and easy to use with just your fingertips

High Brightness and HD Clarity

JTouch helps you get your message across and connect with your audience with incredible brightness, color and clarity. With 1080p and 4K resolution, your images, text and video will be seen and enjoyed even in large spaces with high ambient light.

Key Features

- Giant, high resolution touch display for a great price
- Incredibly sharp 4K resolution on 70-, 75-, 85-, and 86-inch models
- 40- and 65-inch models offer bright, vivid 1080p HD resolution
- Run all your apps, even the older ones, with touch
- Accurate and responsive touch overlay with multi-touch capability

Casting

Add the LightCast Key to your JTouch to easily connect and share content from nearly any computer or mobile device. You'll make meetings, lessons and teamwork more efficient, engaging and easy.

LightCast technology works seamlessly with all your device's native protocols – use AirPlay (Mirroring mode) for Apple, and Miracast for Android or Windows.**

Use the InFocus LightCast Sender to cast using Chrome extension (works on Apple, Windows, or Chrome OS.)

Browse the Web

Using the LightCast Key, access your favorite online content without a connected computer.

View Documents

View and present Office files, as well as most photo and video file formats, directly from the JTouch.

Create on an Interactive Whiteboard

Capture ideas on a giant, multi-screen canvas.

LightCast is included in select JTouch models, or unlock the power of wireless with a LightCast Key. Visit InFocus.com or contact your reseller for more information.

Interactive Whiteboard and Annotation

Stop taking photos of your old dry-erase board & step up to a digital whiteboard. You'll never lose an idea & your meetings will be more efficient & productive.

Draw, Write, & Capture Notes

- Create a whiteboard on a multi-screen canvas, with room for free-form drawings, diagrams, images, and notes
- Write or draw with complete collection of digital pens, highlighters, shapes, lines and colors
- Use with fingers or a stylus
- View and annotate over PowerPoint, images, Word and more.
- Save and share your notes electronically

Built into INF4030/p, INF6502WB/p, INF6502WBAG/p, INF7002e, INF7002WB, INF7002WBAG, INF7530eAG /INF7530AG, and INF8630eAG/INF8630AG

The most education-friendly JTouch ever JTouch Plus INF7530eAG & INF8630eAG

The totally customizable INF7530eAG and INF8630eAG feature 4K resolution, Total Touch Control™, and the ability to natively run Android applications.

- Navigate a friendly, easy-for-anyone interface with Total Touch Control™ – no need for a remote
- Built-in whiteboard, browser, media player, and AirPlay capability
- Annotate over any application or video input
- Comment and draw over websites, documents, and more
- Brilliant 75- or 86-inch, 4K resolution screen with anti-glare
- Add Android apps
- Customize your whiteboard background
- Erase with three-finger touch

“Overall the JTouch is a jack of all interactive trades – it has the ability to draw in a rainbow of colors, display smooth video and let you connect without needing a new app.”

–Brian Nadel, Computerworld

“I use my iPad to cast live camera feed of what students have created to the JTouch.

-Mrs. Joy, 5th Grade School Teacher

Accessories for JTouch Displays

Mobile Carts

- Move your JTouch around the room or around the building
- Integrated cable management with flexible covers to hide cables for a clean installation
- Smooth rolling casters for effortless positioning (2 locking casters)
- Height adjustment 4-6' (1.2-1.8 m)

Lift Case

Easily store, transport, and use a 40", 65", or 70" flat screen display. Set up displays with only one or two people and be ready for use in less than 5 minutes.

- Full range of viewing heights
- Mounted multi-outlet surge protected power strip
- Shock-mounted lift mechanism
- Pivoting mount on 40" case enables portrait or landscape 40-inch display
- Integrated cable management system
- 2-piece clamshell locking lid
- Stable, yet portable with four heavy duty casters

LiteShow 4 DB+

Add the InFocus LiteShow 4 DB+ wireless presentation adapter to any base model display with a VGA or HDMI input to quickly and easily share data, audio, and HD video over a secure wireless connection.

- Connect LiteShow 4 DB+ to your network to create a new, secure wireless access point
- 2.4GHz / 5GHz Dual Band wireless technology for ultra-fast transmission
- On-board video decoding for fast, smooth playback
- Guests quickly connect with LiteShow USB drive
- Compatible with Windows 7, 8 & 10, Mac & iOS and Android mobile devices
- Connect and display multiple computers at the same time

LightCast Key

For select JTouch models, the LightCast Key unlocks full LightCast functionality, adding wireless casting and web browsing. With full LightCast functionality you can:

- Connect mobile devices and share content wirelessly
- Access the internet with a built-in web browser
- Capture, save, and share notes on an interactive whiteboard
- View and present documents, videos, and photos

Qwizdom Software Bundle

The Qwizdom bundle is designed for use with InFocus displays in the classroom.

- Includes Oktopus, Oktopus Blend, and Ximbus software
- Offers curriculum and educational tools for traditional and cloud-based environments
- Includes a one year license for the teacher and up to 40 students
