

# CRITIKON ONE-CUF

## Blood pressure cuffs

Introducing CRITIKON™ ONE-CUF™; our new single patient use cuff that completes the GE HealthCare Blood Pressure Cuff portfolio. ONE-CUF supports infection control protocols adhering to a one cuff per patient policy and has been rigorously tested and validated to provide the readings you trust from a GE HealthCare CRITIKON BP Cuff<sup>1</sup>. Made of less material than our traditional disposable cuffs, GE HealthCare is working to lessen environmental impact for future generations<sup>2</sup>.

### Designed for patient safety, comfort and accuracy

- Completes our cuff portfolio to maximize efficiency and meet the needs of all customer workflows
- ONE-CUF is designed with rounded corners for patient comfort
- ONE-CUF material is not made with DEHP or natural rubber latex to help enhance patient safety
- Designed and rigorously tested for performance to help you make well-informed decisions<sup>1</sup>
- DINACLICK™ and Bayonet connectors meet ISO 80369-5 international standards, lowering the risk of improper connections to other types of medical equipment
- Available in most common cuff sizes from pediatric through large adult

### Designed to improve workflow

- Available in DINACLICK and Bayonet connectors, compatible with GE HealthCare and non-GE HealthCare automated BP devices – enabling cuff standardization and inventory optimization at facility
- Compliant with ISO 81060 NIBP cuff sizing standard, cuffs are color coded for easy and correct size selection by staff

### Designed to lessen environmental impact

- Manufactured with 40% less fabric and 45% less PVC than market leading disposable cuff<sup>2</sup>
