

Cisco STACK-T1-50CM Datasheet

Cisco 50CM Type 1 Stacking Cable 72-5125-01

STACK-T1-50CM

The Cisco STACK-T1-50CM Stackwise-480 stacking cables can connect a combination of Catalyst 3850 stackable switches to form a single switching unit. The Cisco data cables are specifically intended to work with Gigabit Ethernet, while also making it easy to allow switch additions, deletions and redeployment without interruption. The technology advancement on the Stackwise-480 is quite impressive. The cables have a bandwidth of 480 Gbps and behaves as a single switch while still incorporating the other member switches.

Features

- Length: 50 cm
- Connect up to 4 switches at a time
- Minimum Bend Radius 1.6 inches (41 mm)
- May also be used on Cisco 9300 series switches that have StackWise Technology

Specifications

- Manuf Part#: STACK-T1-50CM=
- Part Number: 800-40403-01
- Description: Cisco 50CM Type 1 Stacking Cable 72-5125-01

- Type: StackWise-480 Stacking Cable
- Connector 1: Stackwise-480
- Connector 2: Stackwise-480
- Length: 0.5 meter
- Color: Black
- Conductor Material: Copper

Compatibility

The STACK-T1-50CM is designed for Cisco Catalyst 3850-24P-E, Cisco Catalyst 3850-24P-L, Cisco Catalyst 3850-24P-S, Cisco Catalyst 3850-24PW-S, Cisco Catalyst 3850-24T-E, Cisco Catalyst 3850-24T-L, Cisco Catalyst 3850-24T-S, Cisco Catalyst 3850-48F-E, Cisco Catalyst 3850-48F-L, Cisco Catalyst 3850-48F-S, Cisco Catalyst 3850-48P-E, Cisco Catalyst 3850-48P-L, Cisco Catalyst 3850-48P-S, Cisco Catalyst 3850-48PW-S, Cisco Catalyst 3850-48T-E, Cisco Catalyst 3850-48T-L, Cisco Catalyst 3850-48T-S.
