

**JRG Sanipex protection plugs,
sealing sleeves and sealing collars**

**For professional
sealing of wall
penetrations**

JRG Sanipex protection plugs, sealing sleeves and sealing collars

Standard-conforming sealing of fitting connectors, boxes and concealed valves

The publication of DIN 18534 for the sealing of wetrooms has intensified and precisely defined the requirements for wall penetrations in for example showers and for bathtub valve connections.

The components of the JRG Sanipex product range offer a simple, safe and standard-compliant solution. They can also be used for fitting connectors in our other systems, as well as for some components from the JRG valve product range.

The combination of sealing sleeve and sealing collar offers protection against water penetration from the front of the wall and reduces risks of acoustic bridges. Proper installation also provides reliable conduction of leakage water to the front of the wall if for example the sealing point drips.

+ Advantages

Compatible

Can be used for all common fitting connectors, pipe outlets and faucet extensions, thanks to lip seals

Flexible

Optimally combined components (protection plugs, sealing sleeves, and sealing collars) that can also be used individually (e.g. for concealed valves)

Compliant with standards

Simple and safe compliance of DIN 18534 (2017-07)

Safe

Secured jointing between outlet and tap connection

Sound insulation

Reduced risk of acoustic bridges

Assembling instruction

The sealing sleeve is pushed onto the wall outlet and aligned to then provide sealing to the outside. This can take place before or after assembly of the protection plug.

The sealing collar is pulled over the sealing sleeve and is directly attached to it.

Prior to assembly of the fittings, the sealing sleeve is cut off flush to the wall. A cutter or hook knife is enough for the cutting. The protection plug can then be easily removed by screwing.

If required, the faucet extension are then screwed in. Otherwise, the assembly of the fittings, the angle valves, etc., takes place as usual.

Products

Protection plug

- Material: brass, plastic

GN (inch)	JRG Code	GF Code	Weight (kg)	d (mm)	l (mm)
½	5409.030	355 564 112	0.051	33	70
