INNOVATIVE NEW PRODUCT

DC121 Cordless Sealant Gun 18V

Features

- Designed for the application of Dowsil 121 Structural Silicone
- Advanced battery - powered by Milwaukee RED LITHIUM battery technology
- Variable speed trigger
- Dosage control via indexed rod
- Reduced waste - gears disengage when trigger is released
- No need for a compressor
- Practical for onsite structural glazing

Kit includes

- DC121 Cordless Sealant Gun
- Advanced battery 18V
- Battery charger

For more information on Dowsil 121 compatibility with other products and specialist advice, please contact Glasscorp directly

DC121-BG Kit \$1,995.00 each

**Fast-cure

SMALL JOINT SEALER

Fabricator Small Joint Sealer is a compound used for sealing between the cut aluminium in the manufacture of aluminium joinery.

- Creates a primary seal and is the first barrier of weather protection
- Protects raw aluminium cuts from corrosion
- Excellent ageing resistance and flexibility
- Its unique flow/viscosity characteristics ensure good wetting and sealing of small and narrow joints
- Low Slump
- Will not damage anodised and powder coated aluminium

LOW SURFACE ENERGY – PROTECTION TAPE

Developed for Interpon & Dulux powdercoats

Used for the protection of aluminium window frames during manufacture, distribution, and installation.

Can be used to protect a range of exterior and interior surfaces. Ideal for use as a barrier tape between dissimilar metals for the prevention of electrolysis corrosion.

Features

- 48mm and 96mm widths, 66m roll
- Coated with a specially formulated adhesive system, offering a high level of initial adhesion, greater cohesion, and superior long ageing characteristics in harsh exterior environments
- Manufactured with a heavy gauge, abrasion resistant polyethylene film offering maximum protection and eliminating stretch when applied
- Will withstand ongoing exposure to UV light and weather
- Will not curl when unwound ensuring ease of application

Tested and certified to conform with WGANZ requirements

MTPTLSE-48	66m roll	48mm	\$24.07 each
MTPTLSE-96	66m roll	96mm	\$48.21 each

Tested and certified to conform with WGANZ requirements

PROTECT LONG LIFE TAPE

Developed for the protection of aluminium window frames during manufacture, distribution, and installation. Designed to protect surfaces against dirt and damage during processing, storage, and mounting.

Features

- Tested and certified to conform with WGANZ requirements for protection tapes used on powdercoated and anodised aluminium joinery
- 66m per roll
- Sill protection tape
- Excellent UV resistance
- Clean removal can be expected on most powdercoat and anodised aluminium for up to six months
- Resistant to moisture, acids, chemicals, alkalis, oils, abrasion, and weathering

MTPT24	66m roll	24mm	\$12.06 each
MTPT36	66m roll	36mm	\$18.05 each
MTPT48	66m roll	48mm	\$24.07 each
MTPT72	66m roll	72mm	\$36.15 each
MTPT96	66m roll	96mm	\$48.21 each
MTPT150	66m roll	150mm	\$75.27 each

TAPE APPLICATION ROLLER

For the application of pressure sensitive tapes. Enables tape adhesive to adhere more effectively.

- 50mm width, Rubber roller

AVAILABLE WHILE STOCKS LAST

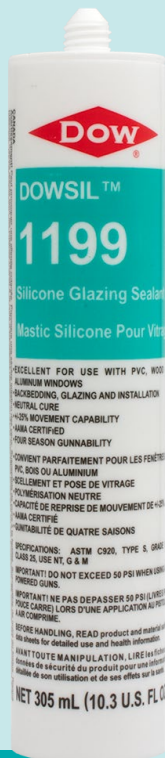

DOWSIL 1199 SILICONE

A high performance, neutral cure silicone sealant for glazing of windows, doors and internal glass partitions.

A one-part, neutral-cure RTV sealant ideal for automated glazing systems. It offers outstanding adhesion. It is specially formulated to meet the demanding requirements as a back-bedding sealant for the high-speed manufacturing of windows and doors.

Features

- Neutral cure
- Fast-skinning
- Extremely low slump
- Adheres to a wide range of building materials and finishes
- Excellent resistance to weathering and UV
- Joint movement capacity of (+/-25%)

DC1199TR ○ Translucent 305ml \$8.73 each

DOWSIL 580 SILICONE

Dowsil 580 glass, metal and masonry sealant is a high performance, neutral cure silicone sealant designed for a wide range of glazing and weather sealing applications.

Features

- Neutral cure
- Very low slump, ideal for overhead joints
- Excellent resistance to weathering and UV
- Joint movement capability of (+/-25%)

DC580BL	● Black	300ml	\$6.49 each

BOSTIK V60 SILICONE

High performance architectural grade glazing silicone. One component, non-flowing, neutral cure, high modulus sealant.

EXCELLENT UV STABILITY

Features

- Superior adhesion to painted and anodized aluminium & glass has made this silicone the market leader in the glass market for the last 25 years
- The thixotropic nature of this product ensures that it will not slump in typical construction joints
- Long Life Reliability
- Bostik V60 has excellent natural ageing stability. It will maintain its elastomeric joint sealant properties permanently, even under harsh conditions and temperature extremes
- Joint movement capability of (+/-35%)

RSCB ● Black 300ml \$8.25 each
RSC ○ Trans 300ml \$8.25 each

SPECIAL SPECIAL

DOWSIL 795 STRUCTURAL

A one component, neutral-cure architectural grade silicone for structural glazing and weatherproofing.

Features

- Neutral cure
- Suitable for most new construction and remedial sealing applications
- Versatile high-performance structural glazing
- Joint movement capability of (+/-50%)
- Excellent weatherability virtually unaffected by sunlight, rain, snow, ozone and temperature extremes

TPV Low Rise Wedge, TPV Standard Wedge, TPV Backing Seal

Complies with
Window & Glass
Association NZ
Glazing Seal
Standard

Designed for both residential and commercial applications.

TPV Low Rise Wedge or TPV Standard Wedge installed with TPV Backing Seal creates a strong and long-lasting seal.

- Made from ExxonMobil Santoprene compatible with most building materials
- Can be used with most joinery systems, and suitable for high-rise applications (above 10m)
- Low shrinkage
- Glazing of gaps between the window frame or bead and face of the glass
- Colour stripe in each Wedge dictates its size
- Coiled onto recyclable plastic spools

SPIDER 4 KIT

Re-designed Spider body is now DUAL FUNCTION with both winding and anchoring in its simple streamlined frame. The design, size and weight make this tool safe, efficient, and versatile for use in auto glass panel removal.

Kit includes

- Spider 4 Removal Device
- WRD-A3 Anchor Cup
- WRD-P8 Cutting Fibre Line
- WRD-AD2 Angle Driver
- WRD-DP Dash Protector
- Cutting Line Threader
- Cutting Line Dispenser
- WRD-IS Install Stick
- WRD-S4B Hex Bit
- WRD-LP Cutting Line Holder Pins (4pcs)
- Plastic Tool Case
- Instruction Manual

AT242 Kit \$1,021.28 each

TITAN AUTO GLASS CUTTING CORD

THE STRONGEST CORD ON EARTH!

The strongest auto glass removal synthetic fibre cutting cord on Earth. This is not the cord you use to save glass. Titan Cord was specifically designed to remove the most stubborn glass and break through every pin in it's way. **When you need something that just does not break**, grab your roll of Titan Cord and don't think twice.

AT253 \$115.58 each

ORANGE BAT KIT

Kit includes

- Orange Bat assembly
- Fibre line
- 360 Hand Crank
- Wire starter
- Pick tool
- Installation stick
- Spindle bit set
- Dash protector
- Operation Manual
- Plastic case

Designed to be a safe, efficient and versatile option for automotive glass panel removal. Can be used with fibre line or steel wire. The Bat utilises a dual spindle design and can be operated via a cordless drill or the 360 Hand Crank. The dual spindle design also allows for easy operation from both sides.

AT256 Kit \$1,221.70 each

WRD P8 FIBRE A/G REMOVAL LINE

- Do multiple jobs with one length
- Will not puncture or scratch surfaces
- No damage to the pinchweld or windshield mouldings
- If it breaks it will not retract, spin or coil the way steel and braided wires do
- Medium thickness and strong. Good for when you want to save the windscreen

AT243 \$131.93 each

PROTECTOR A DASH MAT

AT215 \$81.92 each

WIBOTEC CUT OUT KIT

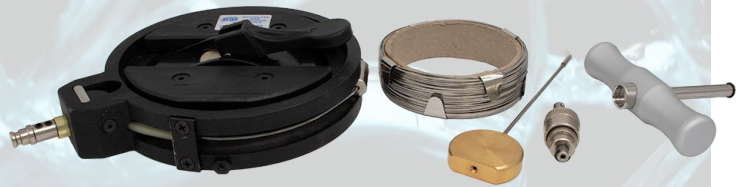

One person cut-out tool saves you time on each job. Acts as an extra hand as suction cup has large heavy duty spring attached which pulls wire back after each stroke.

- Quick set up time - under 2 minutes
- Uses approx 600mm of wire per screen
- Minimum training required
- Made in Denmark

AT234 Kit \$737.93 each

WIRE BUDDY KIT

Designed for a single technician to remove a windscreen by themselves.

Wire Buddy attaches to the inside of the window and cutting wire is pushed through the urethane and connects to the wire handle. By pulling the wire handle from the outside of the vehicle the return spring allows the wire to move back and forth, cutting and separating the glass from the adhesive.

Supplied with Wire Handle, Wire Starter and 50m Stainless High Tensile Square Cutting Wire.

AT226 Kit \$561.40 each

RIPCORD FIBRE AUTO GLASS REMOVAL LINE

- Do multiple jobs with one length
- Won't puncture or scratch surfaces
- No damage to the pinchweld or windshield mouldings
- Can be used with most wire Removal Tools
- If it breaks, it won't retract, spin or coil the way steel and braided wires do
- 91.4m

AT230 \$112.26 each

WINDSCREEN CUT OUT WIRE – Squire

When pulled the pressure is put on the flat side of the wire. As pressure increases, the Squire takes the path of least resistance, twisting and cutting with the edges of the wire.

- The flat side .25mm
- Diagonal measure is approximately .35mm
- 50m per roll

AT232 \$52.78 each

WINDSCREEN CUT OUT WIRE – Triangle Wire

Wibotec triangle cut out wire for windscreen removal.

- 25m per roll
- Triangle shape
- Very high tensile strength

AT234D \$52.78 each

CRL WINDSCREEN CUT OUT WIRE – Gold Braid

For use in cutting through windscreen sealant during removal

- Supplied on plastic reel
- Gold colour
- Triple strand
- 21.95m per roll

AT029C \$19.50 each
