INTRODUCTION

Since the *Monthly Catalog of United States Government Publications (MOCAT)* was first published one hundred years ago, there have been few major format changes. Before this year, the most dramatic changes occurred in 1976, when the Anglo-American Cataloging Rules were first used to create catalog records for the MOCAT and, at the same time, these records were made available in electronic form through entry into the OCLC system. Of equal, or perhaps greater significance, are the changes to the MOCAT that are now taking place.

Beginning in 1996, a new CD-ROM version of the MOCAT will be introduced. Most of the features of the traditional paper version are included in the CD-ROM version. An online version of the catalog is now available on the World Wide Web. These new MOCAT formats will make it easier for users to retrieve information on Federal publications. The paper version of the MOCAT will continue to be available with shorter entries and a keyword title index. The microfiche version will be discontinued after the December 1995 issue. The magnetic tape version of the MOCAT will continue in its present form.

Users now have access to cataloged records of Federal publications in the following formats:

*Monthly Catalog of United States
Government Publications on CD-ROM*
(Monthly issues cumulate from beginning of year includes cumulative indexes)

*Monthly Catalog of United States
Government Publications (paper edition)*
(This new paper version of the MOCAT has short entries and a title keyword index (the CD-ROM version will include other indexes formerly included in paper version))

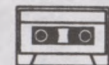

Online version of MOCAT available on GPO Access Federal Locator service via World Wide Web. (Users of the online Locator service can identify publications and locate a depository library that includes them in their collection. New records may be accessed daily on the Internet at: http://www.access.gpo.gov/su_docs)

USERS' GUIDE

Catalog Arrangement and Indexes

The bibliographic entries in the *Monthly Catalog* are arranged in Superintendent of Documents classification number order. Each record is also assigned a unique catalog number, which consists of a two-digit prefix representing the catalog year, followed by a sequential number beginning with 1 in the first issue of each year. Within this arrangement, the publications of each Government author are further identified by the name and address of the issuing agency.

Catalog entries in this catalog may be accessed by title keyword index (an alphabetical list of truncated titles, arranged by important words selected from publication titles).

Please consult the CD-ROM version of the MOCAT for indexing accessed by:

1. Introduction

The first part of the report discusses the background and objectives of the study. It highlights the importance of understanding the current market trends and the role of technology in the industry.

The second part of the report focuses on the methodology used for data collection and analysis. It details the various tools and techniques employed to ensure the accuracy and reliability of the findings.

The third part of the report presents the results of the study. It includes a detailed analysis of the data collected, showing the trends and patterns observed in the market. The findings are supported by relevant statistics and charts.

The fourth part of the report discusses the implications of the findings. It explores the potential impact of the results on the industry and provides recommendations for future research and development.

2. Methodology

The methodology section describes the research design and the data collection process. It outlines the steps taken to identify the sample population and the methods used to gather and analyze the data.

The data analysis section details the statistical methods used to process the collected data. It includes a description of the software tools and techniques used to generate the results.

The results section presents the findings of the study in a clear and concise manner. It includes a summary of the key observations and a detailed discussion of the data trends.

The discussion section provides an in-depth analysis of the results, exploring the underlying causes and implications. It also discusses the limitations of the study and the need for further research.

The conclusion section summarizes the main findings of the study and provides a final assessment of the research. It highlights the key takeaways and offers suggestions for future work.

The references section lists the sources of information used in the study, including books, articles, and online resources. It provides a comprehensive list of the literature reviewed during the research process.

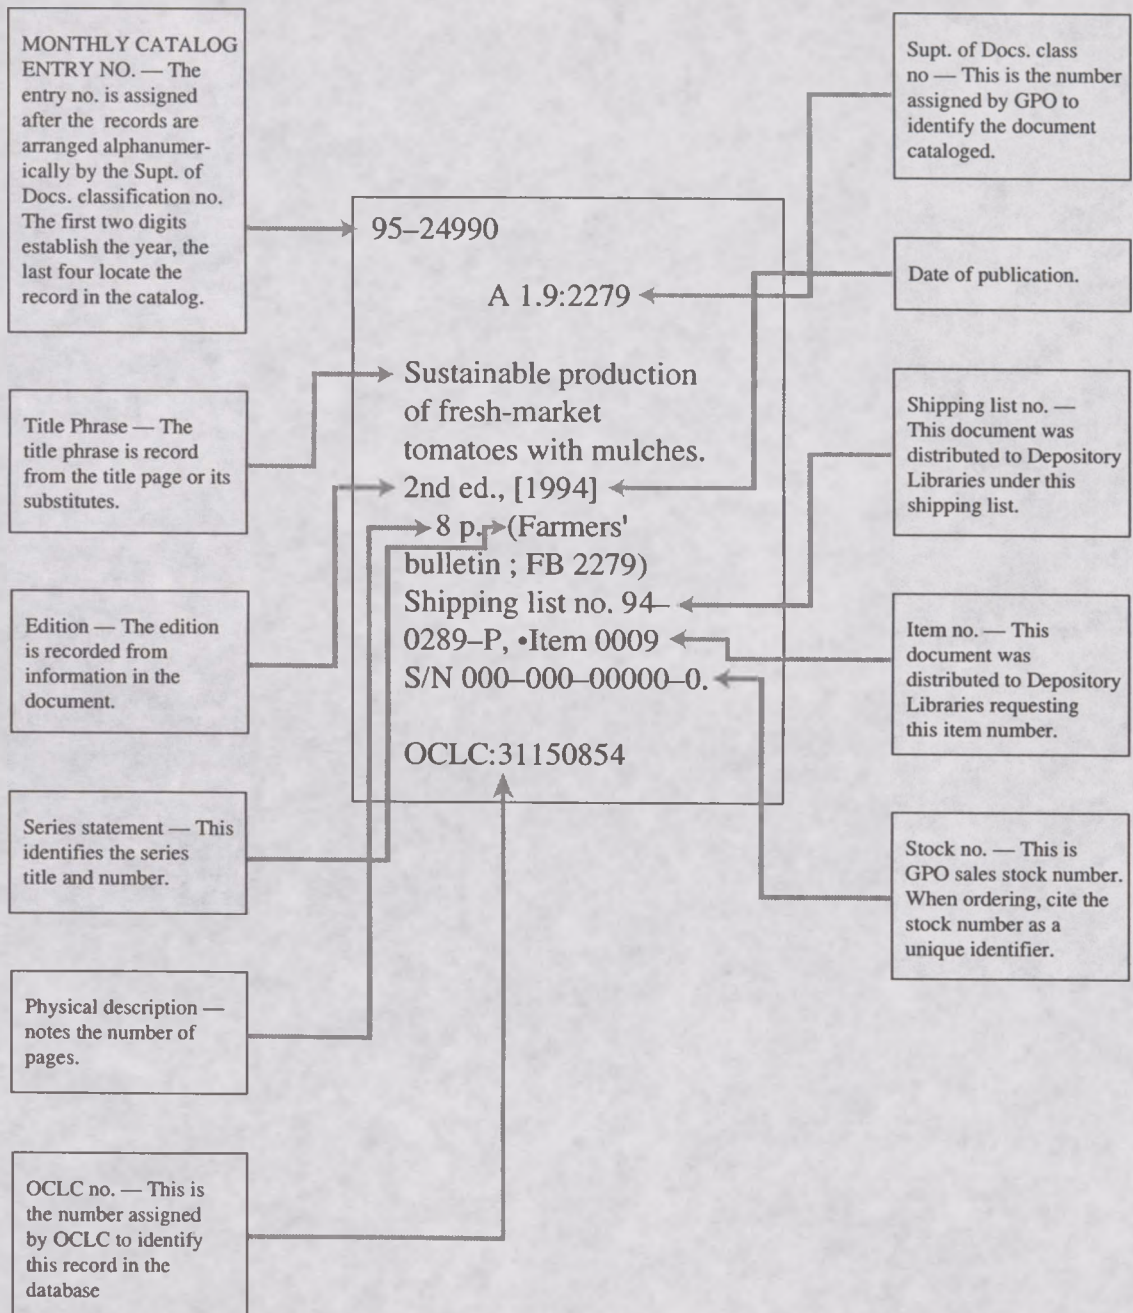

The appendix section contains supplementary information that supports the main text of the report. It includes additional data, charts, and tables that provide further detail on the study's findings.

The final section of the report is the bibliography, which lists all the sources cited in the document. It follows a standard format for academic references and is located at the end of the report.

The report concludes with a final statement of the author's appreciation for the support and assistance provided throughout the research process. It also includes a note of contact information for further inquiries.

SAMPLE ENTRY

FEDERAL DEPOSITORY LIBRARY PROGRAM

The Federal Depository Library Program was established by Congress to provide free public access to Government publications. Nearly 1400 public, academic, State, and law libraries serve as an information link with the Federal Government by maintaining collections of Government publications. These collections, which are tailored to local needs, are open to the public. Fifty-three of the libraries are designated as regional depository libraries. They have the responsibility of retaining material permanently and providing inter-library loan and reference services in their regions.

Copies of documents no longer available through the GPO Sales Program can usually be found in regional depository collections. To determine which depository libraries have selected copies of publications listed in this catalog, consult the Superintendent of Documents World Wide Web site and use the Locator Service. A complete listing of regional depositories follows. To obtain a complete listing of all depository libraries, write to:

GEOLOGICAL SURVEY

Interior Dept.
Reston, Va. 22092

Topographic and earth science (thematic) maps of the United States, plus the planets and moons may be purchased from: Map Distribution, U.S. Geological Survey, Box 25286, Federal Center, Denver, CO 80225. To order topographic maps give name and scale, e.g. Fairfax, VA, 1:24,000. To order earth science maps give series identification and number, e.g. GQ-851. A 50% discount is allowed for orders over \$500, and a \$1 postage and handling charge is applicable to orders less than \$10.
