Labware

2

The life science
business of Merck
operates as
MilliporeSigma in
the U.S. and Canada.

Sigma-Aldrich®
Lab & Production Materials

Corning

- Tissue-culture treated plastics: flasks, dishes, pipettes, vacuum filters, tubes

Sigma Cultureware

- Sigma® Cultureware is a product line of sterile, plastic lab consumables required for culturing cells: Pipettes, flasks, tubes, plates

General Labware

- Glassware, mixers, stirrers, balances, safety equipment

Whatman

- Filter Paper, Syringe Filters, Membranes

Syringes & Vials

- Complete portfolio of Hamilton and SGE syringes valves
- Wide range of vials for chromatography applications

Liquid Handling

- Wide range of instruments and consumables from known brands for liquid handling: Glass/automatic/electronic pipettes, tips, dispensers

Books & Software

- Fieser molecular model research kit, cochranes orbit-size atom pieces, standard molecular model kit

Molecular Biology & Electrophoresis

- Wide selection of instruments and consumables for molecular biology and electrophoresis applications
