**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT  
THE DRUGS WE COVER IN THIS PLAN**

Formulary File ID #18099, Version Number 18

Harvard Pilgrim  
Health Care

This formulary was updated on 6/4/18. For more recent information or other questions, please contact **Harvard Pilgrim Stride<sup>SM</sup> (HMO)** Member Services at 1-888-609-0692 or, for TTY users 711, October 1 - February 14, 8 a.m. - 8 p.m. 7 days a week, and February 15 - September 30, 8 a.m. - 8 p.m. Monday - Friday, or visit [www.harvardpilgrim.org/medicare](http://www.harvardpilgrim.org/medicare).

**Note to existing members:** This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this drug list (formulary) refers to “we,” “us”, or “our,” it means Harvard Pilgrim Health Care. When it refers to “plan” or “our plan,” it means *Stride Basic Rx (HMO)*, *Stride Value Rx (HMO)*, and *Stride Value Rx Plus (HMO)*.

This document includes the list of the drugs (formulary) for our plan which is current as of 6/4/18. For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2018, and from time to time during the year.

### **What is the *Stride Basic Rx (HMO)*, *Stride Value Rx (HMO)*, and *Stride Value Rx Plus (HMO)* Formulary?**

A formulary is a list of covered drugs selected by our plans in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. *Stride Basic Rx (HMO)*, *Stride Value Rx (HMO)*, and *Stride Value Rx Plus (HMO)* will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a *Stride Basic Rx (HMO)*, *Stride Value Rx (HMO)*, and *Stride Value Rx Plus (HMO)* network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

### **Can the Formulary (drug list) change?**

Generally, if you are taking a drug on our 2018 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2018 coverage year except when a new, less expensive generic drug becomes available or when new adverse information about the safety or effectiveness of a drug is released. Other types of formulary changes, such as removing a drug from our formulary, will not affect members who are currently taking the drug. It will remain available at the same cost-sharing for those members taking it for the remainder of the coverage year. We feel it is important that you have continued access for the remainder of the coverage year to the formulary drugs that were available when you chose our plan, except for cases in which you can save additional money or we can ensure your safety.

If we remove drugs from our formulary, add prior authorization, quantity limits and/or step therapy restrictions on a drug, or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 60 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 60-day supply of the drug. If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug’s manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug. The enclosed formulary is current as of 6/4/18. To get updated information about the drugs covered by our plans, please contact us. Our contact information appears on the front and back cover pages.

In the event of a mid-year, non-maintenance formulary change, we will notify you in your monthly Explanation of Benefits and on our website, [www.harvardpilgrim.org/medicare](http://www.harvardpilgrim.org/medicare).

You may ask us for a copy of the most recent formulary by contacting us. Our contact information appears on the front and back cover pages.

## **How do I use the Formulary?**

There are two ways to find your drug within the formulary:

### **Medical Condition**

The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, Cardiovascular Agents. If you know what your drug is used for, look for the category name in the list that begins on page 1. Then look under the category name for your drug.

### **Alphabetical Listing**

If you are not sure what category to look under, you should look for your drug in the Index that begins on page I-1. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

## **What are generic drugs?**

Our plans cover both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

## **Are there any restrictions on my coverage?**

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Our plans require you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from us before you fill your prescriptions. If you don't get approval, our plans may not cover the drug.
- **Quantity Limits:** For certain drugs, our plans limit the amount of the drug that we will cover. For example, our plans provide 4 tablets per prescription for alendronate 70mg (generic Fosamax). This may be in addition to a standard one-month or three-month supply.
- **Step Therapy:** In some cases, our plans require you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, our plans may not cover Drug B unless you try Drug A first. If Drug A does not work for you, our plans will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 1. You can also get more information about the restrictions applied to specific covered drugs by visiting our Web site. We have posted on line documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask us to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, “How do I request an exception to the *Stride Basic Rx (HMO)*, *Stride Value Rx (HMO)*, and *Stride Value Rx Plus (HMO)* formulary?” below for information about how to request an exception.

### **What if my drug is not on the Formulary?**

If your drug is not included in this formulary (list of covered drugs), you should first contact Member Services and ask if your drug is covered.

If you learn that our plans do not cover your drug, you have two options:

- You can ask Member Services for a list of similar drugs that are covered by our plans. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by us.
- You can ask us to make an exception and cover your drug. See below for information about how to request an exception.

### **How do I request an exception to the *Stride Basic Rx (HMO)*, *Stride Value Rx (HMO)*, and *Stride Value Rx Plus (HMO)*’s Formulary?**

You can ask our plans to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to cover a formulary drug at a lower cost-sharing level if this drug is not on the specialty tier. If approved this would lower the amount you must pay for your drug.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, our plans limit the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, our plans will only approve your request for an exception if the alternative drugs included on the plan’s formulary, the lower cost-sharing drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, tier, or utilization restriction exception. **When you request a formulary, tier or utilization restriction exception you should submit a statement from your prescriber or physician supporting your request.** Generally, we must make our decision within 72 hours of getting your prescriber’s supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

## **What do I do before I can talk to my doctor about changing my drugs or requesting an exception?**

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 30-day supply (unless you have a prescription written for fewer days) when you go to a network pharmacy. After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility, we will allow you to refill your prescription until we have provided you with a 98-day transition supply, consistent with dispensing increment, (unless you have a prescription written for fewer days). We will cover more than one refill of these drugs for the first 90 days you are a member of our plan. If you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug (unless you have a prescription for fewer days) while you pursue a formulary exception.

If during your membership you experience a change in your level of care, including being admitted to, or discharged from, a hospital or long-term care facility, we will cover a 31-day emergency supply of a drug that is either not on our formulary or has requirements or limits. This temporary supply will give you time to talk to your doctor about other treatment options or to request an exception. For more information about our Transition Policy, visit our website, [www.harvardpilgrim.org/medicare](http://www.harvardpilgrim.org/medicare).

### **For more information**

For more detailed information about your *Stride Basic Rx (HMO)*, *Stride Value Rx (HMO)*, and *Stride Value Rx Plus (HMO)* prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about *Stride Basic Rx (HMO)*, *Stride Value Rx (HMO)*, and *Stride Value Rx Plus (HMO)*, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/7 days a week. TTY users should call 1-877-486-2048. Or, visit <http://www.medicare.gov>.

## ***Stride Basic Rx (HMO), Stride Value Rx (HMO), and Stride Value Rx Plus (HMO)*'s Formulary**

The formulary that begins on page 1 provides coverage information about the drugs covered by *Stride Basic Rx (HMO)*, *Stride Value Rx (HMO)*, and *Stride Value Rx Plus (HMO)*. If you have trouble finding your drug in the list, turn to the Index that begins on page I-1.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., XARELTO) and generic drugs are listed in lower-case italics (e.g., *simvastatin*). For generic drugs, we have listed the brand name equivalent in parentheses for your reference only e.g. (Lipitor). If the brand name drug is not also listed in capital letters, it is not covered by our plan.

The information in the Requirements/Limits column tells you if our plans have any special requirements for coverage of your drug.

### **Coverage Notes**

#### **Coverage of Excluded Drugs**

Our plans cover certain drugs that are excluded from coverage under Medicare Part D. Please refer to the table that describes “Other Special Requirements for Coverage” for important information about these drugs. Of these drugs, the most commonly used are those for the treatment of erectile dysfunction, such as Viagra. Our plans do not cover the lower daily dose of Cialis (2.5mg and 5mg) for the treatment of erectile dysfunction. Those strengths are only covered under Part D with prior authorization for diagnoses other than erectile dysfunction.

#### **Diabetic Testing Supplies**

Diabetic testing supplies, including test strips, lancets, and glucose meters, are covered under the plan’s medical benefit at participating retail or mail-order pharmacies. Coverage of test strips and glucose meters is limited to those made by Abbott Diabetes Care and to quantities of 204 test strips per 30 days and 1 glucose meter per 365 days. Authorization is required for coverage of other brand test strips or glucose meters or for quantities of Abbott Diabetes Care brand test strips or glucose meters in excess of the limits stated above when purchased at a retail or mail-order pharmacy.

#### **First Fill Limit**

The first time you fill a drug covered on Tier 5, our plans will only cover up to a 30-day supply. This provides you an opportunity to try the new drug and see if it is working or is causing unwanted side effects. After your first fill of a Tier 5 drug, your future fills will be available for an extended days’ supply.

#### **Quantity Limits for Opioid Medications**

Quantity limits apply to most of the individual opioid medications on our formulary. For example, we might limit coverage of an opioid to 60 tablets per 30 days. In addition to quantity limits applying to individual drugs, we apply additional quantity limits across all drugs in the opioid class when members fill prescriptions for high doses of multiple opioids. These quantity limits are referred to as a Cumulative Morphine Equivalent Dose (MED) limit. The cumulative MED is calculated based on the total dose of opioid drugs prescribed for you on the date you fill a prescription for an opioid medication. This limit is designed to encourage safe dosing levels of opioids for members who are taking multiple opioids. If your provider prescribes more than this cumulative MED amount and thinks the limit is not right for your situation, you or your doctor can ask our plans to cover the additional quantity.

### Specialty Pharmacy

CVS Specialty pharmacy is Harvard Pilgrim’s preferred pharmacy for select specialty medications. Medications available through CVS Specialty pharmacy are identified in our drug list with the following note: “Available through CVS Specialty (1-800-237-2767).” Other Pharmacies are available in our network.

### Topical Compounds

Prescriptions for compounded medications that are applied topically, or to the skin, are not covered by our plans. Just as with other drugs not included in this formulary (list of covered drugs), you can ask us to make an exception and cover your drug by calling our Member Services.

The following symbols and abbreviations describing utilization management restrictions and other special requirements may be found within the body of this document.

<b>SYMBOL</b>	<b>DESCRIPTION</b>	<b>EXPLANATION</b>
<b>Utilization Management Restrictions</b>		
<b>AGE (Max 64 Years)</b>	Age Restriction	If you are 65 years of age or older, you (or your physician) are required to get prior authorization from our plan before we will cover this drug. This requirement is in place due to safety concerns with using this drug in people over that age. Prior authorization is not required for members 64 years of age or younger.
<b>AGE (Min 65 Years)</b>	Age Restriction	If you are <b>under the age of 65</b> , you (or your physician) are required to get prior authorization from our plan before we will cover this drug.
<b>PA</b>	Prior Authorization Restriction	You (or your physician) are required to get prior authorization from our plans before we will cover this drug.
<b>PA BvD</b>	Prior Authorization Restriction for Part B vs Part D Determination	This drug may be eligible for payment under Medicare Part B or Part D depending on the circumstances. You (or your physician) may need to submit information describing the use and setting of the drug to make the determination.
<b>PA NSO</b>	Prior Authorization Restriction New Starts Only	If you are a new member or if you have not taken this drug before, you (or your physician) are required to get prior authorization from our plans before you fill your prescription for this drug. Without prior approval, we may not cover this drug.

<b>SYMBOL</b>	<b>DESCRIPTION</b>	<b>EXPLANATION</b>
<b>QL</b>	Quantity Limit Restriction	Our plans limit the amount of this drug that is covered within a specific time frame, or per prescription.
<b>ST</b>	Step Therapy Restriction	Before we will provide coverage for this drug, you must first try another drug(s) to treat your medical condition. This drug may only be covered if the other drug(s) does not work for you.
<b>Other Special Requirements for Coverage</b>		
<b>CB</b>	Capped Benefit Quantity Limit Restriction	Our plans limit the amount of this drug that is covered within a specific time frame, or per prescription. We will not cover a temporary supply of this drug greater than this quantity limit.
<b>EX</b>	Excluded Part D Drug	This prescription drug is not normally covered in a Medicare Prescription Drug Plan. The amount you pay when you fill a prescription for this drug does not count towards your total drug costs (that is, the amount you pay does not help you qualify for catastrophic coverage). In addition, if you are receiving extra help to pay for your prescriptions, you will not get any extra help to pay for this drug.
<b>GC</b>	Gap Coverage	We provide additional coverage of this prescription drug in the coverage gap for members of the Stride Value Rx Plus (HMO) plans. Please refer to our Evidence of Coverage for more information about this coverage.
<b>LA</b>	Limited Availability	This prescription may be available only at certain pharmacies. For more information consult your Provider/Pharmacy Directory or call Member Services at 1-888-609-0692. TTY users should call 711. We are here to assist you October 1 to February 14 from 8 a.m. – 8 p.m., 7 days a week and February 15 to September 30 from 8 a.m. – 8 p.m., Monday through Friday.
<b>NM</b>	Non-Mail Order Drugs	This drug is not available through your mail order benefit.

## What you pay for your Part D prescription drugs

The costs below are for a 30-day supply at a *Stride Basic Rx (HMO)*, *Stride Value Rx (HMO)*, and *Stride Value Rx Plus (HMO)* network pharmacy. For more information about what costs determine when you move from one coverage stage to the next, refer to your Evidence of Coverage.
