North America Price List and Specification Guide – February 2024

This Haworth North American price book contains US list prices.

Canadian customers can convert the US list price into their Canadian equivalent by going to www.Haworth.com/Canada to find the current Canadian multipliers. These multiplier factors allow you to convert the US list price into a Canadian list price.

Price List Overview

The following overview explains how information is organized within the Haworth® Health price list.

1 Front Cover

- Includes the price book title and pricing effectivity date.

2 Canadian Conversion / Update Page

- Pricing conversion information for converting US pricing into the equivalent Canadian pricing is located on the footer of this page.
- All Price Book updates will be listed on this page including the date, page number and description of the update.

3 Price List Table of Contents

Task Seating

Zody LX General Specifications

Balanced 3-point tilt

Features:

- Balanced 3-point tilt mechanism.
- Back reclines 24° from the upright position.
- Seat pan moves downward 3° from the initial position.

Benefits:

- Comfortable relaxed posture.
- Recline allows for the opening of the users' chest cavity providing good airflow to promote alertness.
- Users' feet remain flat.

Tilt Tension Control

Feature:

- Easy-to-reach and easy-to-activate side-mounted tilt tension control regulates the amount of resistance felt when leaning back in the chair and the effort required to recline the chair backwards.

Benefit:

- Personalized support to accommodate users of different body types and different work styles.

Seat Height Adjustment

Features:

- Pneumatic seat height adjustment.
- Task chair seat height adjusts 5" (127mm) from 16" to 21" (406mm to 533mm) in standard models. Low-position adjusts 14.7" to 18" (373 to 457mm).
- Task stool seat height adjusts 7.3" (185mm) from 21" to 28.3" (533mm to 719mm).
- Dual Posture adjusts 17.5" to 24.2" (445mm to 615mm).

Benefits:

- Ensures the comfort of the lower limbs by avoiding pressure on the underside of the thigh caused by a seat pan that is too high, or decreased thigh-to-torso angle if the seat pan is too low.
- Accommodates for users between approximately 4'11" (1499mm) and 6'3" (1905mm) tall to provide good leg circulation.
- Seat height adjustment also is important in setting the proper hand position and allowing for a proper sitting eye height.

Seat Depth Adjustment

Features:

- 3" (76mm) of seat depth range.
- Waterfall edge.

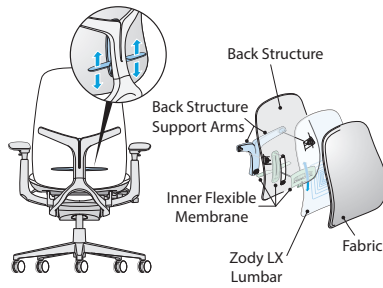

Benefit:

- Supports the thighs, allows users to rest against the seat back for back support, and avoids pressure on the back of the knees of small to tall users.

Task Seating

Zody LX General Specifications

Lumbar

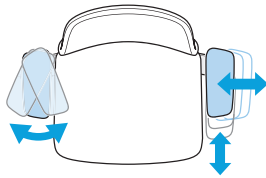

Features:

- Optional height adjustable lumbar.
- Range of 4”(102mm) of height adjustment.

Benefits:

- Lumbar adjustment maintains the natural curvature of the spine at the lower back and allows users to choose the support that feels right for them.

4D Arm

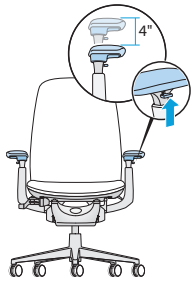

Features:

- Optional 4D arm.
- Arm adjusts in 4 ways:
 - Height adjustment: 4”(102mm)
 - Side-to-side arm cap adjustment range: 4”(102mm) [2”(51mm) each arm cap]
 - Front-to-back adjustment range: 2”(51mm)
 - Pivoting: In 20°; out 20°

Benefits:

- Arms support the muscular system of users’ neck and shoulders and proper arm support provides back relief. Arms can be an aid in standing or sitting down.
- Height adjustment accommodates for users with varying elbow rest heights so that users avoid lifting their shoulders or leaning sideways to get arm support.
- Front-to-back adjustment adjusts the armrest length, which is important because it allows users to get close to the worksurface while maintaining the effective use of the backrest.
- Side-to-side adjustment ensures a comfortable resting position for the arms with proper support of the forearm while allowing for easy entry/exit of the chair.
- Pivoting provides proper support of the forearm when performing tasks involving keying and mousing.

Adjustable Height Arm

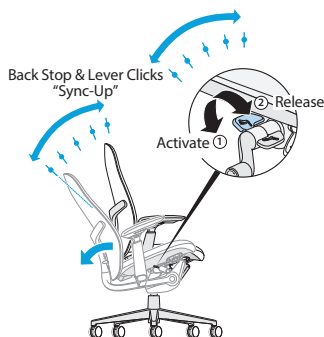

Feature:

- Optional height adjustable arms adjust 4”(102mm) vertically.

Benefit:

- Height adjustment accommodates users with varying elbow rest heights so that users avoid lifting their shoulders or leaning sideways to get arm support.

Back Stop

Features:

- Optional back stop;
- Back stops in 6 positions - upright and every 4° backward.

Benefit:

- Allows users the choice of selecting an upright position or limiting the amount of recline while performing different tasks.

Task Seating

Zody LX General Specifications

Back Stop/Forward Tilt

Feature:

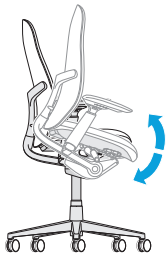

- Optional back-stop and forward tilt.
- Back stops in 6 positions, upright and every 4° backward.
- Seat pan moves downward 5° from the initial position.

Benefits:

- Allows users to sit forward in the chair for task intensive work.
- Allows users to vary their posture for maximum comfort and for changes in task requirements.

Note: Not available on task stool.

Dual Posture

Features:

- Increased seat height range of 17.5”(445mm)-24.2”(615mm).
- Seat pan moves downward 5° from initial position with an increased degree of forward tilt.

Benefit:

- Promotes the in-between “perch” posture of sit-to-stand. Ideal for use with a height adjustable table.

Spanning In-line — Individual Tiles

For use with Compose

Spanning Steel Tile

VZTI-PNS

Features

- Includes one in-line spanning steel tile and attachment clips.
- Spans a maximum of two full panel frames or stack frames in an in-line panel application.

Specification Tips

- Spanning tile width equals the sum of two separately specified full panel or stack frames in an in-line panel application.
- Opposite side of the full panel frame or stack frames may have tiles the same width as each frame or another spanning tile may be used.
- A full panel frame allows for independent planning options for each side of the panel; tile type and height may be the same or different per side.
- May be used with a base raceway cover the same width as the full panel frame or the tile may go to the floor; a spanning base raceway cover is not available.
- Separately specified aluminum top trim is required; top trim may span both of the full panel frames or may be the same width as each full panel frame.
- All Compose trim to be aluminum for the Utility Channel application.
- **Aligner/Light Blocks are separately specified per tile configuration;** see Specification Guide for details.
- 8”(203mm)H tile is not for use in the panel frame base raceway in place of the base raceway cover.
- Using a tile which goes to the floor prohibits power access in the panel frame base raceway and is not for use with a concealed base feed.
- Only internal Power Base base feed can be used if using a tile which goes to the floor.
- Vertical panel frame face dimensions:
 - Full Panel Frame/No Raceway Cover = Full Panel Frame height minus 2”(51mm) (for use with tile which goes to the floor)
 - Full Panel Frame/With Raceway Cover = Full Panel Frame height minus 10”(254mm)

Spanning ChemSurf Tile

VZTI-DNS

Features

- Includes two fixed-height steel leg assemblies, support beam, rail, Includes one in-line spanning laminate tile with 1mm edgeband and attachment clips.
- Spans a maximum of two full panel frames or stack frames in an in-line panel application.

Specification Tips

- Spanning tile width equals the sum of two separately specified full panel or stack frames in an in-line panel application.
- Opposite side of the full panel frame or stack frames may have tiles the same width as each frame or another spanning tile may be used.
- A full panel frame allows for independent planning options for each side of the panel; tile type and height may be the same or different per side.
- Aligner/Light Blocks are separately specified per tile configuration; see Specification Guide for details.
- Separately specified aluminum top trim is required; top trim may span both of the full panel frames or may be the same width as each full panel frame.
- All Compose trim to be aluminum for the Utility Channel application.
- May be used with a base raceway cover the same width as each full panel frame or the tile may go to the floor; a spanning base raceway cover is not available.
- 8”(203mm)H tile is not for use in the panel frame base raceway in place of the base raceway cover.
- Using a tile which goes to the floor prohibits power access in the panel frame base raceway and is not for use with a concealed base feed.
- Only internal Power Base base feed can be used if using a tile which goes to the floor.
- Vertical panel frame face dimensions:
 - Full Panel Frame/No Raceway Cover = Full Panel Frame height minus 2”(51mm) (for use with tile which goes to the floor)
 - Full Panel Frame/With Raceway Cover = Full Panel Frame height minus 10”(254mm)

To Order, Specify:

- 1) Product number.
- 2) Chemsurf laminate surface color.
- 3) Edgeband trim color.

Laminate Tile widths greater than 60”(1524mm) wide are not available on 56”(1422mm), 64”(1626mm) or 72”(1829mm) high tiles.

Product Compatibility and Limited Warranty Policy

Great Expectations

You have them as a Haworth customer and so do we. And because we value our customers, we cover our products with the Haworth North America Product Compatibility and Limited Warranty Policy.

Our Commitment To Product Compatibility – Integrated Product Platforms

As a market leader in the design and manufacture of workspaces that adapt to change, we strive to maintain product compatibility within our various generations of integrated product platforms. This benefits the customer who desires to update or modify their work environment. It also benefits the customer needing to replace a product due to damage or other reasons but which is no longer manufactured or is otherwise unavailable, such as a fabric or finish that is discontinued because of changing market preferences. In both circumstances, we often can provide products with comparable function and performance.

Our Commitment To Product Quality – The Haworth North America Limited Warranty

To ensure customer satisfaction and peace of mind, we stand behind our products with the Haworth North America Limited Warranty. To review the current version of the limited warranty including its terms and conditions, please go to:

www.haworth.com/warranty or contact OneTouch@Haworth.com or 1 877 429 6784.

Warranty Requests or Questions

For questions or service requests pertaining to the Haworth Limited Warranty, please contact your Haworth dealer.

If you are unsure who your dealer is, please contact **OneTouch@Haworth.com or 1 877 429 6784.**

Effective: September 1, 2021

Terms of Sale

The Terms of Sale apply to all products in the North America Price Lists. To review the current version of the North American Terms of Sale, please go to:

www.haworth.com/terms-of-sale or contact OneTouch@Haworth.com or 1 877 429 6784.
