

Sempermed® Supreme Surgical Glove

Helapet offer a comprehensive range of SemperMed® Supreme latex gloves. Each glove is anatomically shaped for precise handling and safety during surgical procedures.

A fully synthetic inner coating allows for simple and easy donning, with a micro-rough outer surface for secure grip. The thinness of the material allows for double-gloving without reducing sensitivity. A long 300mm beaded cuff provides a secure fit and additional protection above the wrist.

SemperMed® Supreme Surgical Gloves are cleanroom processed in paper-free packaging and presented gamma sterile. Compatible up to ISO Class 4 & EU GMP Grade A operating conditions.

GL10XX-50

Features and Benefits

- ✓ Anatomically shaped
- ✓ Easy donning and double gloving
- ✓ Compatible up to ISO Class 4 & EU GMP Grade A
- ✓ Micro-rough surface for enhanced grip
