

Samsung SMART Hospitality Display

The Frame (EU)

TV when it's on. Art when it's off.

Highlights

- Elegant, modern frame-style design that elevates the décor of any space
- Deliver brilliant picture quality with QLED, 100% color volume and Dual LED
- Produce stunning viewing experience from any input source with innovative upscaling
- Display a variety of beautiful artwork when switched off with Art Mode
- Welcome guests with customizable and intuitive homescreen application
- Manage all displays and the full guest experience seamlessly with powerful LYNK Cloud

Key features

Designed to look like a frame

The Frame is a TV with an elegant and modern frame that seamlessly blends into the décor of any guest room. It not only enhances the space as a TV, it elevates ambiance of the room as a work of art.

Turn off to beautify your space with art

Experience the modern way to create an unmatched guest experience with great works of art – from the works of the masters to your hotel's unique imagery.

Key features

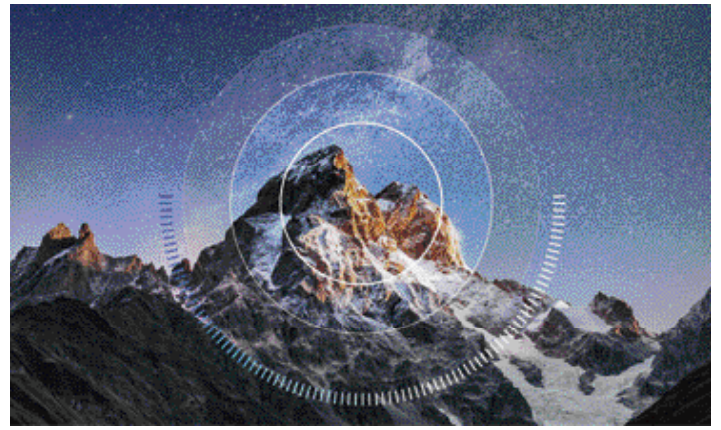

See the world in QLED Technology

Samsung's Quantum Dot technology delivers a full 100% color volume, while Dual LED technology increases contrast based on backlight temperature for optimal color tone. Together they provide incredibly realistic color that preserves rich detail and texture — even at wide angles.

* QLED has received verification from the world-class testing and certification association, Verband Deutscher Elektrotechniker (VDE), for its ability to produce 100 percent color volume.

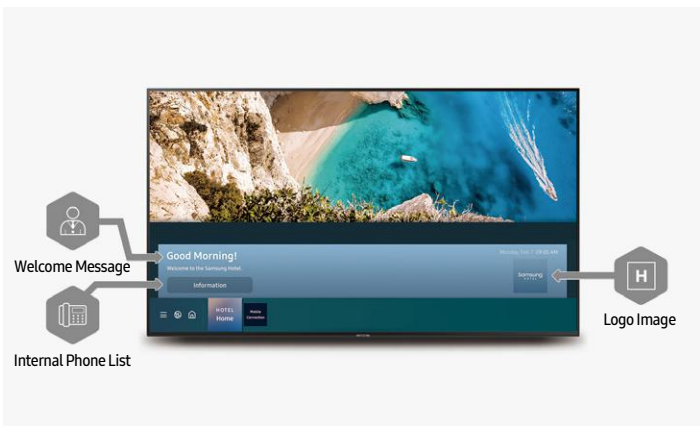

* 100% color volume measured to DCI-vP3 standard, certified by VDE.

Upgrade any of your content to 4K

Samsung's powerful Quantum Processor allows for 4K AI upscaling, automatically analyzing the input source to reduce image noise, restore lost detail, and define edges around objects and text. No matter the source, The Frame delivers vivid 4K resolution images and sound.

* Viewing experience may vary according to types of content and format.

Create an unforgettable welcome

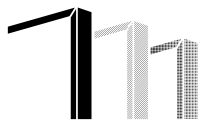

The Frame provides a first-class welcome experience for guests. The intuitive, customizable home application can incorporate customized welcome messages, hotel logos and branding, as well as other useful information to ensure each guest starts their stay off right.

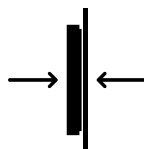

Experience a comprehensive hospitality solution

Samsung LYNK Cloud empowers hotels with a powerful set of tools to enhance guest experience. LYNK Cloud provides remote display management and can even analyze guests' content use to uncover marketing insights that help hotel managers deliver optimized promotions.

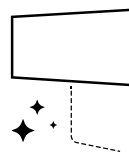

* Samsung LYNK Cloud solution must be purchased separately.
