HOW TO FIGURE PARCEL POST

To find your zone, determine the distance you are from Houston and use the zone covered by this distance.

If you do not know your distance from Houston, phone your local post office to determine the zone in which you are located.

Add up the weights of the articles selected.

Refer to the chart at the left to determine your postage.

Add in the amount of the Insurance Fee as per the chart below.

(Example: If you are in Zone 3 and your purchase totals 15 lbs. in weight, and \$46.50 in amount, the postage is \$1.24 and the insurance fee is 20c, so the total amount to send is the \$46.50, plus \$1.44, or a total of \$47.94.)

NOTE: THE MINIMUM MAILING FEE IS 50c, FOR HANDLING, MAILING AND INSURANCE.

ITEMS ILLUSTRATED THAT DO NOT SHOW SHIPPING WEIGHT, WEIGH LESS THAN ONE (1) POUND. USE MINIMUM MAILING FEE OF 50c FOR THESE ITEMS.

You may order as many items as you desire for only one 50c mailing charge in the following classifications only:

Rings	Pens and Pencils
Watches	Lighters
All Ladies' and	Billfolds
Men's Jewelry	

INSURANCE FEE

All parcel post shipments are insured. Determine your fee as follows:

Value up to \$10.00	10c
Value \$10.01 to \$50.00	20c
Value \$50.01 to \$100.00	30c
Value \$100.01 to \$200.00	40c

PARCEL POST RESTRICTIONS

The MAXIMUM WEIGHT of parcel post packages to first class offices in Zones 1 and 2 is 40 pounds, and the maximum size is 72 inches in length and girth combined. To first class post offices in other zones, the weight cannot exceed 20 pounds.

For second, third, or fourth class post offices, a parcel may weigh 70 pounds, with the maximum size not to exceed 100 inches in length and girth combined.

PARCEL POST C.O.D. FEE

Where you desire to have shipment made to you on C.O.D. basis, the following C.O.D. fees in addition to the shipping charges will be added to your shipment:

Up to \$5.00	40c
From \$5.01 to \$10.00	50c
From \$10.01 to \$25.00	70c
From \$25.01 to \$50.00	80c
From \$50.01 to \$100.00	90c
From \$100.01 to \$200.00	\$1.00

An additional money order fee is collected upon delivery.

RAILWAY EXPRESS INFORMATION

Certain items in this catalog are indicated to be shipped via Railway Express only. Express is the fastest way to ship merchandise, where it cannot be shipped via Parcel Post.

EXPRESS CHARGES — It is easy to estimate express charges. Find your zone, determine the distance you are from Houston, and refer to the Express Chart at the left.

(Example: If you are 280 miles [Zone 3] from Houston, and the merchandise you are ordering weighs 25 lbs., the approximate express charge would be \$4.20.)

Railway Express charges include insurance up to \$50.00. There is a charge of 23c for each additional \$100.00 valuation over the first \$50.00.

EXPRESS COLLECT — All express orders will be shipped "express charges collect," unless you specify "prepaid" and include the charges with your remittance.

EXPRESS SERVICE — Make sure your town is served by a Railway Express Agency before requesting express shipment of your orders. Be sure to include complete street address and number. Railway Express cannot deliver to a Post Office Box Number.

Whenever possible to make shipments to you for less than the amount you send with your order, due to our being able to ship heavy items by motor freight, or for any other reason, the difference will be refunded to you.

Diamond Classifications

Our Diamonds are carefully selected and much time and care put into the examination of these gems before purchasing. Our large diamond business is the result of the confidence of thousands of satisfied customers. Remember weight only does not determine values. Other factors — such as Cutting, Color and Perfection — affect the prices of diamonds, regardless of size or weight.

Cutting

The degree of brilliance of a diamond is determined by the excellence of its proportions and the quality of cutting. A correctly proportioned diamond should have 2/5ths of its weight above the girdle and 3/5ths below. A properly proportioned diamond has maximum brilliance over its entire surface.

Color

There is a wide range of color from finest blue white to fine white, white, yellow, and brown.

Perfection

The degree of perfection is a major factor in determining the value of a diamond. Some imperfections in diamonds can be seen by the naked eye; others can be seen only under strong magnification. A flawless diamond (often referred to and described by most jewelers as "perfect") is one without any imperfections whatsoever; that is, none that can be seen by a trained expert using a powerful magnifying glass (10X magnification).

Grading of Diamonds Illustrated in Catalog

AAA-I

Identifies extra fine quality and blue-white color. This grade is so fine that even under ten-power magnification it is very difficult for anyone except a diamond expert to detect the faintest type of imperfection. Proportions and quality of cutting are exceptional . . . resulting in the greatest beauty and brilliance possible. This grade is often sold for perfect or flawless.

AAA

Identifies extra fine quality and color . . . equal to the AAA-1 Grade in every respect except in a slight degree of color. This grade under ten-power magnification reveals the faintest of flaws if critically examined. In appearance it is the equal of the finest diamond.

AA

Identifies fine color diamonds of slightly less perfection than Grade AAA. The two, or three, very small flaws in most cases can only be seen under a jeweler's magnifying glass and even then are not obvious. This grade of diamonds is especially appealing to those desiring a larger stone with very little sacrifice in beauty and brilliancy.

A

Identifies diamonds of fairly nice quality and color. This grade has flaws, visible to the naked eye if critically examined. The quality of cutting and brilliance is of a slight degree under AA grade.

BEWARE OF MISREPRESENTATION The term "perfectly cut" does not apply to the perfection of a diamond. It describes the cutting only, and is therefore misleading if used to infer quality. Do not be misled.

EARRINGS

All Pearl jewelry consists of individually matched pearls grown in Living Oysters and produced in Oriental Waters. These Cultured Pearls are a product of Nature and have the same characteristics as any other naturally produced gem; they will have difference in color, size, and quality. Carefully graded selected and matched so as to give the ultimate in its price range.

All above Diamonds AAA quality, unless otherwise specified. See page 5 for explanation of diamond grading. It is not always possible to obtain the exact weight of diamond ordered. Weight may vary one to three points (.01 to .03 ct.). Price may vary according to weight.

See pages 1 and 2 for price and shipping information.
