- (8) MAGTF Driver Pool Manning Document
- (9) 1st MEB CE Deployment Echelons
- (10) 1st MEB Equipment Density List (EDL)

1. Situation. Ref (a) details the lineage of 1st Marine Brigade through a century of activations and deactivations in response to crises in the Philippines, Veracruz, Haiti, Iceland, World War II, Latin America, Guam and the Korean Conflict. On 23 November 1999, 1st Marine Brigade was activated as 1st Marine Expeditionary Brigade (1st MEB) and assigned to I Marine Expeditionary Force (I MEF) in Camp Pendleton. Refs (b) through (s) govern the development of a MEB capability in the U.S. Marine Corps and I MEF. This order amplifies existing direction to establish 1st MEB as the crisis and contingency response force within I MEF. Ref (n) specifies **Enhance MAGTF Warfighting Proficiency** as a Line of Effort (LOE) for 2012 to 2016 for I MEF with particular focus on 1st MEB for 2012 to 2014. Ref (o) identifies **Increase 1st MEB's Warfighting Proficiency** as a I MEF Line of Operation (LOO) for FY13.

a. Operating Environment. An uncertain and dangerous operating environment characterized by violent extremist organizations, political instability in critical areas of national interest, vast ungoverned spaces ripe for turmoil and exploitation, regional hegemony, and natural disasters demand a force in readiness with capabilities for a global response. Development of 1st MEB as a crisis and contingency response force provides Marine Component Commanders (MARFORS) with a responsive MAGTF capable of executing operations across the range of military operations (ROMO) in support of Combatant Commanders' (CCDR) requirements and tasks.

b. Application. This order is applicable to I MEF Command Element (CE), I MEF Major Subordinate Commands (MSCs) to include 1st MEB, and 1st MEB Major Subordinate Elements (MSEs). This order outlines desired capabilities for a MEB MAGTF and an operating concept to guide force generation and capability development. The order further provides formal tasks to I MEF MSCs and MSEs to man, train, and equip the subordinate elements of the 1st MEB.

Subj: I MEF DEVELOPMENT OF 1ST MARINE EXPEDITIONARY BRIGADE

c. Assumptions

(1) I MEF is capable of sourcing and sustaining a MEB in support of crisis response and Operational Plan (OPLAN)/Concept Plan (CONPLAN) tasking/response within the current operating environment.

(2) Maritime Prepositioning Ships (MPS) enable the 1st MEB's rapid deployment and employment of a fully capable MAGTF. MPS is the most likely method of deployment for 1st MEB until the U.S. Navy obtains a 33-ship inventory.

(3) 1st MEB will be aligned with the Service assigned I MEF OPLAN/CONPLAN alignment with principal focus in the PACOM and CENTCOM Areas of Responsibility.

(4) The availability of amphibious lift will challenge the deployment of a traditional MEB-sized Amphibious Landing Force (ALF) by amphibious shipping alone.

(5) The rotation of forces and individual augments, in support of global force management (GFM) and unit deployment program (UDP), will be suspended to support a crisis or contingency. Units involved in pre-deployment training will be available for assignment to 1st MEB.

(6) Sufficient training and readiness of forces available for crisis response and contingencies are sustained below the regiment and group level by means of GFM rotational Pre-deployment Training Program (PTP) and unit training.

(7) Strategic Lift will be available to support operational deployment in the event of crisis or contingency.

(8) 1st MEB has the ability to operate in an austere environment and immature theater.

d. Cancellation. This order remains in effect until cancelled by higher authority or superseded by revision.

2. Mission. I MEF develops a crisis and contingency response force capability resident in the 1st MEB through a deliberate man, train and equip process in order to support and/or accomplish CCDR and Service tasks across ROMO.

Subj: I MEF DEVELOPMENT OF 1ST MARINE EXPEDITIONARY BRIGADE

3. Execution

a. Commander's Intent

(1) Purpose. To develop 1st MEB as an embedded MAGTF within I MEF as a certified crisis and contingency response force capable of executing assigned missions across the ROMO.

(2) Method. I MEF will develop 1st MEB capabilities in accordance with MCTL [ref (h)] and the most likely assigned OPLAN/CONPLAN missions. A deliberate man, train, and equip process will be applied to develop MEB capabilities within the 1st MEB CE, Aviation Combat Element (ACE), Ground Combat Element (GCE), Logistics Combat Element (LCE), Brigade Headquarters Group (BHG) and associated Naval Support Element (NSE). 1st MEB will not have assigned forces, but will develop habitual relationships with designated subordinate command elements to develop a cohesive MAGTF. A MEB force list will be identified, predicated upon the most ready units to deploy and employ. Crisis Response Force packages will be developed as modular MAGTF options resident in I MEF and represent I MEF's CONUS-based Crisis Response Force. The 1st MEB CE and its MSEs will develop a baseline EDL that will be scalable and task organized to support the assigned mission. 1st MEB will conduct an annual Strategic Mobility Exercise (STRATMOBEX) with all MSEs, CE, and MPF Enabler Packages confirming MAGTF Deployment Support System II (MDSS II) Level IV data for their associate EDLs. 1st MEB will develop and execute a comprehensive, three-tiered training plan in order to exercise as a MAGTF (Tier 3), develop MSE competencies (Tier 2), and ensure individual readiness (Tier 1). 1st MEB tactical standard operating procedures (TACSOP) will guide capability development and operational execution. I MEF will share and exchange capability development and lessons learned with HQMC, Marine Force Pacific (MARFORPAC), Marine Forces Command (MARFORCOM), II MEF, and III MEF.

(3) Endstate. Manning documents for 1st MEB CE, MPF Enablers, to include the AAOG, SLRP, OPP and MOLT, and 1st MEB MSE Headquarters (HQs) are sourced and updated monthly. The Baseline EDL is identified and validated via the annual STRATMOBEX in order to enable the development of the Time Phased Force Deployment Data (TPFDD). 1st MEB and its MSEs are trained and certified to execute the most likely missions in accordance with MEB mission essential task lists (METL). 1st MEB capability is developed to composite rapidly, deploy on short notice, and employ across the ROMO.

Subj: I MEF DEVELOPMENT OF 1ST MARINE EXPEDITIONARY BRIGADE

b. Concept of Operations

(1) Man. The MEB CE will be formed from the I MEF CE with support from I MEF Headquarters Group (I MHG) MSEs. 1st MEB ACE, GCE, and LCE HQs are identified and formed from standing O-6 level [Regiment and Marine Aircraft Group (MAG)] HQ as designated by the I MEF MSCs and approved by CG, I MEF. Additionally, a BHG staff will be formed from within I MHG HQs existing organic structure. The 1st MEB Force List is identified and reported in accordance with force structure specified in paragraph 3c of this order.

(2) Train. Capability development of 1st MEB will be in accordance with the I MEF Capstone LOEs in ref (n) and the I MEF FY13 Campaign Plan LOOs in ref (o). The 1st MEB core competencies define capability sets derived from OPLAN/CONPLAN analysis, Service Strategy, U.S. Marine Corps doctrine, and MCTL [ref (h)]. The capability development and certification cycle of the 1st MEB is defined as a two-year period directed by the 1st MEB Training Continuum in ref (r).

(3) Equip. The 1st MEB's equipment will primarily be provided from MPF and I MEF resources. 1st MEB EDL will be identified and updated annually. A Fly-in Echelon (FIE) will be identified for MPF Enablers and 1st MEB echeloning. The STRATMOBEX will validate MSE, CE, and Enabler equipment and provide MDSS II Level IV data. 1st MEB's continued participation in MPF tailoring efforts will ensure relevancy of MPSRON 2 and MPSRON 3 IAW this order.

(4) Synchronization. The 1st MEB's Battle Rhythm, to include meetings, staff development, unit training, and exercises will ensure that commanders and their HQs remain engaged in MEB readiness and assessment in compliance with the CG, 1st MEB's intent and guidance.

(5) Readiness Reporting. Readiness will be reported in accordance with Defense Readiness and Reporting System-Marine Corps (DRRS-MC) with specific Commander's Comments addressing current and future ability to support MEB crisis or contingency operations as directed in ref (j).

c. 1st MEB Operating Concept

(1) 1st MEB Mission. On order, 1st MEB provides a scalable, joint-capable MAGTF to conduct crisis response and/or

Subj: I MEF DEVELOPMENT OF 1ST MARINE EXPEDITIONARY BRIGADE

contingency response in order to support CCDR theater objectives.

(2) MEB Doctrine and Warfighting. U.S. Marine Corps doctrine and warfighting publications apply to the development of MEB competencies and capabilities as a MAGTF. The MEB fights the single battle concept; the MEB CE, supported by the MEB ACE, fights the deep battle to shape the battle space and directs the MEB GCE, ACE, and LCE to fight the close and security area battles to decisively defeat the enemy. The MEB CE allocates resources and coordinates with Higher, Adjacent, and Supporting forces to include Joint and Combined forces as well as the Interagency through an established battle rhythm and defined Command and Control (C2) relationships. MEB capabilities must be applicable across ROMO. 1st MEB will develop the capability to serve as a nucleus for Joint Task Forces or Functional Component.

(3) Force Structure/Force List. For planning and reporting purposes, the 1st MEB Force List is based on a notional MEB in accordance with ref (f). Specifically, the MAGTF will consist of a CE, BHG, GCE, ACE and LCE (total notional force list of approximately 14,800)

(a) 1st MEB

1. MEB CE
2. BHG HQ
3. Force Recon Plat
4. Det, ANGLICO
5. Det, CAG
6. Det, Intel Bn
7. Det, Comm Bn
8. Det, Radio Bn
9. Det, Law Enforcement Bn (Military Police)

(b) 1st MEB GCE

1. RCT HQ
2. 3 Infantry Battalions
3. 1 Arty Battalion (REIN) (HIMARS Btry)
4. 1 Eng Company (REIN) (1 CEB company minimum)
5. 1 Recon Company
6. 1 Tank Company (1 company minimum)
7. 1 AAV Company (1 company minimum)
8. 1 LAR Company

Subj: I MEF DEVELOPMENT OF 1ST MARINE EXPEDITIONARY BRIGADE

- (c) 1st MEB ACE
 - 1. MAG HQ
 - 2. Det MACG
 - a. Det, MTACS (TACC)
 - b. Det, MACS (ATC/MMT/TAOC/EWC)
 - c. Det, MASS (DASC/ASE)
 - d. Det, MWCS
 - e. Battery, LAAD
 - f. 1 VMU Sqdn
 - 3. 2 MWSS
 - 4. MALS (Composite RW/FW)
 - 5. 1 VMGR Sqdn
 - 6. 2 VMFA Sqdns
 - 7. 2 VMA Sqdns
 - 8. 2 VMM (or HMM) Sqdns
 - 9. 2 HMH Sqdns
 - 10. 1 HMLA

 - 6. 1 Engineer Supt Co (-) (REIN)
 - a. Eng Supt Co (-)
 - b. EOD Plt
 - c. Bridge Squad
 - 7. 1 Landing Support Co (-)

(e) I MEF will provide a force list monthly and report crisis response capability quarterly to MARFORPAC, per ref (q).

(4) Mission Sets. The most likely 1st MEB employment options in support of crisis and contingency missions:

(a) Conventional Combat Operations (offensive and defensive operations) with the capability of providing command

Subj: I MEF DEVELOPMENT OF 1ST MARINE EXPEDITIONARY BRIGADE

and control for three maneuver elements and employing all echelons of MAGTF fires (MCT 5.3.2.1).

(b) Prepositioning Operations (MPF) (MCT 1.12.3).

(c) Amphibious Operations (MCT 1.12.1).

(d) Foreign Humanitarian Assistance/Disaster Relief HA/DR) (MCT 1.16).

(e) Large scale Non-Combatant Evacuation Operations (NEO) in support of OPLAN/CONPLAN (MCT 1.13.2).

(f) Counterinsurgency Operations (MCT 1.18).

(g) Stability Operations (MCT 1.14).

(h) Security Operations to include embassy defense and critical infrastructure protection (CIP) (MCT 6.5.1).

(i) Enabling Operations for larger follow-on forces or force packages in support of operations (MCT 1.1.6.2).

(j) Phase 0 Shaping Operations to include Theater Security Cooperation (TSC) and large scale military-to-military engagements (MCT 5.5.5).

(k) Joint and combined operations (MCT 5.5).

(l) Defense Support to Civil Authorities (DSCA) (MCT 5.3.2.1.1).

(5) Deployment. 1st MEB will deploy via MPS, amphibious lift, strategic air, commercial air or combination thereof. The 1st MEB CE can echelon in four distinct echelons in order to provide C2 of in-theater forces to include MEU(s), forward deployed crisis response forces, and CONUS deployed operational forces per Enclosure (5). I MEF will identify, source, and deploy MPF enabling organizations per Enclosures (2) to (8).

(6) Support. The 1st MEB G-4, in coordination with the 1st MEB G-3, will determine logistics priorities. 1st MEB will use current logistics automated systems, to include but not limited to transportation, services, supply/maintenance, deployment, and embarkation. Non-USMC systems may be used to interface with civilian (DSCA, nongovernmental organization,

Subj: I MEF DEVELOPMENT OF 1ST MARINE EXPEDITIONARY BRIGADE

etc.), joint, or multi-national logistics agencies. The FIE planning will include an initial sustainment block, MPF Enabler packages and remaining T/E items not sourced from MPS. Thirty days of sustainment (DOS) will be sourced (MPS primary). The assigned LCE will be the primary source of non-aviation sustainment support for all elements of the MEB; the ACE will be responsible for providing the aviation logistics (AVLOG). A Logistics Working Group/Force Transportation Board will be integrated into the 1st MEB battle rhythm to ensure logistics efforts are synchronized and confirmed.

(7) Crisis Response Packages. Organic within 1st MEB Forces are discreet MAGTF Crisis Response Packages that may deploy from CONUS as either a separate global response or as an element of the 1st MEB deployment in support of a crisis or contingency. Echelons of the MEB CE may deploy to provide C2 of the MAGTF crisis response package.

(a) Light MAGTF Package

1. Composition: O-5 led task force (company builds to battalion); RW assault support and CAS (mission dependent); combat logistics company
2. Response Time: Seven (7) days ready for employment
3. Mission Sets: Security missions, enabling operations
4. Remarks: Not MPF enabled/Fly in Echelon (FIE) only

(b) Medium MAGTF Package

1. Composition: O-6 led MAGTF; battalion task force; composite squadron; combat logistics battalion
2. Response Time: 14 days ready for employment
3. Mission Sets: HA/DR, NEO, MPF, DSCA, Defensive Ops
4. Remarks: MPF enabled

(c) Heavy MAGTF Package

1. Composition: Full MEB
2. Response Time: 30 days ready for employment
3. Mission Sets: Full ROMO

(8) Habitual Relations. For planning, training/exercises, operational deployment and operational employment, 1st MEB develops and maintains habitual relationships with ESG-3 and MPSRON 2.

Subj: I MEF DEVELOPMENT OF 1ST MARINE EXPEDITIONARY BRIGADE

d. Tasks

(1) I MEF CE

(a) Refine, source, and maintain 1st MEB CE Manning Document per Enclosure (1). (G1)

(b) Refine, source and maintain AAOG, SLRP, OPP, and MOLT manning documents per ref (s) and Enclosures (2) to (4) and (6). (G1)

(c) Maintain HQ Manning Documents for 1st MEB ACE, GCE, LCE, and BHG. (G1)

(d) Establish a Report For Planning (RFP) relationship with 1st MEB ACE, GCE, and LCE HQs as appropriate. (G3)

(e) Develop and annually update a baseline EDL that will be scalable and task organized to support the assigned mission. (G4)

(f) Annually conduct a STRATMOBEX with CE and MPF Enabler Packages, confirming MDSS II Level IV data and the EDL. (G3)

(g) Annually update 1st MEB's information in the Prepositioning Decision Support and Analysis Tool (PDSAT). (G4)

(h) Develop and maintain a 1st MEB EDL shortfall list for MPF MEB. Coordinate global sourcing for all shortfalls not available within I MEF. (G4)

(i) Assist with the development of, and collect, baseline UDL created by MSCs in MDSS II for an Amphibious MEB NLT 60 days after this order is signed. (G4)

(j) Utilizing MSE and CE input, develop and maintain an FIE EDL based on 1st MEB G-3 prioritization of equipment and personnel. (G4)

(k) Develop, maintain, and publish a two-year 1st MEB Training Exercise Employment Program (TEEP) IAW ref (r). (G3)

Subj: I MEF DEVELOPMENT OF 1ST MARINE EXPEDITIONARY BRIGADE

(l) Manage and execute 1st MEB Training Plan upon issuance of ref (r). (G3)

(m) Execute 1st MEB Battle Rhythm per paragraph 3e(6). (ALL)

(n) Identify and report 1st MEB Force List to MARFORPAC G-3 on a monthly basis. (G3)

(o) Report 1st MEB as a crisis response force quarterly to MARFORPAC via record message traffic per ref (q). (G3)

(p) Report 1st MEB readiness in DRRS-MC. (G3)

(q) Develop and maintain a 1st MEB TACSOP NLT 60 days after this order is signed. (G3)

(r) Develop a concept for certifying 1st MEB. (G3/G5/G7)

(s) Share and exchange MEB concepts with HQMC, MARFORPAC, MARFORCOM, II MEF, and III MEF. (G3)

(t) Request 1st MEB Unit Identification Code (UIC) and Plain Language Address (PLA). (G1/G3/G6)

(u) O/O, develop a landing plan for 1st MEB ALF. (G3)

(v) O/O, develop an embarkation plan for 1st MEB ALF. (G3/G4)

(w) Develop Marine Corps Center for Lessons Learned plan to capture lessons learned. (G3)

(2) CG 1st Marine Division (1st MARDIV), CG 3d Marine Air Wing (3D MAW), CG 1st Marine Logistic Group (1st MLG), and CO I MEF Headquarters Group (I MHG)

(a) Designate the 1st MEB GCE HQ (RCT HQ), 1st MEB ACE HQ (Composite MAG), 1st MEB LCE HQ (CLR), and 1st MEB BHG as required and direct RFP to CG, 1st MEB.

(b) Refine, source, and maintain 1st MEB GCE, ACE, LCE and BHG HQ/MSE Manning Documents.

Subj: I MEF DEVELOPMENT OF 1ST MARINE EXPEDITIONARY BRIGADE

(c) Source MSE representation to the AAOG, SLRP, OPP, AAOE, LFSP and MAGTF Driver Pool per Enclosures (2) to (5) and (8).

(d) Identify and refine 1st MEB GCE, ACE, LCE, and BHG Force List in accordance with paragraph 3c(3) of this order and report monthly to I MEF G-3.

(e) Develop and execute 1st MEB GCE, ACE, LCE and BHG/BHG MSE Training Plan in accordance with ref (r) NLT 60 days after this order is signed.

(f) Support and execute 1st MEB Training Plan upon receipt of ref (r).

(g) Develop and maintain a two-year 1st GCE, ACE, LCE and BHG/BHG MSE TEEP.

(h) Participate in 1st MEB Battle Rhythm per this order.

(i) Develop and annually update a baseline EDL that will be scalable and task organized to support the assigned mission.

(j) Develop, maintain, and annually update an FIE EDL. Submit update to 1st MEB G4.

(k) Conduct an annual STRATMOBEX, to include MPF Enabler Packages, confirming MDSS II Level IV data and the EDL. Submit MDSS II Level IV Data and updated EDL to 1st MEB G4.

(l) Report 1st MEB GCE, ACE, LCE, and BHG readiness via respective MSC DRRS-MC Commander's Comments.

(m) O/O, provide supporting documentation to the MEB landing plan.

(n) O/O, support the development of an embarkation plan for 1st MEB ALF.

(o) Annually update 1st MEB's information in the PDSAT.

Subj: I MEF DEVELOPMENT OF 1ST MARINE EXPEDITIONARY BRIGADE

e. Coordinating Instructions

(1) Manning Document Verification. 1st MEB CE will verify its manning document by staff section to the 1st MEB G-1 NLT the 15th of each month. 1st MEB ACE, GCE, LCE, and BHG/BHG MSEs will verify their HQs manning documents to 1st MEB G-1 NLT the 15th of the first month of each quarter (Oct, Jan, Apr, Jul).

(2) Identification of ACE, GCE, LCE, and BHG HQs will be provided IAW paragraph 3b. CG I MEF prefers an enduring relationship with identified MEB MSE HQs. GFM deployments are accepted justification for the rotation of MEB MSE HQs.

(3) Unit assignment to the MEB Force List will be provided by the I MEF MSCs on a monthly basis NLT 20th of each month to the I MEF G-3. I MEF MSCs will consider a balance of readiness with availability to deploy based on the GFM cycle of each unit; for planning purposes, unit assignment to 1st MEB will be NET 90 days after deployment and remain assigned until execution of Block IV training/certification. CG I MEF retains the ability for final determination based on MSC Commander's recommendation.

(4) Certification. 1st MEB certifies to its MAGTF mission essential tasks every two years. I MEF will conduct the certification and CG I MEF will certify the 1st MEB. All certification efforts will initially focus on MEB CE and MSE (GCE, ACE, LCE, BHG/MSE) HQs. The certification will be a TEEP event that is conducted during an exercise or during a scheduled TSC event.

(5) Exercise Cycle. 1st MEB will normally execute a two-year (fiscal year based) exercise cycle that will inform readiness and culminate in MEB CE and MAGTF CE certification.

(a) Odd years: 1st MEB will conduct an amphibious exercise (DAWN BLITZ) and a conventional maneuver/combat exercise (Steel Knight/Wing War).

(b) Even years: 1st MEB will conduct an MPF exercise (PACIFIC HORIZON/NATIVE FURY) and a combined arms exercise (Large Scale Exercise/US Army Warfighter).

(6) 1st MEB Battle Rhythm. The battle rhythm drives 1st MEB's progress towards attainment of CG 1st MEB's stated goals

Subj: I MEF DEVELOPMENT OF 1ST MARINE EXPEDITIONARY BRIGADE

and ensures synchronization and cohesion across the 1st MEB CE, ACE, GCE, LCE, and BHG. I MEF Working Groups provide opportunities for the Battle Staff, Special Staff, and assigned forces to achieve efficiencies, prioritize demands on the force, and mitigate scheduling conflicts pursuant to the CG 1st MEB priorities and focus areas. The following events and processes require participation, representation, or input:

(a) 1st MEB Chief of Staff Meeting: CE Principals or Trusted Agents meet weekly (every Tuesday at 1330).

(b) 1st MEB CG Meeting: CE Principal Staff and MSE Commanders meet monthly with the 1st MEB Commanding General (1st Tuesday of each month at 1330).

(c) Quarterly Staff Development: The 1st MEB CE and MSE HQs will conduct quarterly staff development. At a minimum, quarterly sessions will include battle roster verification, staff updates, training related to MEB employment/operations and pending exercises, and verification of personnel readiness. Additionally, 1st MEB CE will conduct a short duration Crisis Action Team Exercise (CATEX), in concert with ref (p), focused on crisis problem framing and deployment readiness. Expeditionary Strike Group 3 (ESG-3) will be invited to participate in two of the four quarterly sessions each year.

(7) TEEP. 1st MEB will develop a two-year TEEP to provide visibility and synchronization of all significant events to include monthly meetings, exercises, CATEXs, embark and STRATMOBEXs, exercises, and certification. The TEEP will be published to 1st MEB and I MEF in record message. The TEEP will provide detailed visibility of events out to two years.

(8) Crisis Response Planning. In accordance with ref (p), crisis response planning will focus on problem framing and force generation to rapidly composite and deploy 1st MEB.

(9) Readiness Reporting. In accordance with ref (j), 1st MEB readiness will be reported monthly via DRRS-MC. I MEF MSCs report ability to provide 1st MEB ACE, GCE, LCE, and BHG via MSC Commander's comments. Pertinent comments include Tier 2 training events and identification of CE and units by element.

(10) Public Affairs. 1st MEB public affairs will coordinate with I MEF and higher and adjacent authorities to communicate and disseminate timely and accurate information to

Subj: I MEF DEVELOPMENT OF 1ST MARINE EXPEDITIONARY BRIGADE

key audiences. 1st MEB PAO will maintain continuity as the official spokesperson for the Commanding General and communicate desired communication goals of the command. 1st MEB PAO is the release authority for all providing timely and accurate information to media, internal and external audience while keeping the Commander informed of emerging media operations related to 1st MEB contingencies. 1st MEB PAO will coordinate all community relation efforts, monitor trends in the information environment, engage on social media platforms and prepare subject matter experts to better communicate the mission of 1st MEB and priorities of the Commander.

f. TACSOP. MEB CE, ACE, GCE, LCE, and BHG Tactical SOPs will include defined roles and responsibilities by staff section and billet; boards, bureaus, centers, cells, and working groups (B2C2WG); templates for briefs and messages; operating concepts and processes; and battle drill playbooks.

g. Heraldry. 1st MEB will maintain a unit organization standard, battle standard, and distinct 1st MEB logo.

h. Command Chronology. 1st MEB will be required to submit a separate command chronology in accordance with ref (i).

i. EDL. Until HQMC publishes a doctrinal MEB force list and standard table of equipment, a baseline EDL will enable 1st MEB to scale and task organize its forces for any assigned mission. As a crisis response force, 1st MEB must be able to rapidly deploy as well as submit strategic movement requirements to U.S. Transportation Command via Joint Operation Planning and Execution System. Modifications to a baseline EDL can be continually scaled and modified as I&W point toward a future assigned mission. MDSS II Level IV UDL will be captured for each MSE and CE. Advance party, to include MPF Enablers and Security, UDL will be the first priorities for TPFDD submission IOT ensure those elements can deploy upon issue of an execute order.

4. Administration and Logistics. Omitted.

5. Command and Signal

a. Command. Until deployment, CG, I MEF retains operational control (OPCON) of 1st MEB. Upon receipt of direction from higher headquarters, CG, I MEF will direct composition of 1st MEB. The I MEF Deputy Commanding General

Subj: I MEF DEVELOPMENT OF 1ST MARINE EXPEDITIONARY BRIGADE

(DCG) is designated as the Commanding General, 1st MEB; CG, I MEF will designate another general officer if DCG is not available. Capability development through an organize/man/train/equip/deploy process remains the responsibility of CG, I MEF. Per this order, 1st MEB is to be identified and recognized as a I MEF MSC for purposes of planning, coordination, capability development, and assessment. Per this order, CG, I MEF directs a planning and coordination relationship between CG, 1st MEB and CG 1st Marine Division, CG 3d Marine Aircraft Wing, CG 1st Marine Logistics Group, and CO I MEF Headquarters Group in order to designate a 1st MEB GCE, ACE, and LCE HQs, and a BHG for planning coordination and preparation. Upon deployment, CG I MEF transfers OPCON of 1st MEB to the designated Marine Component or Joint Task Force through MARFORPAC. Readiness reporting of 1st MEB is the responsibility of I MEF until 1st MEB composites.

b. Signal. 1st MEB maintains a classified and unclassified information portal populated with applicable orders, training and exercise plans, readiness assessments, SOPs, manning documents, EDLs, operational templates, and Indications and Warnings assessments of emerging crises. The 1st MEB portal is a SharePoint site on the I MEF SIPR and NIPR home pages.

1st MEB CE Deployment Echelons

The deployment of the MEB Command Element (CE) is divided into several echelons. In order to effectively and efficiently answer the call, 1st MEB movement supports the C2 echelon concept utilizing Suitcase Staff, Jump Staff, Forward Staff and Main Staff.

MEB FORCE FLOW MODEL

Arrival Window	DESCRIPTION
~12 HOURS	MEB CE SUITCASE STAFF
Day 1	MEB CE JUMP STAFF SURVEY LIAISON RECON PARTY
Day 2 - 8	MEB CE FORWARD STAFF DET, BRIGADE HQTRS GROUP (INTEL CO, RADIO CO, COMM CO, LE PLT) OFFLOAD PREPARATION PARTY ARRIVAL AND ASSEMBLY OPERATION GROUP LANDING FORCE SUPPORT PARTY MSE ARRIVAL AND ASSEMBLY OPERATIONS ELEMENT
Day 5 - 14	GCE ELEMENT (INFANTRY BATTALION 1, LAR CO, ARTY BTRY, CEB PLT, RECON PLT, TRUCK PLT) COMBAT LOGISTICS COMPANY (STP AND EOD SECTION)
Day 7 - 16	MARINE AVIATION GROUP HQTRS (-) KEY FLYING SQUADRON/DETACHMENTS (F/W & R/W ASLT SUP, F/W TACAIR, R/W CAS) MTACS, MWSS 1, MWCS, LAAD LAW ENFORCEMENT COMPANY FORCE PLATOON ANGLICO
Day 9 - 17	INFANTRY REGIMENT HQTRS (-) (ALPHA COC) COMBAT LOGISTICS REGIMENT (FWD) GCE ELEMENT (INFANTRY BATTALION 2, ARTY BATTALION (-), HIMARS BTRY, RECON CO, AAV CO) MASS, MACS, MWSS 2 COMBAT LOGISTICS BATTALION (DS)(-)
Day 10 - 30	MEB CE MAIN STAFF ACE CE MAIN STAFF BRIGADE HQTRS GROUP (-) GCE ELEMENT (INFANTRY BATTALION 3, ARTY BTRY, TANK CO, CEB CO) FLYING SQUADRONS INFANTRY REGIMENT HQTRS (-) (BRAVO COC) COMBAT LOGISTICS REGIMENT HQTRS (-) COMBAT LOGISTICS BATTALION (GS) (MED Co, ENGINEER SUP CO (-))
Day 30 - 33	MEB CE REAR STAFF HQTRS CO (-), INFANTRY REGIMENT DACG, LANDING SUPPORT COMPANY

UNCLASSIFIED

Suitcase Staff

Departs within 12 hours

Purpose: Near immediate GO level representation

Capabilities: Assessment, and Enable Follow on forces

- CE for deployment of a limited MAGTF, or nucleus for a larger CE; principally replaces a general office on the ground
- Small team that can develop an initial assessment of the situation
 - Effect host nation/HHQ efforts
 - Advise/Advertise USMC capabilities
 - Coordination with external agencies
- Limited planning capability; deliberate planning done via reach-back
- Self-sustaining (3 DOS minimum)

Assumptions:

- Environment is permissive

Personnel:

Suitcase staff comprised of:

- CG and Aide (2)
- G-3 (1)
- Log planner/KO* (1)
- FDP&E chief (1)
- Communication Operators (4)
- **Total (9)

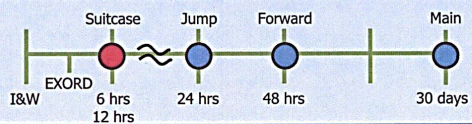

Communications assets:

- Host nation infrastructure, Iridium phones
- 9 users (NIPR/SIPR/VTC/Phones/SCR)

Airlift required: Commercial

Timeline

- MEF CATF ~ 6 hours
- Suitcase staff – 12 hours

UNCLASSIFIED

Jump Staff

Departs No Earlier Than 24 hours

Purpose: Command & Control LIGHT crisis response

Capabilities: Formal Assessment, Integration, Enable Follow on forces, Connecting file

- Jump staff provides:
 - C2 of multiple smaller units for mission execution
 - MEU/Coalition/ light IMEF Crisis response MAGTF
 - Functional area representatives for enhanced C2
 - SME pool designated to provide most likely capabilities
 - Increased situational awareness
 - Assessment
 - Determines specific mission requirements
- Self sustaining

Assumptions:

- Environment is permissive
- Work from an existing building/facility
- Mobile via commercial vehicles

Personnel:

Jump staff comprised of:

- G-2 (7)
- (G-2, 2 x CI/HUMINT, Plans, Analyst, Rad Bn, Intel Bn)
- G-3 (11)
- (Air, Fires, COPS, Chief, FP, IO, SWO, 2 x SME, IMO)
- G-4 (6)
- (Log Planner, Med Planner, KO, Log Chief, Log Clerk, Engineer)
- G-6 (13)
- (OpsO, Chief, SPE, TELO, Data, 8 x Comm Tm)

Total: CE(25) + BHG (12) = 37

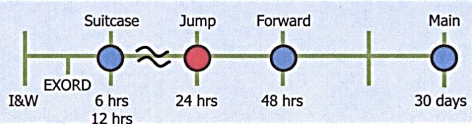

Communications assets & Capabilities & Enablers:

- Host nation infrastructure, Iridium phones
- 36 users/NIPR/SIPR/VTC/Phones/SCR

Airlift required: Strategic or commercial air lift

Timeline

- Jump staff - 24 hour response

UNCLASSIFIED

Forward Staff

Departs No Earlier Than 48 hours

Purpose: Command & Control MEDIUM crisis response

Capabilities: Capable of coordinating limited Offensive Operations,

• Other capabilities, as required:

- 24 hour Command and Control
- Increased C2 capacity and B2C2WG execution and full interaction with higher HQs
- CoS + Staff Principals
- MPF Enabled
- BHG support required

Assumptions:

Personnel:

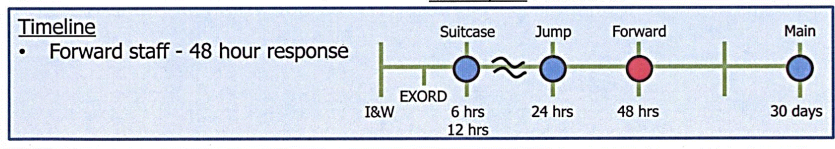

- Special Staff	(6)
- G-1	(6)
- G-2	(9)
- G-3	(40)
- G-4	(23)
- G-5	(2)
- G-6	(15)
- G-8	(1)
- **Total	(102)

-BHG (148)

Communications assets & Capabilities & Enablers:

- Fixed Structure or UOC
- COC V2 /JTFE (78 Users/NIPR/SIPR/CENTRIXS/VTC/Phones/SCR)
- Strategic Lift

Airlift required: 6 x STRAT Lift

UNCLASSIFIED

Main Staff

Deployed within 30 days

Purpose: Command & Control HEAVY crisis response, full offensive operations

Capabilities:

• Other capabilities, as required

- Increased C2 capacity
- Robust CoC staff enhanced 24 hour C2
- MPF enabled
- BHG supported

Assumptions:

Personnel:

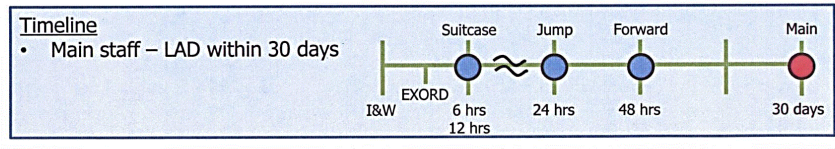

Main staff comprised of

- SSEC	(10)
- G-1	(5)
- G-2	(12)
- G-3	(18)
- G-4	(27)
- G-5	(2)
- G-6	(9)
- G-8	(5)
- **Total	(88)

-BHG (376)

Communications assets & Capabilities & Enablers:

- Fixed Structure or UOC
- COC V2 /JTFE
- 78 Users (NIPR/SIPR/CENTRIXS/VTC/Phones/SCR)
