PATENTS (AMENDMENT) RULES 2019.

The amendment to Rule 24(5) of the Patents Rules 1992 is for the purpose of extending the prescribed period for responding to the search report and written opinion furnished under Section 29 from four months to eighteen months from the priority or filing date, or within six months of the date of issue by the Controller to the applicant of a copy of the Section 29 report and written opinion, whichever is later.

Applications for Patents From 30/11/2019 to 17/12/2019

The names of applicants are in alphabetical order. In the case of joint applicants, each name is given independently. The title of the invention should not be regarded as an exhaustive indication of the subject-matter. The date immediately following the title is that on which the application was filed; in the case of a divisional application, the filing date of the earlier application is added within parentheses. In the case of a Convention application the Convention country and priority date(s) claimed are given in square brackets and where an application claimed the priority of an earlier application filed at the office, this information is given within the square brackets. The number is that of the application and should be used for correspondence purposes up to the date of grant of a patent. The letter S preceding the number indicates that the application is for a short-term patent. A new number will be given when a patent is granted and this new number should be quoted in all correspondence subsequent to grant.
