Voice of the Recycled Materials Industry ™

#### **ORGANIZATIONAL PROFILE**

ISRI, the Voice of the Recycled Materials Industry, promotes safe, economically sustainable, and environmentally responsible recycling through networking, advocacy, and education.

With headquarters in Washington, D.C., 15 chapters and three regions nationwide, ISRI represents more than 1,600 companies that operate in nearly 4,000 locations in the U.S. and in more than 40 countries around the globe. In the U.S. alone, ISRI member companies generate \$117 billion in U.S. economic activity annually and directly employ more than 160,000 Americans with good-paying jobs.

ISRI's members are present throughout the recycling chain and include companies that process, broker, and consume recyclable commodities, including metals, paper, plastics, glass, rubber, electronics, and textiles sourced from industrial, commercial, and residential activities. Our membership also includes companies that manufacture and distribute the optical and infrared scanners, balers, shredders, conveyors, and other machinery, transportation equipment, and technology that is used throughout recycling.

ISRI helps our members by providing a variety of products and services designed to help them run better, safer, cleaner, and more profitable operations. From guidance on materials theft prevention and environmental compliance to the Recycling Industry Operating Standard<sup>TM</sup> (RIOS<sup>TM</sup>) and the industry's most comprehensive collection of safety training materials, ISRI continues to take the lead in addressing the needs and issues of our members and the recycled materials industry.

Many ISRI member companies are family-owned businesses, and a sizable number of them have been in continuous operation for 100 years or more. ISRI members range in size from small, single-facility operations to large, publicly held corporations with multiple facilities nationwide and worldwide. Other ISRI members focus on the business of brokering and trading recyclable materials, consolidating materials from a variety of businesses to meet consumer needs.

ISRI's associate members include equipment and service providers that market to the recycled materials industry. Manufacturers and sellers of equipment and services find value in promoting the recycled materials industry through their membership in ISRI. Companies that utilize recycled materials also are welcomed as ISRI members.

Among its services, ISRI provides networking, education, training, advocacy, and compliance guidance, and it promotes public awareness of the importance of recycling to the production of the world's goods and services. ISRI's national office, along with its 15 chapters and three regions:

• Represent the interests of the recycling industry and our members to the executive branch, Capitol Hill, and state legislatures and regulatory agencies, as well as international bodies throughout the world;

■ Provide education and training to members through forums, seminars, workshops, commodity roundtables, webinars, publications, and an annual convention, which includes the world's largest recycling exposition; and

■ Inform members and the public about the benefits of recycling through educational tools, public awareness initiatives, and online through the ISRI website—isri.org—and social media channels.

#### GOVERNANCE

A board of directors, elected for two-year terms, governs ISRI. Board members establish and review the vision and mission of ISRI, take part in the development of strategic goals that advance the association's mission, set ISRI policy, and serve as a forum for public debate on key issues that affect the members. The board consists of the officers of the association, the presidents or elected representatives of each chapter and region, up to three directors from each division, seven directors-at-large, one associate member, and past association chairs. The board meets quarterly at venues around the country.

#### MEMBERSHIP INFORMATION

ISRI offers four categories of membership: Active, Associate (domestic or international), Consumer, and Brands Leadership Council.

The association has six divisions: Ferrous, Nonferrous, Paper, Tire & Rubber, Electronics, and Plastics. To learn more about membership, visit isri.org/membership.

#### COUNCILS

ISRI has set up councils to meet the needs of specific market segments or groups of members within the organization. Council participation gives members a voice in issue discussions and provides a vehicle to bring industry issues and association needs to the forefront.

**Brands Leadership Council:** Brings together "brand partners" and the entire recycling supply chain to help solve problems and develop solutions around Design for Recycling<sup>®</sup> and sustainability.

**Consumers Council:** Open to all ISRI members who consume metals, paper, plastics, glass, textiles, rubber, and/or electronics.

**Council of Chapter Presidents:** A forum for chapter presidents to share information and best practices regarding chapter management.

**Equipment and Service Providers Council:** Addresses the issues of Domestic Associate members who meet the equipment, technology, and service needs of the industry and who support ISRI programs through sponsorships and participation.

**ISRI Safety and Environmental Council:** Holds conferences of member safety and environmental professionals to promote information exchange and professional development.

**Women in Recycling Council:** Open to all ISRI members, this council provides support, mentorship, education and training, net-working, and other opportunities for women in the recycled materials industry.

**Young Executives Council:** Opens personal and professional growth opportunities for individuals ages 40 and under who are employed by ISRI member companies.

#### EDUCATION AND EVENTS

ISRI's education and events offerings provide knowledge-building and networking opportunities that give participants access to industry experts, compelling content, and timely resources. Each year, ISRI Education and Events includes multi-day conferences, webinars, selfpaced online courses, videos, and a variety of compliance-oriented print materials. Visit isri.org/events-training for more information.

#### ANNUAL ISRI EVENTS

**Convention and Exposition**—The largest gathering of recycling industry professionals in the world, the annual ISRI convention and exposition draws an average of 6,000+ attendees from more than 50 countries. The event offers dozens of workshops on topics critical to the industry while providing a forum for equipment manufacturers and service providers to meet scrap processors and consumers. ISRI's convention is a nonstop networking event for recycled materials professionals across town and around the world. For more information, visit ISRI2024.org or contact convention@isri.org.

Planned Convention Dates:

■ ISRI2024: April (13-15) 15-18. Mandalay Bay Resort & Casino, Las Vegas, Nevada.

■ ISRI2025: May (12-15). San Diego, CA

**ISRI Shredder Operations Forum**—The ISRI Shredder Operations Forum supplies job-specific training for individuals who work in shredding facilities, covering how to operate shredding equipment, key maintenance requirements, recent technology, and more. The event often includes a tour of a recycled materials processing facility or other operations in related fields. For more information, contact registration@isri.org.

**ISRI Roundtables**—The ISRI Roundtables is an annual two-anda-half-day event for scrap traders, processors, and consumers wishing to network and gain an edge on understanding market conditions. The event provides in-depth, current market analysis and future projections on aluminum, copper, ferrous, nickel/stainless, plastics, and other commodities as well as other topics of importance to the scrap recycling industry. For more information, contact registration@isri.org.

**ISRI Webinars**—ISRI offers, free to members, dozens of webinars focused on breaking issues affecting the industry, as well as a venue to provide expert training to employees without requiring travel. Webinars are scheduled for 60 minutes and include time for participants to ask presenters questions. For more information, contact registration@isri.org.

**ISRI Online Self-Paced Courses**—ISRI's *Safety in Scrap Re-cycling* is a 60-minute online course for supervisors on re cognizing and reducing risks at a job site. This interactive, self-paced course has a comprehensive curriculum that details how to find and address potential safety problems, including fire safety threats, mobile equipment, and blind spots. Personal protective equipment (PPE), tools, processes, and other hazard mitigation strategies are also discussed. Upon conclusion of the course and a required post-assessment, participants can earn a certificate of completion. For more information, visit isri.org/events-training.

To obtain your password, visit isri.org/login or contact Andrew Coffey at acoffey@isri.org" to "To obtain your password, visit isri.org/ login or contact membership@isri.org.

#### PUBLICATIONS AND RESOURCES

ISRI Membership Directory and Industry Guide—a comprehensive listing of member contacts, business classifications, and types of materials handled. Used daily by members to build business contacts, the directory is considered one of the most valuable benefits of ISRI membership. Available in print (a \$950 value), online to members, and via ISRI Connect, ISRI's mobile app.

*ISRI SPECS*<sup>TM</sup>—The Specifications Circular for a Global Recycling Industry provides guidelines for buying and selling a range of processed scrap commodities, including ferrous, nonferrous, paper, plastics, electronics, rubber, and glass.

*Guide to Creating a Fire Prevention and Management Plan*— This plan, developed by fire science, insurance, and scrap recycling industry professionals, is meant to be used as a guidance document to help business owners, operators, and EHS professionals better understand and mitigate potential risks before they become bigger problems. Available at isri.org/fire-management-resources.

*Industry Compensation & Benefits Survey*—This survey has the most comprehensive compensation and benefits data for the recycling industry, covering over 80 different job codes for salaried and hourly workers.

*ISRI Workforce Management Toolkit*—This resource has a selection of marketing pieces members can use to attract qualified applicants to their business. Most of the marketing pieces are custom-izable and can include each company's logo, website, phone number, and other text.

Youth Outreach Tools—ISRI and JASON Learning have developed a recycling education initiative for students in kindergarten through 12th grade that includes lesson plans, hands-on activities, interactive web-based experiences, and an annual video and poster contest focused on the importance of recycling. These resources can be downloaded for free from isri.org/jason.

#### ISRI Website, Social Media & Mobile App

ISRI's website is the go-to source for information and resources important to the recycled materials industry. The site includes the most current information on important policy and regulations, safety and best practices, recycling and commodity information, meetings and events, and more. Much of the information contained on the website is restricted to members only. To obtain your password, visit isri.org/login or contact Andrew Coffey at acoffey@isri.org.

Get social with ISRI! Engage with ISRI's social media channels for valuable resources, news, networking opportunities, and member benefits through Facebook, Twitter, LinkedIn, YouTube, and Instagram. For the latest video content, check out ISRI Studios at videos. isri.org.

And don't forget to download ISRI Connect, ISRI's mobile app, for easy access to the *ISRI Membership Directory*, news and information, and ISRI events. The app is available to download in the App Store for Apple and Google Play for Android.

#### **ISRI Studios**

ISRI Studios produces videos, podcasts, and live-streamed events related to the recycling industry. Content ranges from education and training to promotional. ISRI members have exclusive access to many of these resources. ISRI Studios also hosts archives of ISRI's virtual events. These resources are available at videos.isri.org.

#### **ISRI News**

The association's multiplatform digital magazine is the best place for industry news, analysis by ISRI experts, and perspectives. Distributed through isrinews.org, e-newsletters, and ISRI Connect mobile app, readers receive the most up-to-date recycling news through articles, podcasts, and videos. It also supplies a platform for advertisers to reach key decisionmakers.

#### **E-Newsletters**

ISRI offers several issue-specific e-newsletters focused on safety, commodity markets, metals theft, and industry events.

#### ADVOCACY

ISRI advocates on behalf of its members and the recycling industry on a range of industry policy and regulatory issues at the international, federal, state, and local levels, including outreach with governments, law enforcement, and the broader stakeholder community. Complete information can be found at isri.org/advocacy-compliance.

Advocacy Agenda—ISRI's 2023 Advocacy Agenda emphasizes key business continuity issues ranging from trade and market development to workforce development and transportation matters to environmental regulation. Visit isri.org/advocacy-compliance/advocacy-agenda for complete details. Refer to the "ISRI Staff Directory" on pages 14-15 for contact information about specific ISRI policy issues.

**ISRI PAC**—ISRI's political action committee heightens the profile of our industry with policymakers in Washington. ISRI PAC has been critical in past efforts to achieve Superfund reform, secure accelerated depreciation for equipment purchases, and establish the Congressional Recycling Caucus, and it continues to support our efforts to make our voices heard in Congress. **ISRI State Monitoring Program**—ISRI closely tracks legislation and regulation important to the recycling industry across the 50 states and advises chapters and members on the implications for individual companies as well as the broader industry. For more information, contact Abby Blocker at ablocker@isri.org.

Market Data & Analysis—ISRI provides data-driven insights and analysis on the economic and environmental impact of the U.S. recycling industry, the flow of recycled commodities, and market trends that aid our members in understanding the marketplace as well as assist policymakers with decisions that affect the industry. For more information, visit isri.org/recycling-commodities or contact Joe Pickard at jpickard@isri.org.

**International Trade**—ISRI promotes market access around the world through direct advocacy with governments and networking with international associate members, counterpart associations, and the broader industry. ISRI also advises members on trade compliance and policy matters that affect the industry.

**Environmental Compliance Assistance**—Expert help is available to provide members with guidance on environmental compliance issues as diverse as hazardous waste, stormwater management, air-quality management, and underground storage tanks. ISRI has expertise on RCRA, Superfund, TSCA, and the Clean Air/Water Acts, among other regulations. Contact David Wagger at dwagger@isri.org.

Metals Theft, including Catalytic Converter Theft—ISRI engages in extensive outreach with federal, state, and local law enforcement to collaborate on materials theft. This includes the use of **StopMetalsTheft.org®**, a one-stop online resource where law enforcement and others can access tools, obtain state metals theft laws, acquire scrap industry information, and find success stories; and **ScrapTheftAlert.com**<sup>™</sup>, a free online theft-alert system available to law enforcement officials, private security professionals, recyclers, and property owners.

#### **ISRI SAFETY & ENVIRONMENTAL**

The safety of our members and their employees and customers is a core value for the association. For many years, ISRI has provided members with award-winning safety education and training materials. ISRI offers a variety of free and fee-based products and services to members.

**Circle of Safety Excellence**<sup>™</sup>: Open to all ISRI members, this ISRI initiative is designed to help improve worker, vehicle, and facility safety within the recycling industry by sharing best practices and safety data. Members can enroll throughout the year. For more details, visit isri.org/safety/circle-of-safety-excellence-(tm) or contact Jerry Sjogren, (202) 662-8519 or jsjogren@isri.org.

**ISRI Safety and Environmental Council:** ISEC is a forum of member EHS professionals who meet to share ideas, review issues, and discuss general professional development. ISEC meets twice a year. On average, approximately 120 people attend the meeting, usually a mix of safety professionals and others who are responsible for safety within their operations.

**ISRI Safety Blueprint:** The ISRI Safety Blueprint facilitates discussion among facility owners/senior managers and ISRI staff that allows them to find for themselves the strengths and weaknesses of 14 different elements of their safety programs. Visit isri.org/safety/safety-training/isri-blueprint.

**Material Handler Train-the-Trainer:** This one-and-a-half day training course includes one full day in the classroom covering equipment-related safety information and four to six hours in the field going over equipment inspection, blind-spot drills, machine setup and control, as well as loading and unloading exercises. This course is designed to give trainers at your facility a better understanding of safety in and around material handlers. Contact Ryan Nolte at rnolte@isri.org.

**Powered Industrial Vehicle Train-the-Trainer:** Federal regulations require that anyone who operates a powered industrial truck (forklift) in the United States and/or its territories must be trained and educated to use the equipment safely and to recognize the hazards associated with using this equipment in the workplace. This training must be documented, and recertification must take place at least every three years for each employee who uses this mobile equipment. This class will provide this information and help in setting up your designated employee to be the facility trainer at your location(s). This course will cover forklifts, skid-steers, and wheel loaders, or any combination of these three that a member company may have at its facility.

**Transportation Assessment:** ISRI offers a one- to two-day transportation safety assessment, which focuses on six key components: general responsibilities, driver responsibilities, operational responsibilities, vehicle responsibilities, hazardous material responsibilities (if applicable), and crash responsibilities. For more details, visit isri.org/ safety/safety-training or contact Jerry Sjogren.

**DOT Self-Audit Checklist.** This program was developed to help members with FMCSA regulatory compliance issues. The purpose of the self-audit is to find opportunities where management can improve a motor carrier's overall safety performance and safety management controls. As a best practice, we recommend that you perform the audit in portions over a two- to three-day period and that you conduct the self-audit annually. For more details, visit isri.org/ safety/transportation-safety or contact Jerry Sjogren.

**Defensive Driver Training.** ISRI offers a defensive driver class (conducted in a classroom environment) that focuses on how CSA affects a driver and a company, the cost of accidents and how they affect a company's bottom line, driver etiquette recommended for state/federal roadside inspections, hours-of-service requirements, and driver distractions (cellphone requirements for drivers who operate CMVs). For more details, visit isri.org/safety/safety-training or contact Jerry Sjogren.

Hands-On Vehicle Inspection Training. A CMV is required for this class. This class focuses on how to perform a thorough vehicle inspection, vehicle nomenclature, leading vehicle trend defects (lights, tires, brakes, etc.), and CVSA out-of-service criteria. For more details, visit isri.org/safety/safety-training or contact Jerry Sjogren.

**Safety Videos and DVDs:** ISRI offers a collection of safety videos designed for use in scrap operations. Titles are offered in English/Spanish DVD format.

**Radiation Flash Cards:** Even with the most advanced detection equipment in place, it's possible for intact radioactive sources to sneak into scrap operations. ISRI's radiation flash cards provide common examples of material entering scrap recycling facilities that may contain radioactive sources.

**Recycling Industry Operating Standard**<sup>™</sup> (**RIOS**<sup>™</sup>): RIOS is an integrated management system standard for quality, environment, health, and safety. ISRI members enjoy discounted membership in RIOS.

RIOS provides value to your company by offering structure for managing and continually improving your programs to ensure product quality and customer satisfaction, environmental compliance and prevention of pollution, and health and safety compliance and prevention of workplace injuries. With RIOS in place, scrap processors can reduce costs and increase revenue through better QEH&S performance. Notably, third-party RIOS certification is available from ANAB-accredited RIOS certification bodies. Beyond the value of having a fully integrated management system, RIOS certification allows recyclers and refurbishers to meet the EHS management system requirement in R2 and obtain an export license to do business with China.

Visit www.rioscertification.org to learn more about RIOS membership, R2/RIOS, and third-party certification or contact Amy Sailor at asailor@rioscertification.org.

**SREA Reasonable Care Compliance Program**—The program provides environmental compliance reports that can help recyclers conduct due diligence on their business partners and potentially avoid severe legal consequences related to superfund liability. For information about the legal aspects of SREA, visit isri.org/srea or contact Rebecca Andrechak at randrechak@isri.org.

#### **ISRI INSURANCE PROGRAMS**

**RecycleGuard® Insurance Program**. Managed through Amwins Program Underwriters, this program addresses the property and liability insurance needs of recyclers across the United States and Canada. The program caters to the needs of our ever-evolving industry with a keen focus on flexibility and responsiveness. RecycleGuard has been a respected partner of ISRI since 2000, providing highly specialized insurance solutions to the scrap recycling industry. RecycleGuard has a demonstrated history of experience and expertise insuring the scrap industry, having resolved over 20,000 scrap-related claims and conducted over 4,500 risk management visits to scrapyards while providing coverage to approximately 50% of small to midsized scrapyard operators.

#### **Eligible Types of Recycling Operations Include:**

- Metal (Iron & Steel & Nonferrous) Paper Plastics
- Glass Rubber Textiles Electronics
- Recycling collection centers Shredding operations
- Automobile dismantlers

Coverages available through RecycleGuard include:

#### **General Liability**

- Conversion coverage Impaired property Premises
- Products Corporate identity protection coverage

• Errors and omissions coverage (applicable to document shredding operations)

#### **Business/Commercial Auto**

- Auto Non-owned Rental reimbursement
- Cargo pollution Driver other car
- Limited pollution (on some classes of operations)

#### Property

■ Building ■ Contents ■ Stock ■ Business income and extra expense ■ Equipment breakdown (including production machinery and shredders)

#### **Inland Marine**

- Scheduled property Yard equipment Small tools
- Cargo Equipment leased from others
- \$10,000 automatic limit on fence coverage
- Computer/EDP coverage

#### Crime

- Employee dishonesty Theft, disappearance, and destruction
- Forgery or alteration Depositors forgery
- Pension/profit sharing (ERISA) coverage form extension

#### **Pollution Liability**

- Non-owned sites Your products Premises
- Products

#### Workers' Compensation

- ISRI members only
- Available in all states
- Minimum premium: \$25,000
- A.M. Best rated "A" carrier
- Integrated claims management
- Superior loss control services

■ Flexible "pay-as-you-go" premium payment options via SmartPay Solutions

#### Umbrella

• Limits over general liability, auto, and workers' compensation coverage B; employers' liability

#### **Description of Coverages:**

#### **General Liability**

■ Insurance for premises and operations. Products may be rated and

audited on a composite basis using payroll or tonnage in lieu of sales. ■ Enhancements can include coverage for conversion, impaired property, and employee benefits liability.

#### **Business/Commercial Automobile**

Provides coverage for your owned, non-owned, and hired vehicles. Coverage can be included for:

- Physical damage to vehicles rented by you.
- Pollution liability due to upset and overturn.
- Rental reimbursement.

• Driver-other-car coverage for specified individuals (provides coverage for those individuals specifically named by you under the policy should they or their spouse drive a vehicle other than the one you provide them).

■ Other enhancements available by endorsement.

#### **Pollution Legal Liability Options**

• Limited Pollution Coverage: Provides coverage for a pollution incident from an insured site that begins on or after the effective date of the policy. Insured must be legally obligated to pay claims for bodily injury, property damage, or cleanup costs (excluding cleanup of insured's own site resulting from governmental action). Claim must be made during the policy period; pollution incident must be discovered within seven days after the commencement of the pollution condition and the incident must be reported within 14 days following discovery by the insured.

■ Premises Pollution Liability: Provides coverage for the first-party cleanup of both sudden and accidental or gradual pollution releases at covered location(s). Coverage also provided for bodily injury and property damage for gradual releases at covered locations. Mold/ fungi is included in the definition of pollution conditions.

• Contractors Pollution Liability: Provides coverage for bodily injury and property damage arising out of both sudden and accidental and gradual pollution releases while performing services for others.

#### Property coverage extension to provide for limits:

- Accounts Receivable: \$10,000
- Backup of Sewers, Drains or Sumps: \$10,000
- Brands & Labels: \$10,000
- Business Income (And Extra Expense): \$10,000
- Business Income From Dependent Properties: \$10,000
- Business Income For Newly Acquired Locations-Increased Time
- Debris Removal: \$20,000
- Electronic Data Processing Hardware, Electronic Data and Media: \$10,000
- Fine Arts: \$10,000
- Fire Protection Equipment Refill: \$10,000
- Increased Cost of Construction: \$25,000
- Money and Securities—Inside the Premises: \$5,000
- Money and Securities—Outside the Premises: \$5,000
- Newly Acquired or Constructed Property—Buildings and Business: \$500,000
- Trees, Shrubs, Plants (subject to \$1,000 maximum for any one tree, shrub, plant): \$5,000
- Outdoor fences, Radio & TV Antennas: \$15,000
- Outdoor Signs: \$10,000
- Personal Effects and Property of Others: \$10,000
- Pollutant Cleanup and Removal: \$15,000
- Property In The Custody of Your Salespersons: \$10,000
- Property In Transit: \$15,000
- Property Off-Premises: \$15,000
- Reward Payment: \$10,000
- Spoilage: \$10,000
- Theft Damage To Buildings: \$5,000
- Valuable Papers and Records—Other Than Electronic Data: \$10,000

#### **Umbrella Liability**

Provides insurance limits over your primary general, automobile, and employer's liability limits, subject to policy terms and conditions. Limits up to \$5 million and greater are available.

#### **Program Elements**

• Coverages, limits, and deductibles can be customized to fit individual needs.

• Price is based on individual exposures, coverage selected, limits, construction, location, and earlier claims history. No group rates are used.

■ All underwriting is centralized, resulting in a consistent approach to providing coverage. Actual coverage is subject to the policy terms and conditions agreed to at the time of binding.

• Loss Prevention: RecycleGuard is committed to providing loss-prevention consulting services to help you set up and maintain effective safety processes to control hazards and reduce loss potential. Experienced recycling industry safety professionals will evaluate your site, safety policies and procedures to determine their effectiveness and develop a formal program to correct identified deficiencies.

• Fast Attention and Instant Access for Claims: RecycleGuard offers a toll-free claims hotline and e-mail address for direct reporting of claims that are then overseen by recycling industry specialists familiar with claims common to the industry.

To obtain a quote, have your agent or broker contact Susan Diecidue, Underwriting Manager, at (603) 334-3019 or susan.diecidue@ amwins.com. Quotes can also be sent to: recycleguard.submissions. apu@amwins.com. **Group Health/Dental/Prescription Insurance** is offered to ISRI members by Mass Marketing Insurance Consultants Inc. at no cost or obligation. MMIC can offer the broadest range of insuring companies, policies, and plans. The company will analyze your health insurance needs to improve coverage and reduce costs. For more information, contact Ed Sterczek at (800) 349-1039, ext. 15, or ed.s@ mmicinsurance.com.

**Disability Coverage** offered by Mass Marketing Insurance Consultants and insured by Sun Life & Health Insurance Co. All ISRI member companies of two or more employees are eligible to take part in a custom-designed long-term and short-term disability group program. All eligible employees will be approved regardless of their health status. For enrollment information, contact Ed Sterczek at (800) 349-1039, ext. 15, or ed.s@mmicinsurance.com. All insurance programs are administrated by ISRI Resources Inc. and its board of seven ISRI members.

One of the services that ISRI Resources offers all members is a "one-on-one" program. If a member is encountering any problems with coverages under the policies described above, a member of ISRI Resources will meet with the insurance company on behalf of the member to try to help resolve the dispute.

#### **ISRI MONEY-SAVING PROGRAMS**

#### Energy

 APPI Energy: APPI Energy is available to provide data-driven, holistic energy management services and custom solutions to ISRI members at no upfront cost or obligation to you. As part of your member benefit, APPI Energy can analyze your energy usage, evaluate your energy bill, deliver a green-apples-to-green-apples comparison of supplier prices and contracts, and negotiate a supply solution tailored to your budgetary needs and sustainability goals. In addition to electricity and natural gas procurement strategies designed to help you secure more favorable pricing and contracts, APPI Energy offers energy management solutions to reduce demand, reduce costs, and increase sustainability. Energy solutions can range from LED retrofits tailored to your budgetary needs and sustainability goals. In addition to electricity and natural gas procurement strategies designed to help you secure more favorable pricing and contracts, APPI Energy offers energy management solutions to reduce demand, reduce costs, and increase sustainability. Energy solutions can range from LED retrofits to solar PV to demand response, to name a few. APPI Energy is unbiased, working with only the most trusted, heavily vetted suppliers. It also is technology agnostic, pairing you with solutions that benefit you first and foremost. As a true extension of your team, APPI Energy provides trusted, tailored solutions that help you set and meet your energy goals while reducing overall energy costs. For more information, contact APPI Energy at (800) 520-6685 or info@appienergy.com.

#### **Equipment & Supplies**

■ NASCO-OP: ISRI members can take advantage of discounted equipment and supplies offered through the National Association Supply Co-operative, North America's exclusive purchasing cooperative for the recycling industry. Buying through NASCO-OP gives you access to thousands of products, including torching/cutting/welding supplies; processing equipment; warehouse equipment; safety supplies and protective equipment; material handling equipment; cable and wire rope; vehicle and equipment parts; and more. NASCO-OP members enjoy discount bulk rate pricing, an annual patronage dividend, and convenient one-stop shopping. NASCO-OP even waives its membership fee for ISRI members (a \$1,500 value), so sign up today. Contact: Bob Bedard, (800) 321-3396, info@nascoop.com, or visit nascoop.com.

■ Staples Business Advantage: When you take advantage of the Staples Business Advantage® program, you get access to more than 500,000 business products; low, customized ISRI pricing on your items; industry experts by your side; and convenient online, in-store, or on-the-go shopping options. You also get fast, free delivery on all orders over \$50, an easy online return process, a dedicated account manager, reporting capabilities, value-added services, and easy net billing. For more information, visit staplesadvantage.com.

#### Industry Memberships & Subscriptions

■ Davis Index: ISRI members enjoy an added \$100 off the cost of the Davis Index annual subscription. This discount is exclusively available to ISRI members. Benefit from having market intelligence, as well as news and analysis right at your fingertips. Davis Index provides the manufacturing supply chain with pricing benchmarks for scrap, base metals, steel, stainless steel and alloys. With ISRI's member discount, your business will have innovative information at the ready and added savings to help your bottom line. To purchase the subscription, visit davisindex.com and enter ISRIDAVIS into the Promo Code field at checkout to receive the discount.

■ National Safety Council: National Safety Council (NSC) membership is now available to ISRI members at a 15% discount for the first year of NSC membership. Go to nsc.org/join and enter ISRI in the discount code box on the left side of the page. If you have any questions, call (800) 621-7619.

#### **Risk Management Insurance**

■ NAM Cyber Cover: Through ISRI's partnership with the National Association of Manufacturers (NAM), we are now offering an exclusive cyber insurance and risk management product designed specifically for industrial organizations—NAM Cyber Cover. NAM Cyber Cover brings the power of a leading cyber insurance provider, Coalition, together with a nationally recognized broker, AHT Insurance, to find, protect and manage the unique exposures facing your industry. NAM Cyber Cover offers a complimentary cyber risk assessment based on publicly available data. To get your complimentary cyber risk assessment quote, visit ahtins.com/nam-cybercover-get-a-cra-and-quote/.

#### Shipping

■ UPS Freight Savings Program: ISRI members can receive a minimum 70% discount on UPS Freight LTL (less-than-truckload) services. The program offers free enrollments for all members, with no fees or minimum shipping requirement. This program provides significant savings for most companies using commercial freight carriers. Member discounts apply to LTL freight shipments weighing 150 to 20,000 pounds that are inbound shipments billed collect to your company, outbound shipments prepaid from your company, or shipments billed to your company as a third party. For enrollment, rate quotes, or questions about your discounts, contact: (866) 443-9303, ext. 4080, or associations@upsfreight.com.

ISRI currently has 16 chapters and two regions. All active, domestic associate, and nonmetallic consumer associate members of ISRI must belong to at least one chapter or region. Members may join the primary chapter or region covering the territory in which it maintains its principal office or significant operations or if their primary business involves the scrap paper industry, the national Paper Stock Industries Chapter. International associate members are not required but are encouraged to join chapters and regions. Members may hold multiple memberships by paying the appropriate dues and/or assessments. Following is a list of each and their geographic boundaries:

**Empire Chapter:** The entire state of New York except for New York City, Rockland County, Putnam County, Westchester County, and Long Island. The provinces of Quebec and Ontario, Canada, except for the section of Ontario from London west.

**Gulf Coast Region:** The entire states of Texas, Louisiana, Arkansas, Mississippi, Oklahoma, Kansas, New Mexico, and all of Mexico excluding Baja.

Indiana Chapter: The entire state of Indiana.

**Michigan Chapter:** The entire state of Michigan. The southwest section of Ontario from London, Ontario, west.

**Mid-America Region:** The entire states of Missouri and Illinois.

**Mid-Atlantic Chapter:** The entire states of Delaware and Maryland, the District of Columbia, and the eastern half of Pennsylvania (the western border extends from the northern border at Brad- ford down through Altoona to the southern border near Bedford).

**New England Chapter:** The entire states of Maine, New Hampshire, Rhode Island, Vermont, Massachusetts, Connecticut, and the Maritime Provinces.

**New Jersey Chapter:** The entire state of New Jersey.

**New York Chapter:** New York City, Long Island, Putnam County, Rockland County, and Westchester County.

**Northern Ohio Chapter:** Northern Ohio bordered by the state line on the west, north, and east. The southern border is marked 30 miles north of I-70 across the state.

**Ohio Valley Chapter:** The state of Ohio 30 miles north of I-70, the entire state of Kentucky, and all of West Virginia except for Northwest West Virginia with the Ohio/West Virginia state line as the western border to St. Mary's and then down State Rt. 16 to I-79 north as the southern border, and State Rt. 250 west as the eastern border.

**Pacific Northwest Chapter:** The entire states of Washington, Oregon, Alaska, and British Columbia.

**Paper Stock Industries Chapter:** Nationwide. All companies involved primarily with scrap paper recycling.

**Pittsburgh Chapter:** Western Pennsylvania with the eastern border from Bradford in the north through and including Altoona through Bedford to the state line. Northwest West Virginia with the Ohio/West Virginia state line as the western border from Pennsyl- vania to St. Mary's and then down State Rt. 16 to I-79 north as the southern border, then State Rt. 250 west as the eastern border.

**Rocky Mountain Chapter:** The entire states of Colorado, Utah, Idaho, Wyoming, Montana, Arizona, the western section of Saskatchewan with the Provincial Highway 35 as the eastern border, and the province of Alberta.

**Southeast Region:** The entire states of Alabama, Florida, Georgia, North Carolina, South Carolina, Tennessee, Virginia, and Puerto Rico.

**Upper Midwest:** The entire states of Wisconsin, Minnesota, Nebraska, North Dakota, South Dakota, and Iowa. The eastern portion of the province of Saskatchewan with a western border of Provincial Highway 35 and the entire province of Manitoba.

West Coast Chapter: California, Hawaii, Nevada, and Baja, Mexico.

For more information, contact Lacey Capps, ISRI director of chapter relations, at 202/662-8538 or lcapps@isri.org.

ISRI established an arbitration service as a means to enable members to use arbitration to resolve disputes.

ISRI arbitration is a voluntary procedure and must be agreed upon by both parties in the dispute. It is not required that both parties to the dispute be ISRI members.

The complete procedure for arbitration is set forth in ISRI's "Rules for Arbitration," which are available from Association headquarters in Washington, D.C. The rules contain the necessary form that must be completed to initiate arbitration. ISRI treats all filings, awards, and proceedings as confidential.

#### The rules are highlighted below:

- 1. Anyone may propose arbitration in a dispute, though at least one party must be a member of the association. Both parties must agree to the arbitration by signing a "Submission to Arbitrate" form and agreeing to abide by the applicable Arbitration Rules.
- **2.** A panel of arbitrators has been established by the association. The arbitrators serve without compensation, except for reasonable expenses. The arbitration parties must draw their arbitrators from the panel. A maximum of three arbitrators can be issued in any proceeding; the parties are encouraged to use a single arbitrator.
- **3.** There is a specific schedule of fees listed in the "Rules for Arbitration." Each party must deposit with the association in advance \$500 plus \$500 for each arbitrator. The total deposit for each party thus is either \$1,000 or \$2,000, depending on whether one arbitrator is to be used or three. A portion of the fee is refundable if not required to defray arbitrators' costs. The arbitrators may require the losing party to reimburse the prevailing party for its share of these costs.

- **4.** The arbitration procedure usually includes a hearing, at which time the parties involved are required to appear, present their respective cases, and be available for questioning by the arbitrator(s). All physical evidence (contracts, correspondence, relevant comments, etc.) may be required to be submitted in advance to the arbitrators. A party in the arbitration may be accompanied by counsel but must inform the other party in advance and receive permission from the arbitrators. Witnesses may also be called to an arbitration hearing. There is also an optional procedure for conducting the arbitration without an oral hearing.
- **5.** An award by the arbitrator(s) will be made promptly, within 20 days after hearings have been completed or final briefs submitted. The award is made in writing.
- **6.** The rules state that the parties to the dispute shall be deemed to have consented that a judgment upon the award be entered in any court having jurisdiction over an action to enforce the award.

Members who wish to provide an automatic basis for the settlement of any disputes arising from a transaction are encouraged to provide in their contracts that the ISRI Arbitration Procedure shall prevail in the event of any ensuing controversy and that each party will take all necessary steps to initiate such arbitration. Members are urged to obtain and carefully read the "Rules for Arbitration" before proceeding.

For more information, contact Rebecca Andrechak, 202/662-8522 or randrechak@isri.org.

# ATTENTION ISRI MEMBERS! Take Advantage of ISRI's Hazard Recognition in Recycling Education and Training Program

This free course for ISRI members is relevant to recyclers across all commodities who would like their employees to learn more about **hazard recognition and mitigation** in the operations environment. While the training is aimed at operations, maintenance, safety, and supervisory employees, it is open to any employees who might benefit from the information.

In this training, employees will learn...

- the importance of proper PPE
- how to do a PPE hazard assessment
- how to recognize the hazards of and work safely around mobile equipment
- the importance of controlling hazardous energy through lock-out/tag-out/try-out
- good housekeeping practices
- how to identify fire hazards
- hazard communication in the workplace

ISRI members can request this training on site at their facilities if they ensure at least 20 attendees. For more information on this training or for details on upcoming sessions, visit isri.org/safety.

For more information—or to learn about ISRI's other safety programs and services, contact Ryan Nolte at 260/409-9561 or rnolte@isri.org.

# We're here to take your scrap.

At Sims Metal, we know a thing or two about scrap. But even with over 100 years of experience in the industry, we still go a step beyond to provide unmatched value to every single one of our partners — so you can get the most out of your metal recycling program. It's what drives us to constantly innovate and create a world without waste.

- » **Superior customer service** From on-site to a single point of contact managing customized scrap removal programs.
- » **Convenient locations** Operating 130 facilities in North America and over 200 worldwide.
- Dedication to safety
   Creating safer environments through transparent monitoring and continuous improvement.

# We're here to take your scrap.

# GET MORE FROM EVERY CONVERTER: GO GLOBAL!

We extract **2-6% more material** than traditional decanning methods

...............

We process foils, O2 sensors and ceramic catalytic converters **all in the same lot** 

Fast assay results: just 10-15 business days!

Built on integrity. Leaders in recycling.

### Built on INTEGRITY. Leaders in RECYCLING.

\_

DOBOOOR

At Mallin Companies, wire processing and recycling non-ferrous scrap metal has been in our family's fiber for over 94 years. Four generations have melded together to form the industry's most progressive and professional metal recycling company.

And that's not something we're willing to scrap.

#### **HITACHI HIGH-TECH AMERICA**

Hitachi High-Tech Analytical Science is a global company within the Hitachi High-Tech Group. The company is headquartered in Oxford, UK, with R&D and assembly operations in Finland, Germany and China and sales and support operations in a number of countries around the world. Our US office is located in Westford, MA. Our product range includes: Handheld analyzers: The X-MET8000 is used by thousands of businesses to deliver simple, rapid, non-destructive analysis for alloy analysis, scrap metal sorting and metal grade screening using precision XRF technology. Vulcan, powered by LIBS laser technology identifies metal alloys in just one second; hugely benefitting businesses processing high volumes of metal and making Vulcan one of the fastest analyzers in the world. Microspot XRF coatings analyzers: FT160, FT110A and X-Strata measure coating thickness of single- and multi-layer coatings including alloy layers and are designed to be incorporated into quality control or process control programs, as well as research laboratories. Versatile Benchtop XRF analyzers: The Lab-X5000 and X-Supreme8000 deliver highly-trusted quality assurance and process control across a diverse range of industries such as petroleum, wood treatment, cement, minerals, mining and plastics. OES met-als analyzers: Our OE750, PMI-MASTER, FOUNDRY-MASTER and TEST-MASTER range of optical emission spectroscopy analyzers are used by industries the world over for high-precision metals analysis. Lithium-ion battery analysis: Our EA8000A x-ray particle contaminant analyzer is custom designed for fast and efficient quality control in lithium-ion battery production. Specialist RoHS analyzers: designed for Restriction of Hazardous Substances

analysis, our EA1000AIII, EA6000VX and HM1000A analyzers are quick and easy to use, with flexibility to adapt to evolving regulation.

Binghamton, New York

#### STINA INC.

Stina Inc., previously d.b.a. More Recycling, is a mission-based company striving to harmonize human behavior with the natural world. Our work helps businesses and individuals take actionable steps in the transition to a society that prioritizes sustainable use of resources. We gather and assess critical data, facilitate engagement and collaboration, and raise awareness of key issues for better decision-making. Our services include research, data analysis, stakeholder engagement, technical assistance, data visualization and web-based tool development. The company's information management system, relationships, and understanding of the plastics recycling landscape have made it the trusted organization to deliver the annual plastic recycling reports for the U.S. and Canada for more than 10 years. The team is committed to providing unbiased guidance in navigating the role plastics play in the movement towards circular sup ply chains, valuing carbon, and reducing GHG emissions. We often serve as liaison between industry, government and NGOs to address and work through barriers to more sustainable management of resources. The company has developed resources such as PlasticsMarkets.org, Buy Recycled Plastics Directory, The Information Exchange, and www.CircularityInAction.com, as well as undertaken CORE Projects. CORE (Creating an Optimized Recovery Ecosystem) projects are a decision based, problem-solving multistakeholder process to navigate tradeoffs on the journey towards sustainable management of resources. These projects are rooted in stakeholder engagement but take on other elements of our services. The latest resulted in a "Roadmap to Plastic Recyclability".

#### US CONVEYOR TECHNOLOGIES MFG INC

Designs and builds ferrous and non-ferrous systems. This includes all associated equipement, engineering, installation and service. Upgrades and improved ROI is our specialty.

www.usconveyor.net Mackinaw, Illinois (309) 359-4088

#### VALIS INSIGHTS, INC

www.valisinisghts.com Worcester, Massachusetts (860) 559-6542

#### VALLEY FORGE & BOLT MFG CO

Internationally renowned manufacturer of hot forged industrial fasteners. Our patented bolting products are trusted for their quality, performance, and reliability. We are a quality based, US manufacturer that focuses on solving problems and doing it in a first class manner www.vfbolts.com

Phoenix, Arizona (602) 269-5748

#### VAN DYK RECYCLING SOLUTIONS

Design, sales and service for Bollegraaf, Lubo, and TOMRA recycling machinery. Turnkey solutions for single-stream, MSW, C&D, waste-to-fuel, plastics processing, glass systems, e-scrap, and more. www.vdrs.com Norwalk, Connecticut (203) 967-1100

#### VECTOR SECURITY Warrendale, Pennsylvania

Batavia, New York

Corona, California

Tampa, Florida

Alsip, Íllinois

Shippensburg, Pennsylvania

#### VEZZANI SPA

Designs, manufactures, and installs turnkey scrap processing equipment and plants. Also offers after-sale service and parts. www.vezzani.biz Ovada, Alessandria, Italy 39014381844

#### VOLVO CONSTRUCTION EQUIPMENT Manufacturer of heavy equipment for scrap

East Longmeadow, Massachusetts (860) 356-0840

#### 276—COMPANIES V ASSOCIATES

Latham, New York (518) 220-9500 Syracuse, New York (315) 437-2611 Portland, Oregon (503) 252-5933 Houston, Texas (713) 937-3005

VORTEX DE-POLLUTION (USA) LLC Produces a range of modular high-speed fluid evacuation equipment and dismantling tools for the auto dismantling and preshredder scrap industries. www.vortexdepollution.com Denver, Colorado (303) 900-4040

#### WALDON EQUIPMENT COMPANY

Manufacturer of compact, articulating, 4WD, wheel Loaders and Forklifts. All Steel built to handle the severe environments of scrap and recycling yards, plants, and foundries. www.waldonequipment.com Fairview, Oklahoma (580) 227-3711

#### WASTE ROBOTICS

www.wasterobotic.com/ Trois-Rivières, Quebec, Canada

#### WASTEWIZER TECHNOLOGIES

WasteWizer Technologies has developed IOT and hardware solution that keeps track of the weight of materials as they are loaded into roll-off and transmits that information to scrap or waste hauler. www.wastewizer.com

Atlanta, Georgia

#### WATERTECTONICS INC

Founded in 1999, WaterTectonics designs, manufactures, installs, and services industrial-grade stormwater treatment systems for recycling customers across the United States and Canada. www.watertectonics.com

Everett, Washington (425) 349-4200 (207) (425) 742-2062

### WAUKESHA-PEARCE INDUSTRIES, LLC

Offers a full line of trusted brands servicing the scrap and recycling industries, which includes Komatsu, Sennebogen, LaBounty, NPK, Gradall, and Bomag. www.wpi.com Houston Texas

Houston, Texas (713) 723-1050

SHREDDING + COMPRESSING

#### WEIMA AMERICA, INC.

Weima provides shredders, granulators and briquette presses to process manufacturing waste in a variety of industries including paper, plastic, wood, metal and MSW among others.

www.weima.com Fort Mill, South Carolina (803) 802-7170

#### WENDT CORPORATION

For 40 years, WENDT CORPORATION has been servicing the scrap recycling industry as a world-leading manufacturer and systems integrator of automobile shredding and separation systems. Buffalo, New York

(716) 391-1224

#### WINKLE INDUSTRIES

Full-service facility specializing in the manufacture and repair of lifting and suspended magnets, magnet controls, engine and hydraulic driven gensets and field service. www.winkleindustries.com Alliance, Ohio (330) 823-9730

Birmingham, Alabama

#### WOOD'S CRW CORP

www.woodscrw.com Williston, Vermont (802) 488-7911

#### **X-BODY EQUIPMENT**

Increase your scrap productivity with the Acculoader high-speed container loader. Loads 20-foot and 40-foot intermodal containers in about six minutes. www.acculoader.net

Rocklin, California (760) 397-5679

#### YOKOHAMA TWS

World-class manufacturer of solid tires and wheels for LOTR loaders, skid-steer loaders, and forklifts used in high-hazard, highabuse operations.

www.trelleborg-tires.com/en-us Wakefield, Massachusetts (800) 948-8473

#### YOUNG CORP

Manufacturer of specialty attachments and custom machine modifications for construction machinery used in scrap recycling, steel mills, and other heavy industries. www.youngcorp.com Seattle, Washington

Seattle, Washington (206) 624-1071

#### YUSHI LIMITED

www.yushilimited.co.uk/ London, United Kingdom

Dallas, Texas (706) 710-8845 Prevalle, Italy 39306807252

#### ZHEJIANG TIANLI MAGNET TECHNOLOGY CO., LTD

www.tlmtech.cn/ Dongyang, Zhejiang, China

# One of the largest precious metals recycler in the country.

### **SERVICE OPTIONS**

**Per Piece Pricing** - We will evaluate your catalytic converters for the best value based on the daily market. Same day service, same day payment.

**XRF Analysis** - XRF is ideal for suppliers with small lots in need of quick and accurate results and payout. An advance payment can be made at the time of delivery and the final payment is paid at the final XRF analysis. This is normally completed in five days.

**ICP Analysis** - ICP is ideal for suppliers with large lots. The process timeline from delivery to ICP analysis is normally 14 days. An advance payment can be made at the time of delivery, and the final payment is paid at the final ICP-OES assay results.

### LOCATIONS

Ann Arbor, MI • Austin, TX • Baltimore, MD • Bertram, TX Charlotte, NC • Chicago, IL • Dallas, TX • Dothan, AL Edinburgh, IN • Gulfport, MS • Hebron, OH • Houston, TX Irvine, CA • Jacksonville, FL • Kansas City, MO Laredo, TX • Las Vegas, NV • Los Angeles, CA Newark, OH • Orlando, FL • Sacramento, CA San Diego, CA • San Antonio, TX

### **OUR PROMISE**

We succeed when our suppliers succeed. For this reason, we treat all our suppliers as partners. As our partner, we believe in sharing our knowledge, data, and years of vast experience by providing the tools you need to be profitable and successful.

Our trusted staff of experienced buyers, logistics specialists, and metal management team are here to provide all our suppliers with the most reliable and transparent service in the industry.

Remember, when it comes to recycling your precious metals - PGM of Texas is all you need.

PMR is an industry leading expert in the recovery of Platinum, Palladium and Rhodium from scrap catalytic converters.

With specialized in-house machinery developed for ceramic, foil, DPF and aftermarket converters, we assist multi-facility scrap metal recyclers, automotive recyclers, and non-ferrous metal corporations in getting the best potential value for all material types.

PMR's state of the art PGM laboratory provides suppliers with the most accurate and precise precious metal returns 6x faster than competitors, allowing businesses to react quickly to market changes with detailed and transparent results; diminishing the risks associated with a naturally volatile market.

Through multiple data insight tools, such as an online database that assigns converter count and value to vehicle VIN number, PMR helps businesses be more aggressive in obtaining market share while elevating their competitive edge. PMR's exclusive online portal provides c-suite management with the metrics and KPIs necessary to properly evaluate profitability within their converter operations.

PMR focusses on providing attentive and consultative support to each business looking to not only maintain but gain in the years to come. Working with PMR means working with a company that adapts to your needs.

# REDWÁVÈ

# XRF SENSOR BASED SORTING TECHNOLOGY

### YOUR SINGLE SOURCE PARTNER IN THE RECYCLING INDUSTRY

## **DISCOVER THE ADVANTAGE** XRF NEXT GENERATION

- SEPARATE METALS BY TYPE
- PRECIOUS METAL RECOVERY
- GREATER PRECISION & EFFICIENCY
- **75% SCAN RATE INCREASE**
- **15% EJECTION RATE INCREASE**
- REDUCED POWER CONSUMPTION
- LESS THAN 2 YEAR ROL
- COMPACT DESIGN
- **NO MOVING PARTS**
- **ADVANCED COMPUTER ANALYSIS**

### **20+ YEARS PLANT BUILDING EXPERIENCE**

## **HIGH RECOVERY AND PURITY RATES**

Why have an over-burdened presort when you can eliminate it all together?

CP Auger Screens revolutionized MRF process flows by eliminating the presort, prioritizing worker safety and increasing system efficiencies.

# REMETAL

### AMERICA / KOREA / ASIA

# The Ultimate in Scrap Metal Sourcing.

REMETAL's global networks for ferrous and non-ferrous materials in the scrap industry gives us a strong advantage and ability to source materials from all over the world.

We offer customized services in offer sales, brokerage, long-term financing, stocking, and bonded warehouse transactions, all of which are essential in scrap metal sourcing of many end users.

#### ARE YOU LOOKING FOR A WAY TO INCREASE YOUR PROFITS FROM YOUR IRONY ALUMINUM SCRAP?

#### With our furnace processes you can create 3 products:

- aluminum ingot to go straight to the mills
   clean HMS 1 or HMS 2 steel to go direct to the steel mills
- furnace hearth dross to the rotary
- furnaces for further processing.

## We offer sweat furnaces in many sizes to suit your needs.

No matter what size you purchase, the payoff average is 6 months with operation costs as low as 4 cents per pound aluminum processed.

GIVE US A CALL SO WE CAN HELP YOU TO INCREASE YOUR BOTTOM LINE.

# DURABLE, POWERFULS PRODUCTIVE

With more than a century of experience in the scrap industry, Link-Belt Material Handling Equipment is purpose-built to stand up to the punishing environment of the scrap yard. Our machines feature oversized, heavy-duty components and are designed for tough, high-cycle production. We have a material handler for every yard with machines ranging from 73,000 to 126,000 lbs., and attachments for nearly any application.

3

Contact your Link-Belt material handling dealer today for full product benefits and specifications.

#### ARE YOU LOOKING FOR A WAY TO INCREASE YOUR **PROFITS FROM YOUR IRONY ALUMINUM SCRAP?**

#### With our furnace processes you can create 3 products:

- · aluminum ingot to go straight to the mills
- clean HMS 1 or HMS 2 steel to go direct to the steel mills
- · furnace hearth dross to the rotary furnaces for further processing.

#### We offer sweat furnaces in many sizes to suit your needs.

No matter what size you purchase, the payoff average is 6 months with operation costs as low as 4 cents per pound aluminum processed.

#### GIVE US A CALL SO WE CAN HELP YOU TO INCREASE YOUR BOTTOM LINE.

# A REASONS TO SELL YOUR USED EQUIPMENT WITH US

# **1. EXCEPTIONAL CUSTOMER SERVICE**

Dade Auctions treats you like family. From listing to sign-off, we support you at every step.

# **2. COMPLETE TRANSPARENCY**

With Dade Auctions, you negotiate directly with the buyer. No surprises. No shenanigans. No hidden fees.

# **3. BETTER RESULTS**

No guesswork, either. The more you know, the better you can negotiate for top dollar. Need answers? Just ask. We have a huge network of contacts, so if we don't have the answer, we know who does.

# **4. COME BACK FOR MORE**

The vast majority of Dade Auctions buyers and sellers are repeat customers.

THE EQUIPMENT MARKETPLACE FOR SALVAGE, RECYCLING & WASTE

# Call Dade Auctions. Why settle for less?

# On-Site Compressed Gas Cylinder Processing

- Protect your team and the environment.
- Reduce costs.
- Support compliance.

# No Cylinder Transport

We handle everything on-site to reduce liabilities and costs.

## **No Surprises**

We provide up front pricing estimates with no surprise upcharges and volume pricing discounts.

## Support Site Compliance

We'll help keep you compliant and provide certificates of recycling.

# Take the pressure off with JetStream.

# Our Simple 4-Step Process ()

**Step 1 - Identify** – We assess your yard inventory and segregate cylinders.

**Step 2 - Recapture** – We recover any valuable gases for resale.

**Step 3 - Eliminate** – We safely extract the cylinder contents.

**Step 4 - Salvage** – We prepare cylinders for shredding on-site or transport.

## Call Jet Stream CGS (678) 390-8939 Let us take the pressure off | wwwJetStreamCGS.com

We work nationwide to help our clients protect their teams, reduce costs, and support compliance when dealing with orphaned compressed gas cylinders. We offer up-front, transparent per-cylinder pricing with volume discounts and have proudly partnered with clients nationwide for over ten years.

Jet Stream CGS' well-trained and certified staff is fully licensed and insured.

# YOUR THREE BEST OPTIONS FOR SIZE REDUCTION

0

No matter what material size reduction requirements you have, we have the heavy-duty equipment and heavy-hitting engineers to address your needs. For more than four decades, we've been the durable, versatile shredder 'Brand of choice' for demanding applications all over the planet.

# Looking for equipment that's 100% American made, with fast delivery and superior customer service?

## **Choose Recycling Equipment Solutions!**

R.E.S. Corp. manufactures and distributes a complete line of quality built hydraulic alligator shears that range in blade size from 12" to 25". Power source options include: three phase electric; single-phase electric; gas powered; diesel powered; COMBO Electric & gas/diesel powered and skid steer and/or bobcat-mounted.

Don't see what you're looking for? Call R.E.S. for a free consultation about our custom built shears that we can manufacture to suit all of your needs.

With over 22 years of experience in the shear manufacturing industry, we are able to offer a wide range of services. R.E.S. Corp hydraulic alligator shears are proudly made in the USA. All new shears come with a lifetime guarantee on the main bearing assembly, as well as a one year parts warranty.

Need help with Parts or Repairs? We stock parts for all R.E.S.shears, along with parts for J. McIntyre, Gensco, Deltax, Ma Tech and Rigby shears, with most items available for shipping & receipt within 24-48 hours to limit downtime! If we can't help you, we will assist you in locating someone who can. Looking to trade in or sell equipment? We BUY and SELL ALL types of recycling equipment. Trade-ins are welcome towards all new R.E.S. Corp. shear purchases.

Our number one goal is always 100% client satisfaction. Our customers are our best salesmen because of our dedication to providing them with top quality shearing equipment and a superior level of service that they appreciate and can depend on, both now and in the future. We look forward to the opportunity to serve you.

# Looking for equipment that's 100% American made, with fast delivery and superior customer service?

## **Choose Recycling Equipment Solutions!**

R.E.S. Corp. manufactures and distributes a complete line of quality built hydraulic alligator shears that range in blade size from 12" to 25". Power source options include: three phase electric; single-phase electric; gas powered; diesel powered; COMBO Electric & gas/diesel powered and skid steer and/or bobcat-mounted.

Don't see what you're looking for? Call R.E.S. for a free consultation about our custom built shears that we can manufacture to suit all of your needs.

With over 22 years of experience in the shear manufacturing industry, we are able to offer a wide range of services. R.E.S. Corp hydraulic alligator shears are proudly made in the USA. All new shears come with a lifetime guarantee on the main bearing assembly, as well as a one year parts warranty.

Need help with Parts or Repairs? We stock parts for all R.E.S.shears, along with parts for J. McIntyre, Gensco, Deltax, Ma Tech and Rigby shears, with most items available for shipping & receipt within 24-48 hours to limit downtime! If we can't help you, we will assist you in locating someone who can. Looking to trade in or sell equipment? We BUY and SELL ALL types of recycling equipment. Trade-ins are welcome towards all new R.E.S. Corp. shear purchases.

Our number one goal is always 100% client satisfaction. Our customers are our best salesmen because of our dedication to providing them with top quality shearing equipment and a superior level of service that they appreciate and can depend on, both now and in the future. We look forward to the opportunity to serve you.
