Overview

### **HP Z640 Workstation**

- 1. Integrated Front Handle
- 2. Dedicated 9.5mm Optical Drive Bay
- 3. Power Button

- 4. HDD Activity LED
- Front I/O: 4 USB 3.0 with Charging Port (topmost port), 1 Microphone, 1 Headset

### Overview

- 6. 2 External 5.25" Bays
- 7. 2 Internal 3.5" Bays
- 8. 6 6Gb/s SATA Ports
- 9. Rear Flip-Up Handle
- 10. 925W, 90% Efficient Power Supply
- 11. Rear I/O: Rear Power Button, 4 USB 3.0, 2 USB 2.0, PS/2 Ports, 1 RJ-45 to Integrated GbE, 1 Audio Line In, 1 Audio Line Out

### **Overview**

- 12. Intel Xeon Processors: E5-1600 v3 family or E5-2600 v3 family
- 13. 4 DIMM Slots for DDR4 ECC Registered Memory
- 14. 2<sup>nd</sup> CPU and Memory Riser Module with 4 DIMM slots
- 15. 2 PCIe x16 Gen 3 Slots
- 16. 1 PCIe x8 Gen 3, 1 PCIe x1 Gen 2, 1 PCIe x4 Gen 2, 1 PCI Slot

<sup>1</sup>The specifications shown in this column represent the following: (all core maximum turbo steps, one core maximum turbo steps). Turbo boost stepping occurs in 100MHz increments. Processors that do not have turbo functionality are denoted as N/A.

NOTE: Z640 systems configured with an E5-1600 series processor may not add a 2nd processor. To support two processors, an E5-2600 series processor must be chosen.

| Available Processor<br>Disclaimers | When ordering two processors, the second processor must be the same as the first. Intel processor numbers are not a measurement of higher performance. Processor numbers differentiate features within each processor family, not across different processor families. See: <a href="http://www.intel.com/products/processor_number/">http://www.intel.com/products/processor_number/</a> for details.  |
|------------------------------------|---|
|                                    | Multi-Core technologies are designed to improve performance of multithreaded software products and hardware-aware multitasking operating systems and may require appropriate operating system software for full benefits; check with software provider to determine suitability; Not all customers or software applications will necessarily benefit from use of these technologies.  |
| Color                              | 64-bit computing on Intel® 64 architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processor will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See: <u>http://www.intel.com/info/em64t</u> for more information. |

**Note 1:** When ordering two processors, the second processor must be the same as the first. Intel processor numbers are not a measurement of higher performance. Processor numbers differentiate features within each processor family, not across different processor families. See: <a href="http://www.intel.com/products/processor\_number/">http://www.intel.com/products/processor\_number/</a> for details.

Multi-Core technologies are designed to improve performance of multithreaded software products and hardware-aware multitasking operating systems and may require appropriate operating system software for full benefits; check with software provider to determine suitability; Not all customers or software applications will necessarily benefit from use of these technologies.

64-bit computing on Intel® 64 architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processor will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See: <u>http://www.intel.com/info/em64t</u> for more information.

#### **HP Z640 Workstation**

### **Supported Components**

### Z640 processor AMO kits include:

- 2nd CPU/Memory Module (riser)
- processor
- heatsink

First processor (CPUO) upgrades are not supported by HP.

## NOTES:

For details on the supported memory configurations on the HP Z640 Workstation, please refer to the System Technical Specifications - System Board section of this document. Each processor supports up to 4 channels of DDR4 memory. To realize full performance at least 1 DIMM must be inserted into each channel.

With single-processor configurations, 4 DIMM slots are available. 4 additional DIMM slots are available with the 2nd CPU & Memory Module.

The CPUs determine the speed at which the memory is clocked. If an 1866MT/s capable CPU is used in the system, the maximum speed the memory will run at is 1866MT/s, regardless of the specified speed of the memory.

ONLY registered and load reduced DDR4 DIMMs are supported. DDR3 DIMMs ARE NOT SUPPORTED.

Actual speeds may vary. Does not permit copying of commercially available DVD movies or other copyright protected materials. Intended for creation and storage of your original material and other lawful uses. Double Layer discs can store more data than single layer discs. However, double-layer discs burned with this drive may not be compatible with many existing single-layer DVD drives and players.

With Blu-ray, certain disc, digital connection, compatibility and/or performance issues may arise, and do not constitute defects in the product. Flawless playback on all systems is not guaranteed. In order for some Blu-ray titles to play, they may require a DVI or HDMI digital connection and your display may require HDCP support. HD-DVD movies cannot be played on this workstation.

NOTE 1: Not supported as a 2nd Optical Drive.
NOTE 2: Cannot be ordered in combination with another Blu-ray Writer.
NOTE 3: Only one DX115 device can be installed into Z640. This device can only be installed into the top optical (5.25") bay.
NOTE 4: Carrier requires a Z640 to have the DX115 frame installed. This part number is for the carrier only.

**NOTE 1**: "Gigabit" Ethernet indicates compliance with IEEE standard 802.3ab for Gigabit Ethernet, and does not connote actual operating speed of 1 Gb/sec. For high speed transmission, connection to a Gigabit Ethernet server and network infrastructure is required.

\* Wireless access point and internet service required. Availability of public wireless access points limited.

### System Technical Specifications

#### Memory Loading Order:

Load Order for Single Processor Configuration

#### Load Order for Dual Processor Configuration

| Maximum Memory                             | Supports up to 256GB with two processors.<br>Please refer to the table above for details on how supported memory configurations are installed in<br>your system.<br>* For 32 bit operating systems, there is a memory limit of 4GB.   |
|--|---|
| <b>Memory Configuration</b><br>(Supported) | <ul> <li>Although technically possible, these configurations are not available to order at this time.</li> <li>Not all memory configurations possible are represented above.</li> <li>Only Registered and LR ECC DIMMs are supported.</li> <li>Do not install memory modules into memory slots if corresponding processor is not installed.</li> <li>Dual processor configurations with memory modules installed for only one processor is not supported.</li> <li>RDIMM (Registered) and LRDIMM (Load Reduced) memory cannot be mixed. All memory installed in the system must be either RDIMM or LRDIMM.</li> </ul> |

### **ENVIRONMENTAL DATA**

| Environmental<br>Requirements | Temperature      | Operating: 5°C to 35°C (40°F to 95°F)<br>Non-operating: -40°C to 60°C (-40°F to 140°F) |
|-------------------------------|------------------|--|
|                               | Humidity         | Operating: 8% to 85% RH, non-condensing<br>Non-operating: 8% to 90% RH, non-condensing |
|                               | Maximum Altitude | Operating: 3,048 m (10,000 ft)<br>Non-operating: 9,144 m (30,000 ft)                   |
|                               | Dynamic (new)    | Shock<br>Operating: ½-sine: 40 g, 2-3ms (~62 cm/sec)                                   |

### System Technical Specifications

|         | Non-operating:<br>½-sine: 160 cm/s, 2-3ms (~105 g)<br>square: 20 g, 422 cm/s<br><b>NOTE</b> : Values represent individual shock events and do not indicate<br>repetitive shock events.<br>Vibration<br>Operating random: 0.5 g (rms), 5-300 Hz, up to 0.0025 g²/Hz<br>Non-operating random: 2.0 g (rms), 5-500 Hz, up to 0.0150 g²/Hz<br><b>NOTE:</b> Values do not indicate continuous vibration. |
|---------|--|
| Cooling | Above 1524m (5,000 ft.) altitude, maximum operating temperature is de-<br>rated by 1°C (1.8°F) per 305m (1,000 ft.) elevation increase   |

### Physical Security and Serviceability

| Access Panel  | Tool-less<br>Includes system board and memory information   |
|---|---|
| Optical Drive                                       | Tool-less, no carrier or rails required   |
| Hard Drives   | Tool-less   |
|   | Integrated blind-mate drive carriers  |
|   | Optional 5.25" external bay carriers  |
| Expansion Cards                                     | Tool-less   |
| Processor Socket                                    | 1st socket on main system board. 2nd socket on optional 2nd CPU/Memory Module.                      |
| Green User Touch Points                             | Yes, on primary serviceable components  |
| Color-coordinated Cables<br>and Connectors          | s Yes   |
| Memory  | Tool-less   |
| System Board  | Tool-less<br>2nd CPU/Memory Module: Tool-less   |
| Dual Color Power and HD<br>LED on Front of Computer |   |
| Configuration Record SW                             | Yes   |
| Over-Temp Warning on<br>Screen                      | Yes, at POST screen on reboot.  |
| Restore CD/DVD Set                                  | Yes, restores the computer to its original factory shipping image - Can be obtained via HP Support. |
| Dual Function Front<br>Power Switch                 | Yes, also acts as a reset switch when held for 4 seconds.   |

| Padlock Support                                       | Νο  |
|---|---|
| Cable Lock Support                                    | Yes, Kensington Cable Lock (optional): Prevents entire system theft only. 3mm x 7mm slot at rear of system                                |
| Universal Chassis Clamp<br>Lock Support               | Νο  |
| Solenoid Lock and Hood<br>Sensor                      | Access Panel Solenoid Lock: Yes (optional). Activated remotely to prevent system entry.<br>Access Panel Intrusion Sensor: Yes (optional). |
| Rear Port Control Cover                               | Νο  |
| Removable Media<br>Write/Boot Control                 | Yes, user can prevent the workstation from writing to or booting from removable media.  |
| Power-On Password                                     | Yes, prevents an unauthorized person from booting up the computer.  |
| Setup Password<br>3.3V Aux Power LED on<br>System PCA | Yes, prevents an unauthorized person from changing the system configuration.<br>Yes   |
| NIC LEDs (integrated)<br>(Green & Amber)              | Yes   |
| CPUs and Heatsinks                                    | CPU heatsink removal requires a T-15 Torx or flat blade screwdriver. CPU removal is tool-less.  |
| Power Supply Diagnostic<br>LED                        | Yes   |
| Front Power Button                                    | Yes   |
| Rear Power Button                                     | Yes   |
| Front Power LED                                       | Yes, white (normal), red (fault)  |
| Front Hard Drive Activity<br>LED                      | Yes, green  |
| Front ODD Activity LED                                | Yes   |
| Internal Speaker                                      | Yes   |
| System/Emergency ROM                                  | Recovers corrupted system BIOS  |
| Flash Recovery  |   |
| <b>Cooling Solutions</b>                              | Air cooled forced convection  |
| Power Supply Fans                                     | 1 - 92mm  |

| CPU Heatsink Fan                         | 1st CPU: 1 - 92mm<br>Optional 2nd CPU: 1 - 92mm   |  |
|--|---|--|
| Memory Heatsink Fan                      | Optional 2nd CPU/Memory Module: rear bank: 1 - 80mm.  |  |
| HP Vision Diagnostics<br>Offline Edition | HP Vision Diagnostics Offline Edition<br>The diagnostics utility enables you to perform testing and to view critical computer hardware and<br>software configuration information from various sources. This utility enables you to:   |  |
|  | <ul> <li>Run diagnostics</li> <li>View the hardware configuration of the system</li> </ul>  |  |
|  | Key features and benefits<br>HP Vision Diagnostics simplifies the process of effectively identifying, diagnosing, and isolating the<br>hardware issues. In addition to robust management tools, service tools can be invaluable in quickly<br>resolving system problems. To streamline the service process and resolve problems quickly, it is<br>necessary to have the right information available at the time that a service call is placed. The primary<br>information requirement, which is also the one that provides the greatest Vision into potential system<br>issues, is the configuration of the system. Vision diagnostics helps provide higher system availability.<br>Typical uses of the Vision Diagnostics are: |  |
|  | <ul> <li>Testing and diagnosing apparent hardware failures</li> <li>Documenting system configurations for upgrade planning, standardization, inventory tracking, disaster recovery, and maintenance</li> <li>Sending configuration information to another location for more in-depth analysis</li> </ul>  |  |
|  | Entered using F2  |  |
| Access Panel Key Lock                    | Yes, prevents removal of the access panel and all internal components including devices installed in the external 5.25" bays.   |  |
| ACPI-Ready Hardware                      | Advanced Configuration and Power Management Interface (ACPI).   |  |
|  | <ul> <li>Allows the system to wake from a low power mode</li> <li>Controls system power consumption, making it possible to place individual cards and peripherals in a low-power or powered-off state without affecting other elements of the system</li> </ul>   |  |
| Trusted Platform Module<br>Chip          | Yes, Infineon TPM 1.2 Certified   |  |
| Integrated Chassis<br>Handles            | Yes   |  |
| Power Supply                             | Tool-less.<br>Includes integrated handle.   |  |
| PCI Card Retention                       | Yes, tool-less<br>Rear (all)<br>Middle (full-height cards)  |  |

## System Technical Specifications

#### Front (full-length cards with extender)

| Flash ROM                               | SPI ROM |
|---|---------|
| Diagnostic Power Switch<br>LED on board | Yes     |
| Clear Password Jumper                   | Yes     |
| Clear CMOS Button                       | Yes     |
| CMOS Battery Holder                     | Yes     |
| DIMM Connectors                         | Yes     |

### BIOS

| BIOS 32-bit Services                                 | Standard BIOS 32-Bit Service Directory Proposal v0.4  |
|--|---|
| PCI 3.0 Support                                      | Full BIOS support for PCI Express through industry standard interfaces  |
| АТАРІ  | ATAPI Removable Media Device BIOS Specification Version 1.0   |
| BBS  | BIOS Boot Specification v1.01   |
| WMI Support  | WMI is Microsoft's implementation of Web-Based Enterprise Management (WBEM) for Windows. WMI is<br>fully compliant with the Distributed Management Task Force (DMTF) Common Information Model (CIM)<br>and WBEM specifications. |
| BIOS Boot Spec 1.01+                                 | Provides more control over how and from what devices the workstation will boot  |
| BIOS Power On  | Users can define a specific date and time for the system to power on  |
| ROM Based Computer<br>Setup Utility (F10)            | Review and customize system configuration settings controlled by the BIOS   |
| System/Emergency ROM<br>Flash Recovery with<br>Video | Recovers system BIOS in corrupted Flash ROM   |
| Replicated Setup                                     | Saves BIOS settings to diskette or USB flash device in human readable file. Repset.exe utility can then replicate these settings on machines being deployed without entering Computer Configuration Utility (F10 Setup).        |
| SMBIOS   | System Management BIOS 2.7 for system management information  |
| Boot Control   | Disables the ability to boot from removable media on supported devices  |
| Memory Change Alert                                  | Alerts management console if memory is removed or changed   |

| Thermal Alert   | Monitors the temperature state within the chassis. Three modes:   |
|---|---|
|   | <ul> <li>NORMAL - normal temperature ranges.</li> <li>ALERTED - excessive temperatures are detected. Raises a flag so action can be taken to avoid shutdown or provide for a smoother system shutdown.</li> <li>SHUTDOWN - excessive temperatures are encountered. Automatically shuts down the computer without warning before hardware component damage occurs.</li> </ul>                                  |
| Remote ROM Flash  | Provides secure, fail-safe ROM image management from a central network console  |
| ACPI (Advanced<br>Configuration and Power<br>Management Interface)              | Allows the system to enter and resume from low power modes (sleep states).<br>Enables an operating system to control system power consumption based on the dynamic workload.<br>Makes it possible to place individual cards and peripherals in a low-power or powered-off state without<br>affecting other elements of the system.<br>Supports ACPI 4.0 for full compatibility with 64-bit operating systems. |
| Ownership Tag   | A user-defined string stored in non-volatile memory that is displayed in the BIOS splash screen   |
| Remote Wakeup/Remote<br>Shutdown  | System administrators can power on, restart, and power off a client computer from a remote location   |
| Instantly Available PC<br>(Suspend to RAM - ACPI<br>sleep state S3)             | Allows for very low power consumption with quick resume time  |
| Remote System<br>Installation via F12 (PXE<br>2.1) (Remote Boot from<br>Server) | Allows a new or existing system to boot over the network and download software, including the operating system  |
| ROM revision levels   | Reports the system BIOS revision level in Computer Configuration Utility (F10 Setup). Version is available through an industry standard interface (SMBIOS) so that management SW applications can use and report this information.  |
| System board revision<br>level  | Allows management SW to read revision level of the system board<br>Revision level is digitally encoded into the HW and cannot be modified   |
| Start-up Diagnostics<br>(Power-on Self-Test)                                    | Assesses system health at boot time with selectable levels of testing   |
| Auto Setup when new<br>hardware installed                                       | System automatically detects the addition of new hardware   |
| Keyboard-less Operation   | The system can be booted without a keyboard   |
| Localized ROM Setup   | Common BIOS image supports System Configuration Utility (F10 Setup) menus in 12 languages with<br>local keyboard mappings   |
| Asset Tag   | Allows the user or MIS to set a unique tag string in non-volatile memory  |

| Per-slot Control               | Allows I/O slot parameters (option ROM enable/disable, bus latency) to be configured individually   |  |  |
|--------------------------------|---|--|--|
| Adaptive Cooling               | Fan control parameters are set according to detected hardware configuration for optimal acoustics   |  |  |
| Pre-boot Diagnostics           | Early (pre-video) critical errors are reported via beeps and blinks on the power LED  |  |  |
| Industry Standard Specifi      | cation Support  |  |  |
| UEFI Specification<br>Revision | 2.3.1   |  |  |
| Industry Standard              | Revision Supported by the BIOS  |  |  |
| АСРІ                           | Advanced Configuration and Power Management Interface, Version 4.0  |  |  |
| ATA (IDE)                      | AT Attachment 6 with Packet Interface (ATA/ATAPI-6), Revision 3b  |  |  |

#### Social and Environmental Responsibility

**Eco-Label Certifications &** This product has received or is in the process of being certified to the following approvals and may be labeled with one or more of these marks:

- ENERGY STAR<sup>®</sup> (energy-saving features available on selected configurations-Windows only)
- US Federal Energy Management Program (FEMP)
- China Energy Conservation Program
- The ECO Declaration (TED)

Batteries The battery in this product complies with EU Directive 2006/66/EC Battery size: CR2032 (coin cell) Battery type: Lithium Metal

The battery in this product does not contain:

- Mercury greater than 5ppm by weight
- Cadmium greater than 10ppm by weight
- Lead greater than 40ppm by weight

| Restricted Material Usage                  | This product meets the material restrictions specified in HP's General Specification for the<br>Environment. <u>http://www.hp.com/hpinfo/qlobalcitizenship/environment/pdf/qse.pdf</u><br>Hewlett-Packard is committed to compliance with all applicable environmental laws and regulations,<br>including the European Union Restriction of Hazardous Substances (RoHS) Directive. HP's goal is to<br>exceed compliance obligations by meeting the requirements of the RoHS Directive on a worldwide<br>basis. |
|--|--|
| Low Halogen Statement                      | This product is low-halogen except for power cords, external cables and peripherals. The following customer-configurable internal components may not be low-halogen: 3 ½" SAS HDDs, LSI 9270-8i SAS ROC RAID Card, and LSI 9217-4i4e SAS ROC RAID Card. Service parts obtained after purchase may not be low-halogen.  |
| End-of-Life Management<br>and Recycling    | Hewlett-Packard offers end-of-life HP product return and recycling programs in many geographic<br>areas. To recycle your product, please go to: http://www.hp.com/recycle or contact your nearest HP<br>sales office. Products returned to HP will be recycled, recovered or disposed of in a responsible<br>manner. This product is greater than 90% recyclable by weight when properly disposed of at end of<br>life.  |

#### countries.

HP Care Pack Services extend service contracts beyond the standard warranties. Service starts from date of hardware purchase. To choose the right level of service for your HP product, use the HP Care Pack Services Lookup Tool at <u>http://www.hp.com/go/lookuptool</u>. Additional HP Care Pack Services information by product is available at <u>http://www.hp.com/hps/carepack</u>. Service levels and response times for HP Care Packs may vary depending on your geographic location.

Product Change Notification

- Program to proactively communicate Product Change Notifications (PCNs) and Customer Advisories by email to customers, based on a user-defined profile.
- PCNs provide advance notification of hardware and software changes to be implemented in the factory providing time to plan for transition.
- Customer Advisories provide concise, effective problem resolution, greatly reducing the need to call technical support.

### Stable & Consistent Offerings

As part of its commitment to hardware, software, and solution innovation, HP is proud to introduce this breakthrough platform configuration stability to HP Workstation customers. HP Stable & Consistent Offerings are built on the foundation of a carefully chosen set of components designed and tested to work with HP Z Workstation platforms through their end of life. These components and their corresponding HP Workstation platform compatibility are outlined in this section.

HP Stable & Consistent Offerings are available worldwide to all HP Workstation customers—no special programs, no additional cost—no kidding. Simply select your hardware and software components when you customize your HP Workstation and be assured that you'll be able to buy that same configuration throughout the lifecycle of the product.

|                               | HP qualified drivers may be preloaded or available from the HP support<br>Web site:<br><u>http://welcome.hp.com/country/us/en/support.html</u>  |
| Notes                         | <ol> <li>AMD Eyefinity technology supports up to six DisplayPort<sup>™</sup> monitors on<br/>an enabled graphics card. Supported display quantity, type and resolution<br/>vary by model and board design; confirm specifications with manufacturer<br/>before purchase. To enable more than two displays, or multiple displays<br/>from a single output, additional hardware such as DisplayPort-ready<br/>monitors or DisplayPort 1.2 MST-enabled hubs may be required. See<br/>www.amd.com/eyefinityfaq for full details.</li> <li>OpenGL 4.4 support available with driver 14.301.xxx or later.</li> <li>OpenCL 2.0 support planned in driver updates for early 2015.</li> <li>For HP Z440 Workstation configurations, the HP Z4 Fan and Front Card<br/>Guide Kit, which is available both CTO (G8T99AV) and AMO (J9P80AA), is<br/>required.</li> </ol> |

# Technical Specifications - High Performance GPU Computing

#### **HIGH PERFORMANCE GPU COMPUTING**

| NVIDIA Tesla K40    | Form Factor              | Size: 4.376 inches by 10.5 inches  |
|---------------------|--------------------------|--|
| Workstation Compute |                          | Slots: Dual Slot   |
| Processor           |                          | Power Connectors: One 6-pin and one 8-pin                                  |
|                     |                          | Weight: ~826 grams   |
|                     | System Interface         | PCI Express Gen3 ×16   |
|                     | Video Outputs            | None.  |
|                     | Memory                   | 12GB GDDR5,  |
|                     |                          | memory path: 384-bit   |
|                     |                          | memory clock: 3Ghz   |
|                     | Dool: Momony Ponduidth   | -  |
|                     | Peak Memory Bandwidth    |  |
|                     | Supported APIs           | CUDA, OpenACC, OpenCL 1.2 API support includes:                            |
|                     |                          | C, C++, Java, Python, and Fortran  |
|                     | Supported Operating      | Windows 8 (64-bit)   |
|                     | Systems                  | Genuine Windows 7 Professional (64-bit)                                    |
|                     | -                        | Red Hat Enterprise Linux (RHEL) 5, 6 Desktop/Workstation (64-bit)          |
|                     |                          | SUSE Linux Enterprise Desktop 11 (64-bit)                                  |
|                     |                          |  |
|                     |                          | HP qualified drivers may be preloaded or available from the HP support     |

# **Technical Specifications - Networking and Communications**

#### **NETWORKING AND COMMUNICATIONS**

| Integrated Intel I218LM            | Connector               | RJ-45 (motherboard integration)  |
|------------------------------------|-------------------------|--|
| PCIe GbE Controller                | Controller              | Intel I218LM GbE platform LAN connect networking controller  |
|                                    | Memory                  | 3 KB FIFO packet buffer memory (both Tx and Rx)  |
|                                    | Data Rates Supported    | 10/100/1000 Mbps   |
|                                    | Compliance              | 802.1as, 802.1p, 802.1Q, 802.3, 802.3ab, 802.3az, 802.3i, 802.3u, 802.3x, 802.3z   |
|                                    | Bus Architecture        | PCI Express 1.1 (x1) and SMBus   |
|                                    | Data Transfer Mode      | PCIe-based interface for active state operation (S0 state) and SMBus for host and management traffic (Sx low power state)  |
|                                    | Power Requirement       | Requires 3.3V only (integrated regulators)   |
|                                    | Boot ROM Support        | Yes  |
|                                    | Network Transfer Mode   | Full-duplex; Half-duplex (not supported for the 1000BASE-T transceiver)  |
|                                    | Network Transfer Rate   | 10BASE-T (half-duplex) 10 Mbps<br>10BASE-T (full-duplex) 20 Mbps<br>100BASE-TX (half-duplex) 100 Mbps<br>100BASE-TX (full-duplex) 200 Mbps<br>1000BASE-T (full-duplex) 2000 Mbps   |
|                                    | Management Capabilities | WOL, auto MDI crossover, PXE, Multi-port teaming, RSS, Advanced cable<br>diagnostics<br>AMT 9.1 support, vPro compliant  |
| HP X520 10GbE Dual Port<br>Adapter | Hardware Certifications | FCC B, UL, CE, VCCI, BSMI, CTICK, KCC  |
| HP 10GbE SFP+ SR<br>Transceiver    | Operating Temperature   | OC to 45C<br>(32F to 113F)   |
|                                    | Operating Humidity      | 0% to 85%, noncondensing   |
|                                    | Dimensions (H x W x D)  | 0.47(h) x 0.54(w) x 2.19(d)inches<br>(1.19 x 1.38 x 5.57 cm)   |
| HP 10GbE SFP+ SR<br>Transceiver    | Connector<br>Controller | Two RJ-45<br>Intel® Ethernet I350 Controller   |
|                                    | Data Rates Supported    | 10/100/1000 Mbps, Half- and full-duplex  |
|                                    | Compliance              | 802.3, 802.3u, 802.3x, 802.3ab, 802.3ad, 802.1p, 802.1Q, 802.3az, IEEE<br>1588<br>PCIe v2.0 standard<br>RoHS (6 of 6)<br>FCC (U.S. only) Class B<br>DOC (Canada) Class B<br>CE EN 55024, EN55022 Class B<br>VCCI Class II<br>UL 1950<br>CSA 950<br>EN 60950<br>CE<br>ACPI 1.1a |

# Technical Specifications - Networking and Communications

|                          |                                    | Microsoft WHQL (Windows Hardware Quality Labs)  |

|  | 3. Maximum output                    | power may vary by country according to local regulations.   |
|  |                                      | lling mode and on battery power.  |
|  | <ol><li>Receiver sensitivi</li></ol> | ity is measured at a packet error rate of 8% for 802.11b (CCK modulation)   |

and a packet error rate of 10% for 802.11a/g (OFDM modulation).

# QuickSpecs

# Summary of Changes

| Date of change:  | Version History: |         | Description of change:   |
|------------------|------------------|---------|--|
| August 21        | V1               | Added   | Style and technical specifications,  |
| October 1, 2014  | From v1 to v2    | Added   | Cyberlink Power2Go on supported components: software, Foxit<br>PhantomPDF Express to supported components: software, note to<br>supported components: memory, Optical drives, DVD, BD-XL specs   |
|                  |                  | Changed | Processor table with corrected turbo specs for E5-1660v3, Declared<br>Noise Emissions section, stable & consistent offerings, system technical<br>specifications: system board, supported components: optical and<br>removable storage, supported components: graphics, Zero-ed out Noise<br>Emissions |
|                  |                  | Removed | "Cyberlink MediaSuite" from supported components: software   |
| January 1, 2015  | From v2 to v3    | Added   | HP 256 GB SED Opal 2 SSD, AMD FirePro W7100 GPU, Intel X540 and<br>Ubuntu OS   |
|                  |                  | Changed | OS Overview Section, Chassis Dimensions, Power Suply note and links  |
| February 1, 2015 | From v3 to v4    | Added   | Windows 8.1 EM, AMD FirePro W5100 4GB specs, HP DX115 notes  |
|                  |                  | Changed | Internal I/O USB from Overview and System Board sections   |
|                  |                  | Removed | NVIDIA Tesla K20c Compute Processor from High Performance GPU<br>Computing   |
| March 1, 2015    | From v4 to v5    | Added   | OS Support, RAID Interfaces Support, 600 and 300 GB SAS 15K SFF HDD,<br>4TB SATA HDD   |
|                  |                  | Changed | Linux Installer Kit, Hard Drives description notes, ACPI support from BIOS<br>section  |
| April 1, 2015    | From v5 to v6    | Changed | Hard Drive and Memory Notes from Supported Components section.<br>Memory Speed Supported and Memory Info from System Board section   |
| May 1, 2015      | From v6 to v7    | Added   | Integrated RAID for PCIe SSDs and note to Supported Hard Drive<br>Controllers section  |
|                  |                  | Changed | Note 1 from Hard Drive Controllers   |
| July 1, 2015     | From v7 to v8    | Added   | 1TB SATA 7200 rpm 8GB 3.5" SSHD (hybrid), NVIDIA Quadro M6000 12GB<br>Graphics, 3Dconnexion CADMouse, HP 2.5in HDD/SSD 2-in-1 0DD Bay<br>Bracket, Notes for Other software   |
|                  |                  | Changed | HP Optical Bay HDD Mounting Bracket, Notes for the Storage section   |
|                  |                  | Removed | 600GB SAS 15K rpm 6Gb/s 3.5" HDD, 300GB SAS 15K rpm 6Gb/s 3.5"<br>HDD,   |
