For the Fiscal Year Ended June 30, 2020

#### **Organization**

Under the provisions of Kentucky Revised Statute Sections 61.645 and 61.701, the Board of Trustees (the Board) of Kentucky Retirement Systems (KRS) administers the Kentucky Employees Retirement System (KERS), County Employees Retirement System (CERS), and State Police Retirement System (SPRS). Although the assets of the systems are invested as a whole, each system's assets are accounted for separately, invested according to plan-specific asset allocation goals, and are used only for the payment of benefits to the members of that plan and the administrative costs incurred by those receiving an insurance benefit, in accordance with the provisions of Kentucky Revised Statute Sections 16.510, 61.515, 61.702, 78.520, and 78.630.

The Board of Trustees, as of December 3, 2020, is comprised of David L. Harris, Chair, Governor Appointee; Keith Percy, Vice Chair, elected by SPRS; W. Joe Brothers, Governor Appointee; John E. Chilton, Governor Appointee; Kelly Downard, Governor Appointee; Joseph L. Grossman, Governor Appointee; C. Prewitt Lane, Governor Appointee; J.T. Fulkerson, Governor Appointee; Matthew Monteiro, Governor Appointee; Gerina Whethers, Personnel Secretary Ex-Officio; and one vacant Governor Appointee position; Raymond Campbell Connell, elected by KERS; Sherry Lynn Kremer, elected by KERS; Betty Pendergrass, elected by CERS; Jerry W. Powell, elected by CERS; and David Rich, elected by CERS.

CERS Non-hazardous, CERS Hazardous, KERS Non-hazardous, and KERS Hazardous Insurance Plans are cost-sharing multiple-employer defined benefit Other Postemployment Benefits (OPEB) plans. The plans cover all regular full-time members employed in non-hazardous and hazardous duty positions of any state department, board, agency, county, city, school board, and any additional eligible local agencies electing to participate. The plans provide for health insurance benefits to plan members. OPEB may be extended to beneficiaries of plan members under certain circumstances.

SPRS is a single-employer defined benefit OPEB plan that covers all full-time state troopers employed in a hazardous duty position by the Kentucky State Police. The plan provides for health insurance benefits to plan members. OPEB may be extended to beneficiaries of plan members under certain circumstances. No schedule has been presented for SPRS, since it is a single-employer defined benefit OPEB plan.

#### **Relationship to Combining Financial Statements**

The Schedule was reconciled to the Plan's Combining Statement of Changes in Fiduciary Net Position – Insurance Fund in KRS' Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2020, with the following difference. The 1% of pay member contributions

**(Continued)**

for Tier 2 and Tier 3 members to a 401(h) subaccount on the Pension Funds are considered as an OPEB asset. As a result, the reported plan fiduciary net position for the Insurance Fund as of June 30, 2020, includes the 401(h) asset balance.

The components associated with OPEB expense and deferred outflows and inflows of resources have been determined based on the net increase in fiduciary net position as shown in the Combining Statement of Changes in Fiduciary Net Position and in accordance with requirements promulgated by Governmental Accounting Standards Board (GASB) Statements No. 74 and 75. The net OPEB liability at June 30, 2020, is reported in the Notes to Combining Financial Statements and Required Supplementary Information.

**Summary of Significant Accounting and Reporting Policies**

**Measurement Focus, Basis of Accounting and Basis of Presentation**

The accompanying Schedules were prepared in accordance with U.S generally accepted accounting principles as applicable to governmental organizations. In doing so, KRS adheres to the reporting requirements established by GASB.

The CERS Non-hazardous, CERS Hazardous, KERS Non-hazardous, KERS Hazardous Insurance Funds are reported as OPEB trust funds, and are accounted for on the accrual basis of accounting. OPEB contributions are determined by the KRS Board and required by the employers, and the employees contributions are set by Kentucky Revised Statute 61.702(2)(b)(1). KRS recognized employer and employee contributions to the plans through June 30, 2020. OPEB expenses are recognized as the benefits come due for the CERS Non-hazardous, CERS Hazardous, KERS Non-hazardous, and KERS Hazardous Insurance Plans, which includes payments made to the Department of Employee Insurance (DEI), and Humana Inc. for OPEB costs incurred for the fiscal year ended June 30, 2020. KRS contracts with DEI and Humana to administer the claims. DEI administers retiree claims for retirees under the age of 65, and Humana administers retiree claims for members 65 and over. Since, the average cost of providing health care benefits to retirees under age 65 is higher than the average cost of providing health care benefits to active employees, there is an implicit employer subsidy for the non-Medicare eligible retirees. GASB 74 requires that the liability associated with this implicit subsidy be included in the calculation of the Total OPEB Liability.

Net investment income represents realized and unrealized gains and losses based on the fair value of investments, interest, and dividends, net of investment expenses. Investment income/loss is allocated to each plan based on the plan's ownership in the respective investment account.

The systems are charged administrative expenses based on the number of members and dependents electing an insurance policy provided by DEI or Humana, on a monthly basis. The administrative expenses are reported in KRS' basic financial statements included in its CAFR for the Insurance Fund.

**Notes to Schedules of Employer Allocations and OPEB Amounts by Employer**  
**For the Fiscal Year Ended June 30, 2020**  
**(Continued)**

The Schedule of Employer Allocations reflects employer contributions received for the fiscal year ended June 30, 2020, and includes the following for each individual employer:

- employer contributing entity and reporting code;
- the amount of the employer contributing entity's contributions; and,
- the employer contributing entity's contributions as a percentage of total employer contributions, defined by this allocation.

The Employer Allocation Percentage has been rounded to six decimal places.

The components of the net OPEB liability of KERS and CERS for participating employers as of June 30, 2020, calculated in accordance with GASB Statement No. 74, are as follows (dollars in thousands):

|                        | CERS<br>Non-Hazardous | CERS<br>Hazardous | KERS<br>Non-Hazardous | KERS<br>Hazardous |

**Actuarial Methods and Assumptions to Determine the Total OPEB Liability and the Net OPEB Liability**

For financial reporting, the actuarial valuation as of June 30, 2020, was performed by Gabriel Roeder Smith (GRS). The total OPEB liability, net OPEB liability, and sensitivity information as of June 30, 2020, were based on an actuarial valuation date of June 30, 2019. The total OPEB liability was rolled-forward from the valuation date (June 30, 2019) to the plan's fiscal year ending June 30, 2020, using the generally accepted actuarial principles.

**Kentucky Retirement Systems**  
**Notes to Schedules of Employer Allocations and OPEB Amounts by Employer**  
**For the Fiscal Year Ended June 30, 2020**  
**(Continued)**

The following actuarial assumptions were used in performing the actuarial valuation as of June 30, 2020:

|                                |   |
|--------------------------------|---|
| Inflation                      | 2.30%   |
| Payroll Growth Rate            | 2.0% for CERS Non-Hazardous and Hazardous, and 0.0% for KERS Non-Hazardous and Hazardous  |
| Salary Increases               | 3.30% to 10.30%, varies by service for CERS Non-Hazardous; 3.55% to 19.05%, varies by service for CERS Hazardous; 3.30% to 15.30%, varies by service for KERS Non-Hazardous; and, 3.55% to 20.05%, varies by service for KERS Hazardous             |
| Investment Rate of Return      | 6.25%   |
| Healthcare Trend Rates         |   |
| Pre - 65                       | Initial trend starting at 6.40% at January 1, 2022, and gradually decreasing to an ultimate trend rate of 4.05% over a period of 14 years.  |
| Post - 65                      | Initial trend starting at 2.90% at January 1, 2022, and increasing to 6.30% in 2023, then gradually decreasing to an ultimate trend rate of 4.05% over a period of 14 years   |
| Mortality                      |   |
| Pre-retirement                 | PUB-2010 General Mortality table, for the Non-Hazardous Systems, and the PUB-2010 Public Safety Mortality table for the Hazardous Systems, projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2010 |
| Post-retirement (non-disabled) | System-specific mortality table based on mortality experience from 2013-2018, projected with the ultimate rates from MP-2014 mortality improvement scale using a base year of 2019  |
| Post-retirement (disabled)     | PUB-2010 Disabled Mortality table, with a 4-year set-forward for both male and female rates, projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2010   |

The assumed increase in future health care costs, or trend assumption, was reviewed during the June 30, 2019 valuation process and was updated to better reflect more current expectations relating to anticipated future increases in the medical costs. The anticipated savings from the repeal of the “Cadillac Tax” and “Health Insurer Fee”, which occurred in December of 2019 are reflected in the June 30, 2020 GASB 75 actuarial information. The assumed load on pre-Medicare premiums to reflect the cost of the Cadillac Tax was removed and the Medicare premiums were reduce by 11 % to reflect the repeal of the Health Insurer Fee. There were no other material assumption changes.

House Bill 1 passed during the 2019 Special Legislative Session allows certain employers in the KERS Non-hazardous plan to elect to cease participating in the System as of June 30, 2020 under different provisions than were previously established. Senate Bill 249 passed during the 2020 legislative session delayed the effective date of cessation for these provisions to June 30, 2021. Since each employer’s elections are unknown at this time, no adjustment to the Total OPEB Liability was made to reflect this legislation.

Senate Bill 249 passed during the 2020 legislative session and changed the funding period for the amortization of the unfunded liability to 30 years as of June 30, 2019. Gains and losses incurring in future years will be amortized over separate 20-year amortization bases. This change

**Kentucky Retirement Systems**

**(Continued)**

does not impact the calculation of the Total OPEB Liability and only impacts the calculation of the contribution rates that would be payable starting July 1, 2020. There were no other material plan provision changes.

**Discount Rate**

Single discount rates of 5.34% for CERS Non-hazardous, 5.30% for CERS Hazardous, 5.43% for KERS Non-hazardous, and 5.28% for KERS Hazardous systems were used to measure the total OPEB liability as of June 30, 2020. The single discount rates are based on the expected rate of return on OPEB plan investments of 6.25%, and a municipal bond rate of 2.45%, as reported in Fidelity Index's "20-Year Municipal GO AA Index" as of June 30, 2020. Based on the stated assumptions and the projection of cash flows as of each fiscal year ending, the plan's fiduciary net position and future contributions were projected to be sufficient to finance the future benefit payments of the current plan members. Therefore, the long-term expected rate of return on insurance plan investments was applied to all periods of the projected benefit payments paid from the retirement system. However, the cost associated with the implicit employer subsidy was not included in the calculation of the KRS' actuarial determined contributions, and any cost associated with the implicit subsidy will not be paid out of the KRS' trusts. Therefore, the municipal bond rate was applied to future expected benefit payments associated with the implicit subsidy. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the CAFR.

The projection of cash flows used to determine the single discount rate must include an assumption regarding future employer contributions made each year. The future contributions are projected in accordance with the current funding policy, as most recently revised by Senate Bill 249, passed during the 2020 legislative session. If there is a pattern of legislation that has a resulting effect of employers making contributions less than the actuarially determined rate, GRS may be required to project contributions that are reflective of recent actual contribution efforts regardless of the stated funding policy (as required by paragraph 50 of GASB Statement No. 74). Legislation has been enacted for multiple years (for Fiscal Year 18/19, Fiscal Year 19/20, and Fiscal Year 20/21) that allowed certain employers (referred to as "Quasi" agencies) in the KERS Non-hazardous Fund to contribute 8.41% of pay into the insurance fund, which is less than the actuarially determined contribution rate. GRS confirmed that the single discount rate used in the GASB calculations remains unchanged if these Quasi agencies were assumed to continue making contributions at a reduced rate in future years.

**Basis of Accounting**

The underlying financial information used to prepare allocation schedules is based on KRS's combining financial statements. KRS's combining financial statements for all plans are prepared using the accrual basis of accounting and are prepared in accordance with accounting principles generally accepted in the United State of America (GAAP) that apply to governmental accounting for fiduciary funds.

**Notes to Schedules of Employer Allocations and OPEB Amounts by Employer**  
**For the Fiscal Year Ended June 30, 2020**  
**(Continued)**

**Use of Estimates in the Preparation of the Schedules**

The preparation of the schedules in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect certain amounts and disclosures. KRS accrues employer contributions using estimates based on historical data. Actual results could differ from those estimates.

**Reconciliation of Employer Contributions**

The reconciliation between the employer contributions used for the Schedule of Employer Allocations and the Combining Statements of Changes in Fiduciary Net Position as of June 30, 2020, are presented below (dollars in thousands):

|   | CERS Non-Hazardous | CERS Hazardous | KERS Non-Hazardous | KERS Hazardous |

The items listed above are included in the contributions on the Combining Statements of Changes in Fiduciary Net Position, but are not included in the Schedule A (GRS reports). The contributions per Schedule A (GRS reports) represents actual contributions made related to the measurement period.

The mortality table used for active members is RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females). For healthy retired members and beneficiaries, the mortality table used is the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (set-back for one year for females). For disabled members, the RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (set-back four years for males) is used for the period after disability retirement.

**Deferred Inflows and Outflows of Resources**

The Deferred Inflows and Outflows of Resources, and OPEB Expense included in the Schedule of OPEB Amounts by Employer include only certain categories of deferred outflows of resources and deferred inflows of resources. These include differences between expected and actual experience, changes of assumptions and differences between projected and actual earnings on plan investments. The Schedule of OPEB Amounts by Employer does not include deferred outflows/inflows of resources for changes in the employer's proportionate share of contributions or employer contributions made subsequent to the measurement date. The net OPEB liability as of June 30, 2020, is based on the June 30, 2019, actuarial valuation rolled forward. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are amortized over a closed five-year period.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

*Report of Independent Auditors*

Board of Trustees  
Kentucky Retirement Systems  
Frankfort, Kentucky

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the schedule of employer allocations of the Kentucky Retirement Systems' (KRS) Kentucky Employees Retirement System (KERS) Insurance Fund and County Employees Retirement System (CERS) Insurance Fund as of and for the year ended June 30, 2020, and the related notes to the schedules. We have also audited the total for all entities of the columns titled net Other Postemployment Benefits (OPEB) liability, total deferred outflows of resources, total deferred inflows of resources, and total OPEB expense (specified column totals) included in the accompanying schedule of OPEB amounts by employer of the KERS and CERS Insurance Funds as of and for the year ended June 30, 2020, and have issued our report thereon dated **February 18, 2021**.

***Internal Control over Financial Reporting***

In planning and performing our audit of the financial statements, we considered KRS' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of KRS' internal control. Accordingly, we do not express an opinion on the effectiveness of KRS' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

***Compliance and Other Matters***

As part of obtaining reasonable assurance about whether KRS' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on

the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Subject: GASB 75 Reporting Information for Measurement Period Ending June 30, 2020**

Dear Members of the Board:

This report contains information for the **Kentucky County Employees Retirement System (CERS)** in connection with the Governmental Accounting Standards Board (GASB) Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions." This information can be used by participating employers in financial reporting for fiscal years ending between (and including) June 30, 2020 and June 30, 2021. The information provided herein was prepared for the purpose of assisting the Kentucky Retirement Systems (KRS) and participating employers in compliance with the financial reporting and disclosure requirements of GASB Statement No. 75.

The liability calculations presented in this report were performed for the purpose of satisfying the requirements of GASB No. 75 and are not applicable for other purposes, such as determining the plans' funding requirements. The calculation of the plan's liability for other purposes may produce significantly different results. This report may be provided to parties other than the Board of Trustees of the Kentucky Retirement Systems only in its entirety and only with the permission of the Board. GRS is not responsible for unauthorized use of this report.

The total OPEB liability, net OPEB liability, and sensitivity information shown in this report are based on an actuarial valuation performed as of June 30, 2019. The total OPEB liability was rolled forward from the valuation date to the measurement date at June 30, 2020, using generally accepted actuarial principles.

The discount rate used to calculate the total OPEB liability decreased from 5.68% to 5.34% for the Non-Hazardous Fund and from 5.69% to 5.30% for the Hazardous Fund (see information regarding the calculation of the single discount rate in the discussion section of this report). The assumed increase in future health care costs, or trend assumption, was reviewed during the June 30, 2019 valuation process and was updated to better reflect more current expectations relating to anticipated future increases in the medical costs. Also, the June 30, 2020 GASB No. 75 actuarial information reflects the anticipated savings from the repeal of the "Cadillac Tax" and "Health Insurer Fee", which occurred in December of 2019. The assumed load on pre-Medicare premiums to reflect the cost of the Cadillac Tax was removed and the Medicare premiums were reduced by 11% to reflect the repeal of the Health Insurer Fee. There were no other material assumption changes and it is our opinion that these procedures are reasonable and appropriate, and comply with applicable requirements under GASB No. 75.

Senate Bill 249 passed during the 2020 legislative session and changed the funding period for the amortization of the unfunded liability to 30 years as of June 30, 2019. Gains and losses incurring in future years will be amortized over separate 20-year amortization bases. This change does not impact the calculation of the Total OPEB Liability and only impacts the calculation of the contribution rates that would be payable starting July 1, 2020. There were no other material plan provision changes and it is our opinion that these procedures are reasonable and appropriate, and comply with applicable requirements under GASB No. 75.

This report provides the Collective OPEB Amounts under GASB Statement No. 75, which will be allocated to employers participating in the CERS Non-Hazardous and Hazardous Retirement Systems. The proportionate share of the Collective OPEB Amounts for employers that participate in these cost-sharing multiple employer systems maintained by KRS are provided in an appendix to this report.

The fully-insured premiums KRS pays for the Kentucky Employees' Health Plan are blended rates based on the combined experience of active and retired members. Because the average cost of providing health care benefits to retirees under age 65 is higher than the average cost of providing health care benefits to active employees, there is an implicit employer subsidy for the non-Medicare eligible retirees. GASB No. 75 requires that the liability associated with this implicit subsidy be included in the calculation of the Total OPEB Liability.

This report is based upon information furnished by the Retirement System, which includes benefit provisions, membership information, and financial data. We did not audit this data and information, but we did apply a number of tests and concluded that it was reasonable and consistent. GRS is not responsible for the accuracy or completeness of the information provided by the Retirement System.

This report complements the GASB 74 accounting valuation report as of June 30, 2020, which was provided to KRS for plan accounting purposes, and the "Actuarial Valuation Report as of June 30, 2019", which was provided for plan funding purposes and documents the assumptions used in this report. Together, these reports should be considered as a complete report for the measurement period that ended June 30, 2020. Please see the GASB 74 accounting valuation report as of June 30, 2020 for additional discussion of accounting information and the actuarial valuation report for information regarding the nature of actuarial calculations, participant data, economic and demographic assumptions, and benefit provisions.

Based on guidance issued by GASB in connection with GASB Statement No. 74, the 1% of pay contributions Tier 2 and Tier 3 members contribute to a 401(h) subaccount are considered an OPEB asset. As a result, the reported fiduciary net position includes these 401(h) assets. Additionally, these member contributions and associated investment income are included in the reconciliation of the fiduciary net position.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or

decreases expected as part of the natural operation of the methodology used for these measurements; and changes in plan provisions or applicable law.

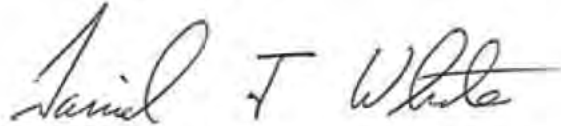

This report was prepared using our proprietary valuation model and related software which, in our professional judgment, has the capability to provide results that are consistent with the purposes of the valuation. We performed tests to ensure that the model reasonably represents that which is intended to be modeled.

To the best of our knowledge, this report is complete and accurate and is in accordance with generally recognized actuarial practices and methods. All of the undersigned are Enrolled Actuaries, independent actuaries and members of the American Academy of Actuaries, and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion herein. ### **DISCUSSION**

## Discussion

### Report Purpose and Scope

GASB Statement No. 75 replaces the requirements of Statements No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than OPEBs, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, for OPEB.

The following discussion provides a summary of the information that is required to be disclosed under GASB Statement No. 75. A number of the required disclosure items under this standard are provided in this report. However, certain information, such as notes regarding accounting policies and investments, are not included in this report. As a result, the employers are responsible for preparing and disclosing the non-actuarial information needed to comply with these accounting standards. Much of this additional information can be readily obtained from KRS's 2020 Comprehensive Annual Financial Report.

### Financial Reporting Overview

GASB 75 requires employers to recognize the net OPEB liability and the OPEB expense on their financial statements. The net OPEB liability is the total OPEB liability, less the amount of the plan's fiduciary net position. In actuarial terms, this is analogous to the accrued liability as measured using the individual entry age normal actuarial cost method less the market value of assets (not the smoothed actuarial value of assets used in the actuarial funding calculations based on the Board's adopted assumptions and methods).

### Timing of the Valuation

For the employer's financial reporting purposes, the net OPEB liability and OPEB expense should be measured as of the employer's "measurement date" which may not be earlier than the employer's prior fiscal year-end date. The total OPEB liability, net OPEB liability, and sensitivity information shown in this report are based on an actuarial valuation performed as of June 30, 2019. The total OPEB liability was rolled forward from the valuation date to the measurement date at June 30, 2020, using generally accepted actuarial principles.

The discount rate used to calculate the total OPEB liability decreased from 5.68% to 5.34% for the Non-Hazardous Fund and from 5.69% to 5.30% for the Hazardous Fund (see information regarding the calculation of the single discount rate later in this section of the report). The assumed increase in future health care costs, or trend assumption, was reviewed during the June 30, 2019 valuation process and was updated to better reflect more current expectations relating to anticipated future increases in the medical costs. Also, the June 30, 2020 GASB No. 75 actuarial information reflects the anticipated savings from the repeal of the "Cadillac Tax" and "Health Insurer Fee", which occurred in December of 2019. The assumed load on pre-Medicare premiums to reflect the cost of the Cadillac Tax was removed and the Medicare premiums were reduced by 11% to reflect the repeal of the Health Insurer Fee. There were no other material assumption changes and it is our opinion that these procedures are reasonable and appropriate, and comply with applicable requirements under GASB No. 75.

Senate Bill 249 passed during the 2020 legislative session and changed the funding period for the amortization of the unfunded liability to 30 years as of June 30, 2019. Gains and losses incurring in future years will be amortized over separate 20-year amortization bases. This change does not impact the calculation of the Total OPEB Liability and only impacts the calculation of the contribution rates that would be payable starting July 1, 2020. There were no other material plan provision changes and it is our opinion that these procedures are reasonable and appropriate, and comply with applicable requirements under GASB No. 75.

### **Employer Contributions after the Measurement Date and before the Employer's Fiscal Year End**

GASB No. 75 indicates that employer contributions made subsequent to the measurement date of the Net OPEB Liability and prior to the end of the employer's reporting period should be reported by the employer as a deferred outflow of resources. The information contained in this report does not incorporate any contributions made to the plan subsequent to June 30, 2020.

### **Single Discount Rate**

Single discount rates of 5.34% for the non-hazardous system and 5.30% for hazardous system were used to measure the total OPEB liability as of June 30, 2020. The single discount rates are based on the expected rate of return on OPEB plan investments of 6.25% and a municipal bond rate of 2.45%, as reported in Fidelity Index's "20-Year Municipal GO AA Index" as of June 30, 2020. Based on the stated assumptions and the projection of cash flows as of each fiscal year ending, the plan's fiduciary net position and future contributions were projected to be sufficient to finance the future benefit payments of the current plan members. Therefore, the long-term expected rate of return on insurance plan investments was applied to all periods of the projected benefit payments paid from the retirement system. However, the cost associated with the implicit employer subsidy is not currently being included in the calculation of the System's actuarial determined contributions, and it is our understanding that any cost associated with the implicit subsidy will not be paid out of the System's trust. Therefore, the municipal bond rate was applied to future expected benefit payments associated with the implicit subsidy.

The projection of cash flows used to determine the single discount rate must include an assumption regarding actual employer contributions made each future year. Except where noted below, the future contributions are projected assuming that each participating employer in the System contribute the actuarially determined employer contribution rate each future year calculated in accordance with the current funding policy, as most recently revised by Senate Bill 249, passed during the 2020 legislative session. This includes the phase-in provisions from House Bill 362 (passed in 2018) that applies to the CERS Funds as well as the provisions from Senate Bill 249 (passed in 2020) which kept CERS contributions level for fiscal year ending 2021.

If there is future legislation that has a resulting effect of employers making contributions less than the actuarially determined rate, we may be required to project contributions that are reflective of recent actual contribution efforts regardless of the stated funding policy (as required by paragraph 50 of GASB Statement No. 74).

## Methodology for Proportionate Shares

The proportionate share of the Collective OPEB Amounts for employers that participate in the CERS Non-Hazardous and Hazardous Retirement Systems are provided in an appendix to this report. The allocation of the employers' proportionate share of the Net OPEB Liability and OPEB Expense was determined using the employers' actual contributions for the fiscal year ending June 30, 2020. This method is expected to be reflective of the employers' long-term contribution effort as well as be transparent to individual employers and their external auditors.

## Non-Employer Contributions

Non-employer contributions will be allocated according to each employer's proportionate share, as described previously. There were no non-employer contributions during fiscal year ending June 30, 2020 for either the non-hazardous or hazardous funds.

## Summary of Population Statistics

The total OPEB liability described in this report is based on the plan membership as of June 30, 2019:

| <b>Membership Status</b>   | <b><u>Non-Hazardous</u></b><br>(1) | <b><u>Hazardous</u></b><br>(2) |
|--|------------------------------------|--------------------------------|
| Inactive plan members currently receiving benefits:              | 36,371                             | 6,853                          |
| Inactive plan members entitled to but no yet receiving benefits: | 29,362                             | 856                            |
| Active plan members:   | 81,147                             | 9,470                          |
| Total plan members:  | 146,880                            | 17,179                         |

Note, the membership counts for the health insurance funds are different than the membership counts for the retirement funds due to differences in vesting provisions and the coordination of the delivery of health insurance benefits to members that have earned service in more than one system maintained by KRS.

## Recognition of Deferred Outflows and Inflows of Resources

According to paragraph 86 of GASB Statement No. 75, *differences between expected and actual experience and changes in assumptions* are recognized in OPEB expense using a systematic and rational method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with OPEB through the OPEB plan (active employees and inactive members) determined as of the beginning of the measurement period.

At the beginning of the 2020 measurement period, the average of the expected remaining service lives for purposes of recognizing the applicable deferred outflows and inflows of resources established in the 2020 measurement period was the following for each retirement system.

| Development of the Average Expected<br>Remaining Service Life    | <u>Non-Hazardous</u> | <u>Hazardous</u> |
|--|----------------------|------------------|
|  | (1)                  | (2)              |
| Total expected remaining service lives of all employees (years): | 725,088              | 101,660          |
| Total plan members:  | 146,880              | 17,179           |
| Average expected remaining service life (years):                 | 4.94                 | 5.92             |

Differences between projected and actual earnings on OPEB plan investments should be recognized in OPEB expense using a systematic and rational method over a closed five-year period. For this purpose, the deferred outflows and inflows of resources are recognized in the OPEB expense as a level dollar amount over the closed period identified above.

## Implicit Subsidy

GASB Statements No. 75 and No. 68 are conceptually very similar in terms of the liability which is recognized on the balance sheet, the expense calculation, and the corresponding deferred outflows and inflows of resources. The main differences between the standards are related to the differences between pension and health care benefits. In particular, there is a concept referred to as the “implicit subsidy” that applies to health plans which utilize a blended premium, which has no counterpart in GASB Statement No. 68. The “implicit” or “hidden” subsidy refers to the difference between the underlying retiree claims costs and the overall health care premiums paid on behalf of retirees. By “overall”, we mean the combined employer and retiree portions of the premiums. GASB defines the employer provided OPEB benefit as the difference between the underlying claims costs (or age-adjusted premiums) and the premium contributions made by retirees. If the overall premiums for retirees were developed solely on the claims experience of the retirees, there would be no implicit subsidy and the employer portion of the overall retiree premiums would coincide with GASB’s definition of the OPEB benefit. However, the fully-insured premiums KRS pays for the Kentucky Employees’ Health Plan are blended rates based on the combined experience of active and retired members. Because the average cost of providing health care benefits to retirees under age 65 is higher than the average cost of providing health care benefits to all participants, there is an implicit employer subsidy for the non-Medicare eligible retirees.

This is important because the retiree health insurance trust is used to pay the employers’ portion of the blended premiums, not the employers’ portion of the underlying retiree claims costs. In order to account for the employer provided OPEB benefit, as it’s defined by GASB, the payments made by the retiree health insurance trust need to be adjusted to reflect the implicit subsidy (the difference between the retiree claims and the overall premiums). Similarly, the employer contributions need to be adjusted to reflect the cost of the implicit subsidy. It’s important to keep in mind that the implicit subsidy is an employer contribution. Because the implicit subsidy does not pass through the trust, it is considered a benefit payment that was paid “as it came due”. For plans that use a blended premium structure, Illustrations B1-1 and B1-2 of Implementation Guide No. 2017-3 describe how a portion of the payments made on behalf of the active employees should be reclassified as benefit payments for retiree healthcare to reflect the retirees’ underlying claims costs. Adjusting the explicit health care costs for active employees and retirees by the implicit subsidy estimates provided in this report is equivalent to the reclassification described in the Implementation Guide.

To summarize, the distributions from the retiree health insurance trust pay the employers’ portion of the blended premiums, not the employers’ portion of the underlying retiree claims costs. As a result, the benefit payments and contribution amounts disclosed for GASB Statement No. 74 and 75 purposes need to include an adjustment related to the implicit subsidy. Participating employers should adjust their contributions by the implicit subsidy in order to determine the total employer contribution for GASB Statement No. 75 purposes. This adjustment is needed for contributions made during the measurement period and also for the purpose of the deferred outflow related to contributions made after the measurement date. The appendices in this report provide each employer’s implicit subsidy for the measurement period and each employer’s implicit subsidy for the year ending June 30, 2021.

## Notes to Schedule of Employers' Contributions

The actuarially determined contribution rates effective for fiscal year ending 2020 that are documented in the schedule on the previous page are calculated as of June 30, 2018. Based on the June 30, 2018 actuarial valuation report, the actuarial methods and assumptions used to calculate these contribution rates are below:

| Item   | CERS Non-Hazardous  | CERS Hazardous  |

### **DOCUMENTATION OF SUPPORT FOR INVESTMENT RETURN ASSUMPTION**

## Long-Term Expected Investment Return

The long-term expected rate of return was determined by using a building block method in which best estimate ranges of expected future real rates of returns are developed for each asset class. The ranges are combined by weighting the expected future real rate of return by the target asset allocation percentage. The target allocation and best estimates of arithmetic real rate of return for each major asset class is summarized in the table below. The current long term inflation assumption is 2.30% per annum for both the non-hazardous and hazardous system.

### Applicable for the Non-Hazardous and Hazardous System

**Subject: GASB 75 Reporting Information for Measurement Period Ending June 30, 2020**

Dear Members of the Board:

This report contains information for the **Kentucky Employees Retirement System (KERS)** in connection with the Governmental Accounting Standards Board (GASB) Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions." This information can be used by participating employers in financial reporting for fiscal years ending between (and including) June 30, 2020 and June 30, 2021. The information provided herein was prepared for the purpose of assisting the Kentucky Retirement Systems (KRS) and participating employers in compliance with the financial reporting and disclosure requirements of GASB Statement No. 75.

The liability calculations presented in this report were performed for the purpose of satisfying the requirements of GASB No. 75 and are not applicable for other purposes, such as determining the plans' funding requirements. The calculation of the plan's liability for other purposes may produce significantly different results. This report may be provided to parties other than the Board of Trustees of the Kentucky Retirement Systems only in its entirety and only with the permission of the Board. GRS is not responsible for unauthorized use of this report.

The total OPEB liability, net OPEB liability, and sensitivity information shown in this report are based on an actuarial valuation performed as of June 30, 2019. The total OPEB liability was rolled forward from the valuation date to the measurement date at June 30, 2020, using generally accepted actuarial principles.

The discount rate used to calculate the total OPEB liability decreased from 5.73% to 5.43% for the Non-Hazardous Fund and from 5.66% to 5.28% for the Hazardous Fund (see information regarding the calculation of the single discount rate in the discussion section of this report). The assumed increase in future health care costs, or trend assumption, was reviewed during the June 30, 2019 valuation process and was updated to better reflect more current expectations relating to anticipated future increases in the medical costs. Also, the June 30, 2020 GASB No. 75 actuarial information reflects the anticipated savings from the repeal of the "Cadillac Tax" and "Health Insurer Fee", which occurred in December of 2019. The assumed load on pre-Medicare premiums to reflect the cost of the Cadillac Tax was removed and the Medicare premiums were reduced by 11% to reflect the repeal of the Health Insurer Fee. There were no other material assumption changes and it is our opinion that these procedures are reasonable and appropriate, and comply with applicable requirements under GASB No. 75.

House Bill 1 passed during the 2019 special legislative session and allowed certain agencies in the Non-Hazardous fund to elect to cease participating in the System as of June 30, 2020 under different provisions than were previously established. Senate Bill 249 passed during the 2020 legislative session and delayed the effective date of cessation for these provisions to June 30, 2021. Since each employer's election is unknown at this time, we did not make any adjustment to the Total OPEB Liability to reflect this legislation.

Senate Bill 249 also changed the funding period for the amortization of the unfunded liability to 30 years as of June 30, 2019. Gains and losses incurring in future years will be amortized over separate 20-year amortization bases. This change does not impact the calculation of the Total OPEB Liability and only impacts the calculation of the contribution rates that would be payable starting July 1, 2020. There were no other material plan provision changes and it is our opinion that these procedures are reasonable and appropriate, and comply with applicable requirements under GASB No. 75.

This report provides the Collective OPEB Amounts under GASB Statement No. 75, which will be allocated to employers participating in the KERS Non-Hazardous and Hazardous Retirement Systems. The proportionate share of the Collective OPEB Amounts for employers that participate in these cost-sharing multiple employer systems maintained by KRS are provided in an appendix to this report.

The fully-insured premiums KRS pays for the Kentucky Employees' Health Plan are blended rates based on the combined experience of active and retired members. Because the average cost of providing health care benefits to retirees under age 65 is higher than the average cost of providing health care benefits to active employees, there is an implicit employer subsidy for the non-Medicare eligible retirees. GASB No. 75 requires that the liability associated with this implicit subsidy be included in the calculation of the Total OPEB Liability.

This report is based upon information furnished by the Retirement System, which includes benefit provisions, membership information, and financial data. We did not audit this data and information, but we did apply a number of tests and concluded that it was reasonable and consistent. GRS is not responsible for the accuracy or completeness of the information provided by the Retirement System.

This report complements the GASB 74 accounting valuation report as of June 30, 2020, which was provided to KRS for plan accounting purposes, and the "Actuarial Valuation Report as of June 30, 2019", which was provided for plan funding purposes and documents the assumptions used in this report. Together, these reports should be considered as a complete report for the measurement period that ended June 30, 2020. Please see the GASB 74 accounting valuation report as of June 30, 2020 for additional discussion of accounting information and the actuarial valuation report for information regarding the nature of actuarial calculations, participant data, economic and demographic assumptions, and benefit provisions.

Based on guidance issued by GASB in connection with GASB Statement No. 74, the 1% of pay contributions Tier 2 and Tier 3 members contribute to a 401(h) subaccount are considered an OPEB asset. As a result, the reported fiduciary net position includes these 401(h) assets. Additionally, these member

Members of the Board

contributions and associated investment income are included in the reconciliation of the fiduciary net position.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements; and changes in plan provisions or applicable law.

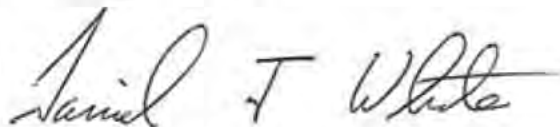

This report was prepared using our proprietary valuation model and related software which, in our professional judgment, has the capability to provide results that are consistent with the purposes of the valuation. We performed tests to ensure that the model reasonably represents that which is intended to be modeled.

To the best of our knowledge, this report is complete and accurate and is in accordance with generally recognized actuarial practices and methods. All of the undersigned are Enrolled Actuaries, independent actuaries and members of the American Academy of Actuaries, and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion herein. They are also experienced in performing valuations for large public retirement systems.

### **DISCUSSION**

## Discussion

### Report Purpose and Scope

GASB Statement No. 75 replaces the requirements of Statements No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than OPEBs, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, for OPEB.

The following discussion provides a summary of the information that is required to be disclosed under GASB Statement No. 75. A number of the required disclosure items under this standard are provided in this report. However, certain information, such as notes regarding accounting policies and investments, are not included in this report. As a result, the employers are responsible for preparing and disclosing the non-actuarial information needed to comply with these accounting standards. Much of this additional information can be readily obtained from KRS's 2020 Comprehensive Annual Financial Report.

### Financial Reporting Overview

GASB 75 requires employers to recognize the net OPEB liability and the OPEB expense on their financial statements. The net OPEB liability is the total OPEB liability, less the amount of the plan's fiduciary net position. In actuarial terms, this is analogous to the accrued liability as measured using the individual entry age normal actuarial cost method less the market value of assets (not the smoothed actuarial value of assets used in the actuarial funding calculations based on the Board's adopted assumptions and methods).

### Timing of the Valuation

For the employer's financial reporting purposes, the net OPEB liability and OPEB expense should be measured as of the employer's "measurement date" which may not be earlier than the employer's prior fiscal year-end date. The total OPEB liability, net OPEB liability, and sensitivity information shown in this report are based on an actuarial valuation performed as of June 30, 2019. The total OPEB liability was rolled forward from the valuation date to the measurement date at June 30, 2020, using generally accepted actuarial principles.

The discount rate used to calculate the total OPEB liability decreased from 5.73% to 5.43% for the Non-Hazardous Fund and from 5.66% to 5.28% for the Hazardous Fund (see information regarding the calculation of the single discount rate later in this section of the report). The assumed increase in future health care costs, or trend assumption, was reviewed during the June 30, 2019 valuation process and was updated to better reflect more current expectations relating to anticipated future increases in the medical costs. Also, the June 30, 2020 GASB No. 75 actuarial information reflects the anticipated savings from the repeal of the "Cadillac Tax" and "Health Insurer Fee", which occurred in December of 2019. The assumed load on pre-Medicare premiums to reflect the cost of the Cadillac Tax was removed and the Medicare premiums were reduced by 11% to reflect the repeal of the Health Insurer Fee. There were no other material assumption changes and it is our opinion that these procedures are reasonable and appropriate, and comply with applicable requirements under GASB No. 75.

House Bill 1 passed during the 2019 special legislative session and allowed certain agencies in the Non-Hazardous fund to elect to cease participating in the System as of June 30, 2020 under different provisions than were previously established. Senate Bill 249 passed during the 2020 legislative session and delayed the effective date of cessation for these provisions to June 30, 2021. Since each employer's election is unknown at this time, we did not make any adjustment to the Total OPEB Liability to reflect this legislation.

Senate Bill 249 also changed the funding period for the amortization of the unfunded liability to 30 years as of June 30, 2019. Gains and losses incurring in future years will be amortized over separate 20-year amortization bases. This change does not impact the calculation of the Total OPEB Liability and only impacts the calculation of the contribution rates that would be payable starting July 1, 2020. There were no other material plan provision changes and it is our opinion that these procedures are reasonable and appropriate, and comply with applicable requirements under GASB No. 75.

### **Employer Contributions after the Measurement Date and before the Employer's Fiscal Year End**

GASB No. 75 indicates that employer contributions made subsequent to the measurement date of the Net OPEB Liability and prior to the end of the employer's reporting period should be reported by the employer as a deferred outflow of resources. The information contained in this report does not incorporate any contributions made to the plan subsequent to June 30, 2020.

### **Single Discount Rate**

Single discount rates of 5.43% for the non-hazardous system and 5.28% for hazardous system were used to measure the total OPEB liability as of June 30, 2020. The single discount rates are based on the expected rate of return on OPEB plan investments of 6.25% and a municipal bond rate of 2.45%, as reported in Fidelity Index's "20-Year Municipal GO AA Index" as of June 30, 2020. Based on the stated assumptions and the projection of cash flows as of each fiscal year ending, the plan's fiduciary net position and future contributions were projected to be sufficient to finance the future benefit payments of the current plan members. Therefore, the long-term expected rate of return on insurance plan investments was applied to all periods of the projected benefit payments paid from the retirement system. However, the cost associated with the implicit employer subsidy is not currently being included in the calculation of the System's actuarial determined contributions, and it is our understanding that any cost associated with the implicit subsidy will not be paid out of the System's trust. Therefore, the municipal bond rate was applied to future expected benefit payments associated with the implicit subsidy.

The projection of cash flows used to determine the single discount rate must include an assumption regarding future employer contributions made each year. The future contributions are projected in accordance with the current funding policy, as most recently revised by Senate Bill 249, passed during the 2020 legislative session. If there is a pattern of legislation that has a resulting effect of employers making contributions less than the actuarially determined rate, we may be required to project contributions that are reflective of recent actual contribution efforts regardless of the stated funding policy (as required by paragraph 50 of GASB Statement No. 74). Legislation has been enacted for multiple years (for FY 18/19, FY 19/20, and FY 20/21) that allowed certain employers (referred to as "Quasi" agencies) in the KERS Non-

Hazardous Fund to contribute 8.41% of pay into the insurance fund, which is less than the actuarially determined contribution rate. We have confirmed that the single discount rate used in the GASB calculations remains unchanged if these Quasi agencies were assumed to continue making contributions at a reduced rate in future years.

### Methodology for Proportionate Shares

The proportionate share of the Collective OPEB Amounts for employers that participate in the KERS Non-Hazardous and Hazardous Retirement Systems are provided in an appendix to this report. The allocation of the employers' proportionate share of the Net OPEB Liability and OPEB Expense was determined using the employers' actual contributions for the fiscal year ending June 30, 2020 for the KERS Hazardous fund. This method is expected to be reflective of the employers' long-term contribution effort as well as be transparent to individual employers and their external auditors.

House Bill 1, passed during the 2019 special legislative session, allowed certain employers within the KERS Non-Hazardous System to contribute less than the actuarially determined contribution during fiscal year ending June 30, 2020. Despite this being the second year the contribution reduction has been granted for these employers, we do not expect this to be a long-term funding policy change. Because this is not expected to be an ongoing contribution reduction, determining the KERS Non-Hazardous employers' proportionate share based on the employers' actual contributions would not be reflective of the employers' long-term contribution effort. As a result, the proportionate share calculations for employers of the KERS Non-Hazardous System were based on the employers' covered payroll provided for fiscal year ending June 30, 2020, which would result in the same proportionate share allocation if all the participating employers contributed the same contribution rate. Note, this is the same methodology used for the proportionate share calculation for the KERS Non-Hazardous employers at the June 30, 2019 measurement date. It is our opinion that this is reasonable and appropriate, and complies with applicable requirements under GASB No. 75.

### Non-Employer Contributions

Non-employer contributions will be allocated according to each employer's proportionate share, as described previously. There were no non-employer contributions during fiscal year ending June 30, 2020 for either the non-hazardous or hazardous funds.

## Summary of Population Statistics

The total OPEB liability described in this report is based on the plan membership as of June 30, 2019:

| Membership Status  | <u>Non-Hazardous</u> | <u>Hazardous</u> |
|--|----------------------|------------------|
|  | (1)                  | (2)              |
| Inactive plan members currently receiving benefits:              | 30,080               | 2,429            |
| Inactive plan members entitled to but no yet receiving benefits: | 17,586               | 916              |
| Active plan members:   | 33,549               | 3,700            |
| Total plan members:  | 81,215               | 7,045            |

Note, the membership counts for the health insurance funds are different than the membership counts for the retirement funds due to differences in vesting provisions and the coordination of the delivery of health insurance benefits to members that have earned service in more than one system maintained by KRS.

## Recognition of Deferred Outflows and Inflows of Resources

According to paragraph 86 of GASB Statement No. 75, *differences between expected and actual experience and changes in assumptions* are recognized in OPEB expense using a systematic and rational method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with OPEB through the OPEB plan (active employees and inactive members) determined as of the beginning of the measurement period.

At the beginning of the 2020 measurement period, the average of the expected remaining service lives for purposes of recognizing the applicable deferred outflows and inflows of resources established in the 2020 measurement period was the following for each retirement system.

| Development of the Average Expected Remaining Service Life       | <u>Non-Hazardous</u> | <u>Hazardous</u> |
|--|----------------------|------------------|
|  | (1)                  | (2)              |
| Total expected remaining service lives of all employees (years): | 299,852              | 32,185           |
| Total plan members:  | 81,215               | 7,045            |
| Average expected remaining service life (years):                 | 3.69                 | 4.57             |

Differences between projected and actual earnings on OPEB plan investments should be recognized in OPEB expense using a systematic and rational method over a closed five-year period. For this purpose, the deferred outflows and inflows of resources are recognized in the OPEB expense as a level dollar amount over the closed period identified above.

## Implicit Subsidy

GASB Statements No. 75 and No. 68 are conceptually very similar in terms of the liability which is recognized on the balance sheet, the expense calculation, and the corresponding deferred outflows and inflows of resources. The main differences between the standards are related to the differences between pension and health care benefits. In particular, there is a concept referred to as the “implicit subsidy” that applies to health plans which utilize a blended premium, which has no counterpart in GASB Statement No. 68. The “implicit” or “hidden” subsidy refers to the difference between the underlying retiree claims costs and the overall health care premiums paid on behalf of retirees. By “overall”, we mean the combined employer and retiree portions of the premiums. GASB defines the employer provided OPEB benefit as the difference between the underlying claims costs (or age-adjusted premiums) and the premium contributions made by retirees. If the overall premiums for retirees were developed solely on the claims experience of the retirees, there would be no implicit subsidy and the employer portion of the overall retiree premiums would coincide with GASB’s definition of the OPEB benefit. However, the fully-insured premiums KRS pays for the Kentucky Employees’ Health Plan are blended rates based on the combined experience of active and retired members. Because the average cost of providing health care benefits to retirees under age 65 is higher than the average cost of providing health care benefits to all participants, there is an implicit employer subsidy for the non-Medicare eligible retirees.

This is important because the retiree health insurance trust is used to pay the employers’ portion of the blended premiums, not the employers’ portion of the underlying retiree claims costs. In order to account for the employer provided OPEB benefit, as it’s defined by GASB, the payments made by the retiree health insurance trust need to be adjusted to reflect the implicit subsidy (the difference between the retiree claims and the overall premiums). Similarly, the employer contributions need to be adjusted to reflect the cost of the implicit subsidy. It’s important to keep in mind that the implicit subsidy is an employer contribution. Because the implicit subsidy does not pass through the trust, it is considered a benefit payment that was paid “as it came due”. For plans that use a blended premium structure, Illustrations B1-1 and B1-2 of Implementation Guide No. 2017-3 describe how a portion of the payments made on behalf of the active employees should be reclassified as benefit payments for retiree healthcare to reflect the retirees’ underlying claims costs. Adjusting the explicit health care costs for active employees and retirees by the implicit subsidy estimates provided in this report is equivalent to the reclassification described in the Implementation Guide.

To summarize, the distributions from the retiree health insurance trust pay the employers’ portion of the blended premiums, not the employers’ portion of the underlying retiree claims costs. As a result, the benefit payments and contribution amounts disclosed for GASB Statement No. 74 and 75 purposes need to include an adjustment related to the implicit subsidy. Participating employers should adjust their contributions by the implicit subsidy in order to determine the total employer contribution for GASB Statement No. 75 purposes. This adjustment is needed for contributions made during the measurement period and also for the purpose of the deferred outflow related to contributions made after the measurement date. The appendices in this report provide each employer’s implicit subsidy for the measurement period and each employer’s implicit subsidy for the year ending June 30, 2021.

### **DOCUMENTATION OF SUPPORT FOR INVESTMENT RETURN ASSUMPTION**

## Long-Term Expected Investment Return

The long-term expected rate of return was determined by using a building block method in which best estimate ranges of expected future real rates of returns are developed for each asset class. The ranges are combined by weighting the expected future real rate of return by the target asset allocation percentage. The target allocation and best estimates of arithmetic real rate of return for each major asset class is summarized in the table below. The current long term inflation assumption is 2.30% per annum for both the non-hazardous and hazardous system.

**Subject: GASB 75 Reporting Information for Measurement Period Ending June 30, 2020**

Dear Members of the Board:

This report contains information for the **State Police Retirement System (SPRS)** in connection with the Governmental Accounting Standards Board (GASB) Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions." This information can be used by the Commonwealth of Kentucky for fiscal years ending between (and including) June 30, 2020 and June 30, 2021, with the financial reporting and disclosure requirements of GASB Statement No. 75.

The liability calculations presented in this report were performed for the purpose of satisfying the requirements of GASB No. 75 and are not applicable for other purposes, such as determining the plans' funding requirements. The calculation of the plan's liability for other purposes may produce significantly different results. This report may be provided to parties other than the Board of Trustees of the Kentucky Retirement Systems only in its entirety and only with the permission of the Board. GRS is not responsible for unauthorized use of this report.

The total OPEB liability, net OPEB liability, and sensitivity information shown in this report are based on an actuarial valuation performed as of June 30, 2019. The total OPEB liability was rolled forward from the valuation date to the measurement date at June 30, 2020, using generally accepted actuarial principles.

The discount rate used to calculate the total OPEB liability decreased from 5.76% to 5.40% (see information regarding the calculation of the single discount rate in the discussion section of this report). The assumed increase in future health care costs, or trend assumption, was reviewed during the June 30, 2019 valuation process and was updated to better reflect more current expectations relating to anticipated future increases in the medical costs. Also, the June 30, 2020 GASB No. 75 actuarial information reflects the anticipated savings from the repeal of the "Cadillac Tax" and "Health Insurer Fee", which occurred in December of 2019. The assumed load on pre-Medicare premiums to reflect the cost of the Cadillac Tax was removed and the Medicare premiums were reduced by 11% to reflect the repeal of the Health Insurer Fee. There were no other material assumption changes and it is our opinion that these procedures are reasonable and appropriate, and comply with applicable requirements under GASB No. 75.

Senate Bill 249 passed during the 2020 legislative session and changed the funding period for the amortization of the unfunded liability to 30 years as of June 30, 2019. Gains and losses incurring in future years will be amortized over separate 20-year amortization bases. This change does not impact the calculation of the Total OPEB Liability and only impacts the calculation of the contribution rates that would be payable starting July 1, 2020. There were no other material plan provision changes and it is our opinion that these procedures are reasonable and appropriate, and comply with applicable requirements under GASB No. 75.

The fully-insured premiums KRS pays for the Kentucky Employees' Health Plan are blended rates based on the combined experience of active and retired members. Because the average cost of providing health care benefits to retirees under age 65 is higher than the average cost of providing health care benefits to active employees, there is an implicit employer subsidy for the non-Medicare eligible retirees. GASB No. 75 requires that the liability associated with this implicit subsidy be included in the calculation of the Total OPEB Liability.

This report is based upon information furnished by the Retirement System, which includes benefit provisions, membership information, and financial data. We did not audit this data and information, but we did apply a number of tests and concluded that it was reasonable and consistent. GRS is not responsible for the accuracy or completeness of the information provided by the Retirement System.

This report complements the GASB 74 accounting valuation report as of June 30, 2020, which was provided to KRS for plan accounting purposes, and the "Actuarial Valuation Report as of June 30, 2019", which was provided for plan funding purposes and documents the assumptions used in this report. Together, these reports should be considered as a complete report for the measurement period that ended June 30, 2020. Please see the GASB 74 accounting valuation report as of June 30, 2020 for additional discussion of accounting information and the actuarial valuation report for information regarding the nature of actuarial calculations, participant data, economic and demographic assumptions, and benefit provisions.

Based on guidance issued by GASB in connection with GASB Statement No. 74, the 1% of pay contributions Tier 2 and Tier 3 members contribute to a 401(h) subaccount are considered an OPEB asset. As a result, the reported fiduciary net position includes these 401(h) assets. Additionally, these member contributions and associated investment income are included in the reconciliation of the fiduciary net position.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements; and changes in plan provisions or applicable law.

This report was prepared using our proprietary valuation model and related software which, in our professional judgment, has the capability to provide results that are consistent with the purposes of the valuation. We performed tests to ensure that the model reasonably represents that which is intended to be modeled.

To the best of our knowledge, this report is complete and accurate and is in accordance with generally recognized actuarial practices and methods. All of the undersigned are Enrolled Actuaries, independent actuaries and members of the American Academy of Actuaries, and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion herein. They are also experienced in performing valuations for large public retirement systems.

## Notes:

<sup>1</sup> Employer contributions include expected benefits due to the implicit subsidy for members under age 65.

<sup>2</sup> Benefit payments include expected benefits due to the implicit subsidy for members under age 65.

They are also offset by insurance premiums received from retirees and Medicare Drug Reimbursements.

## Report Purpose and Scope

GASB Statement No. 75 replaces the requirements of Statements No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than OPEBs, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, for OPEB.

The following discussion provides a summary of the information that is required to be disclosed under GASB Statement No. 75. A number of the required disclosure items under this standard are provided in this report. However, certain information, such as notes regarding accounting policies and investments, are not included in this report. As a result, the Commonwealth is responsible for preparing and disclosing the non-actuarial information needed to comply with these accounting standards. Much of this additional information can be readily obtained from KRS's 2020 Comprehensive Annual Financial Report.

## Financial Reporting Overview

GASB 75 requires employers to recognize the net OPEB liability and the OPEB expense on their financial statements. The net OPEB liability is the total OPEB liability, less the amount of the plan's fiduciary net position. In actuarial terms, this is analogous to the accrued liability as measured using the individual entry age normal actuarial cost method less the market value of assets (not the smoothed actuarial value of assets used in the actuarial funding calculations based on the Board's adopted assumptions and methods).

## Timing of the Valuation

For the employer's financial reporting purposes, the net OPEB liability and OPEB expense should be measured as of the employer's "measurement date" which may not be earlier than the employer's prior fiscal year-end date. The total OPEB liability, net OPEB liability, and sensitivity information shown in this report are based on an actuarial valuation performed as of June 30, 2019. The total OPEB liability was rolled forward from the valuation date to the measurement date at June 30, 2020, using generally accepted actuarial principles.

The discount rate used to calculate the total OPEB liability decreased from 5.76% to 5.40% (see information regarding the calculation of the single discount rate later in this section of the report). The assumed increase in future health care costs, or trend assumption, was reviewed during the June 30, 2019 valuation process and was updated to better reflect more current expectations relating to anticipated future increases in the medical costs. Also, the June 30, 2020 GASB No. 75 actuarial information reflects the anticipated savings from the repeal of the "Cadillac Tax" and "Health Insurer Fee", which occurred in December of 2019. The assumed load on pre-Medicare premiums to reflect the cost of the Cadillac Tax was removed and the Medicare premiums were reduced by 11% to reflect the repeal of the Health Insurer Fee. There were no other material assumption changes and it is our opinion that these procedures are reasonable and appropriate, and comply with applicable requirements under GASB No. 75.

Senate Bill 249 passed during the 2020 legislative session and changed the funding period for the amortization of the unfunded liability to 30 years as of June 30, 2019. Gains and losses incurring in future years will be amortized over separate 20-year amortization bases. This change does not impact the calculation of the Total OPEB Liability and only impacts the calculation of the contribution rates that would be payable starting July 1, 2020. There were no other material plan provision changes and it is our opinion that these procedures are reasonable and appropriate, and comply with applicable requirements under GASB No. 75.

### **Employer Contributions after the Measurement Date and before the Employer's Fiscal Year End**

GASB No. 75 indicates that employer contributions made subsequent to the measurement date of the Net OPEB Liability and prior to the end of the employer's reporting period should be reported by the employer as a deferred outflow of resources. The information contained in this report does not incorporate any contributions made to the plan subsequent to June 30, 2020.

### **Single Discount Rate**

A single discount rate of 5.40% was used to measure the total OPEB liability as of June 30, 2020. The single discount rate is based on the expected rate of return on OPEB plan investments of 6.25% and a municipal bond rate of 2.45%, as reported in Fidelity Index's "20-Year Municipal GO AA Index" as of June 30, 2020. Based on the stated assumptions and the projection of cash flows as of each fiscal year ending, the plan's fiduciary net position and future contributions were projected to be sufficient to finance the future benefit payments of the current plan members. Therefore, the long-term expected rate of return on insurance plan investments was applied to all periods of the projected benefit payments paid from the retirement system. However, the cost associated with the implicit employer subsidy is not currently being included in the calculation of the System's actuarial determined contributions, and it is our understanding that any cost associated with the implicit subsidy will not be paid out of the System's trust. Therefore, the municipal bond rate was applied to future expected benefit payments associated with the implicit subsidy.

The projection of cash flows used to determine the single discount rate must include an assumption regarding actual employer contributions made each future year. The future contributions are projected assuming that the full actuarially determined contribution is contributed each future year, calculated in accordance with the current funding policy, as most recently revised by Senate Bill 249, passed during the 2020 legislative session.

## Summary of Membership Information

The total OPEB liability described in this report is based on the plan membership as of June 30, 2019:

### Membership Status

|  |       |
|--|-------|
| Inactive plan members currently receiving benefits:              | 1,323 |
| Inactive plan members entitled to but no yet receiving benefits: | 108   |
| Active plan members:   | 874   |
| Total plan members:  | 2,305 |

Note, the membership counts for the health insurance funds are different than the membership counts for the retirement funds due to differences in vesting provisions and the coordination of the delivery of health insurance benefits to members that have earned service in more than one system maintained by KRS.

### Recognition of Deferred Outflows and Inflows of Resources

According to paragraph 86 of GASB Statement No. 75, *differences between expected and actual experience and changes in assumptions* are recognized in OPEB expense using a systematic and rational method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with OPEB through the OPEB plan (active employees and inactive members) determined as of the beginning of the measurement period.

At the beginning of the 2020 measurement period, the expected remaining service lives of all employees was 10,511 years and the average of the expected remaining service lives for purposes of recognizing the applicable deferred outflows and inflows of resources established in the 2020 measurement period was 4.56 years (10,511 total expected remaining service period divided 2,305 plan members).

Differences between projected and actual earnings on OPEB plan investments should be recognized in OPEB expense using a systematic and rational method over a closed five-year period. For this purpose, the deferred outflows and inflows of resources are recognized in the OPEB expense as a level dollar amount over the closed period identified above.

### Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

As of June 30, 2020, the Net OPEB Liability is \$138,601,790. Below is a table providing the sensitivity of the Net OPEB Liability to changes in the discount rate. In particular, the table shows the plan's Net OPEB Liability if it were calculated using a single discount rate that is one-percentage point lower or one-percentage point higher than the single discount rate:

| <b>1% Decrease<br/>4.40%</b> | <b>Current Single Rate<br/>Assumption 5.40%</b> | <b>1% Increase<br/>6.40%</b> |
|------------------------------|---|------------------------------|
| \$187,527,969                | \$138,601,790                                   | \$99,093,084                 |

Below is a table providing the sensitivity of the Net OPEB Liability to changes in the healthcare cost trend rates. In particular, the table shows the plan's Net OPEB Liability if it were calculated using healthcare cost trend rates that are one-percentage point lower or one-percentage point higher:

| <b>1% Decrease</b> | <b>Current Healthcare<br/>Cost Trend Rate</b> | <b>1% Increase</b> |
|--------------------|---|--------------------|
| \$98,159,451       | \$138,601,790                                 | \$188,130,912      |

## Implicit Subsidy

GASB Statements No. 75 and No. 68 are conceptually very similar in terms of the liability which is recognized on the balance sheet, the expense calculation, and the corresponding deferred outflows and inflows of resources. The main differences between the standards are related to the differences between pension and health care benefits. In particular, there is a concept referred to as the “implicit subsidy” that applies to health plans which utilize a blended premium, which has no counterpart in GASB Statement No. 68. The “implicit” or “hidden” subsidy refers to the difference between the underlying retiree claims costs and the overall health care premiums paid on behalf of retirees. By “overall”, we mean the combined employer and retiree portions of the premiums. GASB defines the employer provided OPEB benefit as the difference between the underlying claims costs (or age-adjusted premiums) and the premium contributions made by retirees. If the overall premiums for retirees were developed solely on the claims experience of the retirees, there would be no implicit subsidy and the employer portion of the overall retiree premiums would coincide with GASB’s definition of the OPEB benefit. However, the fully-insured premiums KRS pays for the Kentucky Employees’ Health Plan are blended rates based on the combined experience of active and retired members. Because the average cost of providing health care benefits to retirees under age 65 is higher than the average cost of providing health care benefits to all participants, there is an implicit employer subsidy for the non-Medicare eligible retirees.

This is important because the retiree health insurance trust is used to pay the employers’ portion of the blended premiums, not the employers’ portion of the underlying retiree claims costs. In order to account for the employer provided OPEB benefit, as it’s defined by GASB, the payments made by the retiree health insurance trust need to be adjusted to reflect the implicit subsidy (the difference between the retiree claims and the overall premiums). Similarly, the employer contributions need to be adjusted to reflect the cost of the implicit subsidy. It’s important to keep in mind that the implicit subsidy is an employer contribution. Because the implicit subsidy does not pass through the trust, it is considered a benefit payment that was paid “as it came due”. For plans that use a blended premium structure, Illustrations B1-1 and B1-2 of Implementation Guide No. 2017-3 describe how a portion of the payments made on behalf of the active employees should be reclassified as benefit payments for retiree healthcare to reflect the retirees’ underlying claims costs. Adjusting the explicit health care costs for active employees and retirees by the implicit subsidy estimates provided in this report is equivalent to the reclassification described in the Implementation Guide.

To summarize, the distributions from the retiree health insurance trust pay the employers’ portion of the blended premiums, not the employers’ portion of the underlying retiree claims costs. As a result, the benefit payments and contribution amounts disclosed for GASB Statement Nos. 74 and 75 purposes need to include an adjustment related to the implicit subsidy. This adjustment is needed for contributions made during the measurement period (i.e. fiscal year ending June 30, 2020) and also for the purpose of the deferred outflow related to contributions made after the measurement date.

|                                  | <u>Implicit Subsidy</u> |
|----------------------------------|-------------------------|
| Fiscal Year ending June 30, 2020 | \$ (260,450)            |
| Fiscal Year ending June 30, 2021 | \$ 120,318    Estimated |

Note, the Commonwealth’s estimated implicit subsidy for the measurement period was a negative \$260,450. In other words, the Commonwealth’s contributions during the measurement period were decreased by \$260,450 for the purposes of GASB Statement Nos. 74 and 75.

## Notes:

<sup>1</sup> Data for years prior to 2018 are based on contribution data provided in the 2017 CAFR, based on calculations provided by the prior actuary.

<sup>2</sup> Actuarially determined contribution for fiscal year ending 2020 is based on the contribution rate calculated with the June 30, 2017 actuarial valuation.

<sup>3</sup> Employer contributions do not include the expected implicit subsidy included in exhibit 5.

<sup>4</sup> Based on derived compensation using the provided employer contribution information for fiscal years 2018 and later.

## Notes to Schedule of Employers' Contributions

The actuarially determined contribution rate effective for fiscal year ending 2020 that is documented in the schedule on the previous page was calculated as of June 30, 2017. Based on the June 30, 2017 actuarial valuation report, the actuarial methods and assumptions used to calculate this contribution rate is below:

| Item   | SPRS  |
|--|---|
| Determined by the Actuarial Valuation as of: | June 30, 2017   |
| Actuarial Cost Method:                       | Entry Age Normal  |
| Asset Valuation Method:                      | 20% of the difference between the market value of assets and the expected actuarial value of assets is recognized   |
| Amortization Method:                         | Level Percent of Pay  |
| Amortization Period:                         | 26 Years, Closed  |
| Payroll Growth Rate:                         | 0.00%   |
| Investment Return:                           | 6.25%   |
| Inflation:                                   | 2.30%   |
| Salary Increases:                            | 3.05% to 15.55% varies by service   |
| Mortality:                                   | RP-2000 Combined Mortality Table, projected to 2013 with Scale BB (set back 1 year for females)   |
| Healthcare Trend Rates (Pre-65)              | Initial trend starting at 7.25% at January 1, 2019 and gradually decreasing to an ultimate trend rate of 4.05% over a period of 13 years. The 2018 premiums were known at the time of the valuation and were incorporated into the liability measurement. |
| Healthcare Trend Rates (Post-65)             | Initial trend starting at 5.10% at January 1, 2019 and gradually decreasing to an ultimate trend rate of 4.05% over a period of 11 years. The 2018 premiums were known at the time of the valuation and were incorporated into the liability measurement. |

### **DOCUMENTATION OF SUPPORT FOR INVESTMENT RETURN ASSUMPTION**

## Long-Term Expected Investment Return

The long-term expected rate of return was determined by using a building block method in which best estimate ranges of expected future real rates of returns are developed for each asset class. The ranges are combined by weighting the expected future real rate of return by the target asset allocation percentage. The target allocation and best estimates of arithmetic real rate of return for each major asset class is summarized in the table below. The current long term inflation assumption is 2.30% per annum.

| <b>Asset Class</b>                           | <b>Target Allocation</b> | <b>Long-Term Expected Real Rate of Return</b> |
|--|--------------------------|---|
| <b>Growth</b>                                | <b>62.50%</b>            |   |
| US Equity                                    | 18.75%                   | 4.50%   |

**61.592 Retirement of persons working in hazardous positions.**

- (1)
- (a) "Hazardous position" for employees participating in the Kentucky Employees Retirement System, and for employees who begin participating in the County Employees Retirement System before September 1, 2008, means:
1. Any position whose principal duties involve active law enforcement, including the positions of probation and parole officer and Commonwealth detective, active fire suppression or prevention, or other positions, including, but not limited to, pilots of the Transportation Cabinet and paramedics and emergency medical technicians, with duties that require frequent exposure to a high degree of danger or peril and also require a high degree of physical conditioning;
  2. Positions in the Department of Corrections in state correctional institutions and the Kentucky Correctional Psychiatric Center with duties that regularly and routinely require face-to-face contact with inmates; and
  3. Positions of employees who elect coverage under KRS 196.167(3)(b)2. and who continue to provide educational services and support to inmates as a Department of Corrections employee.
- (b) "Hazardous position" for employees who begin participating in the County Employees Retirement System on or after September 1, 2008, means police officers and firefighters as defined in KRS 61.315(1), paramedics, correctional officers with duties that routinely and regularly require face-to-face contact with inmates, and emergency medical technicians if:
1. The employee's duties require frequent exposure to a high degree of danger or peril and a high degree of physical conditioning; and
  2. The employee's duties are not primarily clerical or administrative.
- (c) The effective date of participation under hazardous duty coverage for positions in the Department of Alcoholic Beverage Control shall be April 1, 1998. The employer and employee contributions shall be paid by the employer and forwarded to the retirement system for the period not previously reported.
- (2)
- (a) Each employer may request of the board hazardous duty coverage for those positions as defined in subsection (1) of this section. Upon request, each employer shall certify to the system, in the manner prescribed by the board, the names of all employees working in a hazardous position as defined in subsection (1) of this section for which coverage is requested. The certification of the employer shall bear the approval of the agent or agency responsible for the budget of the department or county indicating that the required employer contributions have been provided for in the budget of the employing department or county. The system shall determine whether the employees whose names have been certified by the employer are working in positions meeting the definition of a hazardous position as provided by subsection (1) of this section. This process shall not be required for employees who elect coverage under KRS 196.167(3)(b)2.

**INTENT AND FUNCTIONS OF JOB DESCRIPTIONS**

Job descriptions assist organizations in ensuring that the hiring process is fairly administered and that qualified employees are selected. They are also essential to an effective appraisal system and related promotion, transfer, layoff, and termination decisions. Well-constructed job descriptions are an integral part of any effective compensation system.

All descriptions have been reviewed to ensure that only essential functions and basic duties have been included. Peripheral tasks, only incidentally related to each position, have been excluded. Requirements, skills, and abilities however, should the duties, responsibilities, and requirements delineated be interpreted as all inclusive. Additional functions and requirements may be assigned by supervisors as deemed appropriate.

In accordance with the American Disabilities Act, it is possible that requirements may be modified to reasonably accommodate disabled individuals. However, no accommodations will be made which may pose serious health or safety risks to the employee or others or which impose undue hardships on the organization.

Job descriptions are not intended as and do not create employment contracts. The organization maintains its status as an at-will employer. Employees can be terminated for any reasons not prohibited by law.

### Conflict of Interest

Yes  No Some Constitutional Offices are considered constitutionally incompatible with other Constitutional Offices (see KRS 61.645, KRS 61.080, and Kentucky Constitution Section 165). If you hold a Constitutional Office that is deemed incompatible with the office of Board of Trustee, do you agree to resign that position prior to the beginning of the term of Trustee?

The following are examples of incompatible Constitutional Offices: Commissioner of the fiscal court in counties containing a city of the first class, Member of the legislative body of cities of the first class, Mayor and member of the legislative council of a consolidated local government, Mayor and member of the legislative body in cities of the home rule class, County Indexer, member of the Public Service Commission of Kentucky, and member of the Worker's Compensation Board. **This list is not all inclusive.** Current work information will be submitted to the Office of the Attorney General of Kentucky to make the final determination on constitutional compatibility.

Yes  No Do you or any member(s) of your immediate family own more than 5% interest in an entity that does business or might seek to do business with the CERS Board, KRS Board, or KPPA? If yes, please list below.

**NOTE - Variance Explanation**

- 1 Variance is a result of continuous fluctuation of deposits and transactions that flow through the cash account.
- 2 Short Term Investments is primarily comprised of the cash on hand with the custodial bank along with any small amounts of cash managers and brokers may have; therefore, the variance is driven by cash flow.
- 3 Decrease in Accounts Receivables due to the recording and qualification of the first half of the KHRIS payroll. The receivables only decreased in KERS, KHAZ, and SPRS.
- 4 The increase is due to pending trades within the Real Return Portfolio.
- 5 The decrease in Core Fixed Income is a result of a movement of funds to Public Equity.
- 6 The increase in Public Equities is due to additional funding and positive market conditions resulting in increased market values.
- 7 The increase in Specialty Credit is due to additional funding and positive market conditions increasing market values.
- 8 The decline in Absolute Return is due to the continued redemption of the entire portfolio.
- 9 The decline in Real Return is a result of redemption of PIMCO, Nuveen and the Internal TIPS account as well as negative performance resulting in a decline in market values.
- 10 The increase in Opportunistic is due to additional funding and positive market conditions increasing market values.
- 11 Variance is a result of hedging and arbitration of risk within the portfolios.
- 12 The decrease in total Fixed Assets is due to the increase in the amortization of the fixed assets.
- 13 The increase is due to pending trades within the Real Return Portfolio.

**NOTE - Variance Explanation**

- 1 General Fund Appropriations have significantly decreased in FY 2021. We expect to receive \$384,000 for SPRS from the General Fund.
- 2 Pension Spiking contributions decreased due to a change in statute. Pension spiking is now the member's responsibility.
- 3 Health Insurance Contributions will continue to decrease in the Pension Funds, as they are now qualified in the Insurance Fund.
- 4 The increase in Net Appreciation in Fair Value of Investments is a result of favorable market conditions, particularly in the public equity portfolio.
- 5 The increase in Performance fees is due to favorable market conditions resulting in higher performance fees.
- 6 Variance is a result of the demand of the Securities Lending Program.
- 7 Refunds taken by members who terminated employment and were not eligible for a retirement benefit decreased significantly in CERS and KERS, but increased slightly in CHAZ, KHAZ and SPRS.

**NOTE - Variance Explanation**

- 1 Variance is a result of continuous fluctuation of deposits and transactions that flow through the cash account.
- 2 Short Term Investments is primarily comprised of the cash on hand with the custodial bank along with any small amounts of cash managers and brokers may have; therefore, the variance is driven by cash flow.
- 3 The increase is due to pending trades within the Real Return Portfolio.
- 4 The decrease in Core Fixed Income is a result of a movement of funds to Public Equity.
- 5 The increase in Public Equities is due to additional funding and positive market conditions resulting in increased market values.
- 6 The increase in Specialty Credit is due to additional funding and positive market conditions increasing market values.
- 7 The decline in Absolute Return is due to the continued redemption of the entire portfolio.
- 8 The decline in Real Return is a result of redemption of PIMCO, Nuveen and the Internal TIPS account as well as negative performance resulting in a decline in market values.
- 9 The increase in Opportunistic is due to additional funding and positive market conditions increasing market values.
- 10 Variance is a result of hedging and arbitration of risk within the portfolios
- 11 The decrease in Accounts Payable is due to a continued effort to resolve outstanding employer invoices.
- 12 The increase is due to pending trades within the Real Return Portfolio.

**NOTE - Variance Explanation**

- 1 Medicare drug reimbursement payments fluctuate year to year based on claims reviewed.
- 2 The decrease in Insurance Premiums received is due to refunds processed to hazardous retirees for premiums paid for dependents that should have been covered by KRS.
- 3 The increase in Net Appreciation in Fair Value of Investments is a result of favorable market conditions, particularly in the public equity portfolio.
- 4 The management fees remained relatively constant; however, in 2019 in one of the private equity accounts there was a coding error. A negative performance fee was coded as a partnership expense. All partnership expenses roll up into the Investment Advisory Fee. Due to this coding error, the Investment Advisory Fees are understated and the Performance Fees are overstated for the period.
- 5 The increase in Performance fees is due to favorable market conditions resulting in higher performance fees.
- 6 Variance is a result of the demand of the Securities Lending Program.
- 7 The decrease in Self Funded Healthcare Claims is due to a decrease in claims billed from the self funded insurance plan.

## **KENTUCKY RETIREMENT SYSTEMS**

**TO:** Members of the of the Kentucky Retirement Systems Board of Trustees  
**FROM:** Retiree Health Plan Committee  
**DATE:** February 18, 2021  
**SUBJECT:** Retiree Health Plan Committee Report

The Retiree Health Plan Committee met on Tuesday, February 9, 2021, and reviewed an informational presentation from Humana regarding Kentucky Retirement Systems (KRS) retiree engagement activities, KRS STARS Quality Measure, and customer service call statistics. The KRS Medicare Advantage Plan is at a 4 star rating (range 1-5 Stars). The Committee was provided an informational presentation of the statistics measured during the Fall Open Enrollment for Plan Year 2021.

Humana presented the McClennan Group Pilot, which has goals to engage retirees in the KRS Humana Medicare Advantage Plans. They plan to assist members with access to preventive services available to them, to provide personalized health care in order to promote health, manage and prevent diseases through motivation, education and lifestyle suggestions. They plan to integrate this with the Go365 Rewards platform and support the notion of individual empowerment. The pilot will involve emailing and use of a card-sorting digital game that identifies what goals the individual has around health and wellness to include goals of being active with grandchildren, socializing, creating things, and keeping track of health numbers.

RE: NKU's Application to Voluntarily Cease Participation in KERS

HB 1 of the 2019 Extraordinary Session of the General Assembly was passed allowing quasi-governmental employers, including universities, a one-time window to cease participation in the Kentucky Employees Retirement Systems (KERS) for its nonhazardous employees under different provisions than are generally provided under KRS 61.522. Additionally, the bill provided that the ceasing quasi-government employer shall elect to 1) keep its Tier 1 and Tier 2 employees in the system after the effective cessation date ("soft freeze") or 2) elect that all employees cease participating in KERS as of the effective cessation date ("hard freeze"). The effective cessation date was set in HB 1 as June 30, 2020, however, SB 249 of the 2020 Regular Session of the Kentucky General Assembly moved the cessation date to June 30, 2021. Finally, HB 1 provides that the ceasing employer may elect to pay the cost by lump-sum or installments.

Northern Kentucky University (NKU) has timely filed a completed Form 7727 – Actuarial Study for Quasi-Governmental Employer Cessation, the required \$10,000 application fee and resolution from its governing body voting to voluntarily cease participation in KERS as of June 30, 2021. NKU has elected a "soft-freeze" for its Tier 1 and Tier 2 employees; therefore, these employees will continue to participate in KERS after June 30, 2021. Tier 3 employees will be transferred into NKU's alternative retirement plan. NKU is not eligible to cease for its hazardous employees, therefore, hazardous employees will continue to participate in KERS. NKU elected to pay for their cessation cost by lump-sum; therefore, per KRS 61.522(7)(c) a discount rate of 3.5% will be used when calculating NKU's final cessation cost.

NKU has successfully satisfied the requirements to file an application to voluntarily cease participation under KRS 61.522(8). NKU has one case in active litigation against the Kentucky Retirement Systems. However the parties are working towards resolution of this matter. NKU also has several outstanding invoices which it is working to correct. Pursuant to KRS 61.522(8)(a), the board shall accept any election to cease participation on or before June 30, 2021.

Dear Mr. Surratt,

Enclosed please find form 7727 for the actuarial study for the employer cessation. Also, enclosed is the certified board resolution adopted on December 2, 2020 to cease participation in KERS. A check for \$10,000 as deposit is included as well. The remaining information requested on the form 7727, including documentation of the alternative retirement plan, employee information, and audited financial statements will be placed in the KERS secure portal in the next week or so.

Please let me know if you have any questions about this information.

Sincerely,

**RESOLUTION FOR NORTHERN KENTUCKY UNIVERSITY TO CEASE PARTICIPATION IN THE KENTUCKY EMPLOYEES RETIREMENT SYSTEM**

WHEREAS, the President of Northern Kentucky University (NKU), Ashish K. Vaidya, has recommended that the NKU Board of Regents adopt a resolution that NKU decide to voluntarily cease participation in the Kentucky Employees Retirement System (KERS) for its nonhazardous employees;

WHEREAS, President Vaidya has further recommended that NKU elects and acknowledges that nonhazardous employees who began participating in KERS prior to January 1, 2014, who are participating in KERS through NKU, will, as a result of NKU's election, continue to participate after June 30, 2021 (Soft Freeze);

WHEREAS, President Vaidya also recommended that NKU acknowledges that it is unable to rescind the resolution to cease participation after December 31, 2020;

WHEREAS, President Vaidya recommended that NKU acknowledges that NKU is subject to the requirements and restrictions of KRS 61.522 and 105 KAR 1:149;

WHEREAS, President Vaidya recommended that NKU acknowledges that in order to cease participation in KERS pursuant to KRS 61.522(8), NKU shall pay the actuarial cost of ceasing participation through a one-time lump sum payment and all administrative costs associated therewith;

WHEREAS, President Vaidya recommended that NKU agrees to cooperate with the Systems to educate its employees about the effect of NKU's cessation and NKU's election on its employees' retirement accounts and employees' options regarding their retirement accounts;

WHEREAS, President Vaidya recommended that NKU shall not mandate, force, or require its employees to take a refund of their accumulated balance as defined by KRS 61.510(41) or retaliate against employees who choose to not take a refund of their accumulated account balance as defined in KRS 61.510(41);

WHEREAS, President Vaidya recommended that as stated in KRS 61.522(10)(a), NKU shall hold the Commonwealth and the Systems, including board members and employees of the Systems, harmless from damages, attorney's fees and costs from legal claims for any cause of action brought by any member or retired member of NKU related to the cessation of NKU; and

WHEREAS, the Board voted at its December 2, 2020, meeting to adopt President Vaidya's recommendation to cease participation in KERS as described above and in the related Presidential Recommendation and to execute this resolution.

NOW, THEREFORE, be it resolved as follows by the Board of Regents of Northern Kentucky University that:

- 1) NKU has decided to voluntarily cease participation in KERS for its nonhazardous employees;

- 2) NKU elects and acknowledges that nonhazardous employees who began participating in KERS prior to January 1, 2014, who are participating in KERS through NKU, will, as a result of NKU's election, continue to participate after June 30, 2021 (Soft Freeze);
- 3) NKU acknowledges that it is unable to rescind the resolution to cease participation after December 31, 2020;
- 4) NKU acknowledges that it is subject to the requirements and restrictions of KRS 61.522 and 105 KAR 1:149;
- 5) NKU acknowledges that in order to cease participation in KERS pursuant to KRS 61.522(8), NKU shall pay the actuarial cost of ceasing participation through a one-time lump sum payment and all administrative costs associated therewith;
- 6) NKU agrees to cooperate with the Systems to educate its employees about the effect of NKU's cessation and NKU's election on its employees' retirement accounts and employees' options regarding their retirement accounts;
- 7) NKU shall not mandate, force, or require its employees to take a refund of their accumulated balance as defined by KRS 61.510(41) or retaliate against employees who choose to not take a refund of their accumulated account balance as defined in KRS 61.510(41); and
- 8) That, as stated in KRS 61.522(10)(a), NKU shall hold the Commonwealth and the Systems, including board members and employees of the Systems, harmless from damages, attorney's fees and costs from legal claims for any cause of action brought by any member or retired member of NKU related to the cessation of NKU.

## MEMORANDUM

TO: Board of Trustees of the Kentucky Retirement Systems (“Board”)

FROM: Kathy Rupinen, Executive Director, Office of Legal Services  
Carrie Bass, Staff Attorney Supervisor, Division of Non-Advocacy, Office of Legal Services

DATE: February 11, 2021

RE: Board approval and authorization of staff to file a new administrative regulation, 105 KAR 1:360, Hybrid cash balance plan (“Tier III”), with the Legislative Research Commission.

---

The Kentucky Retirement Systems has been administering a hybrid cash balance plan tier (“Tier 3”) since January 1, 2014 for select members of the Kentucky Employees Retirement System (“KERS”), County Employees Retirement System (“CERS”), and State Police Retirement System (“SPRS”). The Office of Legal Services and the Office of Benefits have been working to draft a regulation tentatively titled, “105 KAR 1:360, Hybrid cash balance plan,” reflecting the administration of Tier 3 that was already ongoing. This regulation largely pertains to members of KERS, CERS, and SPRS who participate in Tier 3 based on their participation date occurring on or after January 1, 2014; however, this regulation also addresses the option for members with a participation date in KERS, CERS, and SPRS between September 1, 2008 and December 31, 2013 to “opt-in” to Tier 3. Work on this regulation was halted pending a Private Letter Ruling (“PLR”) from the Internal Revenue Service (“IRS”) addressing the permissibility of such “opt-ins” under federal law. The PLR was received in mid-2020 and allowed drafting to resume. The finalized draft follows this Memorandum for your review.

The Office of Legal Services requests approval from the Board of Trustees of the Kentucky Retirement Systems to proceed with filing this administrative regulation, even with the upcoming separation of the CERS and KRS (KERS and SPRS) boards in accordance with House Bill (“HB”) 484 (2020). Section 45 of HB 484 (2020) provides that administrative regulations promulgated by the Board of Trustees of the Kentucky Retirement Systems prior to April 1, 2021 on behalf of CERS shall continue to apply to CERS after the CERS Board separates. In the event that legislative changes are enacted that cause Tier 3 for CERS to be administered differently from Tier 3 for KERS and SPRS, then the CERS Board shall have the authority to promulgate its own distinct administrative regulation on or after April 1, 2021.

### STAFF RECOMENTATION:

The staff of the Kentucky Retirement Systems recommends that the Board vote to approve and authorize staff to file a new administrative regulation concerning Tier III with the Legislative Research Commission.

3 (New Administrative Regulation)

4 105 KAR 1:360. Hybrid cash balance plan.

5 RELATES TO: KRS 16.505, 16.583, 61.510, 61.542, 61.552, 61.555, 61.5955,  
6 61.597, 61.637, 61.645, 61.680, 61.702, 78.510, 78.545

7 STATUTORY AUTHORITY: KRS 61.645(9)(e)

8 NECESSITY, FUNCTION, AND CONFORMITY: KRS 61.645(9)(e) requires the  
9 Board of Trustees of Kentucky Retirement Systems to promulgate all administrative  
10 regulations necessary or proper in order to carry out the provisions of KRS 61.510 to  
11 61.705, 16.505 to 16.652, and 78.510 to 78.852 and to conform to federal statutes and  
12 regulations. KRS 16.583, 61.597, and 78.545 create a hybrid cash balance plan tier for  
13 members of the State Police Retirement System, Kentucky Employees Retirement  
14 System, and County Employees Retirement System with participation dates on or after  
15 January 1, 2014, or members making an election pursuant to KRS 61.5955 and KRS  
16 78.545. This administrative regulation establishes the procedures and requirements for  
17 the administration of the hybrid cash balance plan tier.

18 Section 1. Definitions.

19 (1) Definitions contained in KRS 16.505, 61.510, and 78.510 shall apply to this  
20 regulation.

21 (2) "The Systems" means the State Police Retirement System (KRS 16.505 to  
22 16.652), the Kentucky Employees Retirement System (KRS 61.510 to 61.705), and the  
23 County Employees Retirement System (KRS 78.510 to 78.852).

1           (3)   “Participation date” means the earlier of “membership date” as defined in  
2   KRS 16.505, 61.510, and 78.510 or the date on which the member began participating in  
3   another state-administered retirement system in which the member has service that has  
4   not been refunded, unless otherwise stated.

5           (4)   “Vested member” means a member of the Systems who participates in the  
6   hybrid cash balance plan tier based on a participation date on or after January 1, 2014  
7   and who has five (5) or more years of service credited under KRS 16.543, 61.543, and  
8   78.615.

9           (5)   “Nonvested member” means a member of the Systems who participates in  
10   the hybrid cash balance plan tier based on a participation date on or after January 1, 2014  
11   and who has less than five (5) years of service credited under KRS 16.543, 61.543, and  
12   78.615.

13           Section 2. Application.

14           (1) Systems. This regulation applies to the hybrid cash balance plan tier within  
15   each of the Systems.

16           (2) Members. Except as provided in subsections (3) and (4), this regulation applies  
17   solely to members who begin participating in the Systems on or after January 1, 2014,  
18   and who do not have a participation date in any other state-administered retirement  
19   system that is prior to January 1, 2014.

20           (3) Irrevocable Election. This subsection applies only to members with a  
21   participation date in the Systems between September 1, 2008 and December 31, 2013  
22   who have not received a retirement benefit from the Systems.

1 (a) Pursuant to KRS 61.5955, a member with a participation date in the Systems  
2 between September 1, 2008 and December 31, 2013 may make a one-time, irrevocable  
3 election to receive the benefits and rights provided under the hybrid cash balance plan  
4 tier as defined in KRS 16.583 and 61.597 in lieu of benefits he or she is currently eligible  
5 to receive from the Systems.

6 1. A member with a participation date based on service in the Systems or service  
7 in another state-administered retirement system prior to September 1, 2008 shall not be  
8 eligible to make this one-time, irrevocable election upon separation of accounts in  
9 accordance with KRS 61.680 and 105 KAR 1:020.

10 2. A member with a participation date in the Systems between September 1, 2008  
11 and December 31, 2013 who also has service in another state-administered retirement  
12 system between September 1, 2008 and December 31, 2008 shall be eligible to make  
13 this one-time, irrevocable election only upon separation of the member's account in the  
14 Systems from the member's account in the other state-administered retirement system in  
15 accordance with KRS 61.680 and 105 KAR 1:020.

16 (b) Eligible members who make the one-time, irrevocable election as described in  
17 paragraph (a) of this subsection shall only be entitled to retain purchased service that is  
18 recontribution of a refund, omitted, omitted with interest, military omitted, or  
19 decompression, or service purchased in accordance with the Uniformed Services  
20 Employment and Reemployment Rights Act (USERRA); the Systems shall remove any  
21 other purchased service from total months of service credit and refund the cost of that  
22 service back to the source of the purchase.

1 (c) Members eligible to make the one-time, irrevocable election as described in  
2 paragraph (a) of this subsection shall be provided information detailing the potential  
3 results of such an election via Member Self Service on the Web site maintained by the  
4 Systems, which shall reflect service credit purchases retained and refunded as described  
5 in paragraph (b) of this subsection, and may receive additional information from the  
6 Systems' counselors upon request.

7 (d) Upon request by an eligible member, the Systems shall make a Form 2013,  
8 "Hybrid Cash Balance Plan Opt-In Election," on which the member can make a one-time,  
9 irrevocable election as described in paragraph (a) of this subsection, available to the  
10 member via Member Self Service on the Web site maintained by the Systems.

11 (e) The Systems shall not process an eligible member's one-time, irrevocable  
12 election as described in paragraph (a) of this subsection until a complete and correct  
13 Form 2013, "Hybrid Cash Balance Plan Opt-In Election," is on file at the retirement office.

14 (f) The effective date of the eligible member's one-time, irrevocable election as  
15 described in paragraph (a) of this subsection shall be the date on which the Form 2013,  
16 "Hybrid Cash Balance Plan Opt-In Election," is received at the retirement office.

17 (4) Prior Participation that has been Refunded. This subsection applies to a  
18 member with a participation date with the Systems prior to January 1, 2014, who  
19 terminates employment, and who takes a refund of accumulated contributions pursuant  
20 to KRS 61.625. If such a person is reemployed on or after January 1, 2014 in a regular  
21 full-time position required to participate in one of the Systems and does not have a  
22 participation date with any other state-administered retirement plan prior to January 1,  
23 2014, the person becomes a member of the hybrid cash balance plan tier. If such a

1 member purchases his or her previously refunded service in accordance with KRS  
2 61.552(1), the purchased service shall only be used to determine the member's years of  
3 service credited and shall not be used to determine the member's participation date.

4 Section 3. Construction of Regulation. Except where required by or as necessary  
5 for the administration of the hybrid cash balance plan tier under KRS 16.583, 61.597, and  
6 78.545, KRS 16.505 to 16.652, KRS 61.510 to 61.705, KRS 78.510 to 78.852, and Title  
7 105 of the Kentucky Administrative Regulations shall apply to the hybrid cash balance  
8 plan tier.

9 Section 4. Trust Assets. All contributions made with respect to each Systems'  
10 hybrid cash balance plan tier shall be held in the trust for the respective System. There  
11 shall be no segregation of assets for the hybrid cash balance plan tier from the assets for  
12 other tiers for the respective System.

13 Section 5. Reciprocity.

14 (1) All service credit with other state-administered retirement systems, including  
15 the Judicial and Legislators' Plan and the Teachers' Retirement System, shall be used  
16 for determining a member's years of service credited for purposes of eligibility for  
17 annuitization.

18 (2) Service credit in another state-administered retirement system shall not be  
19 used for determining whether a member who is not eligible to retire in the hybrid cash  
20 balance plan tier has the five (5) years of service required in order to receive a full refund  
21 of his or her accumulated account balance under KRS 16.583(5)(b) and 61.597(5)(b).

1 (3) Service credit in the cash balance plan tier will be counted as service for the  
2 other state-administered retirement systems and as service for hospital and medical  
3 insurance and managed care plan coverage pursuant to KRS 61.702.

4 (4) In no event will the same service credit be counted for benefit calculation  
5 purposes for more than one state-administered retirement system or tier.

6 (5) A member who is participating in the hybrid cash balance tier in more than one  
7 of the Systems will have to retire at the same time and elect the same retirement benefit  
8 option in all applicable Systems, unless the member has requested that his or her  
9 accounts be separated in accordance with 105 KAR 1:020.

10 Section 6. Lump-sum Distributions Upon Termination of Employment or Death for  
11 Nonvested Members.

12 (1) Termination of Employment. A nonvested member eligible for a refund pursuant  
13 to KRS 61.625 shall only be refunded his or her accumulated contributions, and shall  
14 forfeit any accumulated employer pay credits.

15 (2) Death Before Retirement. Upon the death of a nonvested member, the  
16 beneficiary designated by the member pursuant to KRS 61.542(1)-(2) (or if no designated  
17 beneficiary, the member's estate) shall only be entitled to receive a lump-sum payment  
18 of the nonvested member's accumulated contributions, and shall not be entitled to receive  
19 payment of any accumulated employer pay credits.

20 (3) Rollovers. A nonvested member or the designated beneficiary of a nonvested  
21 member who receives a refund of accumulated contributions may elect to have the  
22 refunded accumulated contributions paid directly to an eligible retirement plan in  
23 accordance with 105 KAR 1:270 and 105 KAR 1:345.

1           Section 7. Lump-sum Distributions Upon Termination or Distributions Upon Death  
2 of Vested Members.

3           (1) Termination of Employment. (a) Upon termination of employment with all  
4 employers participating in the same Systems in which the member has service credit, a  
5 vested member who is not otherwise eligible to retire may elect to take a refund of his or  
6 her accumulated account balance, including accumulated contributions, employer pay  
7 credits, and interest credits (if any) as of the prior June 30.

8           (b) 1. Upon termination of employment with all employers participating in one or  
9 more of the Systems, a vested member who is eligible for retirement may elect to take a  
10 refund of his or her accumulated account balance, including accumulated contributions,  
11 employer pay credits, and interest credits (if any) as of the prior June 30, in lieu of other  
12 retirement payment options provided in KRS 16.583(7) and 61.597(7).

13           2. The member's election to take a refund of his or her accumulated account  
14 balance as described in subparagraph 1 of this paragraph shall be treated as a retirement  
15 and the member shall be a retired member ineligible to participate or accrue additional  
16 benefits in the Systems upon subsequent reemployment with any participating employer  
17 pursuant to KRS 61.637. Additionally, the member who has made the election described  
18 in subparagraph 1 of this paragraph shall be subject to all requirements and restrictions  
19 for reemploying with a participating employer in KRS 61.637 and 105 KAR 1:390.

20           (2) Death Before Retirement. (a) Upon the death of a vested member participating  
21 in the Systems, the vested member's designated beneficiary (or if no designated  
22 beneficiary, the member's estate) is entitled to a lump-sum distribution of the vested  
23 member's accumulated account balance, including accumulated contributions, employer

1 pay credits, and interest credits (if any) as of the prior June 30. The designated beneficiary  
2 may also be entitled to the other payment options available for a death before retirement  
3 under the respective Systems' statutory provisions.

4 (b) Upon the death of a vested member who is not participating at the time of death  
5 and who has not taken a refund or retirement benefit, if the vested member has fewer  
6 than twelve (12) years of service credited, the vested member's designated beneficiary  
7 (or if no designated beneficiary the member's estate) is entitled to a lump-sum distribution  
8 of the member's accumulated account balance, including accumulated contributions,  
9 employer pay credits, and interest credits (if any) as of the prior June 30. If the vested  
10 member has twelve (12) or more years of service credited, the designated beneficiary  
11 may also be entitled to other payment options available for a death before retirement  
12 under the respective Systems' statutory provisions.

13 (3) Rollover. A vested member or the designated beneficiary of a vested member  
14 who takes a lump-sum distribution of the vested member's accumulated account balance,  
15 including accumulated contributions, employer pay credits, and interest credits (if any) as  
16 of the prior June 30, under this section may elect to have the lump-sum distribution paid  
17 directly to an eligible retirement plan in accordance with 105 KAR 1:270 and 105 KAR  
18 1:345.

19 Section 8. Eligibility for an Annuity.

20 (1) At Normal Retirement Age. Subject to Section 5, a vested member who  
21 reaches normal retirement age under the applicable System's statutory provisions and  
22 who terminates employment with all participating employers is eligible to retire and may

1 elect to annuitize his or her accumulated account balance or take a lump-sum distribution  
2 of his or her accumulated account balance as provided in Section 7(1)(b).

3 (2) Additional Eligibility for Annuitization for Members with Hazardous Service. A  
4 member who has hazardous duty service as provided in KRS 16.505-16.652 and 61.692,  
5 who has 25 or more years of service credited under KRS 16.543(1), KRS 61.543(1), or  
6 KRS 78.615(1) or any other Kentucky state-administered system, and who terminates  
7 employment with all employers participating in the Systems is eligible to retire and may  
8 elect to annuitize his or her accumulated account balance or take a lump-sum distribution  
9 of his or her accumulated account balance as provided in Section 7(1)(b).

10 (3) Additional Eligibility for Annuitization for Members with only Nonhazardous  
11 Service. A member with exclusively nonhazardous service who is at least age fifty-seven  
12 (57), who has an age plus years of service total of at least eighty-seven (87) years, and  
13 who terminates employment with all employers participating in the Systems is eligible to  
14 retire and may elect to annuitize his or her accumulated account balance or take a lump-  
15 sum distribution of his or her accumulated account balance as provided in Section 7(1)(b).

16 (4) Annuitization. A member who elects to annuitize his or her accumulated  
17 account balance may receive a retirement benefit determined in accordance with actuarial  
18 assumptions and actuarial methods adopted under subsection (6) of this Section and in  
19 effect on the member's retirement date.

20 (5) Return of Contributions. If the retirement benefit payment option selected by  
21 the vested member includes a guaranteed return of contributions, that retirement benefit  
22 payment option shall be interpreted to mean that guarantee applies to the accumulated  
23 contributions, employer pay credits, and interest credits (if any).

1           (6) Board Action with respect to Annuitization. (a) On or before March 31, 2021,  
2 the Board of Trustees of Kentucky Retirement Systems' action to adopt the assumptions  
3 and methods are incorporated by reference under this regulation. The Board of Trustees  
4 of the Kentucky Retirement Systems must adopt the actuarial assumptions that will apply  
5 to a specific fiscal year prior to the start of that fiscal year.

6           (b) On or after April 1, 2021, the actions of the Board of Trustees of the Kentucky  
7 Retirement Systems and the Board of Trustees of the County Employees Retirement  
8 System to adopt assumptions and methods are incorporated by reference under this  
9 regulation. Each Board must adopt the actuarial assumptions that will apply to a specific  
10 fiscal year prior to the start of that fiscal year.

11           (7) Eligibility for Retiree Hospital and Medical Benefit. Only a member who is  
12 receiving a monthly annuitized benefit is eligible for hospital and medical insurance and  
13 managed care plan coverage. A member who takes a lump-sum refund or lump-sum  
14 retirement benefit is not eligible for hospital and medical insurance and managed care  
15 plan coverage.

16           Section 9. Disability retirement. A member participating in the hybrid cash balance  
17 plan tier in one or more of the Systems whose disability retirement allowance is  
18 discontinued pursuant to KRS 61.615 may apply for retirement benefits, if eligible, under  
19 KRS 61.597(6) or KRS 16.583(6), but shall not be eligible for early retirement benefits  
20 under KRS 61.559 or KRS 16.577.

21           Section 10. Service Credit.

22           (1) Members participating in the hybrid cash balance plan tier shall only be eligible  
23 to purchase service credit that is recontribution of a refund, omitted, omitted with interest,

1 military omitted, decompression, or under the Uniformed Services Employment and  
2 Reemployment Rights Act (USERRA), and shall not be eligible to make any other types  
3 of service purchases.

4 (2) Uniformed Services Employment and Reemployment Rights Act (USERRA)  
5 Service. (a) Years of service credited shall be determined as required by USERRA. (b) In  
6 order to receive service credit for active military duty, the member must pay the member  
7 contributions as though the member was employed during the period of his or her active  
8 military duty.

9 (3) Repayment of Refunded Contributions Plus Interest Credits or Accumulated  
10 Account Balance.

11 (a) Upon reemployment with a participating employer in a regular full-time position  
12 required to participate in the Systems or participation in another state-administered  
13 retirement system, a nonvested member who took a refund of his or her member  
14 contributions plus interest credits may regain the refunded service credit by repaying, with  
15 interest at a rate determined by the board of the respective retirement system, the amount  
16 refunded with post-tax employee contributions or a rollover or transfer allowed under the  
17 Internal Revenue Code. Although the repayments of refunded contributions plus interest  
18 credit shall be used to determine the member's service credited, the repayment of the  
19 amount refunded shall not be used to determine a member's participation date.

20 (b) Upon reemployment with a participating employer in a regular full-time position  
21 required to participate in the Systems or participation in another state-administered  
22 retirement system, a vested member who was not eligible to retire and who took a refund  
23 of his or her accumulated account balance (including accumulated contributions,

1 employer pay credits, and interest credits, if any) may regain the refunded service credit  
2 by repaying, with interest at a rate determined by the board of the respective retirement  
3 system, the amount refunded with post-tax employee contributions or a rollover or transfer  
4 allowed under the Internal Revenue Code. Although the repayments of the refunded  
5 accumulated account balance shall be used to determine the member's service credited,  
6 the repayment of the amount refunded shall not be used to determine a member's  
7 participation date.

8 (4) Omitted Service. Any person who is entitled to service credit in the hybrid cash  
9 balance plan tier that was not reported in accordance with KRS 16.543, 61.543, or 78.615  
10 may pay the amount of member contributions that would have been due on that service  
11 in order to receive credit for the service in the hybrid cash balance plan tier. However,  
12 the service shall not be credited to the member's account until employer contributions for  
13 the service are received by the Systems. Once member and employer contributions have

#### Certification of Irrevocable Election

I, \_\_\_\_\_ (print member name), in lieu of benefits I am currently eligible to receive from the Kentucky Employees Retirement System, County Employees Retirement System, and State Police Retirement System ("the Systems") based on my participation date in the Systems between September 1, 2008 and December 31, 2013, elect to receive the benefits and rights provided to members participating in the Systems on or after January 1, 2014, including participating in the hybrid cash balance plan created pursuant to KRS 61.597 for members in nonhazardous duty positions and KRS 16.583 for members in hazardous duty positions. I understand that my election to receive the benefits and rights provided to members participating in the Systems on or after January 1, 2014 pursuant to KRS 61.597 and KRS 16.583 in lieu of benefits I am currently eligible to receive will become effective immediately once this fully completed form is on file at the retirement office, and that **this election is irrevocable**. I understand that effective with my election to participate in the hybrid cash balance plan, my accumulated contributions, less any interest, shall be deposited into a hybrid cash balance account and employer pay credits shall be added to the accumulated account balance for each month I contributed to the Systems prior to my effective election date. Additionally, I understand that interest credits shall only be applied for periods occurring on or after the effective date of my election. I further understand that effective with my election to participate in the cash balance plan, I forfeit the right to keep any purchased service on my account that is not a Recontribution of a Refund, Omitted Service, Omitted Service with Interest, Military Omitted, USERRA, or Decompression. I understand that any purchased service on my account that is not a Recontribution of a Refund, Omitted Service, Omitted Service with Interest, Military Omitted, USERRA, or Decompression will be removed from my total months of service credit and the cost of that service will be refunded back to the source of the purchase.
