

LENOVO Top Choice | GUIDE

Lenovo

What is Top Choice Portfolio

- Top Choice is a specially selected **set of Lenovo® data center offerings**, configured and priced for small and mid-sized businesses.
- Includes **best-selling** Lenovo® servers, storage, software and services.
- Plug-and-play models. **Simple** to deploy, manage and grow.
- TopChoice buy-prices are the **highly discounted**, reflecting local market conditions.
- Prices are **fixed** for 90 days within one Quarter.
- Controllers are so deeply discount that no special discount is applicable for them, but you can get special discount for options in a BID, if the whole deal exceeds minimum deal threshold.
- Use special Lenovo's channel **incentives** to earn fantastic rewards and prizes selling TopChoice products.

*Please be aware that this guide includes only selected Top Choice portfolio Part Number.
More models can be founded on [Lenovo Press](#) or [DCSC](#)

LENOVO'S ISG TOWER SERVERS AT A GLANCE

ThinkSystem ST50 V2

The optimal first server

Compact, affordable, single-socket entry tower optimized for SMB, remote/branch offices, workgroups, departmental groups, and small/home offices.

Technical Specifications

- 4U Tower /Small form-factor tower
- Intel® Xeon® E-2200/2300 processors
- Up to 3x PCIe slots: one x16/x16, one x1/x1, and one x16/x4

Warranty

- 1-3 year customer-replaceable unit and onsite limited warranty

ThinkSystem ST250 V2

Enterprise-quality tower server for remote and branch offices

Ideal server for small-to-medium-sized businesses looking for enterprise-level power in an easily-managed tower form factor.

Technical Specifications

- 4U Tower
- Intel® Xeon® E-2300 processors
- Up to 128GB in 4x DIMM slots
- Up to 16x 2.5-in HS disks

Warranty

- 1-3 year customer-replaceable unit and onsite limited warranty

ThinkSystem ST550

Enterprise performance and flexibility. Compact footprint.

4U tower server that provides the performance and reliability you expect from the data center, delivered in a package optimized for office environments.

Technical Specifications

- 4U rackable Tower
- Up to 2x second gen Intel® Xeon® Platinum processors, up to 125W
- Up to 768GB in 12x DIMM slots using 64GB DIMMs; 2666 and 2933MHz TruDDR4

Warranty

- 1-3 year customer-replaceable unit and onsite limited warranty

ThinkSystem ST650 V2/V3

High-performance computing power inside or outside a traditional data center

Designed to handle a wide range of workloads, such as databases, virtualization and cloud computing, virtual desktop infrastructure (VDI), infrastructure security, systems management, enterprise applications, collaboration/email, streaming media, web, and HPC.

Technical Specifications

- 4U rackable Tower
- Up to 2x 3rd and 4th gen Intel® Xeon® Scalable processors, up to 250W

Warranty

- 1-3 year customer-replaceable unit and onsite limited warranty

LENOVO'S ISG 1U RACK SERVERS IN TOPCHOICE

ThinkSystem SR250 V2

A new **1-processor** rack server in a compact **1U form** factor is built to Lenovo's high standards for maximizing uptime for expanding businesses or edge deployment and includes Intel® SGX designed to secure application code and data

Technical Specifications

- 1U Rack
- 1-socket Intel® Xeon® E-2300 processors, up to 8 cores at 95W
- Up to 128GB in 4 slots

Warranty

- 1 and 3 year customer replaceable unit and onsite limited warranty

[Read more](#)

ThinkSystem SR630 V2

2-socket 1U rack server is designed to handle a wide range of workloads, such as databases, virtualization and cloud computing, infrastructure security, systems management, enterprise applications, collaboration/email, streaming media, web, and HPC.

Technical Specifications

- 1U rack server
- Up to **2x** 3rd generation Intel® Xeon® Scalable CPUs – max 270W
- **32x DIMM DDR4 3200MHz** slots - Up to 8TB of system memory
- Up to **2x single-wide 75W GPUs**
- Up to 4x 3.5" drive bays or **12x 2.5" drive bays** or **up to 16x E1.S drive bays**
- Up to 3x PCIe | USB 3.0
- OCP 3 network connectivity

[Read more](#)

ThinkSystem SR630 V3

An ideal **2-socket 1U** rack server for small businesses up to large enterprises that need industry-leading reliability, management, and security, as well as maximizing performance and flexibility for future growth

Technical Specifications

- 1U rack server
- Up to **2x** 4th gen Intel® Xeon® Scalable CPUs – up to 60 cores and 120 threads, Core speeds of up to 3.7 GHz, max - 350 W
- **32x DIMM DDR5** slots - Up to 8TB of system memory
- Up to **3 single-wide 75W GPUs**
- Up to 4x 3.5" drive bays or **12x 2.5" drive bays** or **up to 16x E1.S drive bays**
- Up to 3x PCIe 5.0 | USB 3.0
- OCP 3 network connectivity

[Read more](#)

ThinkSystem SR645

A 2S/1U rack server capable of being equipped with two AMD EPYC™ 7002 series CPUs, the ThinkSystem SR645 features standout 1U configuration flexibility to handle critical hybrid data center workloads such as virtualization and database.

Technical Specifications

- 2U rack server
- Up to **2x** 2nd generation AMD EPYC family CPUs
- **32x DIMM DDR4 3200MHz** slots - Up to 8TB of system memory
- Up to **8 single-width GPUs** or **3 double-wide GPUs**
- Up to 4x 3.5" drive bays or **12x 2.5" drive bays** | **Up to 12x2.5" NVMe drives**
- OCP 3 network connectivity

LENOVO'S ISG 2U RACK SERVERS IN TOPCHOICE

ThinkSystem SR650 V2

2U 2-socket server is designed to handle a wide range of workloads, such as databases, virtualization and cloud computing, virtual desktop infrastructure (VDI), infrastructure security, systems management, enterprise applications, collaboration/email, streaming media, web, and HPC.

Technical Specifications

- 2U rack server
- Up to **2x** 3rd generation Intel® Xeon® Scalable CPUs – max 270W
- **32x DIMM DDR4 3200MHz** slots - Up to 8TB of system memory
- Up to **8 single-width GPUs or 3 double-wide GPUs**
- Up to 20x 3.5" drive bays or **40x 2.5" drive bays | Up to 32x2.5" NVMe drives**
- Up to 8x PCIe slots
- OCP 3 network connectivity

[Read more](#)

ThinkSystem SR650 V3

An ideal **2-socket 2U** rack server for any enterprises that need industry-leading reliability, management, and security, as well as maximizing performance and flexibility for future growth

Technical Specifications

- 2U rack server
- Up to **2x** 4th gen Intel® Xeon® Scalable CPUs – up to 60 cores and 120 threads, Core speeds of up to 3.7 GHz, max - 350 W
- **32x DIMM DDR5** slots - Up to 8TB of system memory
- Up to **8 single-width GPUs or 3 double-wide GPUs**
- Up to 20x 3.5" drive bays or **40x 2.5" drive bays | Up to 32x2.5" NVMe drives**
- Up to 16x PCIe 5.0 slots
- OCP 3 network connectivity

ThinkSystem SR665

A 2P/2U rack server powered by dual AMD EPYC™ 7003 Series CPUs, SR665 features the performance and configuration capabilities to tackle key enterprise data center workloads such as database, big data & analytics, virtualization, VDI, and HPC/ AI solutions.

Technical Specification

- 2U rack server
- Up to **2x** AMD EPYC™ 7003 Series CPUs – up to 64, Core speeds of up to 4.1 GHz, max - 280 W
- **32x DIMM DDR4** slots - Up to 8TB of system memory
- Up to 20x 3.5" drive bays or **40x 2.5" drive bays**
- Up to 8x PCIe
- OCP 3 network connectivity

[Read more](#)

ThinkSystem SR665 V3

A 2P/2U rack server provides the performance to manage modern IT applications like AI, software-defined and virtualization applications utilizing a vast amount of data to operate seamlessly

Technical Specification

- 2U rack server
- Up to **2x** 4th Generation AMD EPYC™ CPUs
- Up to **6TB** using 256GB 3DS RDIMMs; up to 1DPC at 4400MHz
- Up to 20x 3.5" drive bays or **40x 2.5" drive bays**
- Up to **8x** single-width LP GPUs or 3x double-width GPUs
- Up to 12x PCIe 4.0
- OCP 3 network connectivity

EVERYTHING YOU NEED TO KNOW ABOUT LENOVO'S ISG STORAGE PRODUCTS

ThinkSystem DE2000

Drive outstanding performance

Lenovo ThinkSystem DE2000H is a low-cost, hybrid entry-level storage system that is designed to provide performance, simplicity, capacity, security, and high availability for small to large businesses.

Technical specifications

- Dual controllers
- 16GB system memory
- Up to 3 expansions
- Drive Encryption, Snapshot upgrade, asynchronous mirroring

Warranty

- 3-year customer replaceable unit and onsite service, next business day 9x5

ThinkSystem DE4000

Drive outstanding performance

The Lenovo ThinkSystem DE4000 optimises price/performance, configuration flexibility, and simplicity. Enabling you to process your critical business data faster and with better insights, for more effective decision-making.

Technical specifications

- Dual controllers
- 16/64GB system memory
- Up to 7 expansions
- Drive Encryption, Snapshot upgrade, asynchronous mirroring, synchronous mirroring

Warranty

- 3-year customer replaceable unit and onsite service, next business day 9x5

Windows Server 2022

Overview

Value Proposition

- ✓ Best Price: Use TopChoice price to achieve cost savings
- ✓ Increased Convenience: Custom image tested and supported by Lenovo

Conversation Starter

- What operating system will you be running on this server?
- Which applications/workloads will this server be running?
- Will this server be installed in a new or existing environment?

How Standalone ROK is delivered?

- ROK licenses are delivered physically **in a Polybag** which include the Media and a license card with the COA
- **Reseller is responsible** to open the Polybag, install the operating system and **attach** the COA on the server before delivering the server to the end customer
- The polybag with Media and COA was shipped **separately** outside of the server box.

Windows Server Licenses ROK – Reseller Option Kit

Windows Server Operating System

- Licensed by number of physical cores.
- 16 cores are included in base license.
- 2- or 16-core add-on as needed.

Microsoft Client Access Licenses

Client Access Licenses (CALs) are required for every User (employee) or Device that is connected to the Windows Server.

Remote Desktop Services

for Windows Server 2022 require a Windows Server 2022 CAL and a Windows Server 2022 RDS CAL for each user or device

PNs	Description
7S05001RWW	Windows Server 2019 Essentials ROK - MultiLang
7S050015WW	Windows Server 2019 Standard ROK (16 core) - MultiLang
7S05002MWW	Windows Server 2019 Standard Additional License (2 core)
7S050063WW	Windows Server 2022 Essentials ROK (10 core) - MultiLang
7S05005PWW	Windows Server 2022 Standard ROK (16 core) - MultiLang
7S05007MWW	Windows Server 2022 Standard Additional License (2 core)
7S05007PWW	Windows Server 2022 Standard Additional License (16 core)
7S05005UWW	Windows Server 2022 Datacenter ROK (16 core) - MultiLang
7S05007QWW	Windows Server 2022 Datacenter Additional License (2 core)
7S05007SWW	Windows Server 2022 Datacenter Additional License (16 core)

PNs	Description
7S05007TWW	Windows Server 2022 CAL (1 Device)
7S05007UWW	Windows Server 2022 CAL (1 User)
7S05007VWW	Windows Server 2022 CAL (5 Device)
7S05007XWW	Windows Server 2022 CAL (5 User)

Microsoft SQL Server

Provide more value to your clients and add SQL Server 2022 to your server quotes - Azure-enabled with continued performance and security innovation, SQL Server 2022 provides a modern data platform to transform your business.

Lenovo offers ROK bundles that combine Windows Server 2022 Standard or Datacenter Edition with SQL Server 2022 Standard Edition using the Server+CAL licensing model.

Customers need to purchase an SQL Server license for each physical server or VM and add SQL Client Access Licenses (CALs) for every User or Device accessing SQL Server or any of its components.

Alternatively, Lenovo also provides standalone SQL Server versions and Core based licensing directly in the Lenovo Data Center Solution Configurator (DCSC) – these SKUs however cannot be stocked and need to be configured with a server.

[Learn More about the full SQL Server Portfolio from Lenovo](#)

Microsoft SQL Server 2022

The following offerings are available in Lenovo Top Choice:

ROK Bundles:	
7S05009WWW	Microsoft SQL Server 2022 Standard with Windows Server 2022 Standard ROK (16 core) - Multilang
7S0500ADWW	Microsoft SQL Server 2022 Standard with Windows Server 2022 Datacenter ROK (16 core) - Multilang
SQL Server 2019 CALs:	
7S0500B4WW	Microsoft SQL Server 2022CAL (1 Device)
7S0500BCWW	Microsoft SQL Server 2022 CAL (1 User)
7S0500BLWW	Microsoft SQL Server 2022 CAL (5 Device)
7S0500BUWW	Microsoft SQL Server 2022 CAL (5 User)

Vmware / Virtualization

Overview

Value Proposition

- ✓ Market leader in Software Defined Data Center
- ✓ Solutions that scale small business to large enterprise
- ✓ Time to Value with an automated infrastructure that can provision resources in minutes

Conversation Starter

1. “Will these servers be used for VMware?”

If YES, proceed to question 2.

2. “Does the customer already have the VMware licenses needed for these systems?”

If NO, proceed to question 3.

3. “Can we provide you a quote for the licenses that are needed? We have access to newly discounted VMware licenses through Lenovo that are priced very aggressively!”

If YES, get the bill of materials to the Lenovo team and we’ll provide competitive pricing.

Part Numbers

- OEM Perpetual license sold per processor
- Sold by 1, 3 or 5-year support offerings
- 1 PN holds License + Support & Subscription (SnS)

PNs	Description
7S06126HWW	VMware vSphere 8 Enterprise Plus for 1 processor w/Lenovo 1Yr S&S
