

FORM NO. C74-1

OREGON PRODUCTS PRICE LIST

SUGGESTED LIST PRICES FOR UNITED STATES — EFFECTIVE AUGUST 1, 1974

Supersedes all previous price lists.
All prices subject to change without
notice. All orders subject to prices
in effect at time of shipment.

OREGON saw chains and acces-
sories are made under applicable
U.S., Canadian and British patents.

OREGON CHAINS-BARS-SPROCKETS

TABLE OF CONTENTS

	Page Number		Page Number
CHAIN, BAR & SPROCKET SUMMARY	2	CHAIN REPAIR KITS	8
CHAIN PART NUMBER EXPLANATION	3	CHAIN REELS	9
ORDERING INFORMATION	3	CHAIN REPAIR PARTS	10-11
SAW BAR PRICES	4-5	ACCESSORIES	12-13
SPROCKET PRICES	6-8	CUT LENGTH CHAIN	14-18

S-70 CHAIN

High production cutting for lightweight compact saws. Cutters are nearly square for speed and smoothness, yet are sharpened with round file.

MICRO CHISEL

Fast, versatile with semi-square cutting edges. Easy to maintain with round file. A variety of sizes available to fit most saws.

SUPER 70 CHAINS

Super 70 series cut noticeably faster than OREGON 72D chain. Has greater stay-sharp capability. Smooth cutting action and a new guard link that greatly reduces chain kick-back. "LP" after chain number designates Super 70 chain.

SUPER CHISEL

High cutting efficiency and smoothness in small or big timber. Square cutting edge can be sharpened with either round or chisel file.

CHIPPER CHAIN

World favorite for over twenty years. Sizes for all saws, all timber. Fast cutting, easy to sharpen. A real work horse.

80 CHAIN

Fastest, smoothest chain made. Unique cutters are top-sharpened in seconds with Power-Sharp System.

SPROCKET NOSE BAR

Sprocket lifts chain for smooth turn around nose — chain runs faster, cooler. Nose and rest of bar same thickness — less chance of hangups. Sprocket easy to replace.

ROLLER NOSE BAR

Slim contour, lightweight. Triple heat treated, precision machined. Roller nose cuts friction, speeds cutting. Roller section easy to replace.

HARD NOSE BAR

Slim contour, lightweight. Triple heat treated, precision machined. Has extra hard alloy welded nose for wear resistance.

POWER MATE SPROCKET SYSTEM

Self-aligning rim and drum combinations fit most popular saws. Less drive link damage, wear, chatter and strain on chain.

Chain Parts

Chain Part Number Explanation:

To Order Chain Refer To Oregon Products Price List

- Choose the type of chain you want
- Indicate number of drive links (E)

Note: When ordering chain in reels just indicate number of reels, chain type, length per reel, (25R or - 100 R.)

EXAMPLE: 2 reels 10AC-100R.
