If you would like this information in a different format, for example Braille, audiotape, large print or computer disc, or community languages, please contact Strategic City Planning on 0117 9036717.

1. Introduction

- 1.1 The National Planning Policy Framework (NPPF) published March 2012 states Local Authorities need to ensure that their Local Plans meet their full, objectively assessed market and affordable housing needs, and identify key sites critical to the delivery of housing for at least 15 years.
- 1.2 Bristol City Council identifies and updates its supply of deliverable sites annually, in consultation with applicants and/or agents with planning permission for 10 or more dwellings, or permitted change of use.
- 1.3 National Planning Policy Guidance (NPPG) recommends that the starting point for calculating the 5 year supply position should be the housing requirement figure in an up to date adopted Local Plan. The local housing target as set out in policy BCS5 in the Bristol Local Plan Core Strategy, adopted in June 2011, is for a minimum of 26,400 dwellings to be delivered in Bristol between 2006 and 2026.
- 1.4 This report covers the five years 2016/17 to 2020/21. It sets out the specific sites which are likely to deliver the housing requirement. The five year supply includes sites already under construction, those with planning permission including sites approved subject to the signing a section 106 legal agreement, but where building work has not commenced. The expected rate of housing delivery is illustrated through a housing trajectory – refer to Appendix 2.

2. National Planning Policy Framework (NPPF) : Housing requirements

- 2.1 The NPPF states at paragraph 47 that local planning authorities should: *“identify and update annually a supply of specific deliverable sites sufficient to provide five years worth of housing against their housing requirements with an additional buffer of 5% (moved forward from later in the plan period) to ensure choice and competition in the market for land. Where there has been a record of persistent under delivery of housing, local planning authorities should increase the buffer to 20% (moved forward from later in the plan period) to provide a realistic prospect of achieving the planned supply and to ensure choice and competition in the market for land; identify a supply of specific, developable sites or broad locations for growth, for years 6-10 and, where possible, for years 11-15;”*
- 2.2 In determining land supply the NPPF states at paragraph 48 that local planning authorities: *“may make an allowance for windfall sites in the five-year supply if they have compelling evidence that such sites have consistently become available in the local area and will continue to provide a reliable source of supply. Any allowance should be realistic having regard to the Strategic Housing Land Availability Assessment, historic windfall delivery rates and expected future trends, and should not include residential gardens.”* (<http://www.bristol.gov.uk/page/council-and-democracy/land-use-development-and-planning-policy-research>)

3. Methodology

- 3.1 Bristol City Council’s approach to collating a five year supply of deliverable sites incorporates three main stages as follows:
 1. Identify the level of housing provision to be delivered over the five year period;

2. Identify the sites that have potential to deliver housing during the five year period;
3. Assessing the delivery of identified sites using the assessment of deliverability set out in the NPPF, paragraph 47.

Level of housing provision to be delivered over 5 years

3.2 The first stage in the assessment is the identification of the level of housing provision to be delivered over the next five years from 2016 to 2021. The Bristol City Council local housing target as set out in policy BCS5 in the [Bristol Local Plan Core Strategy](#), adopted in June 2011, is for a minimum of 26,400 dwellings to be delivered in Bristol between 2006 and 2026. The Council considers that a 5 year housing supply from 1 April 2016 to 31 March 2021 should be demonstrated. An annual requirement of 851 units instead of 1,320 has been used. This requirement is calculated by dividing the net provision requirement for 2016 to 2026 by the remaining number of years. By 31 March 2016, 17,866¹ net additional homes had been completed since 1 April 2006, leaving 8,514 or 851 dwellings per annum to be delivered from 2016 to 2026. Thus, the five year housing requirement for 2016 to 2021 is 4,257, (851 x 5). The supply of ready to develop housing sites for the five year period 2016 to 2021 is 158.26%, 53.26% above the requirement and 5% buffer. This is calculated by using the following formula: $6,737 / 4,257 * 100 = 158.26\%$ - see Table 1 and Appendix 5, page 13.

Table 1: Assessment of Five Year Supply at 1 April 2016

A	Total net provision required for the period 2006 - 2026	26,400
B	Total net dwelling completions (2006 - 2016)	17,866
C	Remaining net provision required for the period 2016 - 2026 (A minus B)	8,514
D	Number of years remaining	10
E	Remaining annualised net provision required for the period 2016 - 2026 (C / D)	851
F	Five year housing requirement 2016 - 2021 (E x 5)	4,257
G	Total identified five year supply 2016 - 2021	6,737
H	Supply of ready to develop housing (G/F*100)	158.26 %

Identification of sites

3.3 The second stage in the assessment is to identify sites that have potential to deliver housing during the five year period, as defined in the NPPF, para. 47. Bristol City Council has a monitoring system in place which identifies housing commitments. Each year progress is checked through site visits so that there is an annual record of completions for the year. The 2016 Residential Development Survey (RDS) identified the housing completions between March

¹ Please note completion figures have been revised from 2008/09 to reflect CLG changes of the dwelling definition to include student cluster flats.

2015 – April 2016. (www.bristol.gov.uk/planningresearch) As there are records of outstanding commitments (i.e. unsigned section 106 sites and sites with planning permission that are not implemented) it is possible to list all these sites and identify those which have the potential to deliver housing over the 5 year period.

Assessing deliverability

3.4 The third stage is to assess the deliverability of the identified potential sites. Paragraph 47 of the NPPF establishes the criteria to assess deliverability of sites:

“sites should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years and in particular that development of the site is viable.”

3.5 NPPF, para. 47 also states: *“Sites with planning permission should be considered deliverable until permission expires, unless there is clear evidence that schemes will not be implemented within five years, for example they will not be viable, there is no longer a demand for the type of units or sites have long term phasing plans.”*

3.6 An assessment has been made of existing permissions that have not been implemented as to whether sites are available, suitable and achievable.

Findings

3.7 As of the 1 April 2016 there were 875 sites (major and minor) with planning permission including sites approved subject to section 106 agreement for 9,303 dwellings not started or under construction – see Table 2. In September 2016 a questionnaire (see Appendix 1) was sent to 130 applicants/landowners in relation to major sites that had planning permission for 10 or more dwellings, either not started, under construction or approved subject to a section 106 agreement. 42 (82%) out of 51 respondents said their sites would be developed before 2021 providing 2,123 dwellings – see Table 4.

Table 2: Housing with planning permission or approved subject to s106 not started at 1 April 2016 (net)

Category	Total dwellings not started and/or under construction	No. of sites	Five year provision 2016 to 2021
Major sites (10+)	7,043	122	4,961
Unsigned s106 (10+)	626	8	142
Remaining sites (less than 10)	1,634	745	1,634
TOTAL	9,303	875	6,737

Table 3: Analysis of 5 year housing supply questionnaire

Category	No. of sites/ applicants	%	Dwellings with planning permission at 1 April 2016 (unadjusted)	2016 to 2021	2021 to 2026	TOTAL (2016 to 2026) adjusted figure
No. of respondents	51	39	2,938	2,271	451	2,722
Site visit / BCC officer / NHBC/ Uniform	33	25	1,728	768	960	1,728
Did not respond	46	35	2,994	2,064	930	2,994
TOTAL	130	100	7,660	5,103	2,341	7,444

Table 4: Analysis of questionnaire response

Respondents reply to question - Is this site expected to be developed?	No. of sites/ applicants	%	Dwellings with planning permission at 1 April 2016 (unadjusted)	2016 to 2021	2021 to 2026	TOTAL (2016 to 2026) adjusted figure
Yes	42	82	2,509	2,123	400	2,523
No	6	12	236	0	0	0
Left blank	2	4	65	20	51	71
Yes – no timetable of completion	1	2	128	128	0	128
TOTAL	51	100	2,938	2,271	451	2,722

- 3.8 This year we were unable to obtain responses with regards to 46 of the major sites, these were therefore left unresolved, totalling 2,994 units. 42 sites were added to the first five year period as they had full planning permission and there was no evidence to suggest they would not come forward. Where information on dwellings (from offices) is not known, an estimate is provided using a formula of 80% of gross internal floorspace (m²) to give a net internal floorspace. This is then divided by 60 (an approximate dwelling size based on previous evidence and space standards). Sites with lapsed, or outline permission, or an unsigned section 106 have been added to the 2021 – 2026 period if we did not receive a response. A site with planning permission is only removed from our trajectory if it is developed or in the process of being developed for non residential use, or the developer/owner has changed their mind and will continue the current use of the site. This was applicable for 6 sites in 2016.
- 3.9 Common reasons for sites being left unresolved include a change in contact details, or it has been sold on, or due to current economic conditions. At a number of sites, the owner or developer had run into financial difficulties (i.e. were in administration, receivership or liquidation) and therefore, details on the landowner and future delivery of the site is uncertain.
- 3.10 1 respondent failed to provide details of their development timetable and 2 left blank the question asking whether their site is expected to be developed - see Table 4. Common reasons for sites not coming forward sooner or being developed, for the majority was current market constraints, but also the issue of banks not lending to flat (apartments) developments, and

issues with regards to implementation costs (including planning conditions, S106 obligations). No applicant provided details of phasing beyond 2021.

- 3.11 Information for 768 units to be delivered by 2021 was obtained via site visits and/or from council officers - see Table 3. The remaining 745 minor sites (less than 10 units) providing 1,634 dwellings, (see Table 2) has been put in the first five year period as they are considered to be deliverable.
- 3.12 Table 5 shows the number of dwellings expected to be delivered on sites with planning permission at 1 April 2016. The total figure of 9,078 differs from the actual number of dwellings with planning permission (9,303 – see Table 2) at April 2016, due to a few applicants informing us they were planning to deliver a different number of dwellings to the number that had been granted planning permission. The total provision for 2016 to 2021 is 6,737.

Table 5: Five Year Supply 2016 - 2021

Capacity source	a) Under construction			b) Not started			Total estimated dwelling capacity (net) a+b		
	2016 to 2021	2021 to 2026	TOTAL	2016 to 2021	2021 to 2026	TOTAL	2016 to 2021	2021 to 2026	TOTAL
A Major sites with planning permission at 1 April 2016	1,336	0	1,336	2,667	1,831	4,498	4,003	1,831	5,834
B Small sites with planning permission at 1 April 2016	495	0	495	981	0	981	1,476	0	1,476
C Subdivisions & amalgamations of existing dwellings (net) with planning permission at 1 April 2016	75	0	75	67	0	67	142	0	142
D Changes of use from residential with planning permission at 1 April 2016	0	0	0	-16	0	-16	-16	0	-16
E Demolitions with planning permission at 1 April 2016	0	0	0	-13	0	-13	-13	0	-13
F Other dwellings (e.g. student/keyworker cluster flats; non-permanent dwellings) with planning permission at 1 April 2016	803	0	803	200	39	239	1,003	39	1,042
G Applications approved subject to signing section 106 agreement at 1 April 2016	0	0	0	142	471	613	142	471	613
TOTAL	2,709	0	2,709	4,028	2,341	6,369	6,737	2,341	9,078

Definitions

Major housing – developments of 10 or more dwellings

Small housing – developments of 1 to 9 dwellings

Other dwellings – includes student and keyworker cluster flats, granny annexe, houses in multiple occupation (HMO), demolitions

Net dwellings – all new dwelling completion gains minus all demolitions and losses through changes of use and amalgamations of existing dwellings

Gross dwellings – all dwelling completion gains

3.13 The following set of assumptions for the available, suitable and achievable criteria are set out below so that the basis on which the assessment is made is understood.

Available

3.14 For sites to be considered available they will either:-

- Have outline or full planning permission and either be under construction or not started, or
- Granted planning permission subject to signing a legal planning agreement and informed by the applicant that the s106 agreement will be signed and will have no constraints.

Suitable

3.15 For sites to be considered suitable the NPPF advises that they must create sustainable, inclusive and mixed communities. For sites to be considered suitable they will be:-

- On land of lesser environmental value;
- On previously developed (brownfield land), provided that it is not of high environmental value;
- Accessible to local services that reflect the community's needs and support its health, social and cultural well-being; where practical, particularly within large-scale developments, key facilities such as primary schools and local shops should be located within walking distance of most properties;
- Accessible to public transport;
- Have no significant policy restrictions;
- Have no significant physical built or landscape constraints.

Achievable

3.16 For sites to be considered achievable, the NPPF advises that there must be a realistic prospect that housing will be delivered on the site within five years and in particular that development of the site is viable. Taking into consideration time constraints, the best assessment possible has been undertaken of the sites on their achievability. The planning application has been checked and discussions held with Development Management officers. The assessment identifies the deliverability within 5 years – e.g. a planning consent only, will take more time to be implemented. The assumption has been taken that it is possible for most of the sites with planning permission to be built within 5 years. Sites will be considered to be deliverable within 5 years if:-

- they are under construction, or
- they have outline or full planning permission, and
- there are no known ownership constraints, and
- there are no known physical or environmental constraints, and
- there are no Section 106 agreements or conditions limiting or precluding development within the 5 year period.

4. Calculating a 5 year supply

4.1 A full schedule has been prepared which identifies each site and draws together the most up to date information from planning application records – see Appendix 6. An assessment of the availability, suitability and achievability of each site has been made based on the assumptions outlined above. The potential net number of new dwellings that is anticipated to be provided within 5 years is identified. The assessment schedule in Appendix 6 identifies a total of 6,737 units that are considered deliverable within 5 years.

Table 6: Bristol city council housing provision for the five year period 1 April 2016 to 31 March 2021 (Net)

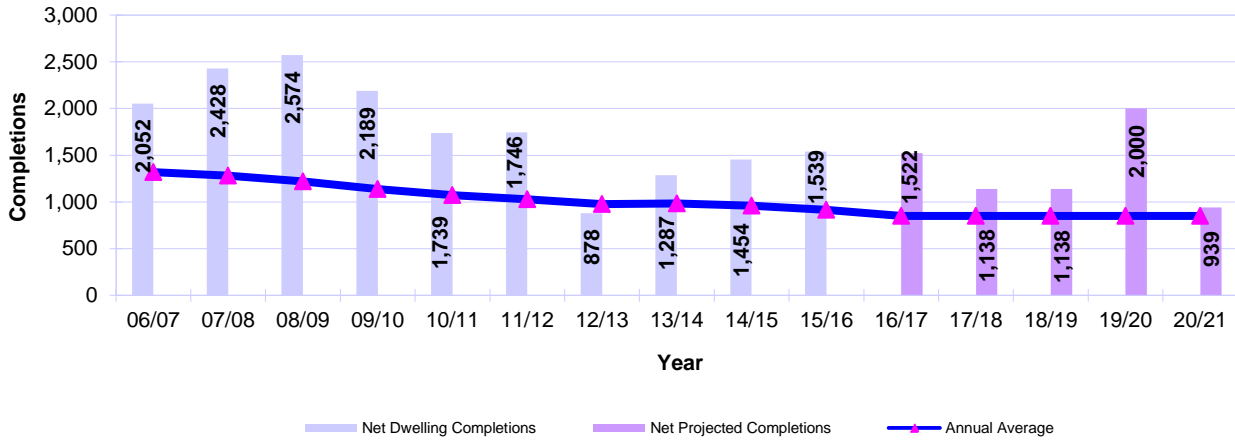

Category	06/07	07/08	08/09	09/10	10/11	11/12	12/13	13/14	14/15	15/16	16/17	17/18	18/19	19/20	20/21	Total 16-21
Total Past Completions	2,052	2,428	2,574	2,189	1,739	1,746	878	1,287	1,454	1,539						
Small sites											0	715	394	360	7	1,476
Major sites											840	210	693	1,328	932	4,003
Unsigned s106											10	132	0	0	0	142
Other housing											672	81	51	312	0	1,116
Projected Completions											1,522	1,138	1,138	2,000	939	6,737
Cumulative Completions	2,052	4,480	7,054	9,243	10,982	12,728	13,606	14,893	16,347	17,886	19,408	20,546	21,684	23,684	24,623	

5. Conclusions

- 5.1 In conclusion, the assessment shows that there is a demonstrable 5 year supply of housing sites in Bristol for the period 1 April 2016 – 31 March 2021 when measured against the Bristol City Council minimum of 26,400 net additional homes between 2006 and 2026 as defined by the Bristol Local Plan Core Strategy Policy BCS5.
- 5.2 No allowance has been made for windfall sites in the calculation of the five year supply as Bristol is able to meet its requirement of 4,257 (851 dwellings per annum) through sites with planning permission.
- 5.3 Table 6 shows that Bristol has a 5 year deliverable supply of 6,737 dwellings for the period 2016 to 2021 which is higher than its requirement and the additional 5% buffer to ensure choice and competition in the market. The supply of ready to develop housing for the 5 year period is 158.26%. Bristol therefore has more than a 5% buffer as the supply has exceeded its 105% target by 53.26% - see Appendix 5, page 14. The five year supply figure also includes 1,634

small and other housing dwellings with planning permission (refer to Table 2). Figure 1 shows the annual average of 851 dwellings will be exceeded until 2021. See Appendix 2 and 3 for housing trajectory 2006 to 2026.

Date 14th September 2016

Dear

Subject: Housing Land Supply Survey

We are undertaking our annual survey of housing land supply and would be grateful if you would complete and return the attached questionnaire by **Friday 30th September 2016**.

Bristol City Council is required by the National Planning Policy Framework (NPPF) to identify and update its supply of deliverable housing sites sufficient to provide five years of housing, against its Adopted Core Strategy minimum target of 26,400 dwellings between 2006 and 2026.

In order to assess the deliverability of potential sites, we are writing to all applicants and/or agents for sites with planning permission for 10 or more dwellings, or permitted change of use which are not yet started, or under construction, or approved subject to a Section 106 agreement, at 31st March 2016.

If you consider your site(s) not to be deliverable within five years, please provide clear evidence why it is not likely to be delivered, relating to its availability, suitability and achievability.

The information provided will be used to produce a housing trajectory for Bristol, which will illustrate the expected rate of housing provision to 2026. Please note that all site information supplied will be made publicly available.

Please email the completed questionnaire by Friday 30th September 2016 to:
Annie.Gingell@bristol.gov.uk

If you would like guidance on completing the questionnaire, please contact Annie Gingell on 0117 9222 363.

Yours sincerely

Sarah O'Driscoll, Service Manager, Strategic City Planning

Questionnaire demonstrating a five year supply of deliverable sites for housing development

If you require any assistance in completing this form please contact: **Annie Gingell** on 0117 922 2363

Part 1 - PLANNING APPLICATION DETAILS (at 31st March 2016)

Ref. No.	Application 1:	Address:	Site description:
	Application 2:		
	Site Status:		

If applicable, please provide any details of additional/more recent planning application(s) in relation to this site.

Part 2 - CONTACT DETAILS - Please provide your up to date contact details below

Contact name:	Telephone:
Address:	E-mail:

Part 3 - DEVELOPABILITY / DELIVERABILITY¹

1) Is this site expected to be developed? (Yes/No)

2a) The estimated site capacity is Is this correct? (Yes/No)

2b) If the answer is no, please provide us with the correct capacity figure.

3) Please indicate the estimated number of completions you expect to take place in each financial year (April to March) in the relevant boxes below:

2016/17	2017/18	2018/19	2019/20	2020/21	2021/22
2022/23	2023/24	2024/25	2025/26		

CONTINUED OVERLEAF

¹ Sites with planning permission should be considered deliverable until permission expires, unless there is clear evidence that schemes will not be implemented within five years, for example they will not be viable, there is no longer a demand for the type of units or sites have long term phasing plans (NPPF, para 47, footnote 11)

Part 4 - AVAILABILITY / ACHIEVABILITY

<p>4) Please provide evidence of any issues preventing or delaying this site from being developed e.g. land ownership, suitability, market, cost or delivery factors, viability, demand for types of units, long term phasing plans etc. (See notes below).</p>

5) Is the site cleared / vacant? (Yes / No)	6) Is the site currently in use? (Yes / No)	7) If the site is in use when will the current use cease?

<p>8) Please provide a brief description of existing use:</p>

9) For permitted change of use from office to residential, please provide office floor space loss.
 Note: Please ensure residential capacity under questions 2 to 3 is provided.

Thank you for completing this questionnaire.

Please complete and return this form by **Friday 30th September 2016** to Annie.Gingell@bristol.gov.uk

Notes:

Market factors – such as adjacent uses, economic viability of existing, proposed and alternative uses in terms of land values, attractiveness of the locality, level of potential market demand and projected rate of sales (particularly important for larger sites);

Cost factors – including site preparation costs relating to any physical constraints, any exceptional works necessary, relevant planning standards or obligations, prospect of funding or investment to address identified constraints or assist development; and

Delivery factors – including the developer’s own phasing, the realistic build-out rates on larger sites (including likely earliest and latest start and completion dates), whether there is a single developer or several developers offering different housing products, and the size and capacity of the developer.
