Scientific Supply Center Information and Policies

DELIVERIES

Stock orders placed before noon will be filled with available stock and sent out the next scheduled delivery day. Special orders will be delivered as we receive the shipments.

INSIDE DELIVERIES

We deliver once daily to 1542 Tulane Avenue and 1100 Florida Avenue. We deliver twice daily to the Eye Center, Allied Health, Medical Education and Clinical Sciences Buildings.

OUTSIDE DELIVERIES

Deliveries to Tulane University, Children's Hospital and the Downtown area occur on Tuesday and Friday. We deliver once a week to the East Bank, Metairie area, the University of New Orleans and the West Bank. All others will be scheduled as needed.

SPECIAL ORDERS

The Scientific Supply Center is happy to provide our customers with non-stock items at discounted prices as our contracts allow with one of our many vendors that we have on our Vendor List. Rush orders should be placed prior to noon for us to meet shipping deadlines with most companies. Deliveries will be made to the laboratories upon receipt from the vendor.

PLACING ORDERS

Special order forms are available from the Scientific Supply Center and on line at www.auxent.lsuhscc.edu/mcs. You may email your order to: ssc@lsuhsc.edu or fax your order (568-3882), or phone your request (568-4385 or 568-3136). Special orders placed with the Scientific Supply Center are ordered through the Vendors the following morning.

ORDER CONFIRMATIONS

The Scientific Supply Center will send you an order confirmation via Campus Mail as well as through email which contains the order information and pricing. Please refer to the order number when you call to inquire about your order. The email confirmation will contain the estimated delivery date.

SHIPPING

In general, orders are shipped to us within 7 to 10 working days. Shipping time varies with each vendor and each item's availability. Rush orders (overnight or 2nd day) are available upon request. Rush charges are the responsibility of the investigator. Some of our contracts waive regular shipping charges. If the vendor charges shipping, these costs will be passed on according to the order placed and fees assessed. Perishable items won't ship over the week-end, so allow for this delay when ordering.

RETURN POLICY

The Scientific Supply Center will be able to accept stock merchandise returns within 7 days of receipt as long as the product is in its original packaging, unopened. Enzymes/perishables **cannot** be returned once they have been accepted from delivery.

Special orders can be returned if the vendor will accept the returned merchandise. Items must be in good condition and original packaging. The Scientific Supply Center will handle returns for you at no additional cost, however if a vendor charges a restocking fee or shipping fee, it will be placed on the customer's account. In these situations, please check with your Business Manager so that the appropriate account is charged for these fees. The Scientific Supply Center will absorb the cost for any returns due to an error on our part.

ENZYMES

Please bring ice when picking up enzymes. Customers may request delivery of enzymes, however the Scientific Supply Center will not be held responsible for the item once they are accepted by the department and receipt of delivery is acknowledged. Special order enzymes and perishables do not ship over the week-end.

ISOTOPES

The Scientific Supply Center will help coordinate orders for radio chemicals in an effort to reduce shipping charges to the laboratories. Routine orders or emergency orders are placed in an as needed basis. Please be sure to notify the Scientific Supply Center personnel if special handling or special deadlines are necessary.
