Product Setup Sheet

What is NETGEAR's ReadyNAS Pro 2 unified network storage?

The ReadyNAS Pro family comes complete with business-class features at a fraction of the traditional business storage cost. Now even the smallest location can afford the right capacity, performance, warranty and complete 3rd party certification set to create reliable and simple solutions.

The ReadyNAS Pro 2 brings reliable, affordable and simple solutions for data management to small offices and remote locations. It is an affordable business-class platform for shared storage in VMware® and Hyper-V™ environments. The Pro 2 can also deliver reliable disk-based backup capacity for locations looking to reduce tape dependence, with scalable replication options for remote site data protection.

• Unified architecture for simultaneous SAN and NAS support
• Cross-platform file sharing support for Windows®, Macintosh®, and UNIX®/Linux systems
• Ideal virtualization platform for smaller locations
• Build cost-effective backup to disk solutions in remote offices
• Hybrid cloud support for online archive, file sharing and replication
• Optional multi-site file replication tools with centralized management
• Complete 3rd party backup software compatibility for physical, virtual and mixed environments
• 3-year warranty

Management
Reliable:
  • 100 GB ReadyNAS Vault of hybrid cloud archive is included with each system.
  • A 3-year warranty stands out.
  • Complete backup tools and the ReadyNAS Replicate option ensure offsite copies in case of disaster

Affordable
  • Latest 1.8 GHz dual-core processor and one USB 3.0 port for best-in-class high performance (over 100MBps throughput)
  • X-RAID2 auto RAID management allows adding storage capacity on-the-fly
  • Complete set of 3rd party application support including Microsoft Windows Server logo, VMware Ready, Symantec Backup Exec RALUS agent, Acronis ABR10, and Egnyte Hybrid Cloud support.
  • Ease-of-use saves system management cost

Simple
  • Web-based Graphic UI
  • X-RAID2 auto expandable volume management
  • ReadyNAS Remote for easy and secure remote access without VPN set up
  • ReadyNAS Vault for integrated cloud backup -100GB capacity included for the 1st one year
  • ReadyNAS Replicate for simple multi-site backup and restore solution

Application package available as add-ons for ReadyNAS Pro 2

• **ReadyNAS Replicate™:** Multiple-site data backup, restore and disaster recovery solution. Software license for ReadyNAS Pro 2 -– RN00RPL1-10000S
