ABOUT US

Founded in March 2011, Aster Graphics is a promising high-tech company dedicated to the printer supplies remanufacturing industry.

The company's headquarters and global marketing and sales center are located in Zhongshan, China. To better serve its customers and consumers, Aster Graphics has set up an international sales network in Hong Kong, Europe and America.

Aster Graphics owns a large group of experienced industry veterans and professionals covering management, production, R&D and Q.C., and most of them have at least 8-10 years' leadership experience in the printer supplies giants.

Aster Graphics attaches great importance to product quality and environment. All the employees are well trained and every process is strictly controlled to maintain quality and environmental friendly operations. The company has gotten STMC, CE, ISO 9001 and ISO 14001 certified.

Aster Graphics always lays stress on the research and development of its design-around technology. We have the best knowledge and understanding on the toner cartridge patents. Our powerful team of IP engineers dedicated to patent research will make sure our products are safe.

Providing our consumers with the consistent high quality printer supplies products is always our mission. We look forward to cooperating with you.

▶ Global Distribution

Aster Graphics understands convenient, timely and reliable delivery is vital to our customers' satisfaction and success. To ensure customers all over the world can easily and quickly get access to our products and service, Aster Graphics has set up a global network of distribution warehouses, sales offices and customer support centers in the USA and in Europe.

Aster Graphics, Inc.

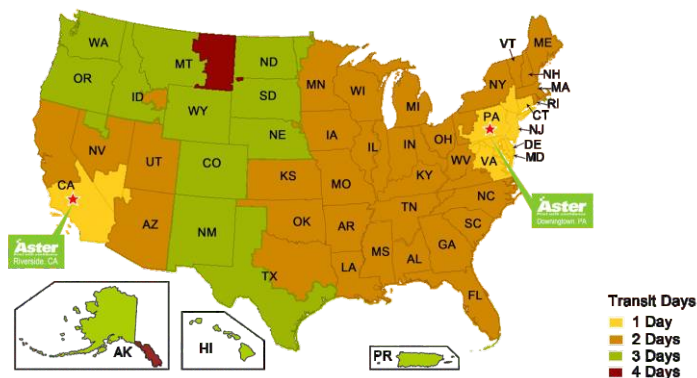

As a branch of Aster Graphics, the leading toner cartridge manufacturer, Aster Graphics, Inc. is your ideal and trustworthy supplier of printer consumables in North America and Latin America market.

- Three distribution centers located in Riverside, CA and Downingtown, PA
- Combined warehouse space of 75,000 square feet
- Stocking over 1,400 models, 1.5 million cartridges ready to ship
- 1-2 days delivery to the majority of U.S.
- Online ordering system: Quick Order takes orders 24/7
- Local representatives in east and west cost
- Competitive free freight program and flat rate
- I.T. integration with popular platforms

Aster Ground Shipping Map

Ground shipping covers 99.9% of the US in 1- 3 days.

Business days in transit from Riverside, CA or Downingtown, PA

Aster Technology Holland B.V.

Aster Graphics' European branch, Aster Technology Holland B.V. is located in the Netherlands. Meanwhile, Aster has set up local logistic centers and sales offices in the UK, Italy and Germany. As one of the largest distributors of imaging supplies in Europe, the company is always ready to offer you:

- **Full Range of Products**

Patent-compliant new built and green remanufactured toners for all the major printer brands, including wide range of niche products

- **Large Stock**

500,000 pcs of toners are ready to ship

- **Quick Delivery**

Distribution centers located in the Netherlands, the UK, Italy and Germany

Local supply with next day delivery to Germany, Benelux, Italy and the UK, 2 - 4 days to whole EU

- **Blind Drop Shipments Available**

Same day shipping with tracking information. Totally blind, easy and simple

- **Private Labels and Customized Boxes Available**

Promote your own brands with your own boxes or labels. We provide you with this service directly from our Netherlands, UK, Italy and Germany warehouses

▶ Partner Benefits

At Aster Graphics, we provide our customers not only with highest quality products, and broad and fast product availability, but also exceptional customer service every day. Partner with Aster Graphics, you will benefit more.

■ Customized Packaging

Our professional, experienced sales & marketing teams with in-house graphics designers are always ready to help you with your own packaging.

■ Private Label or Sleeve

We also offer private label or sleeve solutions which can promote your own identity in a most convenient and economy way.

■ Customer Service

If needed, our product team is pleased to provide our partners with professional training on products and technology. And all the technical questions and inquiries are handled promptly and professionally.

■ Marketing Support

We are glad to provide our partners with marketing graphics design, promotional giveaways purchasing and market information.

▶ Aster, Experts in Color

Aster is not only professional in monochrome cartridges but is also an expert in color. At Aster, we offer a full range of highest quality toner cartridges that deliver vibrant color and clean crisp prints.

■ Full Range

A full range of color toner cartridges for use with HP, Brother, Canon, Samsung, OKI, Epson, Xerox and Dell machines.

■ Absolutely No Leakage

In-house sealing technology guarantees absolutely no toner leakage, even in diverse environments.

■ Vibrant Color

The best combination of toner, OPC and DR delivers consistently vibrant and accurate color prints.

■ Clean Prints

Property technology ensures no toner additive build-up on a PCR, therefore ensuring clean prints.

■ Eco-friendly

Improved roller works perfectly in different environments and reduces ozone, CO₂ and SO₂ emissions during printing.

▶ Aster Jumbo Cartridges

Aster yield-extended and quality-extended jumbo cartridges

Making an extended yield toner cartridge is a big challenge to the raw material combinations and manufacturing techniques. Aster's proprietary technologies in jumbo cartridges allow us to achieve extended page yield without sacrificing print quality. The technologies, including the smart cleaning system to eliminate the toner additive buildups on PCR and doctor blade and recoating technology on recycled original mag rollers, ensure that the jumbo cartridges deliver stable and reliable print quality within the entire life cycle.

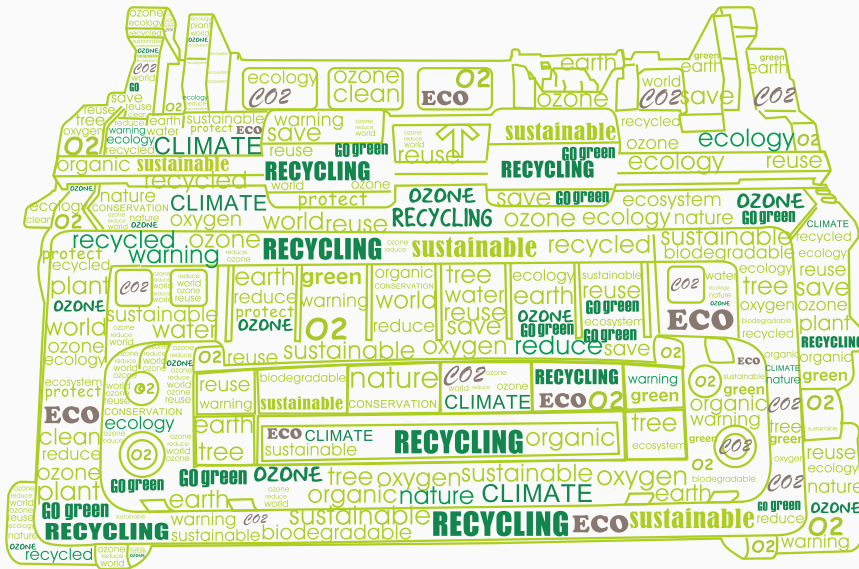

Features of Aster jumbo cartridges:

- Up to 150% more yield
- Stable printing quality from first to last
- Lower cost-per-page
- Ideal for high volume printing and MPS

Model	OEM Yield	Aster Yield	Increased Yield	Printer Model

▶ Remanufactured Products

Aster Graphics believes that proper recycling helps our environment; therefore we offer a closed loop environmentally recycling solution, by collecting and recycling empty cartridges which would normally end up in the landfills. Join us by using our remanufactured products!

Features of our remanufactured products:

- A wide range of remanufactured products
- Stable quality that meets or exceed the OEMs'
- A perfect balance between maximally reusing the empties and maintaining premium printing quality
- Our stringent quality control system and rich experience in remanufacturing ensure the consistency and reliability of the quality
- Environment-friendly by reducing the carbon footprint

▶ Niche Toner Kits

■ Full range

Over 400 models of toner kits are available, covering all the major printers of Kyocera, OKI, Dell, Xerox and Epson. A vast of niche market will bring you more customers and profit.

■ 100% compatible chips

Chips are randomly tested before installation, and are 100% tested on printers before the finished toner kits are packed.

■ 100% compatible toner powder

All toner kits are guaranteed to be compatible with original toner powder and that from the major toner powder manufacturers.

■ Product range is expanding

We have a dedicated team that concentrates on the development of toner kits. Check back with us to get the up-to-date product list.

■ Jumbo version available by request

Customized requirements on a higher page yield can be satisfied.

■ Competitive prices

Our expertise in toner kits allows us to work out the best quality products at very competitive prices. Ask our sales for a quotation now.

▶ Research & Development

R&D

Aster Graphics has some of the industry's most knowledgeable professionals who have the best knowledge and understanding on the toner cartridge technologies and are passionate about engineering innovation. From the very beginning of the establishment, Aster Graphics set out a long-term plan on yearly increasing investment into R&D. By doing so, Aster Graphics can always ensure its customers remain ahead of the competition.

- 360,000m² industrial park
- In-house plastic molding factory
- 30 professional engineers and specialists
- Advanced test machines

Environment Test Machine

Automated Shaking Machine

Blade Gap Testing Machine

Vacuum Test Machine

Aging Test Chamber

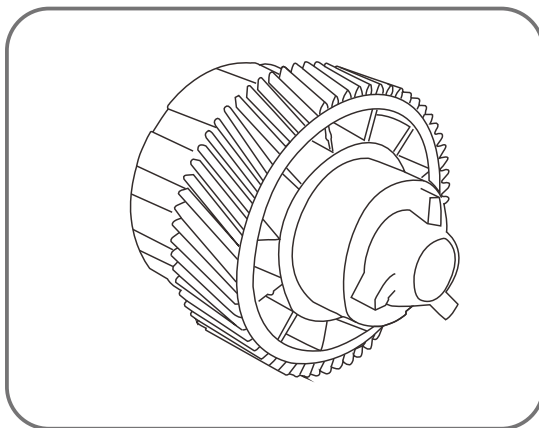

Granulometer

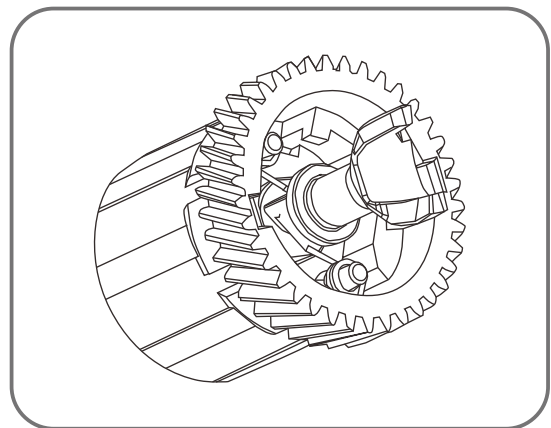

Patent Solution

Aster always lays stress on the research and development of its own patents. We have the best knowledge and understanding on the toner cartridge patents. Our powerful team of IP engineers dedicated to patent research always makes sure our products are free of patent risks.

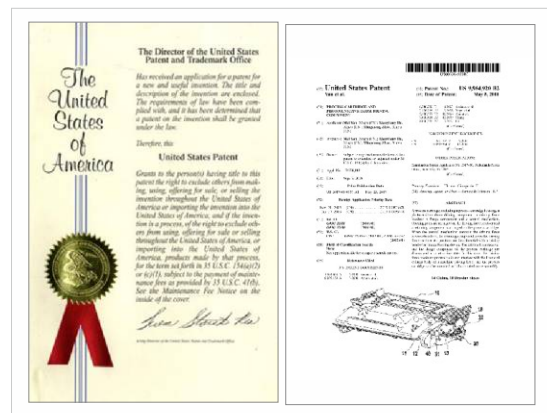

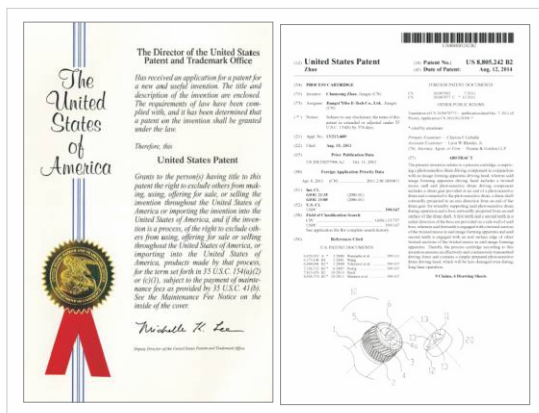

- In-house powerful team of IP engineers dedicated to patent research
- Close partnership with the well-known law firms
- Own key patents such as GearTek solution and Smart Gear solution

GearTek - Non-twist OPC drum gear
Pub. No. US2012/0257906

Smart Gear[®] - Non-dongle OPC drum gear
US. Patent No. 9,964,920

▶ Quality Control

Aster Graphics delivers cartridges that are produced according to the highest quality standards and meet or exceed OEM quality at highly competitive prices.

Inbound Raw Materials and Components Tests

We work with the top tier suppliers of raw materials and components to ensure the reliability and consistency of our products' quality. All incoming materials: drums, toner, blades, PCRs, magnetic rollers, etc. are verified against stringent standards before they reach the production floor.

Sort Empty Cartridges

All empty cartridges are sorted and graded. Only premium empty cartridges are used to ensure optimal quality.

Ultrasonic Welding

For new compatible cartridges, ultrasonic welding will be used to prevent leaks.

Filling Process

By using automated filling equipment, each cartridge is precisely filled to the exact specified weight. Toner hoppers are filled with premium toners, which are technically matched to the OPCs for optimal yields and printer performance.

Assembly

Every step of production is strictly inspected by the Quality Assurance Team. They check for spots in the key production steps to conduct a 100% inspection.

100% Post Testing

Every cartridge is tested at the end of assembly to capture and identify any assembly or component errors.

Retain Samples Testing

0.5% of the packaged cartridges will be randomly selected to perform life testing and extensive environmental testing.

Packaging Inspection

All cartridges receive a final inspection to ensure stringent quality standards. Cartridges are cleaned, polished, heat-sealed in a static resistant bag and boxed. A full set of instructions and warranty information is included.

Tracking System for All Products Sold

All Aster products are traceable. Each cartridge has a bar code that contains its components, production date and production team information, etc. This information makes it easy to trace and analyze the production history of a returned cartridge in our ongoing effort to always provide the highest quality product.

▶ Green Policy

As a printer supplies remanufacturer, we are more concerned about the environment and we are committed to reducing the waste and further to decreasing the damage to our precious environment. At Aster Graphics, we offer a closed loop environmentally recycling solution, by collecting and recycling empty cartridges which would normally end up in the landfills.

How it works

At Aster Graphics, all the collected spent OEM cartridges are sorted by our trained staff, dismantled and evaluated. If the cartridges are not suitable for remanufacturing, they will be recycled in an environmentally responsible way. If they can be remanufactured or reused, they will go through the rebuilding, refilling and further testing processes and then be resold on the market if they meet our quality standards. This process is more beneficial for the environment than even the recycling carried out by the original manufacturers which involves a heat-based industrial process to separate the plastic and metal components which are then melted down to be reused in other products or simply broken into pellets before being discarded as waste and ending up in the landfills again.

In addition to recycling the used cartridges in an environmental friendly way, in our daily operations, we also try our best to reduce our impact on the environment, such as recycling the cardboard packaging, plastic cartridge bags and pallets.
