Rolko North America Inc. is a subsidiary of Rolko Kohlgrüber GmbH, a leading manufacturer and supplier of components and accessories for the rehabilitation market as well as mobility solutions for companies from various industrial sectors. Rolko's headquarters is in Germany, with subsidiaries in Denmark, the Netherlands and the USA as well as a production plant in Asia. The company ensures advice, support and delivery around the globe.

Manufacturers and specialist retailers from over 80 countries rely on the product offering of Rolko, which includes wheels, tires, puncture-proof solutions and other components for wheelchairs and rehabilitation equipment. Rolko also offers rehabilitations aids such as wheelchair ramps, weather protection, transfer aids, seating and positioning aids, and accessories for scooters, power and manual wheelchairs. With over 30 years of industry experience, Rolko is here to meet your wheelchair needs.

Rolko has joined forces with MK Battery to provide enhanced logistics and distribution services throughout the U.S.

MK Battery is stocking select Rolko products, making them available via its nationwide order processing and route delivery system. MK customers are now able to add Rolko accessories, such as wheels, tires, seatbelts, arm-rests, etc. onto their orders. Rolko products not stocked in MK distribution centers are available to order from MK Battery for drop shipment.

Route delivery of certain products available through MK Battery

MK Battery Supports the HME Industry

MK Battery is committed to helping our HME business partners succeed in today's challenging environment. We offer an array of training and merchandising tools specifically designed for the HME dealer. From our accredited technical training programs to our retail marketing pieces, MK Battery provides the tools you need.

1.

3.

4.

5.

2.

1. Attractive "Recharge Every Night" reminder stickers are available to MK customers free of charge for placement on dispensed power mobility equipment. Authorized dealer decals also available.

2. The Battery Care & Maintenance Guide provides consumers with concise tips on proper care, charging, storage & maintenance and safety aspects associated with batteries used in their mobility equipment.

3. Full-color, retail display with takeaway insert. A visual accent to any dealer showroom with a clear message that quality batteries make a big difference in the performance of wheelchairs and scooters.

4. MK Battery offers an assortment of technical and educational support, specifically designed for the HME industry. Accredited in-service presentations and a host of other technical and training tools are available to authorized dealers.

5. MK Battery is committed to supporting the strategic industry initiatives at the national, state and local levels. Through educational programs, participation in global wheelchair standards committees, direct lobbying efforts, and financial support of industry associations, MK Battery is your partner in protecting the interests of the HME community.

MK Battery proudly supports:

AA HOMECARE | NRRTS | NCART | RESNA

Your Partner In Power and Parts

MK Battery is one of the world's largest specialty Sealed VRLA, deep-cycle battery suppliers. Trusted globally by mobility products manufacturers and HME providers, our mission to supply the highest quality battery products to the mobility industry has kept us at the forefront of providing unsurpassed battery performance and dependability.

Extended cycle life and high capacity sealed batteries are MK's hallmark. This means greater service life and performance for your customers. Our ongoing R&D efforts ensure you the most effective technology to meet your unique requirements.

MK Battery ships fresh inventory fast, often within 24 hours, from a stock of more than 100,000 batteries in multiple distribution centers throughout the world, and assists our customers with proper spent battery disposal thru EPA permitted smelters. (Please note that violation of hazardous waste disposal laws can place heavy penalties on offenders).

Educational literature. Training videos. Lobbying support for reimbursement. These are some of the things that set MK Battery apart from other battery sellers. MK Battery supports mobility manufacturers, HME providers, and consumers with extensive battery care, maintenance and safety information. We have worked to further the application of new technologies for the continued improvement of mobility through groups such as ANSI/RESNA Wheelchair Standards Committee, on which we proudly serve. With MK Battery, you know that you can expect our total commitment to keep you at the forefront of new technology and to provide the greatest value in power.

MK Battery is a proud sponsor and the official battery of the United States Power Soccer Association and TEAM USA National Power Soccer Team.

4x1.4"	1"	8mm	RLK-MCAG4BB
5x1.4"	1"	8mm	RLK-MCAG5BB
6x1.4"	1"	8mm	RLK-MCAG6BB

Technician Notes

Three-spoke ultralight aluminum caster wheels.

Custom-made 6061-T6 aircraft grade aluminum wheel that is machine-lathed for a perfect balance.

Priority, highly-resilient solid urethane tread is designed to minimize energy loss and absorb vibration.

Spherical arched-tread design improves pivotability for effortless turns and enhanced stability.

Extra width better distributes downward pressure allowing the wheel to maintain higher flotation and significantly reduces immersion into carpet, gravel, etc.

Technician Notes

Same great benefits of traditional Frog Legs wheels but specially designed for Ti-Lite wheels

Technician Notes

An economic alternative made with composite. Still with all the benefits of the Frog Legs wheel design.

Frog Legs and Skate Wheels

Blue Aluminum Lightweight Rim With Poly Tire

SIZE			Product Number
4x1"	1"	8mm	RLK-MCC24UB
4x1.4"	1"	8mm	RLK-MCLT4UB
