**RSS Data**

## Background

Since 1968, the Association of American Medical Colleges (AAMC) has published the AAMC Survey of Resident/Fellow Stipends and Benefits. The purpose of the survey is to provide benchmarking data to help the academic medicine community in evaluating appropriate resident and fellow stipends.

In even years, the survey fields a long-version which includes questions on stipends and benefits (such as in 2022). In odd years, the survey fields a short-version which does not include benefit questions (such as in 2023).

Respondents and affiliated institutions are eligible for special reports based on the resident/fellow data. If you would like to request a special analysis, please visit the AAMC website at <https://www.aamc.org/data-reports> and click on 'Request Data' to submit your request. If you have questions or feedback about this report, please email [residentstipends@aamc.org](mailto:residentstipends@aamc.org).

## What's New?

The 2023 AAMC Survey of Resident/Fellow Stipends and Benefits added Table 10.b.2. Additional Set Amount Provided to Chief Residents when Higher Chief Resident Stipends Determined by Set Amount. Sponsoring institutions were eligible to answer the question if an institution responded that higher stipends were provided to chief residents and those higher chief resident stipends were determined by a set dollar amount. The question asked sponsoring institutions to provide the additional set dollar amount a chief resident earns when compared to the average resident stipend.

## Methodology

The 2023 AAMC Survey of Resident/Fellow Stipends and Benefits launched on July 14, 2023. The survey was administered to 819 Accreditation Council for Graduate Medical Education (ACGME) accredited sponsoring institutions. Invitations were sent to DIOs at sponsoring institutions with associated programs for which the DIO's contact information was known. The survey included a question for the sponsoring institution to describe how the sponsoring institution was classified by ACGME. This self-reported institution type was used to aggregate the survey data by institution type.

For the purposes of the 2023 AAMC Survey of Resident/Fellow Stipends and Benefits Report, the AAMC rolled up the 12 ACGME institution types into four groups: academic medical centers / medical schools, general / teaching hospitals, other hospitals, and other institutions. According to the ACGME's Glossary of Terms at [https://www.acgme.org/portals/0/pdfs/ab\\_acgmeglossary.pdf](https://www.acgme.org/portals/0/pdfs/ab_acgmeglossary.pdf), a sponsoring institution is "The organization (or entity) that assumes the ultimate financial and academic responsibility for a program of graduate medical education consistent with the ACGME Institutional Requirements."

The instrument collected data as of July 1, 2023. Unless stated otherwise, all respondents were eligible to answer each question. Institutions were required to provide the institution type as classified by ACGME, the profit status of the sponsoring institution, and an institution category question. For all other questions, the institution was not required to answer the question. Refer to the institution count in each table to determine how many institutions responded to a particular question. Compensation statistics for stipends are provided only when at least five institutions are represented. For weighted average stipends, compensation statistics are provided when at least five institutions are represented and at least five residents/fellows are reported.

In total, 819 institutions were invited to the survey (198 AAMC-member and 621 non-member institutions). A total of 363 institutions responded to the survey (a 44.3% response rate for all institutions). Following data verifications and the removal of for-profit institution responses, there was usable information for 330 non-profit sponsoring institutions in the report. The 330 non-profit sponsoring institutions included in the report include a total of 144 AAMC-member and 186 non-member institutions (or a 72.7% response rate for AAMC-member institutions in the report, and a 30.0% response rate for non-member institutions in the report).

Of the 330 sponsoring institutions with usable information, 112 were academic medical centers / medical schools (or 33.9% of those submitting usable stipend data), 78 were general / teaching hospitals (or 23.6% of those submitting usable stipend data), 89 were other hospitals (or 27.0% of those submitting usable stipend data), and 51 were other (or 15.5% of those usable submitting stipend data).

The 2023 report includes stipends data for 115,234 residents and fellows as of July 1, 2023. Resident counts are not yet known for the 2023-2024 academic year. According to the ACGME, the total number of on-duty residents and fellows was 158,079 in academic year 2022-2023. This suggests an approximate coverage rate of 72.9% for the 2023 report.

Some tables in the report display unweighted means while other tables display weighted means. Unweighted means are means where each institution has the same weight, regardless of the size of the institution's training program. Weighted means are means that are weighted by the number of residents and fellows.

The 330 survey respondents are organized into several different cohort groupings which are displayed throughout the tables in this report. The institution types that are used throughout this report have been classified based on the sponsoring institution's response to the type of institution classification question within the survey:

- All respondents labeled 'Total' in the report (330 respondents).
- All respondents at academic medical centers / medical schools labeled 'Academic Medical Center / Medical School' in the report (112 respondents). This cohort includes sponsoring institutions with the institution type of Academic Medical Center / Medical School.
- All respondents at general / teaching hospitals labeled 'General / Teaching Hospital' in the report (78 respondents). This cohort includes sponsoring institutions with the institution type of General / Teaching Hospital.
- All respondents at other types of hospitals labeled 'Other Hospitals' in the report (89 respondents). This cohort includes sponsoring institutions with the institution types of Children's Hospital, Community Hospital, Independent Academic Medical Center, Specialty Hospital, and Veterans Administration.
- All respondents at other types of institutions labeled 'Other' in the report (51 respondents). This cohort includes sponsoring institutions with the institution types of Ambulatory Care Clinic / Office, Consortium, Federally Qualified Health Center, Pathology Lab / Medical Examiner's Office, and Other.

## Selected Findings

The unweighted mean program year 1 stipend for all responding institutions is \$63,800 (as of July 1, 2023). The mean difference for program year 1 unweighted stipends between stipends as of July 1, 2022, and stipends as of July 1, 2023, is \$2,858. The weighted mean program year 1 stipend for all regions is \$65,340 (as of July 1, 2023).

Of the 283 institutions that submitted stipends data and responded to the question, the majority of the institutions (96.1%) reported that they pay the same base stipends to residents and fellows at each level across all specialties.

Throughout the report, there are four categories of institution type: academic medical centers / medical schools, general / teaching hospitals, other hospitals, and other. As described in the Methodology section, these categories are based on the sponsoring institution's self-reported institution type.

All sponsoring institutions in the report are nonprofit organizations, based on the information reported to AAMC in the 2023 Survey of Resident/Fellow Stipends and Benefits.

### Section 1 Resident/Fellow Stipends

Tables 1-11b present stipend data reported by region and institution type. These tables include mean stipend data and values at the 25th, 50th (median), and 75th percentiles. With the exception of Table 2, which presents data adjusted by the Consumer Price Index (CPI-U, for all urban consumers), the stipend data are not adjusted for regional wage or cost-of-living differences.

Stipend tables 4a-4d, 5a-5d, 6a-6d, 7a-7d, 8a-8d, and 9a-9d provide breakouts by institution size. Institution size is determined by the median number of residents and the median number of programs for each sponsoring institution. Cohorts were created for sponsoring institutions falling at or above these medians and below these medians. Sponsoring institutions are included in breakouts by institution size if the sponsoring institution reported the number of ACGME-accredited programs and/or reported the number of residents/fellows at the sponsoring institution to the survey.

### Resident/Fellow Stipends by Region and Institution Type Flat File

The RSS Data tab of this report contains a flat, analytic file of the aggregated stipend data presented in Section 1 Resident/Fellow Stipends Table 1 and Tables 4 through Table 9. Compensation statistics for stipends are provided only when at least five institutions are represented. For weighted average stipends, compensation statistics are provided when at least five institutions are represented and at least five residents/fellows are reported. In addition, resident counts and weighted means are suppressed for the breakout of institution type. Resident counts and weighted means for all institutions by region, which are displayed in Tables 4-4d, can be found in the flat, analytic file. Likewise, institution counts and unweighted means for all institutions and by institution type, which are found in Tables 5 through 9, can be found in the flat, analytic file.

Thank you to all the sponsoring institutions who responded to the 2023 Survey of Resident/Fellow Stipends and Benefits and helped make this report possible.

If you have any thoughts or questions, please contact survey staff at [residentstipends@aamc.org](mailto:residentstipends@aamc.org).

The AAMC Survey of Resident/Fellow Stipends and Benefits report uses the following chart to classify states by region:

<b>Northeast</b>	<b>Central</b>	<b>Southern</b>	<b>Western</b>
Connecticut	Illinois	Alabama	Alaska
Delaware	Indiana	Arkansas	Arizona
District of Columbia	Iowa	Florida	California
Maine	Kansas	Georgia	Colorado
Maryland	Michigan	Kentucky	Hawaii
Massachusetts	Minnesota	Louisiana	Idaho
New Hampshire	Missouri	Mississippi	Montana
New Jersey	Nebraska	North Carolina	Nevada
New York	North Dakota	Oklahoma	New Mexico
Pennsylvania	Ohio	Puerto Rico*	Oregon
Rhode Island	South Dakota	South Carolina	Utah
Vermont	Wisconsin	Tennessee	Washington
		Texas	Wyoming
		Virginia	
		West Virginia	

\*Puerto Rico is classified in the Southern region. However, Puerto Rican institutions are not included in regional breakdowns. If institutions in Puerto Rico respond to the survey, they are included only in the calculation of All Regions.

Table 1 presents summary data on national resident/fellow stipends for each of eight program years. The program year one unweighted mean stipend as of July 1, 2023 for all responding institutions is \$63,800. Unweighted means are means where each institution has the same weight, regardless of the size of its training program. This approach prevents larger institutions from skewing the mean.

	<b>Year of Training</b>	<b>Institution Count</b>	<b>Mean Unweighted Stipend</b>	<b>25th Percentile</b>	<b>Median</b>	<b>75th Percentile</b>
<b>Stipends as of July 1, 2023</b>	Program Year 1	326	\$63,800	\$59,602	\$62,722	\$66,918
	Program Year 2	324	\$66,350	\$61,843	\$65,306	\$69,431
	Program Year 3	322	\$69,084	\$64,168	\$67,763	\$72,679
	Program Year 4	259	\$72,665	\$67,009	\$71,235	\$76,493
	Program Year 5	235	\$76,163	\$70,235	\$74,837	\$80,521
	Program Year 6	212	\$78,591	\$72,465	\$76,947	\$83,617
	Program Year 7	171	\$82,545	\$75,982	\$81,067	\$88,055
	Program Year 8	125	\$87,502	\$80,308	\$85,380	\$92,664

Table 2 displays mean first program year stipends for each year from 1968-1969 to stipends as of July 1, 2023. Since a different group of institutions responds each year, changes in stipends from year-to-year may reflect characteristics of different cohorts of institutions responding to the survey each year, in addition to actual stipend changes.

Table 2 also displays unweighted and adjusted stipends by the U.S. Bureau of Labor Statistics Consumer Price Index for "All Urban Consumers (CPI-U). All Items" from 1968-1969 to stipends as of July 1, 2023. Stipend data are shown in 2023 dollars and adjusted to constant 1969 dollars. Between July 1, 2022 and July 1, 2023, stipends paid by respondents in the 2023 survey were 4.7%, or \$2,858, higher than stipends paid by 2022 survey respondents. CPI-U-adjusted stipends increased by \$119 (from \$7,137 to \$7,256). The CPI-U-adjusted mean first program year stipend as of July 1, 2023 is \$7,256, which represents a 17.0% real increase over the \$6,200 mean first program year stipend that residents were paid in 1968-1969.

Survey Year	Mean Unweighted Stipend	Percent Change from Prior Survey Year	Dollar Change from Prior Survey Year	CPI-U	Mean Inflation-Adjusted Stipend
2023	\$63,800	4.7%	\$2,858	305.1	\$7,256
2022	\$60,942	2.8%	\$1,664	296.3	\$7,137
2021	\$59,279	0.6%	\$358	271.7	\$7,571
2020	\$58,921	3.0%	\$1,730	257.8	\$7,931

1969-1970	\$7,325	18.1%	\$1,125	36.6	\$6,945
1968-1969	\$6,200	-	-	34.7	\$6,200

Table 3a displays the percent and dollar changes in mean unweighted stipends as of July 1, 2022 and as of July 1, 2023 calculated for respondents reporting in both years. Dollar and percent increases are reported only for institutions that responded to both the 2022 and 2023 AAMC Resident/Fellow Surveys (243 institutions at the first program year, declining to 96 institutions at the eighth year). The mean increase between first-year unweighted stipends as of July 1, 2022 and as of July 1, 2023 is \$2,557. The percent increase over the first-year unweighted stipends as of July 1, 2022 and as of July 1, 2023 is 4.2%.

	Year of Training	Institution Count	Mean Unweighted Stipend	25th Percentile	Median	75th Percentile
<b>Dollar Change</b>	Program Year 1	243	\$2,557	\$1,206	\$1,911	\$3,357
	Program Year 2	245	\$2,653	\$1,251	\$2,000	\$3,476

	Program Year 8	96	5.1%	2.9%	3.9%	6.0%

Table 3b displays the unweighted stipend increases for a cohort of institutions (ranging from 242 to 103 institutions depending on program year) that responded in both survey year 2022 and survey year 2023. The total increase for any cohort typically includes a step increase (the increase in payment received when entering the next program year) and a base increase (the overall average increase associated with increases in the cost of living for every level). The mean increase from the first program year in survey year 2022 to the second year in survey year 2023 was \$5,049, or 8.2%.

Table 4 displays the number of residents and fellows at each institution and the weighted mean stipends for each program year. The mean is weighted by the number of residents and fellows. The weighted mean stipend for all regions at the first program year is \$65,340. The All Region category comprises all participating institutions. A comparison of the unweighted mean stipend for the first program year in table 1 and weighted mean stipend for the first program year for all regions in table 4 shows a difference of \$1,539 between weighted and unweighted mean stipends.

**5a**

Resident/Fellow Unweighted Stipends for All Regions, by Institution Type, for Institutions with a total amount of ACGME-accredited programs greater than or equal to the median

Table 5a displays unweighted stipends for sponsoring institutions in all U.S. regions that were at or above the 50th percentile for number of ACGME-accredited programs. The 50th percentile for Academic Medical Centers / Medical Schools is 54.5; for General / Teaching Hospitals is 8.0; for Other Hospitals is 4.0; for Other institutions is 3.0; and, for Total respondents is 12.0. Unweighted stipends were reported for 165 institutions for the first program year.

Resident/Fellow Unweighted Stipends for All Regions, by Institution Type, for Institutions with a total amount of ACGME-accredited programs less than the median

Table 5b displays unweighted stipends for sponsoring institutions in all U.S. regions that were below the 50th percentile for number of ACGME-accredited programs. The 50th percentile for Academic Medical Centers / Medical Schools is 54.5; for General / Teaching Hospitals is 8.0; for Other Hospitals is 4.0; for Other institutions is 3.0; and, for Total respondents is 12.0. Unweighted stipends were reported for 161 institutions for the first program year.

6a

Resident/Fellow Unweighted Stipends for Northeast Region, by Institution Type, for Institutions with a total amount of ACGME-accredited programs greater than or equal to the median

Table 6a displays unweighted stipends for sponsoring institutions in the Northeast Region that were at or above the 50th percentile for number of ACGME-accredited programs. The 50th percentile for Academic Medical Centers / Medical Schools is 54.5; for General / Teaching Hospitals is 8.0; for Other Hospitals is 4.0; for Other institutions is 3.0; and, for Total respondents is 12.0. Unweighted stipends were reported for 46 institutions for the first program year.

Resident/Fellow Unweighted Stipends for Southern Region, by Institution Type, for Institutions with a total amount of ACGME-accredited programs greater than or equal to the median

Table 7a displays unweighted stipends for sponsoring institutions in the Southern Region that were at or above the 50th percentile for number of ACGME-accredited programs. The 50th percentile for Academic Medical Centers / Medical Schools is 54.5; for General / Teaching Hospitals is 8.0; for Other Hospitals is 4.0; for Other institutions is 3.0; and, for Total respondents is 12.0. Unweighted stipends were reported for 49 institutions for the first program year.

Resident/Fellow Unweighted Stipends for Central Region, by Institution Type, for Institutions with a total amount of ACGME-accredited programs greater than or equal to the median

Table 8a displays unweighted stipends for sponsoring institutions in the Central Region that were at or above the 50th percentile for number of ACGME-accredited programs. The 50th percentile for Academic Medical Centers / Medical Schools is 54.5; for General / Teaching Hospitals is 8.0; for Other Hospitals is 4.0; for Other institutions is 3.0; and, for Total respondents is 12.0. Unweighted stipends were reported for 44 institutions for the first program year.

Resident/Fellow Unweighted Stipends for Western Region, by Institution Type, for Institutions with a total amount of ACGME-accredited programs greater than or equal to the median

Table 9a displays unweighted stipends for sponsoring institutions in the Western Region that were at or above the 50th percentile for number of ACGME-accredited programs. The 50th percentile for Academic Medical Centers / Medical Schools is 54.5; for General / Teaching Hospitals is 8.0; for Other Hospitals is 4.0; for Other institutions is 3.0; and, for Total respondents is 12.0. Unweighted stipends were reported for 26 institutions for the first program year.

**TABLE 10** Percent of Respondents which Provide Higher Stipends to Chief and/or Other Residents/Fellows

10

Survey of Resident/Fellow Stipends and Benefits Report 2023

Table 10 displays the percentage of institutions whose base stipends are the same across specialties, that provide higher stipends to chief residents and that provide higher stipends to residents/fellows other than chief residencies as of July 1, 2023. For 10.a below, there are 46 institutions not in the table because they indicated the response option "N/A: Sponsoring institution has only one specialty."

	Institution Count	Percent Responded Yes	Percent Responded No
<b>10.a.</b> Percent of institutions whose base stipends are the same across all specialties	283	96.1%	3.9%
<b>10.b.</b> Percent of institutions that provide higher stipends to chief residencies	330	70.6%	29.4%
<b>10.c.</b> Percent of institutions that provide higher stipends to residents/fellows other than chief residencies	329	10.9%	89.1%

**10.b.1** How Chief Resident Stipends are Determined

Table 10.b.1 displays how chief resident stipends are determined for institutions that provide higher stipends to chief residents as of July 1, 2023. Institutions that responded "Yes" in table 10 line b were eligible to answer this question.

	Institution Count	Percent
Formula	25	10.8%
Set amount	134	58.0%
Varies by department	55	23.8%
Other	17	7.4%
Total	231	100.0%

**10.b.2** Additional Set Amount Provided to Chief Residents when Higher Chief Resident Stipends Determined by Set Amount

Table 10.b.2 displays aggregate statistics for the additional set dollar amount chief residents are provided when chief residents receive higher stipends and the amount is determined by a set amount. Institutions that responded "Yes" in table 10 line b (chief residents are provided higher stipends) and responded "Set Amount" in table 10.b.1 (higher chief resident stipends determined by a set amount) were eligible to answer this question.

	Institution Count	Mean	25th Percentile	Median	75th Percentile
Additional set dollar amount	130	\$4,980	\$1,500	\$2,500	\$3,850

**10.c.1** Which Type of Residents/Fellows are paid Higher Stipends

Table 10.c.1 displays types of residents/fellows other than chief residencies that are paid higher stipends as of July 1, 2023. Institutions that responded "Yes" in table 10 line c were eligible to answer this question. Of eligible to answer institutions, 36 respondents (15 Academic Medical Centers / Schools, 6 General / Teaching Hospitals, 8 Other Hospitals, and 7 Other) answered the question. Respondents could select more than one answer.

	Institution Count	Percent
Resident/fellow faculty	7	19.4%
Residents/fellows with an H-1B visa	3	8.3%
Residency association officers	6	16.7%
Trainees with prior GME experience	10	27.8%
Other	18	50.0%

sponded  
Medical  
swer.

**TABLE 11** When was the Last Time Stipends Were Adjusted

*Survey of Resident/Fellow Stipends and Benefits Report 2023*

Table 11 displays the last time stipends were adjusted at each institution.

	<b>Institution Count</b>	<b>Percent</b>
Last year	259	78.7%
Two years ago	21	6.4%
Three years ago	11	3.3%
Other	38	11.6%
<b>Total</b>	<b>329</b>	<b>100.0%</b>

**11.a** Tools used to Decide the Stipend Adjustment Amount

Table 11.a provides a summary of what tools were used to decide on the stipend adjustment amount. Of responding institutions, 330 respondents (112 Academic Medical Centers / Medical Schools, 78 General / Teaching Hospitals, 89 Other Hospitals, and 51 Other) answered the question. Of those respondents, 248 selected more than one approach to adjusting stipends.

	<b>Institution Count</b>	<b>Percent</b>
GME office recommendation	198	60.0%
Review of market data other than AAMC	128	38.8%
AAMC Resident/Fellow Stipends and Benefits Report	216	65.5%
Union agreement	37	11.2%
Cost-of-living adjustment	147	44.5%
Other	48	14.5%

**11.b** Entities or Individuals with Ultimate Approval Authority over Stipend Adjustments

Table 11.b provides a summary of which entities or individuals have ultimate approval authority over stipend adjustments. Of responding institutions, 328 respondents (112 Academic Medical Centers / Medical Schools, 77 General / Teaching Hospitals, 88 Other Hospitals, and 51 Other) answered the question. Of those respondents, 175 selected more than one entity or individual with ultimate approval authority over stipend adjustments.

	<b>Institution Count</b>	<b>Percent</b>
Board of regents	13	4.0%
Board of trustees	81	24.7%
CEO or President	177	54.0%
GME office	67	20.4%
Graduate Medical Education Committee	149	45.4%
Union	23	7.0%
Other	81	24.7%
