Reliable, eco-conscious monitors at a great value

AMPLIFY YOUR WORK

More productive by design: Make your monitor your own with the height adjustable stand and incoming notifications from integrated speakers.

Enhance your workspace: A thinner profile than the previous generation and improved cable management create a smaller footprint, lending itself to a clean, uncluttered desk.

Plug in: Quickly connect legacy or non-legacy PCs with VGA and HDMI ports.

Adapts to your needs: Make your workspace your own with VESA-compatible mounts and stands.

ECO-CONSCIOUS INSIDE AND OUT

Energy efficient: This monitor meets the latest regulatory and environmental standards such as ENERGY STAR® and TCO, and is registered EPEAT® Gold.² Dell E2720HS has also been awarded the ENERGY STAR® Most Efficient Mark in 2020!

Reduce energy: Save energy with PowerNap³, a feature that dims or puts the monitor to sleep when not in use.

Eco-conscious packaging: To reduce our manufacturing impact on the environment, this monitor is shipped in Styrofoam-free packaging and the paper based material is made of at least 75% recycled cardboard.

DELL DISPLAY MANAGER

Productive at every level: Dell Display Manager's (DDM) Easy Arrange feature lets you quickly tile and view your applications side by side across one or more connected screens for multi-tasking efficiency.

Seamless transitions: The Auto-Restore feature remembers where you left off, so applications will go back to where you left them — even after you've unplugged.

The key to convenience: Shortcut keys can save you time, allowing quick access to commonly used controls that let you work faster.

More ways to manage: Asset management reports allow IT managers to quickly capture and track monitor information as well as configure multiple displays at once through a single setup.
