PRT00254 Ground Wire Kit for Standard EM Products.

Model #: PRT00254

12NC: 913702472901

Ground Wire Kit for Standard EM Products.

Specifications:

- Kit includes ground wire with ring terminal, flathead machine screw and kep nut to install ground wire on emergency unit.
- Installation instructions are included on the outside of the kit bag.
- Terminal ring is sized to accept a #10 machine screw.
- Care must be taken to ensure there is a good grounding bond established between the ground wire ring terminal and the emergency unit. For example, excess paint or corrosion preventative should be removed before ground wire installation.
