RICK SCOTT
GOVERNOR

November 16, 2011

Dear Friends:

It is a pleasure to welcome you to the 73rd meeting of the National Council of Family Relations at the Rosen Centre Hotel in Orlando, Florida.

Founded in 1938, the National Council of Family Relations is the oldest organization focusing solely on family research, practice, policy, and education. With over 4,000 members, your organization represents all 50 states, as well as 34 countries. The publication of three scholarly journals provides essential information for the multidisciplinary understanding of families. This year's conference theme, *Families and the Shifting Economy*, is being addressed through over 400 presentations covering cutting edge research on family processes, interventions, and their effects on families in all their diverse forms.

Best wishes for a successful conference.

Sincerely,

A handwritten signature in black ink, appearing to read "Rick Scott".

Rick Scott
Governor

National Council of Family Relations

Welcome to the 2011 NCFR Conference

Objectives of the NCFR Annual Conference

- To provide a forum to disseminate family research
- To share effective and evidence-based practice applications for direct family service
- To promote the CFLE credential and its educational and preventive approach to working with families
- To discuss policy implications of family research and how to inform decision-makers
- To promote the professional development of its membership, through participation in NCFR governance and by offering opportunities for continuing education units (CEUs) for credentialing

The NCFR Mission

To provide an educational forum for family researchers, educators, and practitioners to share in the development and dissemination of knowledge about families and family relationships, establish professional standards, and work to promote family well-being.

2011 Conference Theme:

“Families and the Shifting Economy”

Program Chair:

Leonor Boulin Johnson, Ph.D.,
Arizona State University

If it is true that an economic crisis is like war in that it affects everything it touches, then the arsenal of expertise available to each Section and focus group is essential for equipping families to traverse the ebbs and flows of the economic storm. Our theme allows us to highlight the national and international factors blocking families' access to health, housing, and employment as well as to examine the consequences for individuals and their relationships.

NCFR thanks the following sponsors for their contributions to the 2011 Annual Conference

2011 Proposal Reviewers

One of the strengths of the NCFR Annual Conference is the concurrent sessions sponsored by Sections. The reviewers' role is key to ensuring that conference presentations are of the highest quality for a rich, rewarding, and stimulating conference experience.

Why I attend the NCFR Annual Conference

NCFR has been my professional home for over three decades. The annual conference quickly became central in my professional development and continues to be so. The conferences expose the most current research, allow opportunities to meet colleagues, mentor new professionals, and just as important, allow renewing friendships over long leisurely dinners.

The Environment of Childhood Poverty

Speaker: **Gary William Evans, Ph.D.**

We have known for many years that poverty is bad for children, but why is that? A principal reason for poverty’s adverse impacts on children is because of the confluence of physical and psychosocial risks that disadvantaged children must regularly contend with, says presenter Dr. Gary Evans. He will review descriptive data from a wide range of studies, will document the panoply of risks that low SES children endure, and provide an in-depth look at a longitudinal research program designed to investigate the role of cumulative risk exposure in conveying poverty’s ill effects on human development.

Gary William Evans is Elizabeth Lee Vincent Professor of Human Ecology at Cornell University and an environmental and developmental psychologist.

Family Caregiving of Older Adults

William E. Haley, Ph.D.

With the aging of the U.S. population, increasing numbers of older adults will experience chronic disabilities requiring care. Currently family caregivers provide the majority of care for impaired older adults, often at great sacrifice to the caregiver's own well-being, and changing social and economic circumstances can provide even greater challenges in the years ahead. This presentation addresses how social and economic changes affect family caregivers now and in the years to come.

William E. Haley, Ph.D., is a professor in the School of Aging Studies at the University of South Florida.

Why I attend the NCFR Annual Conference

There are so many reasons why I have attended the NCFR conference over the last 35 years. I find the experience "energizing" as it brings me into contact with people who share my research, teaching and service interests. I gain knowledge from the presentations I attend and, as importantly, I am inspired by the "informal learning opportunities" with colleagues from around the world. As my professional roles have changed, the conference has provided me with opportunities to recruit job candidates for faculty positions and to learn about the cutting edge research being done by scholars for possible inclusion in *Family Relations*. **Ronald Sabatelli, Ph.D., CFLE, Editor, Family Relations**

Why I attend the NCFR Annual Conference

Each year I not only look forward to sessions and speakers focused on leading-edge thought but also to all the warm-hearted professionals that share my passion for families. As this year's program chair, my theme, "Families in a Shifting Economy," provides forums for participants to creatively catalyze research, theory, and practice to address critical family issues. If you value scholarship and meaningful camaraderie, meet us in Orlando this November. **Leonor Boulton Johnson, Ph.D., 2011 Conference Program Chair**

The NCFR “Walk to Phoenix”

The wellness walk with everything!

A free pedometer, prizes, healthy living tips, friendly competition, product discounts, and fun.

The Family and Health Section, chaired by Jan McCulloch, is conducting a “Walk to Phoenix” campaign. The goal: Start walking this year during or after the annual conference and see how many miles you can log in by October 1, 2012 (just before the start of the 2012 conference in Phoenix). You can participate as an individual and as part of team. And you don’t have to make it the entire distance from Orlando to Phoenix (1,866 miles as the crow flies or 2,187 miles on Interstate 10).

How it works

- Sign up to participate (at the conference this year or anytime afterward); no cost, no obligation. All we need is an email address and your name for starters.
- You get a free pedometer from Walgreens. We will use the “Walk with Walgreens” walking program to record steps online.
- Report your totals every month or two to walk@ncfr.org. We’ll keep a running total and provide updates on the NCFR website.
- Our wrap-up celebration is the “Walk for Families” 5k Event during the conference in Phoenix. A modest charge covers the cost of a T-shirt and a donation to a local family-oriented services provider in the Phoenix area.

Who’s eligible, teams

- You must be an NCFR member
- Designate the NCFR section that you are walking for (your steps/miles are included for that section automatically)
- Optional: recruit a team (up to 10 members): a few friends; a faculty group; your state affiliate; a student group. Your team’s total steps/miles will be divided by the number of team members to determine an average for competition purposes.

What you can win

- Individual with the most steps/miles gets free conference registration or two years of free NCFR membership.
- Individual in each age class (optional) with the most miles gets a free year of NCFR membership (age 34 and under; ages 35-54; age 55 and older).
- Section with the most total miles gets a catered reception as part of their business meeting at the conference.
- Team that averages the most steps/miles per team member gets a catered party at the conference (if you can’t attend, you get \$25 credit toward membership renewal). Maximum team membership is 10.
- Everyone with the equivalent of 100 miles in steps goes into the drawing for major prizes including electronics, NCFR perks, and more. (Need not be present to win.)

What's (Not) Wrong With Low-income Couples: Maintaining Intimacy in More and Less Affluent Marriages

Divorce rates are higher in low-income neighborhoods than in upper-income neighborhoods, but most research about adult intimacy comes from studies on relatively well-educated, affluent couples. Dr. Benjamin Karney will describe the latest results from a program of research focusing on intimacy in lower-income couples. This session is followed by a related workshop on military families.

Benjamin Karney, Ph.D. is Professor of Social Psychology at the University of California, Los Angeles, and twice winner of the NCFR Reuben Hill Research and Theory Award.

Why I attend the annual conference

One of the best parts of being affiliated with NCFR is the opportunity to get to know students, faculty, and practitioners from around the country who are interested in cutting edge ideas and interventions related to family life. At the conference there are opportunities to have lunch with the leaders in our field, attend networking sessions, and listen to excellent presentations that get you

excited about your own work. In addition, the Student/New Professional sessions have been critical in preparing me for the job market and for the transition from student to faculty. I think that NCFR is the most practical and effective conference I attend. I wouldn't miss it! *Cassandra Dorius, Ph.D., S/NP Program Representative*

Pre-Conference Workshops, Tuesday, October 30

Hyatt Regency Phoenix • Phoenix, Arizona

Phoenix offers you everything you could want in entertainment, climate, shopping, sightseeing.

Families and Health

Leigh Leslie, University of Maryland,
Program Chair

The World Health Organization defines health as “a state of complete physical, mental, and social well-being.” As a discipline, we have long been focused on the mental and social foundations of health. The theme of the 2012 conference encourages us to also explore the multitude of ways in which the physical aspects of health are relevant to our understanding of well-being for children, families, and communities. At the substantive level, the conference will address critical questions such as what is “family health” and how do we promote it through our research, interventions, and policy? At the discipline level, we will engage the question of how do we, as family scientists, interface with health disciplines.

MAJOR SESSIONS

The following speakers are confirmed.

Brian D. Smedley, Vice President and Director of the Health Policy Institute of the Joint Center for Political and Economic Studies, Washington, DC

Barbara Fiese, Professor of Human Development and Family Studies at the University of Illinois at Urbana/Champaign and Director of the Family Resiliency Center

Jackie Campbell, Anna D. Wolf Chair and Professor, Johns Hopkins University School of Nursing and the Bloomberg School of Public Health

Their presentations are in planning; watch for titles and details early in 2012.

Notes

Why become a member?

We are NCFR

...the premier professional association for the multidisciplinary study of families. NCFR attracts professionals from all areas of research, teaching, practice, policy analysis, and human services.

Our members' interests—as diverse as their careers and backgrounds—are focused on topics and efforts that yield a common benefit: strengthening families.

Our organization

The National Council on Family Relations, established in 1938, is a nonpartisan, nonprofit professional organization focused solely on family research, policy and practice. Our 3300 members represent the nation's leading family researchers, educators, and practitioners.

Our journals

Journal of Marriage and Family . . . JMF, for 70 years the premier journal in the area of marriage and family. Editor: David Demo

Family Relations: Interdisciplinary Journal of Applied Family Studies . . . FR provides an applied focus for practitioners, educators, and policy professionals. Editor: Ronald Sabatelli

Journal of Family Theory & Review . . . New in 2009, JFTR provides a new option for exploring family and relationship theory; complimentary distribution to all journal-subscribing members in 2010. Editor: Robert Milardo

Our CFLE credential...the standard for family life educators

Certification is provided to family life educators through the Certified Family Life Educator designation. The NCFR CFLE curricular requirements have been incorporated into degree programs at more than 110 colleges and universities.

Stay informed

NCFR Report, the member magazine is published quarterly and features a "Family Focus" section with contributed articles on key topics. *Network* is the CFLE newsletter that includes book reviews, best practices, and news from CFLEs around the world. The "Zippy News" e-newsletter provides weekly updates and announcements on family matters.

Local connections

A dozen state affiliate councils gives NCFR a local flavor. Stay in touch with members in your area through conferences, events, and communications. Plus, 20 student affiliates offer a great option to build your resume and connect your academic experience to real-world opportunities. The Affiliate Councils provide communication options and conference program events to share information with other local affiliate members.

Shared interests...NCFR sections make it happen for you

There are ten sections within NCFR, each with a particular area of emphasis. Section members communicate through listservs and web page announcements. Many presentations at the Annual Conference are determined by section submission, review, and sponsorship.

Annual Conference...professional development plus

Stimulating and enlightening...that describes the NCFR annual conference. You'll find major presentations by leading professionals, break-out sessions of all kinds, and informal networking. Grow professionally, establish new contacts, and build lasting relationships.
