## More Standard Features -> Faster Installation

1

### Cable Access Roof

- Eight cable entry slots
- Toolless mounting of overhead cable trough system
- Snap-in mounting for allow easy roof removal and installation with cables in place

2

### Integrated Baying Brackets

- Pre-Installed on frame front and back
- Spacing Options at 24 in or 600 mm
- Bays with other APC power and cooling products

3

### Pre-installed Levelling Feet and Casters

- Easily adjustable levelling from top down
- Casters standard on all enclosures

4

### Toolless, Zero U Accessory Channel

- Toollessly mount PDUs
- Toollessly mount vertical cable organizers
- New cable fastening features

5

### Easily Adjustable Vertical Mounting Rails

- Simple screw and cam engagement
- Captive screws - No loose hardware
- Easy visual alignment for quick adjustment
- ¼ inch increments through enclosure

6

### HALF-HEIGHT SIDE PANELS

- Easy and safe handling
- Quick release latch
- Lockable - same key as doors
- Enclosure width the same with or without sides installed

Heights – 24U, 42U, 45U, 48U, 52U  
 Widths – 600mm ( 24"), 750mm (30")  
 Depths – 1070mm (42"), 1200mm (47.5")  
 Colors – Black, White, Grey

1

2

4

6

3

7

### Other standard features include:

- Integrated electrical bonding of sides, doors, roof and rails to frame
- Ventilated front and rear door
- Split-rear ventilated rear doors for better clearance in hot aisle
- Numbered U positions front and back.
- Open bottom for unobstructed under floor access
- 3000 lb static load, 2250 lb dynamic (rolling) load
- UL Listed
- EIA -310-E Compliant

# NetShelter® SX Enclosures

## Selection

NetShelter SKU	Height	Width	Depth	Application
AR3100	42U	600mm (24 in)	1070mm (42 in)	Low -Med Density Servers
AR3300	42U	600mm (24 in)	1200mm (47.5 in)	Med - High Density Servers
AR3107	48U	600mm (24 in)	1070mm (42 in)	Low -Med Density Servers
AR3307	48U	600mm (24 in)	1200mm (47.5 in)	Med - High Density Servers
AR3150	42U	750mm (30 in)	1070mm (42 in)	Networking and Blade Applications
AR3350	42U	750mm (30 in)	1200mm (47.5 in)	HD Networking and Blade Applications
AR3140	42U	750mm (30 in)	1070mm (42 in)	High Density Networking
AR3340	42U	750mm (30 in)	1200mm (47.5 in)	Very High Density Networking
AR3157	48U	750mm (30 in)	1070mm (42 in)	Networking and Blade Applications
AR3357	48U	750mm (30 in)	1200mm (47.5 in)	Networking and Blade Applications
AR3104	24U	600mm (24 in)	1070mm (42 in)	Remote Server Applications

### Applications For Depth

- 42 in (1070mm) is the standard depth and meets most low to med. density applications
- 47-48 in depth enclosures are becoming the new standard because of increasing server depth crowding cable and power space.
- The 47.5 in (1200mm) NetShelter has double the toolless mounting locations for more PDU and cable management options.

### Applications For Height

- 24U Enclosures - Remote offices and small spaces
- 42U Enclosures – Standard height used globally, designed to fit through standard doorways
- 48U & 52U Enclosures – More U spaces for more equipment in the same footprint.

### Applications For Width

- 24 in (600mm) wide enclosures are the standard for most server applications. For higher densities, see Depth.
- 30 in (750mm) wide enclosures offer more space for high capacity cable management and power distribution. Typically wider enclosures are used for Networking applications but the extra side space is often requested in Blade Server applications.

# NetShelter® SX Networking Enclosure

Modified wide NetShelter SX design for improved networking application support and a superior solution for side airflow Cisco 6500 and 9500 series switches

- AR3140 - 42U x 750mm W x 1070mm D
- AR3340 - 42U x 750mm W x 1200mm D
- AR3347 - 48U x 750mm W x 1200mm D

### Cable Access Roof

- Extra large cable access slots for high density cabling and brush strips for air containment
- Two spring loaded pins allow for easy roof removal and installation with cables in place

### Cable Management Mounting Rails

- Easily align rails and adjust in 1/4 inch increments
- Right vertical mounting rail opened for improved side airflow
- Left vertical mounting rail contains addition cable channel
- Rail position preset to accommodate Cisco switches and cable management

### Side Airflow Duct Kit AR7715— not included

- Single design for compatibility with Cisco 6509, 6513, 9509, 9513 switches
- Isolation of hot and cold aisle increasing equipment life
- Networking enclosure system compatible

### CFD Analysis on Cisco 6509 switch with side airflow duct kit

1. Duct kit directs cold air into intake and isolates hot air
2. Hot, exhaust air is directed to the rear of the enclosure
3. Cable routing does not affect airflow since the air pulled in from the top and bottom ducts

# NetShelter SX Cable Management

## Networking and Server Applications

As the number of IT components within each rack enclosure continues to increase, so do the number of power and data cables. APC offers a large selection of vertical and horizontal cable managers to address today's cable routing demands. From toolless install managers for server applications to high density finger-type managers for support patching and switches, APC is a leader innovative, application driven solutions. APC's unique overhead cable management system turns the top of the enclosure into a cable tray eliminating the need to use space under a raised floor and permitting better organization in non-raised floor environments.

APC has become a leader in cable management for Networking applications. High capacity cable managers can be used to support fiber and cooper cable bundles.

APC has a strong history supporting the server applications in data centers around the world. The innovative, toolless, snap-in accessories have become the benchmark for server cable management.

# NetShelter SX Cable Management

## Vertical CableManagers

### Toolless Vertical Cable Management

APC specializes in toolless install cable managers use of the zero U channels located in the rear of every SX enclosure.

- **AR8442** Ring type cable manager, fills one toolless bay, support 35 to 55 CAT 6A/CAT 6 data cables
- **AR7721, AR7722, AR7723** Lower-profile Vertical Cable Organizer with plastic cable guide at every U space
- **AR7710** Low profile cable containment cable manager, 6 pcs, Support 60 to 90 CAT 6/CAT 6 data cables
- **AR8443A** Vertical fiber spool manager, fills one toolless bay, 2 pcs
- **AR8621** Toolless hook and loop cable managers, 18" straps for large data cable bundles

### Vertical Cable Management for wide enclosures

The wider enclosures provide additional mounting of vertical managers on directly to the mounting rails.

- **AR7580A** High capacity vertical cable manager for NetShelter SX 750 mm wide enclosures supports 190 to 250 Cat6A/Cat6 data cables per section. 190 Cat6a. (.25" - .30" dia) per channel section. Each kit covers one corner of the enclosure
- **AR7581A** Hinged covers for AR7580A vertical cable managers
- **AR8444** Fiber slack spools for mounting to the 750mm wide enclosure mounting rails

# NetShelter SX Cable Management

## Horizontal Cable Managers

### Finger Type Horizontal Cable Managers

Cable managers for patching and cross-over applications featuring, smooth radius plastic fingers protect the cable from kinking and binding. Hinged, snap-on covers provide a clean look and retain large cable bundles

- **AR8602A** – 1U horizontal cable manager with 4in fingers and snap-on cover
- **AR8600A** – 2U horizontal cable manager with 4in fingers and snap-on cover (Qty 2 = double sided configuration)
- **AR8603A** – 2U horizontal cable manager with 6 in fingers, rear cable pass-through holes and slots for AR8008/16 cable troughs, and snap on covers

### Ring Type Horizontal Cable Managers

Economical cable managers for patching applications featuring various configurations to meet specific needs.

- **AR8113A** – Cable management rings, 5 large and 5 small
- **AR8425A** – 1U horizontal cable manager with 4 rings
- **AR8426A** – 2U horizontal cable manager with 4 rings
- **AR8428** – 2U horizontal cable manager with 4 rings, and pass-through holes
- **AR8427A** – 2U horizontal cable manager with multiple rings and small cable retainers

### Horizontal Cable Management Accessories

- **AR8429** – 1U cable pass-through manager with brush strip
- **AR8129** – Cable management arm for use with sliding shelves
- **AR8008BLK** – Horizontal cable side channel (18-30 in adjustment) for routing cable front-to-back between the wide rack mounting rails or AR8603 manager
- **AR8016ABLK** – Horizontal cable side channel (10-18 in adjustment) for routing cable front-to-back between the wide rack mounting rails or AR8603 manager

# NetShelter SX Cable Management

## Overhead Troughs and Partitions

- NetShelter features an integrated system of troughs and partitions for routing power and data cable across the top of the APC enclosures.
- Reduces the need for expensive suspended cable tray systems
- Installs toollessly with snap-in tabs

Data Cable Partitions

Power Cable Troughs

### Cable Trough

- Supports power distribution cables
- Provides separation from data cable
- Data cables pass-through underneath to front partitioned area

**AR8561** - Cable trough, 600mm enclosures

**AR8574** - Cover for 600mm cable trough

**AR8571** - Cable trough, 750mm enclosures

**AR8575** - Cover for 750mm cable trough

**AR8567** - Trough end cap for end of row

### Pass-Through Data Partition

- Partitions the top of the enclosure into cable routing areas
- Pass-through hole provides cable access into multiple cable areas

**AR8163ABLK** - Pass-through data partition, 600mm enclosures

**AR8173BLK** - Pass-through data partition, 750mm enclosures

### Solid Data Partition

- Partitions the top of the enclosure into cable routing areas
- Solid face provides clean appearance at the front of the enclosure

**AR8162ABLK** - Solid data partition, 600mm enclosures

**AR8172BLK** - Solid data partition, 750mm enclosures

Cable Management

# Shelves and Mounting Hardware

Mounting accessories to aid in the installation of IT equipment and secure racks into position

## Shelving

Fixed and sliding shelves to enable the mounting of tower units, monitors, and other equipment into the rack environment.

- AR8105BLK - Fixed Shelf 50lb/22.7kg, Black
- AR8122BLK - Fixed Shelf 250lb/114kg, Black
- AR8123BLK - Sliding Shelf 100lb/45.5kg, Black
- AR8128BLK - Double Sided Fixed Shelf for 2 post rack, Black
- AR8126ABLK - 17" Sliding Keyboard shelf, Black
- AR8127BLK - 19" Sliding Rotating Keyboard shelf, Black
- AR8006A - Misc. Equipment Support Rails for 600mm Wide Enclosure

## Mounting Brackets

Variety of mounting brackets for mounting IT equipment.

- AR7711 - Zero U Multi-purpose accessory mounting bracket for side mounting of 1U/2U products and PDUs
- AR8150BLK - 23in to 19in Mounting Adapter Brackets

## Hardware Kits

Available for additional hardware needs or to accommodate equipment mounted in varying mounting options. AR8100 shown.

- AR8100 - M6 Cage Nuts and Screws, Qty 32
- AR8400 - #12-24 screws, Black, Qty 100
- AR8005 - #10-32 cage nuts, Qty 36

## Bolt-Down and Stabilization

Stabilization plates and hardware to prevent tip-over in stand-alone rack applications and meet specific anchoring requirements.

- AR7701 - NetShelter SX Bolt-down kit - meets UBC seismic requirements
- AR7700 - NetShelter SX stabilization plate to prevent tipping when sliding out equipment

# Rack Components

## Replacement Doors, Side Panels, Roofs

Standard doors, side panels and roofs are available for all enclosure sides at [www.APC.com](http://www.APC.com)

## Specialty Roofs, Side Panels and Accessories

- **AR7252** - Networking roof for high density cabling 750mm W x 1070mm D
- **AR7716** - Networking roof for high density cabling 750mm W x 1200mm D
- **AR7209** - Open roof support bridge for overhead troughs and partitions
- **AR7305** - NetShelter SX pass-through side panel 42U x 1070mm D
- **AR7714** - Replacement snap-in brush strips for SX roofs
- **ACF501** – Roof Fan for 600mm wide enclosures, 120 VAC
- **ACF502** – Roof Fan for 600mm wide enclosures, 208-230 VAC
- **ACF503** - Roof Fan for 750mm wide enclosures, 120 VAC
- **ACF504** – Roof Fan for 750mm wide enclosures, 208-230 VAC

## Mounting Rails

Vertical EIA rail mounting kits for different widths and depths

- **AR7510** - 23 in EIA mounting rails for 42U x 750 (30 in) wide enclosure

Recessed Rail Kits – Intermediate mounting rails for supporting shallow depth equipment

- **AR7503** - 42U x 600mm wide
- **AR7504** - 48U x 600mm wide
- **AR7508** - 42U x 750mm wide
- **AR7578** - 48U x 750mm wide

# OpenFrame Racks

## NetShelter® 2- and 4 Post Open Frame Racks

The NetShelter® 2 and 4 post open frame racks offer a quality solution for the economical installation of rack-mountable equipment, where security at the individual rack level is not required.

Open frame racks provide unobstructed airflow and fast, easy access to installed equipment, and can be paired with high density vertical cable managers for maximum cable volume.

The 2 Post Rack offers cost conscious customers a simple solution for supporting networking equipment and patching applications. The 4 post offers more strength and features, for supporting servers and networking equipment. Recent improvements to the 4 post racks increase cable management options and flexibility.

## AR201 – 2 Post Rack

- Self squaring design
- 45U mounting spaces (84 in tall)
- Black Finish
- 6061-T6 Structural grade aluminum
- Weight Capacity (static load) 750.00 lbs (340.19 kg)

## AR203A/AR204A – 4 Post Rack

- Threaded #12-24 holes (AR204A)
- Square holes for cage nuts and server mounts (AR203A)
- **New design for easier assembly**
- Steel Construction
- 44U mounting spaces (84 in tall)
- Black Finish
- Multiple toolless mounting points for hook and loop fasteners
- Multi-position PDU mounting bracket
- Reversible stabilization plates
- Grounding inserts
- Weight Capacity (static load) 2000.00 lbs (909 kg)

# Open Frame Racks

## Vertical Cable Management

- Performance Vertical Cable Managers
- Fits two and four post open frame racks
- Similar look-and-feel to NetShelter™ enclosures
- 84" H, Single and Double-sided cable channel in 6,10,12-in wide options
- Slam to latch full length door opens to left or right
- New, best-in-class, high capacity cable finger design with smooth radius fingers at 1U increments for superior cable protection
- Cable management backplate (single-sided models) for toollessly mounting Rack PDUs and a variety of cable management accessories within the vertical cable manager
- Cable management midspan bracket (double-sided models) for toolless accessory installation and division of interior cable management space for deeper or shallower channel space
- Ships fully assembled

**Single Sided**  
AR8615 – 6"  
AR8635 – 10"  
AR8665 – 12"

**Double Sided**  
AR8625 – 6"  
AR8645 – 10"  
AR8675 – 12"

**AR8444 – Cable Slack Spools**

- Toollessly mounts on back panel
- Provides smooth radius support for cable slack

**AR8621 – Toolless Hook and Loop Cable Manager**

- 18" straps for large data cable bundles
- Various mounting positions on back panel of vertical cable managers

# Open Frame Rack

## Vertical Cable Management

### Valueline Vertical Cable Managers

- Fits two and four post open frame racks
- 84 in (2133mm) and 96 in (2438 mm) height, Single and Double-sided cable channel in 6, and 12-in wide options
  - 96" (2438 mm) Height in Single-side only
- Full length door assemblies onsite and snaps in place and door opens to left or right
- New, best-in-class, high capacity cable finger design with smooth radius fingers at 1U increments for superior cable protection
- Cable management backplate for toollessly mounting cable management accessories within the vertical cable manager space
- Ships disassembled for assembly at end user site

84" Height

Single-sided  
AR8715 – 6"  
AR8765 – 12"

Double-sided  
AR8725 – 6"  
AR8775 – 12"

96" Height

AR8728 – 6"  
AR8768 -12"

# Additional Valueline Accessories

## AR8736 & AR8737 Cable Retainer Brackets

- For creating multiple cable pathways within 2 and 4 Post Vertical Cable Managers
- Includes tie-off features for securing cabling using toolless hook-and-loop cable managers (AR8621)

AR8736

AR8737

## AR8444 - Spools for Vertical Fiber Organizer (qty 4)

- Four plastic spools for fiber management
- Toollessly mount to the accessory backplate front or rear

## AR8621 – Hook-and-loop Cable Managers (qty 10)

- Secure, bundle, and separate cables
- Mount toollessly to the accessory backplate front or rear
- Hook-and-loop fastener straps used alone

# OpenFrame Racks

## 4 Post Accessories

### AR8652 – PDU Mounting Bracket

- Mounts on sides as a spacer when using vertical cable managers between to racks
- Mounts on face of vertical rails, perpendicular, for single rack applications.
- Designed to toollessly mount APC PDUs

### AR8450A – Trough and Partition Adapter

- Provides mounting locations for APC overhead trough and partition cable management system

# Specialty Enclosures

## NetShelter Seismic Enclosure

Enclosure designed for essential facilities and carrier applications in seismic environments. Meets NEBS test standard GR-63-CORE Zone 4 at 1000 lb. (454.5kg) equipment load.

- **AR2144BLK** – 42U x 600mm (24”) wide x 1070mm (42”) deep, NEBS enclosure, with sides
- **AR2145BLK** – 42U x 600mm (24”) wide x 1070mm (42”) deep, NEBS enclosure, without sides

## NetShelter CX Office

Conveniently support servers and networking equipment in a cool, quiet, secure, and attractive cabinet. This delivers an appealing, cost-effective, alternative to building out a new computer room or deploying a loud metal enclosure in the open office.

- **AR4038A** – 38U Enclosure, with integrated 14 outlet PDU and cooling fans
- **AR4024A** – 24U Enclosure with integrated 14 outlet PDU and cooling fans
- **AR4018A** – 18U Enclosure with integrated 14 outlet PDU and cooling fans

## NetShelter WX Wall-Mount Enclosure

Support remote patching and networking applications in a convenient wall-mount rack with an easy install rear hinged section, and reversible doors.

- **AR100** – 13U x 580mm (23”) wide x 630mm (25”) deep, wall mount enclosure with vented sides and glass front door
- **AR100HD** – 13U x 580mm (23”) wide x 630mm (25”) deep, wall mount enclosure with vented sides and full vented front door

# Cooling and Airflow Management

## Blanking Panels

Covers open rack space to prevent air recirculation and reduce bypass airflow to improve cooling efficiency

- AR8136BLK – 1U toolless snap-in blanking panel, 10 pk
- AR8136BLK200 – 1U toolless snap-in blanking panel, 200 pk
- AR8108BLK – 1U standard metal blanking panel 2 pk
- AR8101BLK – 1U, 2U, 4U, 8U, blanking panel kit

## Side Airflow Cooling

Support cooling for small and large networking switches mounted within an enclosure

- AR7715- Side airflow duct kit for Cisco® 6509, 6513, 9509, and 9513 and 9500 series switches
- Directs cool air at the front of the enclosure directly and predictably to the intake at the side of side airflow switches.
- Consists of two 2U ducts that act as diverters utilizing the existing fan power of the switch
- A baffle is located on the back of the switch and ducts to mitigate exhaust air from recirculating back into the air intake.

## Rack Air Distribution/Removal Units

Fan assisted units to enhance air flow within an enclosure

- ACF001 - Air distribution unit, 2U
- ACF201 - Side air distribution unit, 2U
- ACF400 - Air removal unit for Netshelter 600mm endc
- ACF402 - Air removal unit for Netshelter 750mm endc

# Cooling and Airflow Management

## InRow Direct Expansion

An unpredictable environment is common among IT managers. In today's networking closets, traditional cooling approaches leave many customers guessing where the cold air goes. The InRow product design closely couples the cooling with the IT heat load, placing the unit in the row of racks moves the source of cooling closer to the heat load. This minimizes air mixing and provides a predictable cooling architecture.

- Variable capacity control
- Allows for low load handling capabilities
- Top/bottom piping and power connection
- Flexibility of installation
- Field configurable
- Variable speed fans
- Reduce energy consumption during off-peak hours intelligence control
- Network manageability, real-time capacity monitoring, predictive failure notification, and rack inlet temp control

- **ACRD100** – 10kW DX air-cooled split cooling system
- **ACSC100** – 7kW DX air-cooled self-contained cooling system

---

## Small Closet Cooling

Simplify cooling to small wiring closets and computer rooms by exhausting hot air from the closet to an adjacent space, allowing conditioned air to enter the space and cool the load.

### ACF301 – Wiring Closet Ventilation Unit

- Flexible mounting allows for wall or ceiling installation.
- Optional remote notification provides visibility to cooling issues.

# Micro Data Centers

Complete IT infrastructure within a stand-alone, secure enclosure for protection of critical business applications. Include: power distribution, UPS, and environmental monitoring

Micro Data Center solutions enable faster, easier and more cost effective way to build and deploy Micro DCs at the network edge.

Designed to allow IT equipment to be installed by the customer, partner or integrator before shipment, it features complete data center physical infrastructure and management software in a single self-contained and secure enclosure.

Ideal for edge and IoT applications where deployment speed, reliability and security is paramount, Micro DCs are also certified by leading converged and hyperconverged IT vendors.

## Benefits

- **Certified** - IT vendor validated architectures and solutions
- **Fast** - Pre-Installation of the physical layer makes it easy for customers, partners and integrators to quickly install IT equipment and deliver to final destination
- **Compatible** - Designed for the latest converged and hyperconverged IT systems
- **Secure** - Physically secure to prevent unauthorized access
- **Manageable** - Remote management of connected assets for maximum uptime and availability

### Micro Data Center SX

- Distributed
- Commercial
- Open air
- Non-climate controlled

### Micro Data Center CX

- Commercial
- Branch Office
- Non-ruggedized
- Noise reduction
- Fan ventilation

### Micro Data Center FX

- Commercial
- Light Industrial
- Ruggedized
- Sealed
- Climate controlled

### Micro Data Center Xpress

Micro Data Center Xpress includes 2 standard sku's

- Available with 2 weeks to shipment and 3 weeks to customer delivery
- Shock-packaging to allow IT equipment to be installed and shipped to customers
- Modify in the Local Edge Configurator

### Local Edge Configurator

- Accessible on mobile, tablet and laptop browsers. <https://designportal.apc.com>
- Configure Xpress offer, and other racks along with accessories
- Search and add from a refreshed catalog of rack mountable equipment
- Drag and drop equipment into the rack
- Validate compatibility, UPS, weight
- Save a template for future use
- Get rack assembly and shipping reports

designportal.apc.com

# HyperPod

A rack-ready system designed to deploy IT at scale in increments of 8 to 12 racks

## Benefits

- Implement efficient data centers, while maintaining flexibility and the ability to roll racks in and out
- Quickly install containment & infrastructure *before* IT racks are delivered
- Avoid costly, time consuming, and invasive construction

## Power Distribution Options

## Roof & Ducting Options

## Management

- Engineered for easy adds, moves, & changes, regardless of rack dimensions or quantity
- Designed to accommodate different cooling configurations
- Designed to support a variety of power distribution options
- Completion of pod infrastructure no longer dependent on IT racks
- Shift from construction to assembly reduces cost and time

# Rack Power Distribution

Global power densities are increasing and unpredictable. Whether deploying rack power distribution in a wiring closet, server room, or data center APC offers a consistent way to meet a variety of power density applications up to 22kW per strip.

APC Rack PDUs have sufficient power and receptacle outputs to meet high kW loads in a minimal amount of space. Their ease of installation accelerates speed of deployment and reduces installation costs. With rack power distribution APC offers real-time remote load monitoring of connected equipment and individual outlet power control for remote power recycling.

## Types of Rack Power Distribution

### > Basic Rack PDU

Entry-level power distribution for rack-mount equipment

### > Metered Rack PDU

Enhanced power distribution includes monitoring of aggregate current consumption

### > Switched Rack PDU

Premium power distribution allows remote control of individual outlets and monitoring of aggregate current consumption

### > Rack Automated Transfer Switch

Provides redundant power to single-corded equipment

The Metered and Switched PDU offers advanced features for to meet today's datacenter demands.

- > Monitors aggregate current power input and all breakers on the strip (local and remote)
- > User-customizable warning and overload settings, plus automated alarm notifications
- > Enables enhanced capacity management
- > Network management

- Web Interface
- Telnet, SNMP
- Security
- APC ISX Central Integration

Load Indicator LEDs

Serial Connection Local configuration and out-of-band management

Local Current Monitoring Display

Network Management Access, configure, and receive warnings from remote locations via Web, SNMP, and Telnet

# Metered Rack Power Distribution

Real-time remote monitoring of connected loads and alarm warn of potential circuit overloads before critical IT failures occur

Voltage	Mounting U-space	Nominal voltage	Region	Input circuit	Nominal power	Input plug type	Output receptacles	Cord length	APC SKU

## Rack PDU local display

Load indicator LEDs

Serial connection: local configuration and out-of-band management

AP7000 series

Local two-digit LED current monitoring display

Network management: access, configure, and receive warnings from remote locations via Web, SNMP, and Telnet

User-interactive display for local access

Environmental monitoring port for external temperature/humidity probe

AP8000 series

CAN In/Out ports for network port sharing

Local USB port for flash firmware updates and downloading data/event logs (not to be used as serial port)

## What is metered on AP8800, AP8400, AP8900, and AP8600 Series Rack PDUs?

- Device: Power and energy
- Phase: Current,\* power, and voltage
- Internal circuit breaker (bank): Current\*
- Outlet: Current, power, energy (AP8600 & AP8400 Series only)

## Why do we meter?

- Device: rack level capacity change, planning, and efficiency calculations
- Phase: balance loads between phases to protect against tripping upstream branch circuit breakers
- Internal circuit breaker (bank): protect against tripping internal circuit breakers
- Outlet: detailed capacity change, equipment efficiency, and trends

\*AP7000 series monitors current per phase and breaker only.

# Metered-by-outlet Rack PDUs

Metered-by-outlet Rack PDUs provide real-time remote monitoring of each individual outlet to empower IT professionals with the necessary tools for advanced data center energy management.

\* See pages 20 – 21 for inlet power cord options

## Rack PDU software options

APC Intelligent Rack PDUs provide remote power utilization data and optional outlet control to allow data center managers to make informed decisions on load balancing and rightsizing IT environments to lower total cost of ownership. Latest feature additions include Cisco EnergyWise™, wireless sensor capability, and network port sharing.

Remote access to Intelligent Rack PDUs is available via:

- Web browser
- Telnet (CLI)
- SNMP

## Integration with EcoStruxure IT

APC Rack PDUs, when combined with EcoStruxure IT, help provide an instant overview of data center operations with additional inventory management, PUE calculation, real-time device alarms, and location-based drill-down of power distribution.

**EcoStruxure™**  
Innovation At Every Level

# Switched Rack PDUs

Switched Rack PDUs provide advanced load monitoring combined with remote on/off switching control of individual outlets for power cycling, delayed power sequencing and outlet use management.

# Locking IEC power cords

PDU input		Server input	Cord length	Cords per SKU	APC SKU	
IEC C14 straight			IEC-C13	0.6 m	6	AP8702S*
				1.2 m	6	AP8704S*
				1.8 m	6	AP8706S*
IEC C14 (three right, three left)			IEC-C13	0.6 m	6	AP8702R*
				1.2 m	6	AP8704R*
				1.8 m	6	AP8706R*
IEC C20 straight			IEC-C19	0.6 m	6	AP8712S
				1.2 m	6	AP8714S
				1.8 m	6	AP8716S
IEC C20 (three right, three left)			IEC-C19	0.6 m	6	AP8712R
				1.2 m	6	AP8714R
				1.8 m	6	AP8716R

Locking IEC power cords provide a mechanism to secure power cord connections to the Rack PDU when used with any AP8000 Series unit.

\*-NA and -WW designation are required in SKU numbers for AP870xS and AP870xR, e.g., AP8702S-NA.

## Input power cords

- Touchpad mouse
- Easy to install
- Localized keyboard versions available; check [www.apc.com](http://www.apc.com) for availability

Rack LCD console with integrated KVM switch	Cable length	APC SKU
17" Rack LCD console with integrated 8-port KVM switch	1.8 m	AP5808
17" Rack LCD console with integrated 16-port KVM switch	1.8 m	AP5816
KVM USB cable*	1.8 m	AP5821
KVM USB cable	3.0 m	AP5822
KVM USB cable	5.2 m	AP5823

\* KVM PS/2 cables available, see "Cables for coaxial type connection" on lower left.

Rear view of AP5816

The functionality of a Rack LCD console and an analog KVM switch in one convenient package optimizes U-space in the rack environment and eliminates cable clutter. Daisy-chain with AP5201 or AP5202 for additional ports.

# Security and Monitoring

Security and Environmental Monitoring for Network Closets to Data Centers

## Netbotz® Portfolio

### Surveillance:

- Leverage NetBotz, Pelco IP and CCTV camera technology to monitor IT assets remotely
- StruxureWare Data Center Expert and the NetBotz Surveillance package allow multiple site camera views on a single page

### Environmental Monitoring:

- Wide range of wired and wireless sensor support to monitor the health of your IT assets
- Temperature, humidity, leak, door, smoke, vibration, dew point, airflow, dry contact, 4-20mA, and 0-5V

### Access Control:

- Control and manage access privileges for APC NetShelter SX, SV, and CX\* enclosures over the network.
- View audit trails and remotely lock or unlock cabinets
- Alarm notifications indicate a compromised security state

### Management Capabilities:

- Alarming allows alerts, multiple notification methods, scheduling, graph and video attachments, escalation.
- Integrate with StruxureWare Data Center Expert to manage multiple NetBotz devices through a single interface and view historical camera clips & alarms.

\*Note: NetBotz Access Control requires adapter kit for NetShelter CX

\*NBWL0356A and NBWL0456A includes POE injector (NBAC0303NA) to power the wall botz units  
 \*\*NBRK0250 supports NBHN125 and NBHN1356 rack access handle kits, but not rack access pods.

# Security and Monitoring

Flexible access control for NetShelter SX, SV, and CX racks

## NetBotz Rack Access Control NBACS125 and NBACS1356

- Configure individual proximity cards for access or schedule access to equipment for maintenance purposes.
- Control and manage rack access privileges from a Web browser.
- Perform audit trails on rack access.
- Receive alarm notification when the rack is in a compromised security state.

## APC Rack Access Control Options

### 125 kHz Access Control (NBACS125)

- Stand alone appliance for two handles to plug into (i.e. one appliance per rack)
- Supported Card types:
  - H10301 – Standard 26 Bit
  - H10302 – 37 Bit w/o facility code
  - H10304 – 37 bit w/ facility code
  - CORP1000
- Leverages the Netbotz 250 as the rack access appliance, allowing additional environmental monitoring if desired
- Central authentication via RADIUS
- Remote Syslog Capability

### 13.56 MHz Access Control (NBACS1356)

- Stand alone appliance for two handles to plug into (i.e. one appliance per rack)
- Supported Card types:
  - MIFAREC4 – Mifare Classic 4 byte
  - MIFAREC7 – Mifare Classic 7 byte
  - MIFAREDF – Mifare DESfire
  - MIFAREPL – Mifare Plus
  - iClass
- Leverages the Netbotz 250 as the rack access appliance, allowing additional environmental monitoring if desired
- Central authentication via RADIUS
- Remote Syslog Capability

### Rack Access Pods (NBPD0171)

- Rack access pod that is daisy chained off a Netbotz 570 or 455 appliance
- Supported Card types:
  - H10301 – Standard 26 Bit
  - H10302 – 37 Bit w/o facility code
  - H10304 – 37 bit w/ facility code
  - CORP1000
- Basement or 19" mounting
- Supports NetShelter SX, SV, and CX
- Supports up to 200 unique users

# Instant visibility to critical infrastructure health

EcoStruxure IT Expert: efficient use of your time with cloud-based monitoring

## Cloud-based vendor-neutral monitoring with EcoStruxure IT Expert

EcoStruxure IT Expert monitors and protects your critical equipment, providing 24/7 visibility through live data, smart alarming, and data-driven insights on the health of your connected assets directly to your smartphone.

EcoStruxure IT Expert synthesizes performance and alarming data into proactive recommendations, and enables secure, wherever-you-go visibility and control.

### Real-time monitoring

Maintain uptime for data centers and distributed environments with cloud-based monitoring and management of alarms – ensuring peace of mind whether onsite or remote.

### Multi-site remote management

Maintain an overview of your entire physical infrastructure – including lights out sites.

### Smartphone app

Stay connected to your data center with live data & alarms on your EcoStruxure IT app.

# Cloud-based monitoring

## Vendor-neutral management

EcoStruxure IT Expert makes it easy to manage assets from different vendors by providing centralized management of all networked devices.

## Proactive incident management

Gain insights into the current and future state of your distributed environment with wherever-you-go visibility, and recommendations on how to pro-actively handle incidents and improve efficiency.

## Analytics and machine learning

Understand the root cause of an issue by removing alarm storms and identify the device where the alarms originate from – and then predict how devices will behave in the current conditions based on big data analytics.

## The power of the cloud

EcoStruxure IT is Schneider Electric's next generation of IoT connected software and services, and collects data from all your connected devices across your distributed or hybrid IT environment.

EcoStruxure IT connects securely to the Schneider Electric Cloud, and delivers powerful insights made possible by big data analytics and machine learning.

## Cloud-based software offers several benefits:

- Simplified deployment in 30 min.
- Global visibility, mobility and analytics-providing an instant health risk profile for the business across the hybrid environment.
- Benchmark your environment with other data centers world-wide, and apply trend-based analytics across the data for comparison.
- Software updates and backup are automatically applied, and cyber security is handled cloud-side for added convenience and security.
- Move from a capex to an opex subscription model for added financial flexibility.

## Key features

Centralized real-time monitoring and alarm consolidation

Health status across the global environment (alarms & data)

vendor-neutral visibility and management

Analytics, industry benchmarks and actionable recommendations

Multi-sensor graphing & custom dashboards

# Connected Smart-UPS with APC SmartConnect

The First Cloud-enabled UPS for Distributed IT

## The world's most popular network and server UPS

Protect your servers, switches, routers and networking devices while providing battery backup power with Connected Smart-UPS™ with APC™ SmartConnect – the first cloud enabled UPS for distributed IT.

The cloud monitoring feature is accessible from any internet connected device, and maximizes the life and performance of your UPS by providing proactive advice and life cycle recommendations so you can remotely monitor your power infrastructure from anywhere in the world.

## Tower 750-3000VA

### Standard features:

- 1 APC SmartConnect Port**  
An ethernet port to connect your Smart-UPS to the APC SmartConnect Cloud
- 2 High Efficiency Green Mode**  
optimum efficiency which saves utility and cooling costs
- 3 Network Grade Power Conditioning**  
Extended range automatic voltage regulation (AVR), noise filtering and surge protection
- 4 Alpha/numeric LCD Display**  
Intuitive interface provides detailed and accurate information with ability to configure locally
- 5 Communication Ports**  
Serial, USB and Smart-slot for accessory cards
- 6 Switched Outlet Group**  
Reboot hung devices, shed non-critical loads to conserve runtime, sequenced start-up/turn off
- 7 SmartSlot for Network Management Card**  
SmartSlot for a potential network management card addition

# Connected Smart-UPS Features

The First Cloud-enabled UPS for Distributed IT

## What is APC SmartConnect?

APC SmartConnect is an enabling feature that allows customers and Partners/MSPs to view the status of their UPS portfolio through a secure web portal. Through this innovative remote monitoring interface, you will receive automatic notifications, firmware updates, and advanced support.

APC SmartConnect's easy-to-use network connectivity provides added value — and more important — added peace of mind.

## APC SmartConnect Enabled:

- Accessible from any internet connected device, on site or mobile
- Simple Registration and Account Log in
- Proactive actionable alerts and lifecycle recommendations
- Connected Smart-UPS adhere to the latest industry standards in secure data collection, data processing and operational security
- Compatible with major RMM platforms
- No special software, SNMP trap or coding required

## Getting Started is Easy

### 1 Install your UPS

Install your SmartConnect-compatible UPS at your business site. Connect it to your network using a dedicated ethernet port.

### 2 Scan the QR code

Scan the QR Code printed on your Smart-UPS, and automatically register your device with the SmartConnect Web Portal.

### 3 Register your UPS

Create a Schneider Electric account to register your Smart-UPS. Your UPS will be automatically linked to your account.

# APC Smart-UPS Performance

Convertible extended run models ideal for critical servers and voice/data switches

## Smart-UPS SMX 750-1500VA\*

Additional features from standard:

- 1 Slim 2U Rack/Tower Convertible Form**  
Display rotates easily for use in or out of a rack.
- 2 High Frequency Design**  
Reduces size of (or eliminates) bulky transformers making installation even easier.
- 3 Models available with Pre-installed Network Cards**  
Models with "NC" suffix have pre-installed AP9631 network cards with temperature monitoring.
- 4 Smart External Battery Connector**  
Accept external batteries and increases runtime automatically to increase availability.
- 5 Switched Outlet Groups**  
Reboot hung devices, shed non-critical loads to conserve runtime, sequenced start- up/turn off.
- 6 Emergency Power Off (EPO)**  
Provides for remote UPS shutoff in the event of a fire or other emergency.

\* NOT APC SmartConnect Enabled

# Smart-UPS Display

Intuitive, easy to use LCD interface

On all SMT and SMX models

**3** **Escape**  
Exits to the previous menu or screen.

**4** **Return**  
Used to enter or confirm settings.

**5** **Navigation arrows**  
Allows quick adjustment of settings.

**1** **LCD Display Screen**  
Clear, consistent and detailed information in your choice of basic or advanced menus.

#### Power Status:

- Operating mode and efficiency
- Load VA/Watts/Amps
- Input/Output Voltage and frequency
- Battery capacity and runtime
- Energy meter and more

#### Control:

- UPS and outlet group settings

#### Configuration:

- Language
- Power quality setting
- Sensitivity
- Voltage transfer points
- Alarm, delay and threshold settings

#### Test and diagnostics:

- Initiate battery and runtime calibration tests

#### Logs:

- See explanation of last ten transfers and faults

#### About:

- UPS and replacement battery part numbers
- Serial numbers
- Battery install and suggested replacement dates

**2** **Quick Status Indicators** Online, on battery, fault and replace battery Leds for quick status identification.

# Smart-UPS with Lithium-Ion Technology

Smart-UPS Lithium-Ion enables IT professionals to operate more effectively and decrease Total Cost of Ownership (TCO) by minimizing UPS maintenance and offering remote UPS management across distributed environments.

- Increase battery lifecycle 2X
- Reduce expenses over the lifetime of the UPS compared to UPSs with lead acid batteries by eliminating
  - cost of replacing batteries every 3-5 years
  - labor cost of changing the batteries
  - costs associated with shipping and recycling old batteries
- Excellent battery performance at higher ambient temperatures up to 104°F/40°C
- Greater voltage management of the battery discharge cycle
- Greater efficiency in charge and discharge of the batteries
- Easy installation and handling with lighter internal batteries
- Management options for remote UPS management

## Features

### High-efficiency Green Mode

Achieves up to 97 percent efficiency, which minimizes utility and cooling costs without compromising performance or reliability

### Network-grade Power

Provides stable power conditions by filtering noise, automatic voltage regulation (AVR), and surge protection

### Alphanumeric LCD Display

Intuitive interface provides detailed and accurate information with ability to configure locally

### Built-in Energy Meter for East Energy Tracking

Measures energy use and displays UPS efficiency in various modes of operation

### Intelligent Battery Management System

Li-ion batteries are monitored at an individual cell level to manage voltage and temperatures of the set of cells. This helps the Li-ion batteries to provide a higher level of safety

### Operate Without Battery

Immediately protect equipment when power returns after a complete discharge of the battery

### 5-Year Warranty

Peace of mind with a 5-year warranty on both electronics and internal batteries

# Smart-UPS On-Line

## Industry-leading power factor maximizing UPS density - Rackmount and Tower SRT 1 kVA to 10 kVA

The Smart-UPS On-Line is versatile UPS developed for unstable power conditions. It provides high-density, double-conversion online power protection for servers, voice/data networks, medical labs, and light industrial applications. The Smart-UPS On-Line is capable of supporting loads from 1 kVA to 10 kVA in a rack/tower convertible chassis.

The 6 kVA, 8 kVA, and 10 kVA models feature unity output power factor enabling them to support power-hungry blade servers or heavily loaded equipment racks. When business-critical systems require runtime in hours, not minutes, Smart-UPS On-Line can be configured with multiple battery packs to meet aggressive runtime demands.

SRT5KXLT shown

### Standard features

#### Best-in-class power density

More real power in watts, 0.82 to 0.9 pf on the 1, 1.5, 2.2 and 3 kVA models. 0.85 pf on 5 kVA and Unity on 6 kVA – 10 kVA units.

#### High-efficiency “Green Mode”

Achieves 97% efficiency, which helps save utility and cooling costs without compromising performance or reliability. Energy Star® compliant.

#### Graphical LCD display with multicolor backlight

Intuitive interface provides detailed and accurate information with ability to configure locally.

#### Intelligent battery management

Temperature-compensated charging extends life and advanced algorithms recommend replacement date. The UPS can inform the user which batteries need to be replaced and auto detect when additional battery packs are added.

#### Built-in energy meter

Measures energy use and displays UPS efficiency in various modes of operation for easy energy tracking.

#### Operate without battery

Ability to immediately protect equipment when power returns after a complete discharge of the battery.

#### Three-year warranty on electronics

Additional year of warranty protection for electronics provides peace of mind.

# Smart-UPS On-Line

Proven performance with the world's largest installed base of single-phase, double-conversion products  
Rackmount and Tower SRT 1 kVA – 10 kVA

SRT10KXLT shown

## Additional features

### Embedded network management card with environmental monitoring (5 kVA – 10 kVA models)

Remote monitoring and control of the UPS and the environment via Ethernet connection while freeing up the SmartSlot™ so customers can add accessories for additional communication options.

### Switched outlet group(s)

Ability to control a group of output load receptacles independent from the main UPS. Enables:

- Rebooting hung device without cycling the entire UPS
- Sequenced turn on/off
- Shedding of noncritical loads based on a variety of parameters (battery time, runtime remaining, and overload)
- Scheduled time off to conserve energy

### Emergency power off (EPO)

Remote UPS shutoff in the event of an emergency. The UPS can accept normally open (NO) or normally closed (NC) contacts.

### Communication ports

Serial, USB, Ethernet, and SmartSlot for network accessory cards.

### Communication protocols

Modbus Serial, USB PowerSummary, HTTP, SNMP, and Telnet.

# Smart-UPS On-Line

Intuitive, easy-to-use LCD provides clear and accurate information in multiple languages

Backlight screens:  
Amber: Indication of condition that requires attention

Red: Indication of UPS alarm that requires immediate attention

## Standard features

### LCD display screen

Accurately provides real-time status updates in your choice of basic or advanced menus.

### UPS status (scrolling)

- Output voltage
- Input voltage
- Output frequency
- Run time
- Load
- Battery health

### Control

- UPS and outlet group settings
- Bypass control

### Configuration

- Output voltage, frequency
- Language, brightness, contrast
- Audible alarm
- IP address

### Test and diagnostics

- Initiate battery and runtime calibration tests

### About

- UPS serial number, battery part number
- Battery install and suggested replacement dates

## Step-down transformers

- SRT5KTF: APC Smart-UPS SRT 5 kVA tower isolation/step-down transformer
- SRT5KRMTF: APC Smart-UPS 5 kVA 2U RM step-down transformer
- SRT10KRMTF: APC Smart-UPS SRT 10 kVA 4U RM step-down transformer

## Other

- SURT013: SURT equipment cart

## Replacement battery cartridge

- APCRBC140: RBC for SRT 5 kVA —10 kVA UPS
- APCRBC142: RBC for SRT 2.2 kVA UPS
- APCRBC152: RBC for SRT 3 kVA UPS
- APCRBC155: RBC for SRT 1/1.5 kVA UPS

## Runtime estimates at half and full load (minutes)

# Smart-UPS On-Line SRT 1000 VA & SRT 1500 VA 120V

## Technical specifications

Product features	SRT1000XLA - SRT1000RMXLA SRT1000RMXLA-NC (Pre-installed NMC, AP9631)	SRT1500XLA - SRT1500RMXLA SRT1500RMXLA-NC (Pre-installed NMC, AP9631)
<b>Output</b>		
Power rating	1000 VA/900 W	1500 VA/1350 W
Nominal output voltage	120 V	
Output frequency	50/60 Hz $\pm$ 3 Hz (auto sense) 50/60 Hz $\pm$ 0.1 Hz (user selectable)	
Topology	Double-conversion Online	
Online efficiency at full load (typical)	90% (ENERGY STAR)	
Green mode efficiency at full load (typical)	95%	
Output connections (switched groups)	(6) 5-15	(6) 5-15
<b>Input</b>		
Nominal input voltage	120 V	
Input voltage range full load (half load)	108 V – 150 VAC $\pm$ 5V (50 – 150 VAC)	80 V – 150 VAC $\pm$ 5V (50 – 150 VAC)
Input frequency	40 – 70 Hz auto-selecting	
Input connection	5-15P	
<b>Batteries and runtime</b>		
Battery type	Maintenance-free sealed lead-acid battery with suspended electrolyte, leak proof	
Typical backup time at 1/2 load (min.)	27	15.3
Typical backup time at full load (min.)	9.3	4.3
Replacement battery (quantity)	APCRBC155 (1)	
External battery pack (tower/rackmount)	SRT48BP/SRT48RMBP	
<b>Communication and management</b>		
Interface ports	Serial (RJ45), USB (Type A) and Smart-Slot	
Control panel	High resolution graphical LCD display	
Emergency power off (EPO)	Yes (NO/NC connections)	
<b>Physical</b>		
Rack height	3.35" (85 mm), 2U	
Maximum width (RM)	17" (432 mm)	
Maximum depth (RM)	20" (505 mm)	
Net weight	48.5 lb (22 kg)	
<b>Conformance</b>		
Regulatory Approvals	FCC Part 15 Class A, UL 1778-4, CSA C22.2 No.107.3-05	
Warranty	3 years electronics, 2 years battery
