Thanks for thinking DEPTCOR for your product and services needs!

We are pleased to provide you with this copy of our DEPTCOR catalog. If there are others in your organization who are responsible for purchasing decisions and do not have a copy, please let us know so that we can send them a catalog also.

All of our products and services are available for purchase by New Jersey tax-supported government units: school districts, state colleges and universities, counties, municipalities and state agencies. **Buying from DEPTCOR exempts you from the standard bidding process**, so you can buy what you need more easily while reducing your purchasing costs. (State agencies should note that DEPTCOR price lists include State Contract information with Line numbers and Commodity Codes, necessary for **MACS-E** computer-generated ordering.)

This catalog features our diverse line of quality products and services contained in eight separate catalogs listed by product category.

The General Information section should answer most of your questions about DEPTCOR and our ordering procedures. If you have other questions or need additional information, please feel free to call us on our toll-free number, 1-800-321-6524. In the Trenton area, we can be reached at (609) 633-8100.

We hope you will find everything you need in this catalog. We also want to remind you that if you can't find exactly what you are looking for within these pages, we can assist you with your special requirements. Just give us a call. We love a challenge!
